The negligence of defendant,[45] actual notice to defendant of the defect in the highway,[46] and the absence of contributory negligence on the part of plaintiff[47] may be established by circumstantial evidence In determining whether or not defendant had assumed to maintain a highway so as to be liable for damages resulting from its lack of repair, the significance of such repairs as were made on it should be judged with reference to the nature and extent of repairs customarily made by it on similar highways at different times[48] To establish a nuisance where a highway has been disturbed and to recover on that theory for injuries sustained, it must be shown there was improper construction in the first instance, or that a dangerous condition was known and permitted to exist for so long a period that it became a nuisance[49] It is not necessary to have expert testimony in order to determine whether the highway is unsafe for travel, but the court can reach its own conclusion on proof of the conditions or by personal observation, or both[50]

a. Questions of Law or of Fact

In conformance with the rules applicable in the trial of civil actions generally, questions of law are for the court and questions of fact are for the jury; and where the evidence on an issue is conflicting or such that different inferences may be drawn therefrom, it must be submitted to the jury.

In conformance with the rules applicable in civil actions generally, see the C J S title Trial §§ 203–224, also 64 C J. p 296 note 48–p 371 note 99, where the evidence is conflicting or different inferences may reasonably be drawn from the facts shown, the issue is for the jury or other trier of the facts.[51] However, where the facts are such that only one conclusion can be drawn by reasonable minds,[52] or the evidence is so insufficient that a finding thereon would not be sustained,[53] the question becomes one of law for the court; and where no proof is offered to sustain an allegation essential to plaintiff's right of recovery, defendant's motion for a directed verdict, made at the close of the proofs, should be granted.[54] Thus it is usually for the jury to determine the sufficiency of the highway and

Conflict in testimony of plaintiff

In action for injuries from defective highway, alleged conflict in plaintiff's testimony when examined before trial and that at trial merely created a jury question—Swiergul v Town of Suamico, 235 N W 548, 204 Wis 114

Case for jury

(1) Evidence held to make case for jury—Hoffman v Bynum, Tex Civ App, 101 S W 2d 600

(2) In jurisdictions where contributory negligence is always a question of fact for the jury, if defendant's negligence caused the injury sued for, defendant's liability is a question for the jury regardless of evidence of plaintiff's contributory negligence—Salt River Valley Water Users' Ass'n v Berry, 250 P 356, 31 Ariz 39

Particular questions for jury

(1) Whether road was public road—Hoffman v Bynum, Tex Civ App, 101 S W 2d 600

(2) The question of where the line of the highway ran—Steverson v Orangeburg County, 121 S E 789, 128 S C 335

(3) Whether a sidetrack appeared to have been traveled to a considerable extent as a part of the public highway and was reasonably accessible—Hebbe v Maple Creek, 99 N W 442, 121 Wis 668

(4) Whether highway had been finished by contractor at time of accident resulting in death—Furlough v Nash County Highway Commission, 144 S E 693, 196 N C 160, denying rehearing 142 S E 230, 195 N C 365

(5) Whether water which overflowed a highway, as alleged, because of the obstruction of a stream by a bridge, constituted an extraordinary flood—Fidler v Lafayette Tp, 198 N W. 262, 226 Mich 635

(6) Whether closing of road to public travel by subcontractor was a necessary incident to performance of his work—Thomas v Saulsbury & Co, 102 So 115, 212 Ala 245

(7) Whether road subcontractor was an employee of contractor with implied authority to procure order closing road from board of revenue, and to proceed to close the road—Thomas v Saulsbury & Co, supra

(8) Whether plaintiff's horses, while momentarily uncontrolled, pulled sulky rake into hole in highway, distance of approximately twenty feet—Swiergul v Town of Suamico, 235 N W 548, 204 Wis 114

(9) Other cases see 29 C J p 718 note 56 [a]

Use of highway by children to play in

While county authorities are not bound to anticipate dangers arising from negligent use of highway, they are bound to take notice that children of tender years may lawfully use the highway, and because of their lack of discretion and childish sportiveness are subject to dangers not besetting travelers of mature years, and hence the use by children of a highway for purposes of play is not as a matter of law an illegitimate use not to be anticipated by authorities required to keep highways in a reasonably safe condition—Morris v Mills, 113 S E 632, 121 S C 200

Evidence held to authorize directed verdict for defendant

In action against contractor for injuries to fourteen year old girl who fell into trench, which was part of construction work in charge of contractor, when board over trench broke while girl was attempting to cross trench from road to residence, evidence, failing to establish that contractor was not authorized to dig trench, that road was open, that existence of trench was not obvious, or that contractor was responsible for placing of board over trench or was required to provide access to residence or to remove board or to guard against injury to those crossing trench, authorized directed verdict for contractor—Berri v B Perini & Sons, supra

54. Mich—Johnson v Board of Road Com'rs of Ontonagon County, 235 N W 221, 253 Mich 465

Nonsuit or directed verdict for defendant held proper

(1) In action by pedestrian for injuries received in fall when she stepped on stone in public driveway, in absence of evidence that stone on which pedestrian stepped fell from defendant's truck or came from trucks over which defendant had some control, denial of defendant's motion for directed verdict was error—O'Keefe v William J Barry Co, 42 N E 2d 267, 311 Mass 517

(2) Nonsuit was properly granted where it appeared that plaintiff, while standing on the edge of a public road and awaiting the passage of a street car, slipped and slid down the icy surface of a steep concrete apron along the side of the road, under the wheels of a passing street car, the surface of which apron was smooth concrete but covered with ice and snow, for the reason that there was no proof of negligence on the part of the defendant, either in the construction or maintenance of the portion of the road involved and that the proximate cause of plaintiff's injuries was merely that he slipped on the icy surface of the highway—Bell v Mount Pleasant Tp, 21 West Co L J, Pa, 285

to repair—Dupuis v. Town of Billerica, 157 N E 339, 260 Mass 210

(2) Evidence that plaintiff's horse and mule were injured by a defective pipe furnished by the county, and placed in the ditch of a county highway at the intersection of the highway and a neighborhood road, was held to authorize the refusal to direct a verdict for the county—Steverson v Orangeburg County, 121 S E 789, 128 S C. 335

(3) In an action for injuries caused by the negligent leaving of a tractor overturned by the roadside in a manner that frightened plaintiff's mule, where the declaration was broad enough to constitute a complaint of the manner in which the tractor was left, as well as the length of time which it was left, refusal of a requested general charge for defendant on the ground that the tractor could not have been removed within the time alleged in the declaration was held not error—Shelby Iron Co v Morrow, 99 So 643, 211 Ala 125

Questions of law

(1) Whether alleged defect comes within purview of statute rendering highway commission liable is question of law for court—Moore v State Highway Commission, 92 P 2d 29, 150 Kan 314—Phillips v State Highway Commission, 68 P 2d 1087, 146 Kan 112—Douglas v State Highway Commission, 46 P 2d 890, 142 Kan 222—Houdashelt v State Highway Commission, 21 P 2d 343, 137 Kan 485

(2) A court will declare nonliability as a matter of law, where it is unreasonable to charge a town with the duty of maintaining barriers on highways sufficient to prevent all accidents—Roberts v Town of Eaton, 144 N E 667, 238 N Y 420, 36 A L R 411, reversing 202 N Y S 360, 207 App Div 56

(3) Evidence that chuckholes or whipped-out places in sand and gravel highway, not obstructed from view, were defects within statute imposing liability on state highway commission, which did not show condition different from that of ordinary sand and gravel road during protracted drought, was held insufficient for jury—Espey v Kansas State Highway Commission, 57 P 2d 424, 143 Kan 873

Omission to provide statutory safeguards

The omission of responsible county officials to provide statutory safeguards, such as substantial guard rails at each end of culverts, as required by statute, constitutes a defect as a matter of law—Arnold v Board of Com'rs of Coffey County, 291 P 762, 131 Kan 343

Particular questions of negligence

(1) Whether state highway department, which graded shoulder of road thus impliedly inviting travel thereon by the public, was negligent in leaving post hole sixteen feet from paved part of road—Livingston v South Carolina State Highway Department, 183 S E 8, 178 S C 323

(2) Where the evidence disclosed that the road had been closed by the highway department, but the evidence further disclosed that parties occasionally traveled it, it was held that it became a question for the jury as to whether defendant should have seen and warned plaintiff before setting off a charge of dynamite—Marion Const Co v Steepleton, 14 Tenn App 127

So it is generally the province of the jury to determine whether plaintiff, at the time of the injury, was a traveler on the highway so as to be entitled to relief,[61] whether the horse and vehicle were suitable for use,[62] whether plaintiff had notice of the defect or obstruction,[63] and whether plaintiff was otherwise in the exercise of due care or was guilty of contributory negligence[64] However, where the controlling facts are uncontradicted, the contributory negligence of plaintiff becomes one of law for the court[65]

Where two possible causes of the injury are alleged, only one of which would render defendant liable, plaintiff cannot recover if the verdict is based on contradictory evidence[66]

Proximate cause held not matter of law

In an action for personal injuries resulting from being thrown from a buggy, alleged to have been due to a defect in a highway, evidence was held not to show, as a matter of law, that plaintiff's injuries were caused by her horse running away, as claimed by defendant—Burns v Van Buren Tp, 187 N W 276, 218 Mich 40

Failure to comply with statutory law of road

Whether proximate cause of injury to pedestrian, who was injured when she stepped from concrete highway into depression to avoid automobile was her failure to comply with statute requiring pedestrians to keep to left center of line of highway and turn to left instead of right was a question of fact—Wager v State, 14 N Y S 2d 29, 257 App Div 580, modifying 10 N Y S 2d 310, 170 Misc 357

Rule to determine whether jury question

The question of contributory negligence cannot be treated as one of law unless the facts and the inferences from them are free from doubt If there is doubt as to either, the case is for the jury—Willetts v Butler Tp, 15 A 2d 392, 141 Pa Super 394

Contributory negligence not shown as matter of law

(1) Evidence that defendant was acquainted with the road, that it was close to his place of residence, and that he went on it knowing its condition did not make him guilty of contributory negligence as a matter of law—Heck v Quindaro Tp in Wyandotte County, 216 P 293, 113 Kan 647

(2) Evidence that tongue of surrey became detached from breast yoke and dropped to ground did not show plaintiff to be contributorily negligent as matter of law, in view of evidence as to good condition of harness, and that plaintiff had driven over steeper hills than the one on which the accident occurred the same day without accident—Appalachian Power Co v Wilson, 129 S E 277, 142 Va 468

(3) Other cases see 29 C J p 720 note 66 [b]

Failure to use alternative route

It is only when the danger is so great and apparent that an ordinarily prudent person would regard it as dangerous, and therefore avoid it, that a trial court can say, as a matter of law, that the person using the more dangerous of two possible routes is guilty of contributory negligence—Willets v Butler Tp, 15 A 2d 392, 141 Pa Super 394

Use of highway known to be defective

If one is injured in the use of a highway known by him to be defective and the danger was imminent and immediate, the court as a matter of law may declare him guilty of negligence, but when the testimony shows defects of such character that the highway can be used with safety by the exercise of reasonable care, notwithstanding its defective condition the question of contributory negligence is for the jury—Willets v Butler Tp, 15 A 2d 392, 141 Pa Super 394

Always a jury question

Under some constitutional provisions, contributory negligence is a question of fact which must at all times be left to the jury—Salt River Valley Water Users Ass'n v Berry, 250 P 356, 31 Ariz 39

Defendant entitled to peremptory instruction

Where petition alleged that defendant had practically destroyed highway on bank of creek and had thrown debris into creek, thus obstructing it, and that plaintiff, on account of destruction of highway, was using creek bed as passway, which before being obstructed had contained loose and dangerous stones, and that his mule stepped on loose stone, causing him to be injured, defendant was entitled to peremptory instruction—Dawkins Lumber Co v. Row, supra.

Notice of claim for injury. The sufficiency of the notice of claim for injury is a question of law for the court,[67] but whether what it describes is a defect is a question of fact for the jury,[68] as is the question whether the injury was received at the place described,[69] or caused by the defect described.[70] Also, whether plaintiff's failure to give the notice within the time required by statute was because of inability to do so is a question of fact for the jury.[71]

b. Instructions

Instructions are governed by the general rules and should clearly and consistently state the law as to the burden of proof and the various issues existing in the particular case

The general rules governing instructions to the jury in civil actions, see the C.J.S. title Trial §§ 266–448, also 64 C.J. p 510 note 3–p 1008 note 99, are applicable to actions for injuries resulting from defective highways.[72] Proper instructions should be given as to the burden of proof,[73] what constitutes a defective road or highway,[74] on the issue of negligence,[75] including questions as to defendant's duty with regard to the maintenance and repair of the highway,[76] the necessity and sufficiency of railings or barriers,[77] and whether objects were calculated to,[78] and did,[79] frighten horses, and on the questions of contributory negligence,[80] provided they are requested by defendant and the evidence authorizes them,[81] and proximate cause.[82]

The instructions should be confined to the evidence[83] and to the issues[84] raised by the plead-

ings,[85] and should cover all material questions, not ignoring any issue or fact in evidence.[86] The province of the jury should not be invaded,[87] as by assuming the existence of facts in dispute.[88]

Instructions which are misleading,[89] indefinite,[90] or conflicting[91] should not be given. In determining the sufficiency of the instructions they should be construed as a whole,[92] and an erroneous instruction may be cured by a direction to the jury to disregard it,[93] or may be rendered immaterial by a finding on another ground.[94] Instructions which cover the point with more elaboration than necessary, but not inexactly, are not erroneous.[95]

It is not error to fail to instruct in the absence of request,[96] or to refuse instructions which correctly state the law, where the instructions granted sufficiently instruct the jury on the law of the case,[97] and a request for an instruction already substantially given,[98] or incorrect in part,[99] is properly refused.

c. Verdict and Findings

The rules pertaining to verdicts and findings in civil actions generally apply. Special findings may be made, but where made they must be consistent with each other and be supported by the evidence and support the judgment.

The rules pertaining to the verdict and findings in other civil actions, see the C J S title Trial §§ 485–573, also 64 C J p 1053 note 53–p 1189 note 61, are applicable to actions of this nature.[1] Special findings may be made,[2] but it is not the right of a party to have special findings on issues not material to, or decisive of, the main issue in the case,[3] and where a question in a special verdict fairly submits the issuable facts the court may refuse to submit a further question.[4] It is error to submit a question containing two issuable propositions disjunctively connected, so that an affirmative answer could not be said to affirm either proposition.[5] The verdict or findings must conform to the issues[6] and be supported by the evidence.[7] The special findings must be consistent with each other[8] and with the general

verdict,[9] and must support the judgment.[10] To support a judgment for plaintiff, a special verdict should embrace all the facts essential to defendant's liability,[11] and if such facts are not shown judgment should be for defendant notwithstanding a general verdict for plaintiff[12] However, a finding which includes the facts necessary to be averred in the declaration is sufficient without negativing any possible qualification of the facts found[13] After judgment the verdict will be aided by all reasonable intendments[14]

§ 282. —— Damages

Damages are governed by the general rules, except as modified by express statutory provisions, and ordinarily should be compensatory only and not punitive.

The general rules of damages, subject, of course, to the provisions of a controlling statute, apply to actions for injuries from defective highways[15] The damages should as a rule be compensatory only[16] Punitive or exemplary damages are allowed only in exceptional cases,[17] as in the cases of gross negligence, when the expenses of the suit may be included[18] In some jurisdictions it has been held that a statute providing for recovery of damages to plaintiff's person or "property" does not authorize recovery for loss of services and expenses incurred because of injury to plaintiff's wife[19] or minor child,[20] but in other jurisdictions such damages have been held to be recoverable,[21] especially where the statute provides for recovery for any damage[22]

Loss of use of property. Under a statute allowing recovery for damages to property, recovery has been allowed in some jurisdictions for loss of the use of the property injured.[23] Other authorities have held such loss not a proper element of damages.[24] Still others have held that loss of use is not recoverable for injury to an animal which died because of the injury; but if the animal died because of careless treatment after the injury recovery may be had for loss of its use, or, in case the injury was permanent, to the amount its value was diminished by reason of the injury[25]

Limitation by notice of claim In general damages are confined to recovery for the injuries stated in the notice of claim,[26] and cannot exceed the amount stated therein[27] In some jurisdictions, however, plaintiff may recover damages not only for the injury described in his notice of claim, but also for all the directly resultant injurious conse-

XI. TAXES AND ASSESSMENTS

§ 283. Highway Taxes

The construction and maintenance of highways is a public purpose which may be effected by general taxation

The construction and maintenance of serviceable roads is a public purpose which may be effected by general taxation,[30] and since public roads usually benefit both the state at large and the county in which they are located, the cost thereof may be such by either state or local taxation, or both[31]

Acts and duties of local authorities Where the legislature imposes certain duties on local authorities with reference to highway taxes, such duties must be performed in the manner prescribed by statute[32] Thus when the legislature requires a highway tax to be levied by certain local authorities, such tax must be levied, see § 289 infra, and compliance must be had with statutes requiring such local authorities to make annual reports of the amount of road taxes levied and collected[33] In proceedings to improve highways by taxation, the local authorities act as the agents of the taxpayers within the taxing district[34]

§ 284. —— Power to Impose

The power to impose highway taxes is vested in the legislature which may grant such power to local authorities, such as county boards

Subject to constitutional restrictions, it is within the power of the legislature to impose, or to provide for the imposition of, taxes for highway purposes[35] Thus the legislature may determine the character and location of the property that shall be subject to assessment, see infra § 288, the purposes for which the tax is to be levied,[36] the time of

levy;[37] the amount or rate of taxation;[38] the method of collection;[39] the distribution or apportionment of the taxes when collected, see § 292 infra, and the relief to be given from taxes theretofore imposed.[40] So also the legislature may determine what shall be the territorial subdivisions of the state for the purposes of highway taxation,[41] and it is within its power to determine the methods of taxation by which funds for road purposes shall be raised,[42] which methods may vary in the different counties and localities,[43] and two different systems may be in effect at the same time.[44]

In the absence of contrary statute, the qualified voters of a taxing district have no power to impose taxes for highway purposes.[45]

Power of local authorities Subject to constitutional restrictions,[46] the legislature may, and frequently does, grant to, or vest in, local authorities,[47] such as county,[48] township,[49] or road district[50] boards or officials, the power to impose highway taxes, and in some jurisdictions such power is conferred on local authorities by constitutional provisions.[51] Such power may be conferred on local

Purpose of grant of power

The purpose and intendments of Acts 1925 c 10110, authorizing certain counties to improve highways, to pay costs thereof by special assessments and to issue bonds and levy taxes were that entire estimated expense of road construction should ultimately be paid by tax assessments of ad valorem taxes, even though county bonds were issued on certificates representing liens of the special assessments the special assessment certificate liens as well as county's taxing power being pledged to secure payment of bonds—Hillsborough County v Bregenzer, Fla, 10 So 2d 498

Where city is organized as road district, its city council under the statutes in some jurisdictions, acts in a dual capacity—as a city council and as highway commissioner, as highway commissioner it has the power to levy road taxes, but its powers as highway commissioner are separate and distinct from its duties as a city council and are to be exercised independently of any duties imposed on it as a city council—People ex rel Koehler v Cleveland, C, C & St L Ry Co, 188 N E 473, 354 Ill 342—People v Cleveland C C & St L Ry Co, 182 N E 616, 319 Ill 476

Discretionary power

Where the constitution grants discretionary power to county courts to levy special road taxes, the legislature cannot regulate the manner in which this discretion is to be exercised, the word "discretion," within the constitutional provision, meaning freedom to decide or to act ac-

authorities by implication,[52] but it exists only when clearly conferred,[53] and the extent of the power depends on, and is limited by, the terms of the statute conferring it.[54] Where the power to impose road taxes is conferred on a township and a city embraced within the township's territorial limits, each may exercise its taxing power within its own territorial limits without reference to the exercise of the power by the other.[55] A taxing district, however, cannot effectually exercise the power conferred unless it is properly organized.[56]

Validity of statutes. In order to be valid, road tax statutes must not violate either state or federal constitutional provisions,[57] such as provisions directing that the statute imposing the tax shall distinctly state the tax and the object to which it is to be applied,[58] or provisions fixing an equation between the tax on the poll and the tax on property.[59] If a statute authorizing the levy of a road tax provides no method for carrying its provisions into effect it is void.[60] A statute is not invalid, however, merely because it imposes no limitation on the amount of the levy.[61]

§ 285. —— Construction, Amendment, and Repeal of Statutes

General rules governing the construction, amendment, and repeal of statutes apply to road tax statutes.

General rules governing the construction of statutes ordinarily apply to the construction of statutes imposing or providing for the imposition of highway taxes.[62] While such statutes should be strictly construed,[63] they must nevertheless be given a reasonable construction,[64] and not an unnatural construction which will defeat the tax.[65] As in the case of statutes generally, a road tax statute must be construed as a whole,[66] and, if possible, effect should be given to all portions of the statute.[67] Where the statute is open to two interpreta-

cording to one's own judgment, and unrestrained exercise of choice or will—State ex rel and to Use of Kersey v Pemiscot Land & Cooperage Co, 295 S W 78, 317 Mo 41, overruling State ex rel Johnson v Atchison, T & S F Ry Co, 275 S W 932, 310 Mo 587

tions, one of which will invalidate and the other uphold it, it will be given the latter construction if reasonably possible.[68] In the absence of anything in the statute to the contrary, a road tax statute will be construed as prospective only, and not retrospective, in its operation.[69] A statute specifically providing for the manner of raising funds for highways is exclusive, and must be read as an exception to another statute covering the same and other subjects in general terms.[70]

Amendment and repeal. Subject to constitutional limitations, it is within the power of the legislature to change,[71] amend,[72] or repeal[73] road tax statutes, such as statutes conferring the power of taxation on local authorities,[74] and a tax is invalid if levied under a statute which has been repealed[75] by a valid act.[76] A road tax statute may be repealed by implication by a later act,[77] such as a general revenue law,[78] inconsistent therewith. Likewise a general law may be repealed by a later special act,[79] and the later of two conflicting general acts passed at the same session of the legislature impliedly repeals the earlier act, especially where the later act contains an emergency clause.[80] However, repeals by implication are not favored,[81] and unless the two statutes are irreconcilably inconsistent, or an intent to repeal is otherwise clearly shown, they will both stand.[82] No repeal takes place where the later act expressly declares that it shall not be construed to repeal any prior act.[83] An earlier statute is repealed only so far as the later act is inconsistent with it,[84] the new act in such case being regarded in effect as an amendment of the former statute.[85] Where the law is revised, only the provisions of the former statute which are omitted from the revised act are repealed.[86]

risdictions counties may levy highway taxes only for county purposes,[90] and under the statutes in some jurisdictions such taxes may be levied only for existing roads[91] legally laid out[92] A levy may not be made for highways which do not exist and which are not even in contemplation[93] A levy, however, may be made for highways actually used as such, even though the use of the land has never been legally acquired from the owners[94] So county authorities must include in a tax levy for maintenance of highways for the ensuing year, a sum for maintaining highways accepted by the authorities, even though notice of acceptance is not given until after the levy[95] Where taxes previously collected for highway purposes have been lost through bank failures, a tax may be levied to replace the funds lost[96]

What rate controls The rate of taxation authorized at the time the levy is made controls as to its validity,[19] and not the rate permitted at the time the taxes are extended[20] In the absence of anything in the statute to the contrary, a statutory limitation of the rate or amount of taxation is prospective only, and not retrospective, in its operation[21]

Determination of amount or rate of taxation is considered infra § 289.

§ 288. —— Persons and Property Liable

In the absence of constitutional restrictions the legislature may determine what persons and property shall be subject to highway taxes

The legislature has power, in the absence of constitutional limitations, to determine what persons and property shall be subject to highway taxes[22] and to apportion such taxes among the different political subdivisions,[23] such power being subject, however, to the qualification that one of such subdivisions cannot be taxed for the exclusive benefit of another[24] The legislature may provide for a tax on all property within a taxing district,[25] for the construction or improvement of a road lying entirely within one part of it[26] So the legislature may authorize the levy of a highway tax on all the property in a county or township, including property situated in a city or incorporated town,[27] even though the highways to be constructed or repaired are outside the limits of such city or incorporated town[28] The legislature may, however, and frequently does, exempt cities and incorporated towns in whole or in part from such taxes,[29] and such ex-

Extent of exemption

(1) Code 1919 § 1987, and other statutes exempting property in incorporated towns maintaining their own streets from regular levy for district road taxes, do not apply to

emption is not unconstitutional where an equivalent burden is imposed on them for the maintenance of their streets,[30] although in the absence of such equivalent burden a constitutional provision requiring uniform taxation would be violated.[31] The local authorities cannot exempt any property not exempt under the statute.[32] Where the statute makes land outside of certain designated cities liable to a road tax, land not within any city at the time the act was passed, but afterward annexed to one of the cities designated, is not subject to the tax,[33] but land subject to a tax to meet outstanding highway bonds of a road district adjoining a city remains subject to such tax, although subsequently annexed to the city,[34] since its exemption from liability would impair the obligation of a contract.[35]

The tax can be levied only on property which the statute authorizes to be taxed[36] at the time the levy is made,[37] and which is described in the tax proceedings.[38] The nonresidence of the owner does not affect the liability of his land within the designated district,[39] and personal property of resident owners may be made liable.[40] So also rolling stock and intangible assets of a railroad company may be made liable for road taxes.[41]

The legislature may exempt from road taxes particular property or persons in a taxing district,[42] unless there is an implied restriction arising from the constitutional requirement that all property shall be taxed by a uniform rule according to its value.[43] The legislature may also provide for a rebate of taxes in certain cases,[44] but an exemption from working on roads does not exempt one from paying a road tax on his assessable property.[45] Where a county purchases lands at a tax sale, and such lands are not redeemed, but are subsequently sold by the county, the county is not liable to a township for road taxes charged against the lands while the title was held by the county.[46]

(2) The only exemption accorded to city property by Rev Codes 1935 § 1617 is exemption from the five-mill levy therein provided for—State ex rel Siegfried v Carbon County, 92 P 2d 301, 108 Mont 510, 123 A L R 1456

Inconsistent statutes; repeal

(1) A statute or charter provision exempting town property from road taxes may be repealed by implication, as by a subsequent inconsistent statute—Town of Falls Church v Board of Sup'rs of Fairfax County, 144 S E 870, 151 Va 672—Dickinson v Board of Sup'rs of Albemarle County, 135 S E 826, 146 Va 46

a. In general
b. Submission of question to voters

a. In General

Local authorities may levy and assess highway taxes only in accordance with, and in the manner prescribed by, the provisions of the constitution and statutes conferring the power.

Local authorities may levy and assess highway taxes only in accordance with the provisions of the constitution and statutes conferring the power[47] In the absence of contrary statute, such taxes may be levied only when necessary[48] and only for the current year[49] To be valid, the levy and assessment must be made by the proper local authorities,[50] and where the levy is made by a board, it must be made by at least a majority of the board acting as such, particularly where the statute so provides[51]

A levy and assessment of highway taxes must be made in the manner or mode,[52] and within the

Last adjusted valuation

A levy for road tax must be made on the last adjusted valuation for county purposes. The levy must be based on the assessed valuation as revised and equalized by the county commissioners, and not on the return of the assessors to the commissioners. If, at the time the tax must be levied for the particular year, it is impossible to secure the adjusted valuation, which is based on the assessor's return for that year, the levy must be on the adjusted valuation of the last year in which there was an adjusted valuation — Quemahoning Coal Co v Jenner Tp, 83 Pa Super 577

When amendment proper in general

(1) Amendments may properly be allowed under Smith Hurd St c 120 §§ 716 717, where there has been an attempt to comply with the law but the attempt is ineffective because of some informality or clerical error, but such amendments cannot be allowed where they add matter which is essential as a basis for the levy of the tax — People ex rel Preisel v New York Cent R Co, 32 N E 2d 167, 375 Ill 574—People v New York C & St L R Co, 150 N E 707, 320 Ill. 148.

ings may be cured by a subsequent statute,[74] unless the matter attempted to be accomplished by the validating act could not have been done primarily because of constitutional limitations.[75] Highway taxes will be presumed to have been levied in accordance with the requirements of the law,[76] although it has been held that an excess in such a tax would not be treated as a labor tax for the purpose of upholding it.[77]

Duty to make levy and assessment Except where the language of the statute is merely permissive,[78] the action of the local authorities in levying and assessing highway taxes is not generally discretionary, but it is an imperative duty,[79] and where the local authorities fail or refuse to perform their duty a court of competent jurisdiction may compel them to do so.[80]

Validity of statutes Statutes regulating the levy and assessment of highway taxes, to be valid, must not violate either state or federal constitutional provisions and limitations,[81] but when subjected to this test various statutes,[82] including statutes validating assessments previously made,[83] have been held valid

Time of determination of validity of levy. The validity of a levy of highway taxes is to be determined as of the time the levy is made.[84] Accordingly constitutional provisions do not affect taxes levied but not collected before the provisions took effect.[85]

b. Submission of Question to Voters

Where the constitution or statutes so require, the question of levying a road tax must be submitted to the voters of the taxing district.

Under the constitution and statutory provisions in some jurisdictions the question of levying a road tax must be submitted to the voters of the taxing district or municipal subdivision[86] where the tax sought to be levied is for a special purpose[87] or in excess of a certain rate or amount of taxation.[88] Where such a submission is required, every essential requirement of the constitution or statutes with regard to the manner of submitting the question to the voters and the manner of conducting the election must be substantially complied with.[89] Thus, where required, there must be a proper petition or application by the taxpayers for an election,[90] an approval of the petition by the proper authorities,[91] a proper order or call for the election,[92] and a proper notice or warning thereof.[93] The election must be held at the time prescribed by the consti-

Making question clear to voters

To create an additional county highway tax in excess of the maximum tax allowed for all county purposes, notice of election or ballot, must make clear to the voters that the additional tax authorized is to be levied in excess of the maximum tax for all county purposes then allowed by law, the mere use of the word "additional" in connection with the tax not meaning that the tax is to be levied in excess of the rate allowed for all county purposes.—People v. 91. Approval held sufficient

Indorsement by county court of word "approved" on petition for district road meeting to vote special tax was sufficient approval within statute.—Clark & Wilson Lumber Co. of Delaware v. Weed, supra.

Approval held insufficient

County court's preparing and signing notices of meeting was not equivalent to indorsement of approval on petition for road district meeting to vote additional tax.—Stevens v. Tillamook County, 273 P. 716, 128 Or. 339.

Requisites of notice

(1) Notice of special town election on proposed road tax must specify rate per cent to be levied annually.—People v. Cleveland, C., C. & St. L. Ry. Co., 174 N.E. 832, 343 Ill. 30.

(2) A notice of a special election for the purpose of voting on a proposition to levy a special road tax for a period of five years need not show when such period is to begin.—Harris v. Gordley, 137 N.E. 526, 305 Ill. 442.

tution or statutes,[94] and statutes prescribing the form for the submission of the question must be followed.[95] The particular vote required to carry such an election depends on the constitutional and statutory provisions relating thereto.[96] Where the requisite vote is obtained, such vote does not constitute a levy of the tax,[97] nor does it constitute a contract between the taxpayers and the municipality so as to prevent the legislature, during the period for which the tax is to be extended, from changing the basis for fixing the assessed valuation of the property to be taxed.[98]

Failure or refusal to vote tax Under the statutes in some jurisdictions the town or highway authorities have power to impose highway taxes only when the electors have failed to do so after the matter has been brought to their attention.[99]

ing and collecting the tax.[3] Such taxes are due and payable at the time fixed by the statute,[4] and a penalty may be imposed, where the statute so provides, for a failure to pay the taxes at such time.[5]

The statutes variously provide for collection by action,[6] distress,[7] sale,[8] arrest,[9] and by warrant to collect.[10] Such proceedings must be brought by the proper officers[11] at the proper time,[12] and within the statutory period.[13] The usual rules as to pleadings[14] and evidence[15] apply in such proceedings, and where a prima facie case of the validity of the tax is made the burden is on the objecting taxpayer to establish his objection.[16] Such proceedings are open to the usual defenses,[17] but liability cannot be avoided by proof that defendant relied on the promise of another to pay the tax[18] or that other landowners defaulted in the payment of the taxes for prior years.[19] Payment of the tax for the first year of the period for which it is levied will not prevent the taxpayer from objecting to the validity of a similar tax the following year.[20] Under some statutes, on application for judgment and order of sale for delinquent highway taxes, the judgment should not be against the taxpayer, but against his property[21] in the township which levied the tax, and should not include all of defendant's property in the county in which the town is located,[22] since the lien for road taxes is confined to property within the taxing district.[23] The property to be sold should be described in the proceedings[24] and in the judgment[25] with such clearness as to identify it. On appeal from the judgment general rules as to appeal and error apply.[26] After the property has been sold by decree of court in

accordance with the statute, actual payment of taxes cannot avail on collateral attack.[27]

Except where the property is sold at the tax sale to the state or an instrumentality thereof,[28] the right to redeem from the sale is governed by the statute in force at the time of the sale,[29] and a subsequent statute extending the time for redemption will not operate retroactively so as to interfere with the vested rights of the purchaser at the sale,[30] whether such statute goes into effect before[31] or after[32] the time to redeem under the former act has expired. In the absence of a saving clause, the limitation as to the time for redemption applies to minors[33] and other persons under disability.[34]

A settlement of a claim for a highway tax, made in good faith between the taxpayer and township authorities, is valid.[35]

Recovery or set-off of taxes paid Illegal taxes paid under protest may be recovered back,[36] but not those voluntarily paid,[37] nor can taxes voluntarily paid after the repeal of the statute under which they were levied be credited to or set off against an assessment subsequently levied under the repealing act.[38] Where a statute so provides, taxpayers are entitled to reimbursement from the state or county highway fund for road taxes previously paid by them.[39]

Restraining misapplication of taxes wrongfully collected A highway officer has no right of action in his official capacity to restrain the misapplication of taxes wrongfully collected by another, since such wrongful act, however illegal with respect to taxpayers, could not hinder plaintiff from collecting the amount due from them without regard to the collections made by defendant.[40]

§ 291. —— Remedies for Erroneous Taxation

Various remedies are available to a taxpayer for erroneous taxation, such as certiorari, injunction, or an action for damages.

The validity of a levy and assessment of highway taxes may be questioned not only by objections raised in the proceeding to enforce the tax, as has been seen supra § 290, but the taxpayer may also seek relief by certiorari,[41] by application for abatement,[42] by petition to reduce the amount of the levy,[43] or by petition to declare a special tax election void.[44] As has been seen supra § 290, the taxpayer may also bring an action to recover illegal taxes paid under protest, and in a proper case

he may bring an action against the taxing officials for damages resulting from an illegal collection of void highway taxes[45] Except in some jurisdictions where a contrary rule prevails,[46] the assessment may be attacked by injunction[47] if there is no adequate remedy at law[48] and the proceedings are brought within the prescribed time;[49] but injunction will not lie if there is another adequate remedy,[50] or unless in addition to illegality, hardship, or irregularity with respect to the tax there is some recognized ground for equitable interference[51] Under some statutes a town may petition to be relieved from an assessment which has been levied for highways wholly within other towns[52]

In actions by taxpayers and towns to contest the validity of a levy and assessment of highway taxes, general rules as to parties,[53] pleadings,[54] evidence,[55] costs,[56] and appeal and error[57] generally apply

§ 292. —— Disposition of Proceeds

Road taxes collected must be paid over to the officers or political subdivisions designated by statute to receive such funds.

Road taxes collected must be paid over to the officers designated by statute to receive and disburse highway funds,[58] and, as appears supra § 176, such funds must be used in the manner and for the purposes prescribed by the constitution or statutes, or designated by the voters, and cannot be diverted to any other purpose A road tax, however, is not invalidated by the fact that the proceeds thereof are misappropriated[59]

The mode of apportioning the funds derived from road taxes among the municipalities and other political subdivisions interested is regulated by statute,[60] the legislature having power, in the absence of constitutional inhibition, to provide for such ap-

and statutes of this character have generally been held valid.[64] Under some statutes all, instead of a portion of the tax collected by county or township authorities on property within a city or village is required to be turned over to the municipal authorities for street purposes.[65] A statute providing that in cities having more than a stated population all of the tax required to be levied therein shall be paid over to the city authorities, whereas in other cities only a part of the tax is required to be so paid over, has been held invalid.[66] A municipality entitled to highway funds collected by county officers may sue at law to recover such funds,[67] or bring an equitable suit for an accounting,[68] or it may apply for a writ of mandamus to compel the county authorities to issue a warrant for the amount due.[69] A writ of review, however, is not an appropriate remedy,[70] and, where the statute leaves it to the discretion of the county commissioners to apportion among the towns in a county a tax levied by them, no action lies against the commissioners to compel them to make the apportionment.[71] Where county officers have levied a tax on the inhabitants of a city for city streets, in excess of the amount authorized by law, the city cannot recover from the county that portion of the tax illegally levied.[72] Road taxes paid by township authorities to a city under an invalid statute[73] or mistake of law[74] may be recovered back by the township, and it is no defense to such action that the funds were derived from an invalid levy.[75] Mere defects in the disbursement proceedings will not entitle a county to

Tax anticipation warrants. Where tax anticipation warrants are issued by a road district, it is the duty of the district to see that taxes, when collected, are set apart for payment of the warrants.[78]

§ 293. Local Assessments

Funds for the construction, improvement, or repair of roads may be raised by special assessments on the property benefited.

Funds for the construction, improvement, or repair of roads may be raised by "special assessments,"[79] which term, as commonly used in connection with highway taxation, refers to assessments specially made to raise funds for the construction or improvement of certain highways within a particular district, and assessed against the property specially benefited as an equivalent for the benefit incurred,[80] and which differ in their essential characteristics from ordinary or general taxation for road purposes,[81] considered supra §§ 283-292.

§ 294. —— Power to Levy in General

The legislature may provide that the cost of construction, improvement, or maintenance of a highway shall be defrayed in whole or in part by assessments on the property specially benefited.

Although the public also receives a benefit, the legislature may provide that the cost of construction, improvement, or maintenance of a highway shall be defrayed[82] in whole[83] or shall be defrayed

Purpose of statutes

"Legislative enactments authorizing special assessments against abutting property for the entire cost of road or street improvements are obviously designed to secure the improvement of public highways that are essential to the development and beneficial uses of abutting and contiguous property, the improvement

in part[84] by local assessments on property specially benefited by such construction or improvement Such local assessments are not prohibited by the constitutional requirements that taxes be uniform,[85] or that property be taxed according to its value,[86] since, as appears supra § 293, they are not "taxes" in the ordinary sense of the term Neither are they within a constitutional provision limiting the amount of indebtedness which public corporations may incur,[87] but the assessment provided for must not be arbitrary or unreasonable,[88] or such as constitutes confiscation under color of assessment[89] The power of assessment can be exercised by subordinate bodies only when authority so to exercise it is clearly conferred by the legislature[90]

§ 295. —— Construction and Repeal of Statutes

The existence and extent of the power to levy special assessments depend on a proper construction of the statute purporting to confer it Repealing statutes will be construed in accordance with general rules

Improvement not primarily for benefit of abutting property

(1) If the improvement is not primarily for the benefit of abutting property, but is primarily for the benefit of the public, the entire cost may not be assessed against the abutting property, and, if the improvement is for the benefit of the public and the abutting property the cost should be apportioned between the public and the abutting owners —Smith Bros v Williams 126 So 367, 100 Fla 642 followed in Smith Bros Const Co v Hart 126 So 373, 101 Fla 653, affirmed 136 So 399 101 Fla 653 and followed in Hillsborough County v Jeffords, 126 So 373, 101 Fla 654— Parrish v Hillsborough County, 123 So 830, 98 Fla 430 436

(2) In so apportioning the costs between county and adjacent owner, the main consideration that should actuate the court is the extent to which the highway serves the public or private persons while increase in value of abutting property is secondary - Webb v Hillsborough County 175 So 874, 128 Fla 471

Charging percentage of costs to county fund

Under a statute providing that in the creation of a road district the county commissioners shall fix the proportion of the total cost of the contemplated improvements that shall be paid out of the county paving fund the remaining portion to be paid by funds raised by special assessments on the property within the district, the county commissioners are not required to fix a percentage of estimated cost as the amount to be paid out of the paving fund, since at the time of creating the district the cost had not been estimated and there might not be enough in the paving fund to pay a fixed percentage of the cost when it is finally determined The board can only carry out the provisions of the statute intelligently by fixing a specific sum that the paving fund should contribute to the whole improvement, or a specific amount per mile - State v Lancaster County, 191 N W 807, 110 Neb 635

Provision for reassessment

Where a statute authorizing issuance of bonds of a district for road improvement fixes a maximum amount which may be assessed on the district a further provision giving a receiver appointed to collect assessments power to make reassessments is not to be construed as authorizing assessments beyond the limit fixed but only within that limit —Guardian Savings & Trust Co v Road Improvement Dist No 2 of Benton County, C C A Ark, 290 F 152.

statutes must be strictly construed,[92] but the power once given includes all the incidents of the principal power.[93] Statutes relating to special road assessments should be so construed as to effectuate the purpose of the legislature in enacting them,[94] as determined from the plain and obvious meaning of the statute itself,[95] and, where a general law and a special act are inconsistent, they must, if possible, stand together, the former as the general law of the land, and the latter as the law of the particular case.[96]

Unless a contrary intention is manifest, the repeal of an assessment statute does not prevent proceedings theretofore commenced from being continued pursuant to the repealed statute,[97] and the courts will not imply a more extensive repeal than is contained in the repealing statute.[98] The question of whether or not a statute has the effect of repealing another statute or a provision therein is to be determined by the general rules of construction of statutes with reference to other statutes,[99] which are considered in the C J S. title Statutes §§ 365–370, also 59 C J. p. 1041 note 10–p. 1065 note 63. Provisions of the statute for the protection of the taxpayers are mandatory, whereas provisions for the guidance of the officers are generally held to be merely directory.[1]

§ 296. —— Amount and Purposes of Assessment

The assessment should be only for the amount needed to pay the cost of the improvement, including necessary incidental expenses, it may not exceed the amount authorized by statute, or the amount of the benefits. Assessments may be made only for purposes authorized by statute

Annual levy of percentage of cost
Under a statute, creating road improvement district and authorizing the inclusion of interest on deferred installments of assessments at the rate of six per centum per annum, and another statute, limiting the assessment to four per centum for any one year, the annual levy of five per

the amount prescribed is invalid only as to the excess.[4] The estimate may be made so as to yield enough to pay not merely the actual cost of the improvement, but also the necessary incidental expenses of the proceedings[5] and interest on bonds sold to raise road funds.[6] In the absence of any legal limitation an assessment is not invalid because the estimate of benefits exceeds the cost of the improvement, including interest on bonds and necessary expenses, although there cannot be a collection of funds in excess of such cost.[7] In view of the rule discussed infra § 298, however, that assessments must be proportionate to the benefits, in no case may the assessment exceed the benefits[8] or the estimated benefits,[9] at least where the excess is so great as to make the assessment arbitrary and unreasonable.[10] Even for the purpose of paying interest on bonds, an assessment may not be made to exceed the benefits,[11] although interest on postponed assessments may be authorized in addition to assessed benefits.[12] A provision that the cost of the improvement or a stated percentage thereof shall be raised by the assessment does not authorize an assessment in excess of the benefits.[13] In the absence of a contrary provision, an assessment is not invalid because it exceeds the assessed[14] or market[15] value of the property before its increase in value by the improvement. The fact that the funds raised by an assessment prove insufficient to complete the improvement is not of itself a ground for setting aside the assessment.[16] The legislature may provide that, where an improvement already made is found to be available as part of the contemplated improvement as a whole, the assessment of benefits accruing from the prior improvement shall be deducted from the assessment of benefits accruing from the whole improvement,[17] such a statute not operating as an exemption of any part of the property in the district from taxation.[18]

centum of the cost of the improvement was valid, since the five per centum would not amount to more than the principal at four per centum and the interest for the installment of a given year—Massey v Arkansas & Missouri Highway Dist in Pulaski County, 259 S W 387, 163 Ark 63

Percentage of assessed valuation

Where the assessment may not exceed a stated percentage of the assessed valuation of the property, a provision that the cost of the improvement shall be raised by the assessment does not authorize an assessment which constitutes a greater percentage of the assessed valuation than that permitted—Haughton v Southard 182 N E 652, 43 Ohio App 25

Where the project is abandoned, the statute permits taxes for payment of the preliminary expenses to be levied according to value of the property, provided the taxation does not exceed the anticipated benefits, and in such case an assessment that exceeds the amount of the assessed benefits is invalid only to the extent of the excess—Missouri Pac R Co v Walnut Ridge-Alicia Road Improvement Dist, 254 S W 1065 160 Ark 297, affirmed 45 S Ct 463, 267 U S 587, 69 L Ed 800

Purposes Assessments may be made only for purposes authorized by the statute[19] Special assessments may not be resorted to in order to meet ordinary governmental charges for construction and maintenance of roads,[20] or to pay for a highway not legally located[21] An elimination by the commissioners of a road specifically described in the statute creating the district as one of the roads to be improved is a usurpation of legislative power which will render the assessment void[22]

§ 297. —— Property Liable

The legislature, or local authorities to whom the power has been properly delegated, may determine what property will be benefited; and only property benefited may be assessed Personal property is not generally subject to local assessments.

In addition to, or as an incident of, the power to create road districts embracing the property benefited, as considered supra § 146, the legislature has power to determine, for purposes of assessment, what lands will be benefited by a proposed improvement,[23] and the power to make such a determination may be exercised by local authorities to whom the legislature has properly delegated it[24] Such

Unapproved expenditures

The commissioners of a road improvement district of a county could not issue vouchers or levy tax to pay for services of attorney for district and for supervisor and keeper of district's records, where statute requiring annual approval of expenditures by county court and filing of annual commissioners' report with court was not complied with—Parkin Road Improvement Dist of Cross County v English, 136 S W 2d 190, 199 Ark 702

Substituted road

(1) Where the statute authorizing assessments contemplated the construction of the specific roads authorized by the preliminary proceedings a verbal arrangement by the road commissioners with the state highway commission for the substitution of a state highway in place of the road originally contemplated was unauthorized hence there was no foundation for the tax bills issued to pay the cost of the highway constructed pursuant to such arrangement—Platte City Ben Assessment Special Road Dist of Platte County v Couch, 8 S W 2d 1003, 320 Mo 489

(2) However, it has been held that the validity of an assessment of benefits of a road improvement district is not affected by the fact that the route had been materially changed without notice where the act creating the district in express terms authorized the county court to change the route—Bulloch v Dermott-Collins Road Improvement Dist 244 S W 327, 155 Ark 176 reversed on other grounds 44 S Ct 457 265 U S 570, 68 L Ed 1181

Road designated state highway

Assessment of special road district was not invalid as gift to state-wide road fund merely because the highway commission might designate the road to be constructed as part of the state highway system, where the state was only obliged to build a narrow, cheaper road—Johnson v Underwood 24 S W 2d 133, 324 Mo 578

New construction

Information which legislature may use

State legislature, in determining what lands will be benefited by local public improvement and proportion in which lands will share in benefits may avail itself of any information which it deems appropriate and sufficient, including such as may be afforded by reports and estimates made in prior assessment proceedings having same object—Kansas City Southern Ry Co v Road Improvement Dist No 3 of Sevier County, Ark 45 S Ct 136, 266 U S 379 69 L Ed 335 affirming 216 S W 113 156 Ark 116

An order of the county court creating a road improvement district and declaring in the order that certain described land was not benefited and should not be assessed which order was not appealed from did not prevent the legislature from directing the reestablishment of the district as one under the general statutes, under which the exempt lands were assessed for benefits by a new assessment—Payne v Road Imp Dist No 1 of Howard County 232 S W 943, 149 Ark 491

Boundaries held proper

determination may not, however, be arbitrary or confiscatory [25]

Special assessments can be justified only on the ground that the contemplated improvement is local in its nature, and that the property taxed will be specially and peculiarly benefited [26] It is not essential, however, that the benefits to a particular tract sought to be assessed be direct or immediate,[27] although it is essential that they have a better basis than mere speculation or conjecture [28] Thus any lands in the territory tributary to a highway which is to be constructed or improved may be assessed, since they may be deemed to be specially benefited by the improvement,[29] whether or not such lands abut on the highway [30]

Under a statute subjecting abutting owners to assessment, where a strip of land abutting on the highway is occupied by a railroad having only a right of way, the owner of the fee in such strip is liable to assessment [31] An interurban railroad, however, operating its road along a highway under grant from the county is not assessable as an owner of property abutting on the highway,[32] nor is the owner of land on the side of a highway an abutting owner, where such land is separated from the highway by a canal, the fee of which is in the city [33] A statute authorizing assessment of lots fronting on the highway does not authorize assessment of a lot which is separated from a highway by a railroad running along the side of the highway [34] The fact that part of a road, as improved, extends over the line of an abutting tract of land does not invalidate the assessment of such land [35]

Particular types of property Personal property is not generally subject to local assessments,[36] even when it is classified by the legislature as real estate, the power to make such classification existing only when the character of the property is doubtful [37] Railroad property benefited by a highway may be assessed therefor the same as other property,[38] but an assessment of a railroad based in

District created under popular election

Where a road district is created under a petition of property owners and an election authorizing the issuance of bonds to pay for particular highway construction, the duties of the commissioners' court as to the lands to be subjected to the charge are purely ministerial, and confined to carrying out will of petitioners —Browning v Hooper, Tex, 46 S Ct 141, 269 U S 396, 70 L Ed 330, reversing, D C 3 F 2d 160

(2) Thus the legislature may not form practically all of a county into a highway district and authorize special assessments to pay for any roads that the commissioners may deem it advisable to improve, since such assessments would manifestly not be confined to single improvements — Swepston v Avery, 177 S W 424, 118 Ark 294

Properties assessed for separate improvements

The fact that, in constructing a highway, the highway is divided into separate sections, each of which constitutes a separate improvement, so that the benefits assessed against property abutting on one section might be disproportionate to the benefits assessed against property abutting on another section, although actually the benefits were equal and similar, does not invalidate the assessment—Theobald v Board of Com'rs of Fayette County, 162 N E 268, 119 Ohio St 54, error dismissed Theobald v Board of Com'rs of Fayette County, Ohio, 49 S Ct 93, 278 U S 572, 73 L Ed 513

Assessment held valid

A statute containing a legislative finding that lands along a particular road improvement project which were in both the road district and in a subdistrict, would receive no greater benefit per acre than lands in other part of the district equally distant from the approved road was held not arbitrary, the obvious purpose being to relieve landowners whose lands were in both districts from paying more than others whose lands were not and were no nearer the road—Thompson v Mann, 252 S W 4, 159 Ark 391

Assessments held invalid

(1) Assessment by road district of entire cost of road twenty-six miles long against land lying along the east eleven miles, with no assessment of benefits on lands along the west fifteen miles is invalid—Thornton v Road Imp Dist No 1 of Clark County, C C A Ark, 291 F 518, appeal dismissed 46 S Ct 12, 259 U S 592, 70 L Ed 429

(2) Where the chairman of the county board testified that in assessing the railroad company's property for cost of hard-surfaced road the board considered that the company had received several thousand dollars for hauling material for its construction, that many thousand tons of alfalfa raised in the past could not be marketed by reason of the public road conditions, and that the construction of the road would en-

cretion,[56] and the mere fact that the mode of assessment or apportionment is not altogether fair[57] or does not achieve absolute equality[58] does not render it invalid; it is not invalid unless it is palpably arbitrary or a plain abuse of discretion[59]

As a general rule, special assessments are valid when, and only when, imposed proportionally on the whole of the land benefited,[60] in the district indicated[61] Thus the omission of some of the land benefited will ordinarily invalidate the assessment,[62] but a landowner cannot complain because only a part of a tract belonging to him is assessed, so long as the assessment does not exceed the benefits[63] Where other lands are benefited, a statute providing that the entire cost of improving a rural highway shall be assessed against abutting property will be held invalid,[64] but, under a statute so providing, the entire cost of additional improvements in a district may be assessed to lands newly added to the district to the exclusion of lands included in the original district which had been assessed for the earlier improvements.[65]

Subject to the foregoing rules, it is proper, and in some instances essential, in apportioning the benefits to give due consideration to such elements as the value of the respective tracts[66] as enhanced

hance the railroad company's earnings for freight charges, it was held that an assessment based on these grounds when applied to the railroad property alone was arbitrary and unjust —Missouri Pac R Co v Board of Com'rs of Mitchell County, 204 P 729, 110 Kan 582

Property exempt from general taxation

Assessments of benefits by road improvement district on railroad property, which were made on the basis of a per cent of the assessed value for general taxation, instead of on the basis of benefits, were held void in view of the constitutional provision exempting public property, churches, etc, from general taxation, since such property not being assessed for general taxation, would, on the assessed valuation basis, be relieved of its just share of the cost of the improvement —Missouri Pac R Co v Road Improvement Dist No 1 of Hot Spring County, C C A Ark, 288 F 502

Evaluation of railroad property

(1) Improvements on land constituting a railroad right of way such as grading, ballast, rails and ties in place, culverts, signal posts, fences, and the like, are properly included in determining the value of railway real property and improvements thereon —Union Pac R Co v Board of Com'rs of Jefferson County, 217 P 315, 114 Kan 156—Schaff v Roberts, 215 P 447, 113 Kan 423

(2) The fact that in assessing railroad property the value of the franchises is taken into consideration is not an adding of personal property value to the value of the real property so as to invalidate the assessment —Branson v Bush, Ark, 40 S Ct 113, 251 U S 182, 64 L Ed 215, reversing 248 F 377, 160 C C A 387

(3) But it has been held that, where all railroad property real, personal, and mixed, is classed as personal property for the purpose of general taxation, the state tax commission's valuation of all such prop-

by the improvement,[67] or their position or location,[68] area,[69] or frontage[70]

Classification and zoning An assessment is not arbitrary or unreasonable because a district is divided into zones and the lands in each zone assessed at a sum per acre or percentage of valuation different from that assessed in the other zones, if such system is adopted on a proper consideration of the various elements affecting the benefits[71] So, too, an assessment may be based on a combination of the zone and area methods, whereby each parcel in a zone is assessed according to the relation of its area to the whole area of the zone, instead of in proportion to the benefits to each parcel in such zone[72] Provided it is not arbitrary or discriminatory, a classification of the various kinds of property as a basis on which to assess benefits is permissible[73] Thus it is not necessarily improper to provide different bases for assessment on urban and rural lands,[74] and still another basis for assessment of roads, telegraphs, and telephones[75]

Assessed valuation as basis The fact that a special assessment is made the whole or a percentage of the value of the property as assessed for general taxation does not imply that it is not also according to the benefits to be derived, and does not of itself render the assessment invalid,[76] and a legislative direction for such method of assessment is deemed

erty constructively within the limits of a road benefit district is not a proper basis for fixing the valuation of a railway company's 'real property and improvements thereon' —Atchison, T & S F Ry Co v Board of Com'rs of Anderson County, 243 P 282, 120 Kan 210, rehearing denied 245 P 157, 120 Kan 610—Schaff v Roberts, 215 P 117, 113 Kan 423

Distance from particular terminal

A plan of apportionment was not objectionable because failing to assess landowners remote from the main market center more heavily than those nearer the center, on the theory that the remote owners used a longer sector of the road in traveling to and from the center, for roads are not merely to connect one center, but to connect with the whole interminable system of highways, and the words "location," "proximity," and "accessibility," in the statute declaring what matters should be considered in apportioning benefits, refer to the improvement as a whole, and not to an assumed terminal point or base or destination, either within or without the line of highway—Crouse v Mackey, 185 N W 906, 192 Iowa 926

Distance from road

An act providing for assessing the cost of highway construction solely on the basis of the front-foot rule might not be capable of constitutional application to rural or agricultural lands by reason of the great diversity in shape, area, character, use, value and quantum of benefits conferred, although it might be capable of application to lands outside municipal boundaries, which have been subdivided and platted into blocks and lots fronting on streets or highways, or otherwise possess some such uniformity, in shape, width, and depth as usually characterizes property within city limits—Parrish v Hillsborough County, 123 So 830, 98 Fla 430, 436

§ 299. —— Proceedings for Assessment

Proceedings for the levy of an assessment must conform to the requirements of the governing statute.

Proceedings for the levy of an assessment must conform to the requirements of the governing statute,[79] such as, for example, requirements pertaining to the petition[80] and consent[81] of landowners. The assessment must be made on proper authority,[82] by disinterested[83] commissioners, viewers, or assessors.[84] In the making of the assessment a

For preliminary expenses on abandonment

(1) Where an improvement project in a road improvement district was abandoned, it was proper for the chancery court in proceedings by creditors to ascertain their claims to levy the assessment for preliminary expenses, in accordance with the provision of the statute under which the district was created, on the valuation assessed for county purposes —Missouri Pac R Co v Walnut Ridge-Alicia Road Improvement Dist, 251 S W 1065, 160 Ark 297, affirmed 45 S Ct 463, 267 U S 587, 69 L Ed 800—Western Crawford Road Improvement Dist v Missouri Pac R Co 248 S W 563 157 Ark 304, affirmed Missouri Pac R Co v West Crawford Road Imp Dist, 45 S Ct 31, 266 U S 187, 69 L Ed 237

(2) In such a situation, levying an assessment not on the basis of assessed valuation for county purposes, but on the basis of benefits is error —Neteer v Dickinson & Watkins, 239 S W 722, 153 Ark 5

(3) But, where construction of road improvement had proceeded beyond preliminary work before abandonment, preliminary expenses were merged into general cost of improvement, so that the statute providing for payment of such expenses by levy of tax on assessed value of all property in district for county and state taxation no longer applied, and only taxes based on benefits could be levied —Wofford v Bettis, 275 S W 903, 169 Ark 487

Assessment of benefits on property sought to be annexed to road improvement district was not invalidated because some assessors were appointed by county court on resignation of predecessors, in view of a statute evincing an intention to vest in the county court power to fill vacancies, although there is no power of removal —Gregg v. majority of the persons authorized may act [85] The proceedings must correctly and properly identify the land to be assessed,[86] but, if taken together, they do identify the land, inadvertencies and irregularities in the description will not affect their validity or operation [87] The assessment must be made at the proper time[88] and place[89] after fulfillment of such statutory prerequisites as entry of the assessment of benefits in a book,[90] and proper entry of the order of assessment [91]

Requirements as to the giving of notice and an opportunity to be heard must be complied with [92]

Qualification

Legal qualifications of assessors of road improvement district cannot be questioned collaterally, and the failure of assessors to take the prescribed oath before a proper officer does not invalidate the assessment—Gregg v Road Improvement Dist No 2 of Jackson County, supra.

Change of residence

An assessment was not void, as levied by an illegal board, in that a commissioner who resided in Drew County when the district was created removed to a point within the district in Chicot County, before the assessment, where it was undisputed that he acted with the other commissioners in making the assessment, and that no proceeding was brought to oust him, as he acted in the capacity of either a de jure or de facto officer, in either of which events his acts would be binding—Bulloch v Dermott-Collins Road Improvement Dist, 244 S W 327, 155 Ark 176, reversed on other grounds 44 S Ct 457, 265 U S 570, 68 L Ed 1184

Property placed in wrong zone

Where assessments of land in a road improvement district were made by zones, and clerical errors in placing some lands in the wrong zones were corrected, and the corrected copy of the assessment list certified before extending the taxes on the tax books, the original errors did not invalidate the assessment—Davis v Road Improvement Dist No 7 of Little River County, 257 S W 724, 162 Ark 98

Necessity that improvement be first completed

(1) Under some statutes assessments cannot be made until completion of the improvement—Chase v Springfield, 119 Mass 556

(2) But, under a statute so providing, a levy may be made for a stated percentage of the district's share of the total cost of the improvement, on completion of specified portions of the project.—Hamm v Board of Com'rs of Jefferson County, 214 P 105, 113 Kan 301

Time of making order

In the absence of express statutory authority for the county court to be opened at any time for the purpose of making an order levying an assessment against the property of a road improvement district, the order cannot be made, except during the regular term, and a vacation order would be void—Carl-Lee v Road Improvement Dist No 16 of Woodruff County, 217 S W 1056, 157 Ark 134

Certificate showing entire assessment for all years

In view of a provision that, if the portion of the assessment of benefits first levied is not sufficient to complete improvements commissioners may make additional levies, it is not a jurisdictional requirement that there be filed along with assessment of benefits a commissioner's certificate showing the entire assessment for all years during which assessments would be collected—House v Road Improvement Dist No 2, Conway County, 251 S W 12, 158 Ark 330, error dismissed House v Road Improvement Dist No 2 of Conway County, Ark, 45 S Ct 60, 266 U S. 175, 69 L Ed 229

Test of sufficiency with respect to time

In passing on the sufficiency of a notice to property owners of an assessment of benefits to constitute due process of law, an act is tested by a consideration of the shortest time under which the notice could be given pursuant to the requirements—House v Road Improvement Dist No 2, Conway County 251 S W 12 158 Ark 330, error dismissed, 1924 House v Road Improvement Dist No 2 of Conway County, Ark 45 S Ct 60 266 U S 175, 69 L Ed 229

Notices held sufficient

(1) Where a road improvement district was of legislative creation, and the creating act gave it a name and designated the boundaries, a published notice was sufficient which referred to it by its official name and which gave the time and place and when and where assessment of betterments in the district would be heard—House v Road Improvement Dist No 2, Conway County, supra

(2) Notice of road district improvement assessment referring to plans, specifications, and estimates

Where, however, the district is not created by the legislature, and there is no legislative determination that the property will be benefited, notice to property owners and an opportunity to be heard are essential to due process[93] It has been held that a statute creating a road improvement district and delegating to subordinate agencies or tribunals the power to make assessments should provide for the giving of proper notice,[94] and that, if it fails to do so, it is void,[95] but other authorities have held that a statute is not invalid because it contains no provision for notice, if there is nothing in it which prevents such notice[96]

§ 300. —— Defective or Invalid Assessments and Remedies Therefor in General

Various remedies are available to landowners aggrieved by an improper assessment A special statutory remedy is usually exclusive, but, if there is no other adequate remedy, the landowner may obtain relief in equity.

Unless it is void on its face, the courts will not interfere with an assessment levied by, or in accordance with the directions of, the legislature in the exercise of its authority,[97] at least on a collateral attack[98] They will not disturb an assessment made under a fair and reasonable rule of apportionment, or review for mere errors of judgment on questions of fact in the decision of which different conclusions may be drawn[99] An assessment, however, may always be inquired into when it is tinctured with fraud,[1] or where it is shown to be arbitrary, unreasonable, or confiscatory[2]

Mode of attack An assessment for highway purposes may be attacked in the manner provided by statute,[3] as by objection or remonstrance,[4] or ap-

filed with county clerk describing district's boundaries was sufficient, such notice need not set out property owner's right to remonstrate or file damage claim—MacVeagh v Multnomah County, 270 P 502, 126 Or 417, modifying 262 P 248, 123 Or 345

(3) Fact that notice of letting of contracts for construction of roadway in unincorporated residence district in county was published over signature of county highway engineer under order of county court and not in name of county court did not render subsequent issuance of tax bill void—St Louis County, to Use of Mississippi Valley Trust Co v Menke, Mo App, 95 S W 2d 818

Notice held insufficient

A notice of assessments for a road improvement, given to the property owners 'along" the road that is being improved, is not sufficient to charge notice to all property owners within a one-mile district on either side of such road, to which the assessment area had been enlarged—Maxfield v Brooks, 144 N E 725, 110 Ohio St 566

Tenants in common

Jurisdiction of only one of two tenants in common being obtained on hearing regarding establishment of road district is insufficient to authorize board of supervisors to levy assessment against property as a whole—In re Secondary Road Dist No 11 of Clay County, 238 N W 66, 213 Iowa 988

Reason for rule

When a legislature delegates to a board or to commissioners the determination of the question what lands will be benefited by a road improvement, or what the amount of benefits to such lands will be, the inquiry becomes in its nature judicial in such a sense that property owners are entitled to a hearing, or an opportunity to be heard, after notice, before these questions are determined—Road Improvement Dist No 2 of Conway County v Missouri Pac R Co, C C A Ark, 275 F 600

peal[5] by parties interested[6] from the assessment or from a judgment confirming it. The assessment may also in a proper case be reviewed by certiorari,[7] and, under some statutes, assessment disputes are settled by arbitration.[8] A special remedy given by statute to the landowner to attack the assessment is commonly exclusive,[9] although the rule is otherwise where the method of assessment adopted amounts to a fraud on the landowner,[10] or where the assessment is void on its face.[11] The failure of a road improvement statute to provide a tribunal for determining the validity of an assessment does not render it void,[12] particularly where the statute expressly grants the right to any person aggrieved to apply to any court of competent jurisdiction for relief.[13]

In a proper case an assessment may be attacked by a suit in equity for an injunction[14] or to set

Statute held not to confer right

The General Appeal Act, providing for appeals from decisions of the board of county commissioners, does not authorize appeals when the board acts under a special law for a special purpose, and so does not confer a right to appeal from the board's approval of a road improvement assessment in proceeding under the Donohue Road Law—Adams County v Scott, 200 P 1112, 117 Wash 85

Jurisdiction of appellate court

Where one section of a statute provided for an appeal in chancery as a method of attacking the whole assessment of benefits, another section providing for appeal to the circuit court was intended to limit the jurisdiction of such court to attacks on assessments against particular tracts—Road Improvement Dist No 9 of Sevier County v Bennett, 231 S W 552 149 Ark 138

Scope of review

(1) Correctness of claims for expenses incurred before abandonment of road improvement and validity of decree allowing them, which was not appealed from, were not involved on appeal from decree directing assessment to pay off such claims—Wofford v Bettis, 275 S W 903, 169 Ark 487

Attack on whole or particular assessment

(1) In view of the taxpayer's right to appeal from an assessment the collection thereof will be enjoined only when the action of assessing body is wholly void—Paul v Marshall County, 216 N W 736, 204 Iowa 1114

(2) While the statute giving owners of property in a road improvement district thirty days after completion of assessments to commence an action challenging the correctness thereof is primarily for the benefit of the individual owners in the correction of their own assessments nevertheless, where the whole assessment

aside the assessment.[15] If the landowner has, or had and failed to avail himself of, an adequate remedy at law, he cannot collaterally attack the assessment in equity,[16] at least for mere irregularities and defects not affecting the jurisdiction of the assessing officers or tribunal,[17] but, if the assessment is void for want of jurisdiction, it is generally held that a suit for injunction will lie.[18]

Bond

The statute providing that no injunction shall issue to stay work on any road or collection of any tax, unless party applying therefor shall first give a prescribed bond, applies to suits seeking to stay the construction of an improvement or which question the general right to collect taxes due an improvement district, but does not apply to an injunction suit by an individual property owner who seeks a correction of his own assessment —Road Improvement Dist No 3 v Morris, 241 S W 389, 153 Ark 635

Time allowed held due process

A statute which required publication of notice of the assessment of benefits and a hearing on filed protests to be held no sooner than eighteen days after the first publication and further allowed ten days from the date of determination of such protests for the filing of a complaint attacking the assessment allowed a total of at least twenty-eight days in which the landowner could take action and this constituted due process —House v Road Improvement Dist No 2, Conway County, 251 S W 12 158 Ark 330, error dismissed House v Road Improvement Dist No 2 of Conway County Ark, 45 S Ct 60, 266 U S 175 69 L Ed 229

When time starts running

In a railroad company's action to

certiorari,[22] must be brought within the time prescribed by statute

Pleadings The complaint must allege sufficient facts to entitle complainant to relief.[23]

Evidence The landowner has the burden of proving the invalidity of the assessment,[24] and the assessment will not be set aside unless it is clearly shown to be erroneous[25] or arbitrary or discriminatory,[26] or made in bad faith [27] Where the presumption of the validity of a legislative determination of benefits obtains, the landowner must overcome such presumption [28]

Relief awarded Relief may be granted only to those entitled thereto [29] If the assessment as a whole is made on a correct basis, individual assessments may be corrected without declaring the whole assessment void [30] Thus, on objections to assessments, a determination that the zone system of apportioning benefits was equitable does not deprive the court of power to reduce assessments on particular tracts which were not benefited to the same degree as other property in the same zone [31] Where an assessment properly based on the assessed valuation of the property exceeds the assessed benfits to such property, the whole assessment is not rendered invalid, but merely a reduction of the assessment down to the amount of the assessed benefits is called for [32]

Costs are awarded in accordance with statute [33]

§ 301. —— Estoppel of Landowner

Landowners may be estopped to object to or obtain relief from a defective or irregular assessment

Landowners may, by their acts or omissions, be estopped to object to a defective or irregular assessment,[34] but such estoppel does not arise unless

enjoin a special assessment to pay for the cost of hard surfaced road on the sole ground that the assessment is arbitrary, capricious and discriminatory against plaintiff's rights the action may be brought within thirty days from the final order making the special assessment, and, where the board made an order establishing the proportionate cost in the different zones and fixed a date for hearing objections, and plaintiff appeared and objected, and the board refused to make changes, the first order was merely tentative, and the final order was made on the date when the landowners' complaints were passed on, and the action was not barred if brought within thirty days from that date —Missouri Pac R Co v Board of Com'rs of Mitchell County, 204 P 729, 110 Kan 582

Joining in suit seasonably instituted

Owners of land cannot directly attack the validity of assessments by joining in a suit to enjoin proceedings thereunder after statutory limit of thirty days from the completion of the assessments, although such suit was instituted within such period —Desha Road Improvement Dist No 2 v Stroud, 241 S W 882, 153 Ark 587

29. Persons "similarly situated"

Highway improvement assessment could not be invalidated in action to set aside assessments, as to those owners who accepted benefits of improvement and paid assessments thereon because of insufficiency of petition for improvement, since such parties were not "similarly situated" within statute providing that, when question is of common interest to many persons, one or more may sue or defend for benefit of the whole —South Seattle Land Co v King County, 48 P 2d 251, 183 Wash 284—Elston v King County, 34 P 2d 906, 178 Wash 210

Mortgagee whose mortgage was re-

the landowner had knowledge of the defect,[35] and his conduct was such that the party setting up the estoppel had a right to, and did, rely on it to his detriment,[36] in accordance with the general rule stated in Estoppel Where the assessment is void, mere delay in seeking relief will not work an estoppel,[37] nor will such estoppel arise from the fact that the landowner signed a petition for the improvement,[38] or acquiesced in the doing of the work[39] A suit in equity may be barred by laches,[40] but laches cannot be urged as a defense by persons whose fraud caused the delay resulting in complainant's loss of his remedy at law[41] or by persons not prejudiced by the delay[42] A property owner is not barred from attacking an assessment by reason of his having entered into a compromise agreement under which he was defrauded[43]

§ 302. —— Curative Statutes

Provided they are not arbitrary, defective assessments may generally be cured by subsequent legislation

Defective assessments may generally be cured by subsequent legislation,[44] but arbitrary assessments cannot be so cured[45] A statute validating assess-

newed after party who was estopped to deny validity of paving assessment had acquired property, and mortgagee's successor, were held estopped from complaining of assessments made against the property — Webb v Scott, 176 So 442, 129 Fla 111

Defective petition

Where a new road has been constructed and assessments levied on property specially benefited, abutting owners, having enjoyed all the benefits of the construction for five years, cannot thereafter restrain the collection of such assessment on the ground that the commissioners were without jurisdiction to proceed to construct the road because the petition was not signed by the owners of two thirds of the lineal feet of frontage – Carlson v Kitsap County, 213 P 930, 124 Wash 155

Noncompliance with statutory rather than constitutional requirement

(1) Where the defect or irregularity complained of consists only of a noncompliance with a statutory requirement with which the legislature could have dispensed, and no constitutional provision is violated failure to resort to the statutory remedy for contesting or correcting the assessment bars any other attack — Anderson v Board of Road Com'rs of Oakland County, 256 N W 578, 268 Mich 643

(2) So, where the statute required both posting and publication of notice although the constitution required only one notice, objection cannot be taken to the assessment six years after completion of the improvement, where proper notice was posted, although published notice was defective — Fuller v Union Lake Land Co, 214 N W 412, 239 Mich 437

Facts held to show estoppel

(1) Owner of property assessed for paving purposes, who signed petition for paving of highway and made no objections to pavement or assessments, was estopped later to complain about assessment — Webb v Scott, 176 So 442, 129 Fla 111

(2) Other facts — Elston v King County, 34 P 2d 906, 178 Wash 210— 29 C J p 747 note 38 [b]

Facts held not to show estoppel

Abutting property owner and those represented by her and all others similarly situated who have not slept too long on their rights, and who have not ratified highway improvement proceedings by paying assessments without protest, cannot be estopped to attack validity of petition on jurisdictional grounds because of lack of statutory requisite number of signatures — Elston v King County, supra

ments "notwithstanding any irregularity in form and substance in the making thereof" does not apply to fraud in the proceedings and cannot cure defects of such character[46] Where the legislature, by validating act, ratifies and adopts assessments not spread by it, but which it could have originally spread, the assessments become legislative assessments[47] Whether or not a statute is intended to cure particular defective assessments is a matter of construction[48]

§ 303. —— Reassessment and Additional Assessments

Where authority to do so exists, new or additional assessments may be levied to correct prior irregular or defective assessments, or to apportion the benefits more equitably, or to meet increases in the cost of the improvement Proceedings for reassessment are substantially the same as those for original assessment.

Except in so far as it is granted by constitutional or statutory provisions, a county court has no authority to change assessments[49] Authority usually exists to reassess,[50] when prior assessments are invalid or irregular,[51] or have become inequitable by reason of the construction of the road,[52] or at stated intervals,[53] and statutes authorizing such assessments are valid[54] So a reassessment or an additional levy may be made when the amount raised by the original assessment proves inadequate,[55] as in the case of a change in the plans of the road increasing the value of the lands assessed[56] Conversely, where the prior assessment is rendered excessive by reason of contributions by the state, the assessments may be required to be reduced, although not below a sum sufficient, when added to the state's contribution, to pay the district's currently maturing obligations[57] The omission in an assessment of lands benefited may be subsequently corrected[58] Where, however, the statute requires all lands benefited to be assessed, the assessment establishes the fact that the designated lands are benefited to the extent indicated, and a further assessment cannot be levied on other lands of the same owners as long as the original assessment stands[59] The power to appoint new

Land formerly owned by United States

A statute, if construed as permitting reassessment of road improvement benefits, so as to include land owned by United States at time of road improvement, but subsequently alienated, is unconstitutional -Lee v Osceola & Little River Road Improvement Dist No 1 of Mississippi County, Ark, 45 S Ct 620, 268 U S 643, 69 L Ed 1133, reversing Lee v Osceola & Little River Road Improvement Dist, 257 S W 370, 162 Ark 4

assessors continues until a valid assessment is made[60] It has been held that, where an assessment has been adjudged void, and canceled by order of court, no right of reassessment exists in the absence of statutory authority[61]

Where a statute gives property owners the right to petition for a reassessment, the remedy of an owner against an allegedly inequitable assessment is by such petition, rather than by a proceeding to restrain construction of the road[62] On refusal of such an application, a landowner may compel a reassessment by mandamus[63] or, in a proper case, by a suit in equity[64]

The additional levy or reassessment, like the original assessment, can be justified only on the theory of benefits to the property,[65] and such benefits must not be exceeded[66] Under statutory provisions to such effect, the total amount of benefits assessed must not be diminished[67] below the amount of the district's obligation[68] A reassessment must be made in such a manner as to leave undisturbed contractual rights of third persons, which have intervened[69]

The proceedings on reassessment are substantially the same as those provided for levying the original assessment[70] Such reassessment is usually required to be on notice[71] to persons interested,[72] and on the hearing no question is involved which would not be pertinent if made against the original assessment[73] In the absence of a statutory requirement, a second order by the county court levying the taxes is not necessary on reassessment[74] The proceeding is not one for the recovery of money within the statute of limitations[75]

§ 304. —— Collection, Enforcement, and Lien

a In general
b Proceedings for enforcement or collection
c Sale of property

a. In General

Assessments are liens on the property assessed and must be paid in accordance with the statutory requirements, and collected by authorized officers Pursuant to statutory authority, payments made by a landowner may be recovered back to the extent that they were illegally demanded of him.

Bond

A statute, providing that no injunction shall issue to stay work on any road or collection of any tax, unless party applying therefor shall first give a prescribed bond, applies to suits seeking to stay the construction of an improvement or which question the general right to collect taxes due an improvement district, but does not apply to a suit of an individual property owner, who seeks a correction of his own assessment or an adjustment or reassessment of general benefits, but where suit is prematurely brought, there is no occasion for a bond, even though the statute does apply in the latter case —Road Improvement Dist No 3 v Morris 241 S W 389, 153 Ark 635

Assessments constitute liens on the property assessed,[76] and do not create a personal liability against the landowner,[77] in the absence of a statute to that effect,[78] and in some jurisdictions it has been held that the legislature has no power to impose any personal liability.[79] The time when the lien attaches,[80] and its priority over other liens,[81] are matters of statutory regulation. It has been held that to the extent that an assessment is valid, its lien is superior to a mortgage which predates it.[82] Under a statute authorizing counties to pay the cost of highway improvements by special assessments and to issue bonds and levy taxes, the lien of the special assessment certificates held by the county and against which the bonds are issued is not extinguished by payments on such bonds,[83] and the county cannot, and cannot be authorized legally to, release the liens of such certificates until the bonds are fully paid or full payment is satisfactorily provided for.[84]

Payment. Local assessments for highways must be paid in the mode provided by statute,[85] and within the time limited.[86] Payment of an assessment is void unless made to the proper officer.[87] Where the statute provides for the issuance of certificates for work done, which shall constitute liens on the property assessed and be assignable as promissory notes, payment of a certificate sought to be foreclosed by an assignee thereof is no defense unless made before the assignment or before notice thereof,[88] and a mere plea of payment, without more, is insufficient.[89]

Collecting officers. Road improvement assessments should be collected by the officers designated by statute,[90] as, for example, the county collector[91] or treasurer,[92] and it has been held to be the duty of the district commissioners to see that delinquent taxes are collected.[93] For failure of the collector to turn over the amount collected to the person entitled thereto or to account for it, the collector[94] and his sureties[95] are liable. In a proper case, a federal court has jurisdiction to appoint a receiver

Sheriff and collector

While the constitution and statutes make the sheriff ex officio collector of taxes, special assessments are not within the purview of these provisions, and, in the absence of any other statute, the sheriff will be under no duty to collect special assessments, but, where a statute expressly provides that special assessments shall be collected by the collector, one who holds the office of sheriff and collector is bound to collect the assessments.—Moose v. Taxes after abandonment of district

Where the highway district was abandoned and a receiver appointed to wind up its affairs, and the chancery court decreed a levy on the property within the district to pay preliminary expenses, and directed the county collector to collect such levy, the collection of such taxes by the collector was "by virtue of office" within the terms of his fidelity bond, so as to render his sureties liable for his failure to turn over or account for the sums collected, and the receiver

of a road improvement district to collect assessments to the extent necessary to pay outstanding bonds, in accordance with the provision of the statute creating the district that in case of default of such bonds the assessments should be collected by a receiver [96]

Penalties, interest, and attorney's fees. In the absence of an applicable statutory provision, a penalty for delinquency in the payment of the taxes may not be collected,[97] but such penalties may be imposed where there is authority therefor [98] Under some statutes, interest[99] at the rate permitted by statute,[1] and a charge for attorney's fees,[2] may also be imposed

Release from liability Under a statute providing for the payment of a road district's debts by the state, but not providing for reimbursement of landowners who had paid their assessments, the district may waive the collection of delinquent assessments, and is not required to enforce their collection by sale of the properties and to distribute the proceeds among the landowners of the district [3]

Recovery back of payments Pursuant to statutory authority, a landowner who has paid a special assessment may recover back as much of the payment as he shows to have been illegally, inequitably or unjustly demanded of him,[4] and the right to recover excessive payments has been held to exist even in the absence of express statutory provisions [5] So, where a statute requires a reduction of assessments within certain limits in proportion to contributions received from the state toward the cost of an improvement, a property owner whose assessment was not so reduced and who had paid the original assessment under protest may recover the amount by which the assessment was excessive [6] Under a statute so providing, county and state road funds may be applied to the reimbursement of owners of designated classes of property who have paid benefit assessments for the construction of state highways,[7] but the mere fact that the district has

Effect on power to enforce

The refunding of county road bonds and the making of contributions by state under act of 1941, authorizing the refunding to counties of moneys expended in building roads taken over by state, did not affect authority of county to collect delinquent tax liens in amounts due under special assessments pursuant to act of 1925, authorizing certain counties to pay cost of improving highways by special assessment, but, in view of the refunding act, the present enforcement of such special assessment liens may be deferred by court on reasonable conditions until legislature perfects its purpose with reference to securing payment or satisfaction of bonds for which special assessment ad valorem taxes are pledged —Hillsborough County v Bregenzer, Fla, 10 So 2d 498

Assessments payable in installments; payment in full

Where the assessment is payable in annual installments, a landowner paying the assessment in full is limited to reimbursement annually as one paying assessment in installments, and a taxpayer cannot receive a refund of assessment for hard surfaced roads and also be relieved from paying the assessment due in such year —State v Horn, 270 P 597, 126 Kan 591

Limitation of landowners entitled to reimbursement

(1) Limiting reimbursement to those whose land is situated within one mile of highway is not ineffectual —State v Horn, supra

(2) Act authorizing reimbursement of certain towns for paving and providing for abutting property owners' sharing in reimbursement in one specific town did not authorize abutting owners to share in reimburse-

been reimbursed from such funds does not require reimbursement of the landowners in the absence of statutory provision therefor.[8] Taxes paid by property owners in a city under assessments erroneously levied against their property instead of against property in the township outside of the city cannot be recovered after the lapse of many years, where to permit such recovery and to assess the property that should have been assessed would result in even greater inequities.[9] Under some statutes, a payment cannot be recovered unless it was made involuntarily;[10] and a mere protest against the validity of the assessment with notice that the taxpayer intends to bring suit to recover the payment is not enough.[11] Under some statutes, where the taxpayer has paid the assessment, he may obtain a refund of the amount paid on certificate of the road supervisor that he has worked out his tax,[12] and, where such refund has been made in reliance on a fraudulent certificate, the county may sue to recover such refund.[13] Conditions precedent to the maintenance of an action to recover payments must be complied with,[14] and such compliance must be alleged in the petition.[15]

b. Proceedings for Enforcement or Collection

Proceedings for enforcing the payment of delinquent special assessments are governed by statutory provisions and general rules.

Proceedings for enforcing the payment of delinquent special assessments are largely governed by special statutory provisions.[16] Even though the assessment is a lien, such lien can be enforced and the bills collected only by an action in court.[17] The common method of enforcing collection is by a proceeding to foreclose the assessment lien, which is in the nature of a proceeding in rem.[18] More than one system for enforcement may, however, be available,[19] and some statutes provide not only that the assessment shall be a lien on the land, enforceable by sale, but that it shall also be collectable by action against the owner.[20]

Who may sue Under appropriate statutory provisions, proceedings to enforce the collection of delinquent taxes, as by foreclosure of the lien, may be brought by the road district[21] or by the commissioners thereof.[22]

Time to sue Proceedings for the collection of delinquent taxes must be brought within the time prescribed by statute.[23] An action commenced aft-

In the absence of acts amounting to duress or coercion, where there is no legal compulsion, or at least proceedings legally instituted by the officials, or threatened to be instituted, for distraint, or to subject the property on which the assessment was made to sale for the collection of such assessment, or amounting to a threat to institute such proceedings and thus subject the relator to costs and expenses, a payment cannot be said to be involuntary—State v Board of Com'rs of Mercer County, supra

er the tax has become delinquent is not premature.[24]

Defenses. The availability of various matters as defenses to proceedings to enforce collection of delinquent taxes has been considered by the courts[25]

Pleadings The complaint or petition for the enforcement of the collection of benefit assessments must contain all the necessary allegations, such as allegations as to the organization of the district, nonpayment of the taxes, a description of the lands proceeded against, the amount chargeable to each tract, and a prayer for foreclosure[26]

Evidence In an action to collect taxes due for a road improvement project, general rules of evidence are applicable.[27]

Judgment. The judgment may properly include a charge for attorney's fees where it is authorized[28] Under a statute so providing, the judgment must include the amount of taxes, the statutory penalty, interest, and costs[29] The imposition of an unauthorized penalty is error[30]

Review. On appeal from a judgment in a suit to enforce the collection of delinquent taxes, the appellate court will not consider any questions not properly within the issues of the case.[31]

c. Sale of Property

The lien may be enforced by a sale of the land in accordance with statutory provisions.

The lien of a special highway assessment may be enforced and foreclosed by a sale of the property[32]

Property subject. Land, title to which rests in the district by virtue of the district's purchase of it on a tax sale, is exempt from sale for taxes assessed for the period during which title is so held. A decree authorizing such a sale, although valid on its face, is not conclusive, and a deed executed pursuant to such a decree and sale is invalid[33] Where, after a special assessment had become a lien on certain lots, a city purchased them for school purposes, the land was regarded as being used by a state agency for state governmental purposes, and hence was exempt from sale for the delinquent taxes[34] It has also been held, however, that, where

25. Defenses held available

(1) Where excessively disproportionate assessment for highway improvement was fraudulently and intentionally made against railroad, it may defend action for assessment on that ground —Hatch v Michigan Cent R Co, 212 N W 950, 238 Mich 381

(2) Determination by county court on facts in ordering improvement does not preclude property owner from asserting contrary, when sued on tax bill —Mudd v Wehmeyer, 19 S W 2d 891, 323 Mo 704

(3) An owner of land abutting on a public road in county could question correctness of paving certificate issued by county either on ground that certificate was based on front footage greater than that occupied by abutting land involved, or that cost of improvement was less than amount on which certificate was based —Evans v Hillsborough County, 186 So 193, 135 Fla 471

(4) As respects the contention that defense of invalidity of assessment could not be set up in suit to enforce tax bills on the ground that the tax bills had been sold to innocent purchasers, an allegation in the answer that plaintiff road district was not owner of tax bills sued on was not an admission of sale thereof —Platte City Ben Assessment Special Road Dist of Platte County v Couch, 8 S W 2d 1003, 320 Mo 489

(5) Other defenses —Rodgers v Hanchett Bond Co, 116 So 15, 94 Fla 1238

Defenses held not available

(1) Property owners, given opportunity to challenge correctness of assessments when list was filed and notice published, cannot challenge them in suit to enforce tax lien — Henderson v Road Improvement Dist No 1 of Hot Spring County, 283 S W 39, 171 Ark 8

(2) In an action by a road improvement district against delinquent lands for unpaid assessments, allegations of the property owners that the sale of bonds with which the improvement was made was void as a sale for less than par is no defense where the improvement was constructed as provided by statute, since the district, having received the benefit of the construction, must pay for it, even though the bonds were illegally sold —Road Improvement Dist No 1 of Independence County v Delinquent Lands, 249 S W 367, 158 Ark 58

28. Amount held not excessive

the land has been sold to the state for nonpayment of general taxes, a sale thereof for delinquent improvement taxes is subject to the paramount right of the state [35]

Proceedings for sale. Statutory provisions regulating the procedure for the sale of lands for delinquent taxes[36] as, for example, provisions as to the giving or publication of notice,[37] or as to the description of the land in the warning order, decree, or notice of sale, must be complied with,[38] if they are not, the decree and sale are void [39]

Manner of sale Only the land proceeded against may be sold [40] Where benefits are assessed severally against lands, and such lands are sold for delinquencies, each tract must be sold for the taxes separately assessed, and multiple descriptions severally assessed cannot be grouped and sold in solido [41] Under a statute providing that lands sold for delinquent assessments be sold for "taxes, penalty, interest, and costs," it is improper to order a sale for less than the entire indebtedness as so fixed by law,[42] and a purchaser is charged with notice that his bid must include all such items in order to make the purchase effective [43]

Confirmation, correction, or setting aside While ordinarily a decree confirming a sale will be presumed to be valid and is not subject to collateral attack, where the recitals in the decree affirmatively show that the statutory prerequisites to a valid sale were not complied with, the presumption of validity falls and the decree may be collaterally attacked [44] A sale may be collaterally attacked and set aside where it appears on the face of the report that, contrary to the statutes, several tracts of land, separately assessed, were sold in solidum, or for less than the total obligation, including taxes, penalty, interest, and costs [45] Where land has been properly decreed to be sold and a valid sale has been had, subsequent clerical errors or misprisions may be corrected. Thus, if the sale was valid, a clerical error of the court commissioner incorrectly describing the land sold in his report of sale and in the execution of the deed may be corrected, but, if the land was insufficiently described in either the warning order, the decree of sale, or the notice of sale, no confirmation can cure the invalidity of the sale.[46] Under a statute so providing, where the sale proves invalid because of any irregularity in the proceedings, the purchaser may recover from the owner the amount of taxes, interest, and penalty due at the time of the sale with interest from that time, and any additional taxes paid by the purchaser thereafter [47]

Purchase and resale by district. The district may itself purchase the land on foreclosure sale, and, when such sale is confirmed, the district becomes the absolute owner of the land, although no credit can be claimed toward the indebtedness for the improvement until revenue is raised by the resale of the land [48] The purchase by the district does not destroy the uniformity of assessment on the lands benefited, since the land remains subject to sale for the amount of the assessments on it,[49] and it has been held that the land may and should be resold, so that it may again be placed on the tax books and bear its proportionate share of the cost of the improvement, thus avoiding the imposition of a disproportionate share of the burden on the nondelinquent lands [50] On a resale of the land by the district, the purchaser acquires no better title than the district has[51] at the time the deed is executed [52]

So, where a sale to the district is void because the district had title to the land by virtue of a prior tax sale at the time the taxes for which the second sale was had were assessed, a purchaser from the district acquires no title.[53]

Rights of purchaser. The purchaser at the foreclosure sale becomes a party to the proceeding and is entitled to the benefit of such assistance from the court as is necessary to make its decree effective.[54] Thus, after the expiration of the period of redemption, the purchaser may obtain a writ of possession.[55]

Redemption. The existence of the right of redemption and the duration of such right are governed by applicable statutory provisions.[56] A statute extending the time for redemption may apply to a sale held theretofore where the district was the purchaser,[57] and, if it becomes applicable while the district has title, it continues to apply after the district resells the land to another.[58] A statute diminishing the period of redemption may be applied to any subsequent sale proceedings, even in a district created before its enactment.[59] Where a district acquires title at a tax sale, it should require the payment of all subsequent taxes on redemption.[60]

§ 305. —— Disposition of Proceeds

The proceeds of special assessments must be expended as directed by statute

The money collected by special or local assessments must be expended in accordance with the provisions of the statute.[61] One who has been a party to the mismanagement of the funds cannot take advantage of such misapplication.[62]

§ 306. Poll Taxes

Poll taxes for highway purposes are imposed by statute in a number of jurisdictions

Poll taxes for road purposes are sometimes imposed by statute,[63] with specified exemptions,[64] on able-bodied men[65] who are residents of the taxing district,[66] and under some statutes an employer, after notice or demand, is made liable for a tax imposed on his employee,[67] provided the employer is indebted to the employee at the time of notice or subsequently becomes indebted to him.[68] Statutes of this character are generally held to be valid.[69]

(1) A statute imposing a road tax of four dollars on persons between the ages of twenty-one and twenty-five years, without privilege of doing road work in lieu thereof, is not violative of Const Amendm 3 limiting the taxes which may be levied for road purposes to three mills, this not being strictly a tax but rather an exercise of the police power, and neither is it violative of other constitutional provisions—Harper v Brooksher, 240 S W 729, 153 Ark 480

(2) A statute exempting from a state-wide poll tax residents of cities of the first class is not invalid—City of Topeka v Wasson, 168 P 902, 101 Kan 824—Shane v City of Hutchinson, 127 P 606, 88 Kan 188

(3) The fact that the tax is imposed on men only does not violate a constitutional provision that male and female citizens shall enjoy equal-

A poll tax, however, cannot be imposed without statutory authority,[70] and, where such authority is conferred, it can be exercised only in accordance with the constitution.[71] The statutes prescribe the method of levying poll taxes,[72] and the remedies for collecting and enforcing them.[73] The statutory remedy is exclusive,[74] but, where the statute provides two methods of enforcement, either may be pursued.[75] A provision that a prosecution for nonpayment shall be brought within a specified time has been held to be merely directory.[76] The usual rules as to parties,[77] pleadings,[78] and other matters of practice[79] are applicable to proceedings to enforce poll taxes. The statute may impose a fine or penalty for nonpayment of the tax,[80] or, in lieu thereof, require the debtor to work on the road.[81]

Collector's bond. Under statutes requiring him to do so, a collector of road capitation taxes should give a bond with sureties conditioned for the faithful performance of his duties.[82]

§ 307. Work on Roads by Taxpayers

In some jurisdictions the statutes give the taxpayer the right to pay road taxes in labor on the highways, or subject citizens to highway labor with the privilege of commuting such duty in money.

A road tax is not payable in labor unless the statutes so provide,[83] nor can the authorities of a town or other political subdivision compel citizens to work on the highways unless they are given power to do so by the legislature,[84] and such power will not be implied from a mere delegation of power to control and regulate highways,[85] although there is authority to the contrary.[86] In many jurisdictions, however, the statutes give the taxpayer the right to pay road taxes in labor on the highway,[87] or subject citizens to highway labor, with the privilege of commuting such duty in money;[88] and such statutes are valid.[89] The provision found in some statutes requiring citizens to furnish, for a limited time, teams, wagons, and implements suitable for road work has also been held valid,[90] although in some jurisdictions such requirement has been held to violate a constitutional provision forbidding the taking of property for public use without just compensation,[91] and, even where such provision has been held valid, a requirement that owners of teams shall furnish the necessary feed there-

for has been held to constitute an unlawful appropriation.[92] The statutory liability to road work does not, according to the weight of authority, constitute a poll or capitation tax[93] within constitutional and statutory provisions relating to such taxes,[94] nor is it, indeed, a tax at all in the proper sense of the word,[95] but it is a public duty analogous to military or jury service.[96] Some authorities, however, have held that whether a statute requires labor, commutable in money, or levies a money tax which may be paid in labor, it imposes a poll or capitation tax, subject to constitutional limitations in respect of such taxes.[97] Persons employed in opening a road in response to a summons from the highway officer are not personally liable to one whose lands are trespassed on in the doing of the work.[98]

Irregularities in the doing of the work may be waived by the proper highway authorities,[99] and, if nonresident owners of land in a township have worked out their road taxes, it is too late for the authorities to object that such owners had no right to pay their taxes in labor.[1]

Construction of statutes. General rules governing the construction of statutes apply to the construction of statutes which subject citizens to highway labor.[2] Such statutes, however, are to be strictly construed in favor of the citizen whose labor is sought to be taken for a public use.[3]

Liability and exemption. Generally the statutes impose liability to perform road labor only on able-bodied[4] male[5] residents,[6] between specified ages,[7] with specified exemptions,[8] such as men engaged in work of a public nature.[9] A member of a fire company is exempt under some statutes,[10] but the exemption cannot be claimed under a statute exempting firemen from military or jury service and from the payment of a poll tax;[11] and a constitutional provision prohibiting local laws exempting from road duty repeals an existing local act exempting firemen.[12] No person within the terms of the statute can avoid road duty in the absence of some provision expressly or impliedly exempting him.[13] Thus, where there is no exemption, a person cannot excuse himself on the ground of age,[14] or of physical inability,[15] or on the ground that he has no occasion to use the road,[16] or has been previously assigned to another highway.[17] A person employed on a railroad is not exempt from road duty in the absence of a statute so providing,[18] and in some jurisdictions an exemption of such employees has been held unconstitutional as class legislation,[19] although there is authority to the con-

trary.[20] The right to exemption must exist at the time of the summons,[21] and must clearly appear.[22] The determination of the question of exemption may be intrusted to the court,[23] or may lie in the exclusive determination of some specified officer or board.[24] Under some statutes a certificate of exemption is required,[25] in which case the certificate is prima facie evidence of the facts stated therein.[26]

Under some statutes the inhabitants of incorporated towns and cities cannot be forced to work the roads outside the town or city limits,[27] and one who has paid a highway tax in one municipality as a substitute for road duty is not liable in another municipality during the same year.[28] The fact that the county is indebted to one liable to the county for road duty will not excuse him from such duty.[29] Under some statutes the obligation to perform road labor is confined to work on the road and does not include work outside the right of way.[30]

Proceedings to compel work on the highway must comply substantially with all the statutory prerequisites[31] as to the assessment,[32] the roads to be worked,[33] and the assignment and apportionment of labor,[34] and it is not for the taxpayer to dictate the kind of work or the time and place of performance.[35] An assessment is not invalid, however, because the authorities require less work than they may lawfully require under the statute.[36]

Notice[37] for the requisite time,[38] and in the prescribed form,[39] naming a proper place and time for the appearance of the person called to labor on the highway,[40] and properly served,[41] is commonly essential to the validity of the levy, although want of notice[42] or defects therein[43] may be waived. In some jurisdictions it has been held that failure to give notice to work out a road tax will not release land from the lien of the tax,[44] and that the statutory requirement of notice to residents only will not invalidate the tax assessed on lands of nonresidents.[45] So it has been held that lack of notice to work out part of the tax is no reason for restraining collection of the entire tax.[46] The fact that the notice calls for a longer period of labor than defendant is liable for will not excuse his failure to work for the lawful time.[47]

§ 308. —— Civil Liability for Failure or Refusal to Work

Failure to work the roads may subject the delinquent to a fine or penalty which may be collected by civil action.

of the fine may be imposed.[50] Defendant may show in defense of the action want of legal qualification on the part of the commissioners to act[51] or failure of the authorities to prescribe the amount to be paid in lieu of labor,[52] but it is no defense that the place where defendant was ordered to work was not a legal highway.[53] The statute of limitations begins to run against an action to recover the penalty from the day of the default.[54] Questions of jurisdiction,[55] the party plaintiff,[56] the pleadings,[57] notice,[58] and hearing[59] are governed by statute. The presumption in favor of official acts obtains in actions of this nature,[60] as does the rule governing civil actions generally, that the burden of proof is on the party having the affirmative.[61]

§ 309. —— Criminal Responsibility for Failure or Refusal to Work

In a number of jurisdictions, the statutes make the failure or refusal to do road work a criminal offense.

In a number of jurisdictions, the statutes make the failure or refusal to do road work a criminal offense,[62] and such statutes are not unconstitutional as providing for imprisonment for debt.[63] To constitute the offense under some statutes the failure to work must have been willful.[64] Accused may defend by showing any legally sufficient excuse for his delinquency,[65] as that the road on which he was warned to work was not a public highway,[66] or that an appeal by defendant from the order establishing the road was pending at the time he was summoned to work,[67] or that he was not liable to road duty.[68] A tender of payment in lieu of work, however, made to a person not authorized to receive it, is no defense.[69]

In some jurisdictions the state may elect whether to prosecute under the criminal statutes or under ordinances of the county commissioners' court.[70] The prosecution must be brought by the proper officer[71] before a tribunal having jurisdiction,[72] and must be based on a sufficient complaint, information, or affidavit,[73] warrant,[74] or indictment,[75] and

the proof must conform to the facts charged.[76] Exceptions in the statute which form a part of the description of the offense,[77] such as the payment of money in discharge of the liability,[78] must be negatived; but it is not necessary to negative defensive matters which are not part of the definition of the offense.[79] If willfulness is not an element of the offense it need not be alleged.[80] Any evidence relevant to the issues, if otherwise competent, is admissible.[81] As in other criminal prosecutions, the burden of proof is on the prosecution to establish defendant's guilt[82] beyond a reasonable doubt.[83] Questions of fact arising on conflicting evidence,[84] such as defendant's physical capacity,[85] are for the jury, and questions of law are for the court.[86] Constitutional provisions limiting the right of appeal in criminal prosecutions are applicable to prosecutions under the road law.[87]

§ 310. —— Collection of Taxes Not Worked Out

Taxes not worked out may be collected in money if the taxpayer has been given an opportunity to work out his taxes.

In those jurisdictions in which the taxpayer is allowed to work out his taxes, opportunity to do so must commonly be given to him.[88] Unless such opportunity is given, an injunction will lie to restrain collection of the taxes in money,[89] or, if the tax is collected, the taxpayer may sue to recover the amount paid.[90] Where opportunity has been given to work out the tax and there is a failure to do the work, such tax may be collected in money by the supervisors or collector of taxes,[91] on demand,[92] and notice of time and place for payment,[93] and in an action to recover for the amount of work required to be done, the petition must allege facts showing defendant's liability under the statute;[94] but a refusal to work, based on the failure of the authorities to comply with the statute, will not authorize the collection of the tax in money.[95]

§ 311. Rights and Remedies of Taxpayers

Generally taxpayers may invoke the protection of the courts against illegal acts of the highway authorities adversely affecting their interests as taxpayers. In a proper case they may sue on behalf of the highway district or intervene in a pending suit.

While taxpayers as such cannot sue in respect of acts of the highway authorities, even though unauthorized or illegal, which do not affect their rights, or injure them, as taxpayers,[96] as a general rule, subject to statutory qualifications,[97] they are entitled to invoke the protection of the courts against illegal and unauthorized acts of the highway authorities adversely affecting their interests as taxpayers.[98] Thus an interested taxpayer may bring

Reason for rule

The right of taxpayers to resort to equity to prevent misapplication of road funds is based on the taxpayers' equitable ownership of such funds and their liability to replenish the public treasury for the deficiency which would be caused by the misappropriation —Miller v Hale, 139 N E 411, 308 Ill 275

Funds paid to county by highway department as compensation for state road construction work performed by county under contract with highway department were, in equity, county funds, illegal disposition of which taxpayer could sue to enjoin, whether or not funds were deposited in name of county, where all parties concerned knew of their source —McGinty v Pickering, 179 S E 358, 180 Ga. 447.

24. Obtaining permission to sue

(1) Under the statutes in some jurisdictions a taxpayer seeking to enjoin a state officer from disbursing public funds for highway purposes must, by a petition, show that there is reasonable ground for filing the bill and obtain leave for that purpose —Hill v La Salle County, 158 N E 112, 326 Ill 508

(2) Petition for leave to file bill to enjoin county construction of public road held improperly denied —Hill v La Salle County, supra

Exhausting other remedies

Taxpayers showing no special legal injury to themselves by highway commission's changing location of highway could not restrain expenditure of public funds before applying to all officers having duty to interfere — Trahan v State Highway Commission, 151 So 178, 169 Miss 732

Particular matters held not conditions precedent

(1) A suit by citizens of road district against commissioners' court to compel defendants to compensate district for bonds voted by latter and made void by county election, being a suit, not against the county, but to enforce a ministerial act, it was not necessary that plaintiffs file with commissioners' court a statement of their demand prior to instituting suit —Maroney v Feagin, Tex Civ App, 264 S W 105

(2) Demand on state officials to sue to annul alleged void highway construction contracts was not necessary, to entitle taxpayers to sue, where state officials' alleged participation in collusive arrangement was such that their prosecution of action could not reasonably be expected —Regan v Babcock, 247 N W 12, 188 Minn 192

State is necessary party in suit by taxpayers to cancel contract of state highway commission, and omission was not cured by appearance of attorney general for highway commission —Sherman v Cage, Tex Civ App, 279 S W 508

County as necessary party

(1) In a suit to restrain the performance and execution of a contract between the county commissioners' court and a construction company for road construction work, the county, being materially affected by the suit, was a necessary party, under Rev St art 1835, providing that all suits brought by or against any of the counties, or incorporated cities, towns, or villages shall be by or against it in its corporate name — Allison v Ellis, Tex Civ App, 248 S W 814

(2) In suit by citizens of road district to compel commissioners' court to compensate district for bonds voted by it and made void by a county election, county was not a necessary party, act of compensating district being purely ministerial one - Maroney v Feagin, Tex Civ App, 264 S W 105

United States secretary of agriculture was proper and necessary, but not indispensable, party in taxpayers' suit to enjoin county supervisors from acquiring right of way in furtherance of road contract with secretary —Board of Sup'rs of Apache County v Udall, 1 P 2d 344, 38 Ariz 497.

50. Or—Grimberg v Columbia Packers' Assoc, 83 P 194, 197, 47

ent with the idea of a covenant or agreement for freighting accommodations aboard ship.[51] It has been defined as a reward or compensation paid for the possession or use of personalty;[52] also the price or compensation for labor and services;[53] the price, reward, or compensation paid, or contracted to be paid, for personal service or for labor;[54] and is always construed as referring to payment or receipt of compensation, as distinguished from a gratuitous service or nonremunerative service.[55]

The noun has been held equivalent to, or synonymous with, "compensation," see Compensation 15 C.J.S. p 654 in Pocket Parts, "salary,"[56] and "wages."[57] It has also been compared with, or distinguished from, "compensation" see 15 C.J.S. p 655 note 62, "salary,"[58] and "wages"[59]

Phrases in which the word occurs are set out in the note.[60]

As a Verb

Applied to persons, the verb means to engage a man to temporary service for wages, or to engage in service for a stipulated reward;[61] and sometimes, although perhaps less accurately, it is applied to the securing of professional services, as where one is said to hire a lawyer, a doctor, or a person of that class.[62] It is also properly applied to engaging the use of property;[63] and has then been defined as meaning to lend property, other than money, for a compensation;[64] to procure the temporary use of an article for compensation; and, in its secondary meaning, to grant the temporary use of an article for compensation.[65] In a particular connection it is the correlative of "let"[66]

"Hire" has been held equivalent to, or synonymous with, "appoint" see 6 C.J. p 87 note 8; and "hire" and "hired" have both been held equivalent to, and also distinguished from, "employ" and "employed," respectively see 30 C.J.S. p 224 notes 71, 72, p 225 notes 98, 99.

Phrases employing the word are set out in the note.[67]

Hiring. It has been said that the term implies a request and a contract for a compensation;[68] and

HOLD.

As a Noun

In old law, tenure, a word constantly occurring in conjunction with others, as freehold, leasehold, copyhold, etc, but rarely met with in the separate form [33]

As a Verb

——**In General.** It has been said that there are innumerable legal definitions of the word and that obviously its meaning depends on the context or its relation to other parts of the whole instrument in which it is used.[34] In its primary sense, the word means to confine, to keep fast, to restrain from escape, or to stop;[35] to detain,[36] to hold back, to withhold;[37] to retain,[38] to retain in one's keeping;[39] also to have,[40] to keep,[41] to reserve [42]

In a derived sense, when spoken of a court, to adjudge or decide, particularly to declare the conclusions of law reached by the court as to the legal effect of the facts disclosed [43]

——**Technical Sense.** As a technical term, "hold" embraces two ideas, that of actual possession of some subject of dominion or property, and that of being invested with legal title or right to hold or claim such possession,[44] and, while it imports ownership and time of ownership,[45] the interpretation of the word may be so controlled by the context as to require that it be construed to signify to have in possession or under control merely,[46] and so it may be employed as meaning to be in possession of,[47] to have exclusive control, direction, and superintendence;[48] to maintain possession of or authority over; not to give up or relinquish;[49] or to occupy;[50] also to derive title to,[51] to own, or have title to,[52] and to possess by lawful title [53]

With reference to real estate, the word "hold" has a well defined meaning,[54] but in seeking its mean-

ing it must be looked at in connection with the context.[55] In its primary significance, it means to enjoy and possess;[56] and includes the twofold idea of actual possession of the property and being invested with the legal title.[57] It has to do with the duration or tenure of the estate rather than with the mode of acquisition;[58] and sometimes is not designed to measure the character of the possession.[59] The term has been held equivalent to "own"[60]

Held The preterit or past participle,[61] or the perfect participle,[62] of "hold." It has been said to have no primary or legal technical meaning,[63] but the meaning to be given it is to be determined largely by the connection in which it is used,[64] that is, not simply from its form, but from its relation to other parts of the instrument, and it must be construed, if possible, so as to give force and effect to all its parts[65] The term is constantly applied to cases of possession had of anything that is the subject of property[66] It has been said, however, that, while the word implies ownership, it does not always imply possession.[67]

In a different sense, it has been defined as meaning construed, deemed, or interpreted,[68] and, with reference to the decision of a court, "decided"[69]

"Held" has been said to be equivalent to, or synonymous with, "acquired" or "acquired and held" see Acquire 1 C.J.S. p 919 note 43.1, p 920 note 71.1 in Pocket Parts, "detained" see Detain 26 C.J.S. p 1249 note 15 1 in Pocket Parts, and "owned."[70]

Holden. Earlier form of the past participle of "hold," defined as meaning beholden, bound, or under obligation,[71] as in the phrases set out in the note[72]

Holding The act of keeping or retaining; also that which is held, hence a tenure.[73] The term describes and implies an act, an event, and circumstance,[74] and is said to embrace any tenure involving title[75]

In English law, a piece of land held under a lease or similar tenancy for agricultural, pastoral, or similar purposes.[76]

In Scotch law, the tenure or nature of the right given by the superior to the vassal[77]

§ 1. Definitions and Distinctions

The terms "holiday" is used to designate a consecrated day, or a day of recreation or amusement and of cessation from work.

The term "holiday" is sometimes used as meaning a consecrated day, or a religious festival,[1] but it may also mean a day on which the ordinary occupations are suspended, or a day of exemption or cessation from work or of festivity, recreation, or amusement,[2] and not a day of rest and religious devotion,[3] and a legal holiday is a day designated and set apart by legislative enactment for one or more of such purposes[4]

General and special holidays A day set apart by the governor of a state as a legal holiday therein to be observed by all people generally is a general holiday,[5] and not a mere special holiday within the meaning of statutes defining a special or limited holiday as one applying only to special classes of business or persons.[6]

Ecclesiastical and state holidays The distinction between ecclesiastical and state holidays, recognized in England, does not obtain in this country[7]

"Dies non juridicus" or "nonjudicial day" are terms which were used originally to describe Sundays and some particular festivals which the church by proclamation ordained should not be profaned by the tumult of forensic litigation,[8] but today they mean simply those days on which process cannot ordinarily issue or be executed or returned, and on which courts do not usually sit[9] The expression "legal holiday" has been held to import a dies non juridicus,[10] and as used in some constitutional provisions the term "nonjudicial day" or "dies non juridicus" has been held equivalent to the expression "legal holiday,"[11] but, as shown infra § 5, a legal holiday, as such, is not necessarily a dies non juridicus.

§ 2. Creation and Designation

Holidays are ordinarily created by legislative act or executive proclamation.

Holidays may be created and designated as such by statute, and ordinarily a day cannot become a legal holiday without statutory sanction,[12] although it has been held that a holiday, at least a holiday

in the general sense as distinguished from a legal or statutory holiday, may be created by general acceptance and observance,[13] or observance amounting to a common-law custom.[14] Under some statutory provisions a holiday may be created by declaration or proclamation of the governor of a state[15] or the president of the United States.[16]

Saturday half holidays Under the statutes in some jurisdictions Saturday afternoon is a holiday.[17]

Monday following holiday on Sunday Where a holiday designated by statute falls on Sunday, the following Monday is, according to some authorities, a holiday,[18] but according to other authorities the following Monday is not a holiday,[19] in the absence of express statutory provision to that effect.[20]

§ 3. Operation and Effect of Designation

The legal status of holidays differs from that of Sundays, holidays have effect only as to those transactions set forth in the statute establishing them, and all other acts performed on holidays are fully effective.

Under some statutes certain holidays are given the legal status of Sunday for all purposes;[21] but in the absence of statutes of this nature the legal status of a holiday is not of necessity the same as that of a Sunday, and the mere declaration that a certain day shall be a legal holiday does not indicate an intent on the part of the legislature to assimilate the status of that day to the status of Sunday.[22] A legal holiday other than Sunday has effect as a holiday as to those acts and transactions which are designated in the statute establishing the day,[23] but no others,[24] and accordingly it is held that, with the exception of matters concerning which the statute provides that the day shall be treated as Sunday, any act done on that day is as effective as though done on any other day.[25] Statutes having for their object the suspension of business on holidays are sometimes construed as permissive and not mandatory as to acts falling within the terms of the statutes.[26] The establishment of a holiday does not operate retroactively so as to ren-

der illegal a transaction performed previously and at a time when the day in question was not a legal holiday.[27]

A half holiday frequently differs in its operation and effect from a holiday,[28] and the fact that the performance of certain acts on holidays is prohibited or excused does not necessarily prohibit or excuse the performance of such acts on a half holiday.[29]

A local holiday which is confined to a particular municipality is not operative elsewhere.[30]

§ 4. —— Private Acts and Transactions

Private transactions are not invalid merely by reason of being performed on a holiday, except as to those transactions specifically enumerated by the governing statute. A prohibition against public business will not affect private business

As a general rule it is not compulsory to refrain from the transaction of private business on a holiday in the absence of statutory provision to that effect.[31] Where a statute enumerates the private acts which may not be performed on designated holidays, all transactions not within the statutory prohibitions may be carried on as on any other day,[32] but acts within the statutory ban are unlawful.[33] In determining whether particular acts can be performed on certain holidays the courts have made adjudications as to the meaning of terms employed in the statute or proclamation declaring the holiday.[34] A prohibition against the transaction of public business, or the transaction of business in the public offices of the state or counties, on certain holidays, does not prevent the transaction on such day of private business,[35] such as the acknowledgment by a notary public of the execution of a deed.[36] The failure of a bank to carry out instructions given to it is not excused by the procla-

(1) The terms "banking transaction" and "banking business" as used in a presidential proclamation declaring a bank holiday and prohibiting banking transactions and banking business during the period of the holiday should be given their generally accepted meaning and should not be liberally construed except to prevent the evils sought to be avoided by the proclamation, and the insertion of newspaper advertisements for the purpose of conserving bank assets has been held not to constitute a banking transaction or banking business within the meaning of the proclamation —Bailey v Orange Nat Bank, D C N J, 26 F Supp 949

(2) Steps taken by a bank holding a deed of trust to bring about the sale of property on default of payment have been held not to constitute banking business within the meaning of such a proclamation —Security-First Nat Bank of Los Angeles v. Bennett, 62 P 2d 798, 17 Cal App 2d 641

Retail stores

As used in a statute requiring retail stores to be kept closed during certain hours on a designated holiday, the word "store" refers to a place where traffic is carried on in goods, wares, or merchandise, and the word "retail" imports primarily that the sales carried on in such store shall be in small quantities, and a tavern in which alcoholic beverages are served to customers to be drunk on the premises constitutes a retail store within the meaning of such a statute —Commonwealth v Moriarty, 40 N E 2d 307, 311 Mass 116

Sale

The fact that an alcoholic beverage is served to be drunk on the premises does not preclude the transaction from being a "sale" within the meaning of a statute prohibiting certain sales on holidays —Commonwealth v Moriarty, supra

§ 5. —— Judicial Proceedings

a. In general
b. Issuance and service of process, writs, or notices
c. Trial
d Verdicts, judgments, and sentences

a. In General

Judicial functions may be performed on holidays in the absence of statute otherwise providing, and statutes prohibiting judicial functions on such days will not bar the performance of ministerial acts. The parties may by their actions waive any right to question the validity of proceedings conducted on a holiday

As a general rule, legal holidays are not, as such, dies non juridicus in the absence of statute so providing, and judicial business may be transacted on such days,[38] but in some jurisdictions the transaction of judicial business on legal holidays is, subject to prescribed qualifications in some cases, forbidden by statute or by constitution.[39] Judicial acts are not invalidated by a statute which is permissive and not mandatory.[40] There is authority holding that a holiday cannot become dies non juridicus by implication,[41] but there is also authority holding to the contrary where the implication is clear.[42]

The statutory designation of a day as a holiday for commercial purposes[43] or a provision that holidays shall be considered as Sundays for all purposes relating to the transaction of business "in public offices"[44] does not prohibit the transaction of judicial business on that day. A prohibition against the transaction of judicial business on holidays does not affect the legality of ministerial acts performed on such days,[45] such as the filing, by the clerk, of a motion for a new trial[46] or the docket transcript of a judgment,[47] the entry of an appeal,[48] or the holding of a preliminary examination by a justice in a criminal proceeding.[49] Unless expressly prohibited by statute, judicial sales are not invalid by reason of being held on a holiday.[50] A statute prohibiting

Distinction between ministerial and judicial acts

As far as concerns the rule stated in the text, "the general distinction between ministerial and judicial acts seems to be that, where the duty to be performed is described by law with such certainty that nothing is left to the exercise of discretion or judgment, the act is ministerial, but, where it requires discretion or judgment to determine whether the duty to act exists or not, it is judicial In other words, the necessity of the exercise of judgment or discretion is generally held to be the distinguishing test"—Bryant v Bryant, 14 P 2d 712, 713, 40 Ariz 519

the transaction of judicial business by the courts on legal holidays does not apply to official acts of a judicial or quasi-judicial nature other than those performed by the courts.[51]

The irregularity of proceeding with judicial transactions on a holiday may be waived[52] by the consent of the parties or their failure to urge a timely objection;[53] and if defendant had actual knowledge of the holiday before the verdict was rendered it is immaterial that he may not have had that information at the time the case was argued and the jury instructed.[54]

Grand jury proceedings. An indictment found by a grand jury that was impaneled and sworn on a legal holiday is valid,[55] and an indictment otherwise legally returned will not be quashed because it was returned on a legal holiday.[56]

b. Issuance and Service of Process, Writs, or Notices

Although service of process on a holiday is invalid where the statutes so provide, in the absence of such provision it is generally held that process, including writs of attachment or execution, may be issued and served on holidays.

The issuance of a summons, process, or writ is a ministerial act, and is not prohibited by a statute which merely forbids judicial proceedings on legal holidays[57] In the absence of a statute to the contrary, summons or process may be made returnable on a legal holiday,[58] and such process is not invalidated merely because on that day the court is precluded from transacting business, it being held that the return day will be the first day thereafter on which the court may legally transact business.[59]

As a general rule, the service of legal process may be made on a legal holiday in the absence of express statute making the day in question a dies non for the purpose of serving process[60] Under express statute in some jurisdictions, however, the service of civil process on legal holidays has been held to be invalid,[61] and process so served does not confer jurisdiction,[62] but such a statutory prohibition has been held not to apply to service by publication.[63] Where a party accepts and admits due and legal service of a summons on a holiday, he is estopped from questioning the legality of such service[64]

It has been held that a notice,[65] such as a notice to produce papers at a trial,[66] or a notice of opening depositions,[67] or a notice of an election contest as the foundation of a suit[68] is not invalid, although given on a holiday

Saturday; half holidays Under some statutory provisions it is lawful to issue and serve process on Saturday,[69] and a statute providing that a summons shall not be returnable on a holiday does not invalidate a summons which is returnable on a half holiday[70]

Attachments. There is authority holding that an attachment may issue on a legal holiday;[71] however, there is also authority holding that an order allowing an attachment cannot issue on a legal holiday where its issuance is a judicial act,[72] but it may issue where its issuance is a ministerial act[73] It has been held proper for an attachment to be executed or served on a legal holiday.[74]

Executions An execution may be issued on a legal holiday,[75] and in the absence of statute otherwise providing, neither an execution sale[76] nor the publication of notice thereof[77] is invalid by reason of being made on a holiday.

c. Trial

The mere designation of a day as a legal holiday does not necessarily prevent the trial of cases, including the arguments of counsel and instructions to the jury, on such day, but in some jurisdictions the statutes prohibit trials on holidays.

The mere statutory declaration that a particular day is a legal holiday, or shall constitute a holiday so far as concerns the performance of certain acts or transactions, does not make it a dies non juridicus, so as to prevent the trial of causes on that day;[78] but in some jurisdictions the trial or hearing of causes on a legal holiday is prohibited by virtue of statutory provision[79] The fact that testimony has been taken on a legal holiday or a nonjudicial day has been held not to render the proceedings void or require a reversal on appeal where timely objection thereto has not been taken,[80] and the verdict of the jury and the judgment of the court have been entered on a judicial day;[81] but it has also been held that where the court is without authority to hear causes and render judgment on a legal holiday, an appeal from a trial had on such a day does not waive the objection to the trial.[82]

Adjournment or continuance. There is authority holding that, when a court by mistake or inadvertence adjourns its term to a day which is a legal holiday, the term does not lapse and the court may on such legal holiday adjourn to the following day, when it may legally proceed with the transaction of its business.[83] However, under a statute prohibiting the transaction of judicial business on a legal holiday it has been held that, where a case in a justice's court is adjourned to a day subsequently proclaimed a legal holiday, the court cannot on the legal holiday adjourn the case and render judgment on the following day,[84] and it has also been held, under a similar statute, that while an order of adjournment on a legal holiday is a nullity,[85] the court does not lose jurisdiction, and the case is continued until the next day as business undisposed of[86] A hearing on a demurrer set for a holiday has been held to be continued by operation of law to the next secular day[87]

Arguments A judgment is not invalid merely because the cause was argued to the jury by counsel on a holiday where the complaining party ac-

Attachment of deposit during bank holiday

Attachment of a bank deposit is not inconsistent with the proclamation of a banking holiday, for the purpose of such proclamation is to suspend banking transactions and withdrawals of funds whereas the attachment does not transfer title to the funds attached but serves merely to protect plaintiff against withdrawal of the funds—Doty v Baltimore Trust Co, supra.

quiesced in the proceedings, failed to object, and thereby waived his rights [88]

Instructions Under some statutes the court may give instructions on a legal holiday[89] at the request of a jury who are deliberating on a verdict,[90] and may on such request give new instructions which have not been previously given [91] The fact that instructions were given on a holiday does not render the judgment invalid where the parties have consented to such procedure, either expressly, or tacitly by failure to object [92]

d. Verdicts, Judgments, and Sentences

In the absence of statute it is generally considered that verdicts and judgments may be rendered on a legal holiday; but sentence cannot be pronounced or a judgment rendered on a holiday on which the transaction of judicial business is forbidden

A verdict may be lawfully received and recorded on a legal holiday [93]

In the absence of statute otherwise providing, it is the general rule that a judgment rendered on a legal holiday is valid [94] There is, however, authority holding that judgments obtained on a legal holiday are void,[95] at least in a jurisdiction where the statutes forbid the transaction of judicial business on holidays [96] Where the statute suspending business and transactions generally on legal holidays is permissive merely and not mandatory, a judgment is not void by reason of having been rendered on a legal holiday [97]

A sentence pronounced on a legal holiday is void in a jurisdiction in which the statutes prohibit the transaction of judicial business on such a day.[98]

§ 6. —— Official Acts

Official acts may be performed on holidays in the absence of statutory prohibition, and statutes on the subject are construed as proscribing only those acts which are expressly or by clear implication forbidden

In the absence of statutory prohibition, either express or reasonably implied, official acts or business, such as the meeting or transaction of business by a public board, commission, municipality, or legal subdivision of the state, may validly take place on a holiday [99] Where there is a statute governing the matter the validity vel non of official acts performed on a legal holiday depends on the terms of the statute,[1] and statutes having for their object the suspension of official transactions on holidays will be construed as prohibiting such acts, and only such acts, as are in express terms or by clear implication proscribed [2] A statute providing that all public offices may be closed on legal holidays indicates a purpose to make it optional with the public officials whether or not to close their offices on such days [3] A prohibition against keeping courts open for the transaction of judicial business on holidays does not apply to boards or commissioners exercising quasi-judicial functions [4] Under some provisions the transaction of public business on holidays is

lawful in cases of necessity,[5] and in the absence of a showing to the contrary the fact of necessity will be presumed.[6]

A prohibition against the transaction of public business in the public offices of the state or the counties of the state on a legal holiday has been held not to apply to municipal legislation,[7] an executive act of the governing body of a municipality,[8] a hearing before county commissioners on a petition for a public road,[9] the making of a return by surveyors of a public road,[10] the publication of a law in an official journal or newspaper,[11] or the publication of notice of a school bond election.[12] The mere designation of a day as a holiday does not invalidate a sheriff's sale,[13] or an order adjourning the sale made on such day.[14]

HOLLO. A word used in calling;[1] to call out or exclaim, to shout aloud.[2]

HOLLOW. As a noun, a cavity, a concavity, a depression or an excavation below the general level, as of the ground, or in the substance of anything, an empty space in anything.[3]

As an adjective, not solid, having an empty space or cavity, natural or artificial, within a solid substance, concave, depressed or sunken; also empty.[4]

The term is synonymous with "concave" see 15 C J S p 792 note 52, "cup,"[5] "depression" see 26 C J S p 977 note 59, "dimple" see 26 C J S p 1314 note 40, "hole" see ante p 409 note 94, and "pocket."[6]

HOLM. An island in a river or the sea, also plain grassy ground at the water side or in the water, or low ground intersected by streams.[7]

HOLMES NOTE. A promissory note whereby title to the thing for which it is given is reserved in the seller [payee] until the note is paid.[8] It is a name sometimes given to a conditional sales agreement;[9] and, being an agreement to sell rather than a sale, it conveys no title.[10]

HOLOGRAFO. In Spanish law, holographic; applied to instruments, especially wills, which are both written and executed by the same hand.[11]

HOLOGRAPH or OLOGRAPH. A term which signifies that an instrument is wholly written by the executing party; and has been defined as meaning that which is written with one's own hand; a document, as a letter, deed, or will, wholly in the handwriting of the person from whom it proceeds and whose act it purports to be,[12] an instrument written entirely in the hand of one person, as by a grantor, or testator.[13]

HOMAGE. In feudal law, a service which a tenant was bound to render to his lord on receiving investiture of a fee, or succeeding to it as heir, in acknowledgment of the tenure; it was considered the most honorable service of reverence that a free tenant might perform, also the accompanying ceremony[15] "Homage" is sometimes distinguished from "fealty" see 35 C J.S. p 757 note 49

HOMAGER. One who does, or is bound to do, homage[16]

HOMAGIO RESPECTUANDO. Literally "Respecting of homage."[17] A writ to the escheator commanding him to deliver seizin of lands to the heir of the king's tenant, notwithstanding his homage not done.[18]

HOMAGIUM. Law Latin, homage[19]

HOMAGIUM, NON PER PROCURATORES NEC PER LITERAS FIERI POTUIT, SED IN PROPRIA PERSONA TAM DOMINI QUAM TENENTIS CAPI DEBET ET FIERI.[20]

(2) The curtilage surrounding a dwelling house, the area of land surrounding a house, and actually or by legal construction forming one inclosure with it —Ratzell v State, 228 P 166, 168, 27 Okl Cr 340

(3) A person's home includes his inclosed lands —Allen v State, 29 S W 2d 247, 161 Tenn 71

(4) In holding the term includes the whole house, the court said "The home is not confined to the particular bed-room in which the master of the house sleeps, for it may include his rooms for guests and apartments he never enters So too it may properly embrace a schoolroom for he may teach in his parlor, where many physicians and dentists practice their professions'—Hoope's App 1 Brewst (Pa) 462, 461, 100 Am D 562

(5) A provision that beneficiaries should be provided with a "home" while they lived included everything necessary to maintain the home, such as paying of taxes and keeping it in proper repair, but not the purchasing of supplies —Long v Mayes, 48 So 523, 530, 94 Miss 735.

to include.[36]

Under particular circumstances, the term has been held equivalent to, or synonymous with, "asylum" see Asylums § 1, "domicile" see Domicile § 1 notes 5, 6, "premises,"[37] and "residence."[38] Under others, it has been compared with, or distinguished from, "curtilage" see 25 C.J.S. p 67 note 25, "domicile" see Domicile § 1 note 5, "house,"[39] "residence,"[40] "settlement,"[41] and "temporary abode."[42]

Home rule. A term with a well-defined meaning,[43] which, as descriptive of a policy, is significant and appropriate, but as descriptive of a right is indefinite, for it is coextensive with the right of local regulation or control and its extent must always be tested by the constitution.[44] It may be briefly defined as the right of self-government in local affairs.[45]

"Home rule" in connection with constitutional provisions and delegation of power to local authorities generally see Constitutional Law § 140; with particular reference to counties see Counties § 6; to municipalities see the C J S title Municipal Corporations §§ 13, 108, 115–117, 124, 147, 187, 188, 1980–1983, also 43 C.J. p 85 notes 3–18, p 176 note 9–p 179 note 50, p 186 note 89–p 194 note 79, p 199 note 51–p 200 note 64, p 221 note 69–p 222, note 82, p 275 note 79–p 277 note 22 and 44 C J. p 1263 note 21–p 1268 note 98; and to taxation see the C. J S title Taxation § 17, also 61 C.J. p 96 note 15–p 98 note 36.

I. NATURE, ACQUISITION, AND EXTENT

A NATURE, CREATION, AND DURATION OF ESTATE OR RIGHT IN GENERAL

§ 1. Definition

A homestead is the dwelling house constituting the family residence, together with the land on which it is situated and the appurtenances connected therewith.

A homestead is the dwelling house constituting the family residence, together with the land on which it is situated and the appurtenances connected therewith[1] The term "homestead" has both a popular and a legal signification,[2] but its popular and legal meanings are the same.[3] In common acceptance of the term it means the residence of the family, the place where the home is[4] Usually the term imports not only the residential house occupied as a home but also the adjacent land necessarily used in connection therewith, but the term is sometimes used to designate either the house or the land separately.[5] As used in the various statutes relating to homestead exemptions, the term "homestead" means not only the property occupied as a home but also the right to have it exempted from levy and forced sale[6]

There are various kinds of homesteads,[7] such as constitutional homesteads;[8] rural and urban homesteads, see infra § 53, business homesteads, see infra § 40, and probate homesteads, see infra § 239

The term "homestead farm" is sometimes used[9] It is not one, however, which has acquired a defi-

nite signification in the law.[10] It may have a broader signification than the word "homestead"[11]

Distinctions. A homestead is to be distinguished from an estate by entirety.[12] Homestead and dower are distinguished in Dower § 6 b; and the distinction between a homestead and an exemption is considered in Exemptions § 1.

§ 2. Origin of Homestead Right and Purpose of Homestead Laws

Homestead rights have their origin in constitutional and statutory provisions and not in the common law. Such rights have been created to shelter the family and to provide it a refuge from the stresses and strains of financial misfortune.

Laws exempting the homestead from liability for debts of the owner are strictly of American origin.[13] At common law there was no such thing as a homestead right,[14] although under the early common law a man's dwelling house and the land contiguous to it were inalienable and indefeasible except when required by the sovereign, or for the defense of the state,[15] and, as appears in Executions § 33, no real estate could be reached by execution for the payment of debts Homestead rights, therefore, exist only by virtue of constitutional and statutory provisions creating them[16] Such provisions have been enacted in nearly every state of the Union, the earliest being that enacted by the republic of Texas in 1839.[17]

Purpose Homestead laws are not founded on the principles of equity,[18] but are enacted as a matter of public policy in the interest of humanity[19] Their purpose is to provide a home for each citizen of the government, where his family may be sheltered and live beyond the reach of financial misfortune,[20] and, likewise, their purpose is to encour-

(1) The earliest homestead statute was that enacted by the republic of Texas, Jan 26, 1839, 1 Paschal Dig L art 3798 The first constitutional guaranty of homestead exemption was that of the constitution of Texas in 1845, which was followed by Vermont in 1849 Since the latter date, nearly every state and territory in the Union has adopted similar laws, which recognize the general right of homestead, but differ radically in their details—Zuniga v Evans, 48 P 2d 513, 522, 87 Utah 198, 101 A L R 532, quoting **Corpus Juris**

privilege. Generally it is not regarded as an estate in land.

The homestead interest depends entirely on organic or statutory provisions,[29] nothing like it being known at common law, see supra § 2, and there can, of course, be no greater right in the homestead property than is created by these provisions.[30] Because of the difference in the wording of the homestead laws in the various jurisdictions, the interest created thereby differs widely.[31]

A homestead is not a conveyance,[32] it is merely a right or privilege given by constitutional or statutory provisions.[33] It is a purely personal right[34] which can be exercised only for the benefit of the debtor and his family,[35] and which does not pass by succession.[36] The homestead estate is dependent on some title or interest in real property, and it does not exist as a separate estate in property independently of such title or interest.[37]

Effect on title to property. The homestead provisions do not create a new title,[38] or disturb the fee simple title or equitable title in the land itself;[39] nor do they strengthen or enlarge the title already existing.[40] Only the use of the property is changed, and not the title itself.[41] They do not create any interest in the property where the parties claiming homestead have no title or interest therein,[42] nor do they constitute a defense to an action to quiet title,[43] or to an action of ejectment.[44]

Whether an estate or mere exemption. In some jurisdictions the view is taken that the homestead interest is not an estate at all, but merely an exemption,[45] which operates to prevent the use of the process of the court to sell certain property for the

(1) It has been held that the right of homestead does not constitute an estate, but is merely a right of occupancy and use—Carev v Carev, 43 S W 2d 498, 163 Tenn 486—29 C J p 784 note 31

(2) But it has also been held that the homestead right is a joint estate in the husband and wife for life, and on the death of either it vests in the survivor—Beard v Beard, 14 S W 2d 745, 158 Tenn 437.

payment of debts.[46] In other jurisdictions, the homestead right is considered an estate in land, vested in the person designated by law,[47] and is variously characterized as a "fee,"[48] a "freehold estate,"[49] a "life estate,"[50] and a joint tenancy with the right of survivorship as between husband and wife.[51]

Whether a right or mere privilege. The homestead interest is something more than a mere privilege and amounts to a right.[52] While perhaps not a new estate transferable by a conveyance, the homestead right is an interest or right in the home indeterminate in duration and so far vested in the owner as to be beyond the reach of the legislature to repeal the law creating it.[53]

Nature of interest of surviving spouse, children, or heirs The nature of the estate or interest transmitted to the surviving spouse, children, or heirs, on the death of the owner of the homestead is considered infra § 265

§ 4. —— Interest of Spouse or Children during Life of Person Acquiring Homestead

As a general rule, during the lifetime of the owner of the homestead, the owner's spouse and children have no estate or vested interest in the homestead With respect to the spouse, however, there is authority to the contrary.

In most jurisdictions it is held that the spouse[54] and children[55] of the owner of a homestead have no estate or vested interest in the property during the owner's lifetime Their rights consist in the right of occupancy jointly with the owner of the homestead,[56] and, on the part of the wife, the statutory right of veto against alienation and encumbrances.[57] The right of the wife has been likened

Nature of homestead laws Homestead laws are remedial in character[70] They are not in derogation of the common law[71]

§ 7. —— Character of Legislation Permissible under Organic Law in General

Subject to constitutional limitations, the legislature may exempt a debtor's homestead from liability for seizure and sale for the satisfaction of his debts subject to such restrictions as it may see fit to impose.

Subject to the inhibitions or limitations of the state or federal constitution, a state legislature may exempt the homestead of a debtor from liability for seizure and sale for the satisfaction of his debts, subject to such restrictions as it may see fit to impose,[72] and, where congress has enacted no legislation declaring whether exemptions shall exist or not, in respect of executions issuing out of the courts of the United States, these laws will operate with full force and effect to prevent the levying of an execution of a judgment in favor of the United States against a citizen of a state on property which the state laws have declared exempt as a homestead[73] State constitutions relating to homestead exemptions are ordinarily a limitation and not a grant of power,[74] and legislatures have no power to restrict, defeat, or in any way impair the homestead right granted by the organic provisions[75] Nevertheless, they may regulate the claim of the right so that its exact limits may be known,[76] and enact supplementary legislation in particulars wherein they are not as complete as may be desirable,[77] and where the constitution so provides, the legislature may alter the homestead provisions of the constitution itself[78]

Persons entitled to exemption If the constitution requires that at least heads of families shall be protected, the legislature may extend the homestead privileges to other persons,[79] and according to some decisions the legislature may even confer homestead rights on classes of persons not specifically mentioned in the constitution,[80] but according to others, if the beneficiaries are specially designated by the constitution, the legislature has no power to extend the homestead rights to classes of persons not so designated[81]

Amount of exemption. Where the constitution authorizes the legislature to enact reasonable exemption laws or to exempt a reasonable amount of property, it is for the legislature to say what amount of property may reasonably be exempted[82] Also

if the constitution does not fix the amount of the exemption, the legislature may determine the amount of property which shall be exempt[83] and may increase or diminish such amount from time to time,[84] and if the constitution merely limits the minimum of exemption the legislature may increase it.[85] On the other hand, if the amount of the exemption is fixed by the constitution any legislation which attempts to enlarge or diminish it is unconstitutional.[86]

Debts as to which exemption operates Where the constitution provides for, or directs an exemption against, all debts, or against particular specified debts, the legislature has no power to except any debt, or a debt specified in the constitution, as the case may be, from the operation of the homestead exemption law[87] On the other hand, if the constitution excepts a particular debt, the legislature cannot exempt as against that debt[88] The legislature, however, may except from the operation of the homestead exemption laws such debts as are authorized by the constitution[89]

Alienation of homestead Where the constitution declares that the legislature shall protect from forced sale a certain portion of the homestead of all heads of families, the legislature need not, in addition to giving a right of homestead exemption, restrain the voluntary alienation thereof[90] However, in the absence of constitutional provisions to the contrary, the legislature may require the wife's joinder in a conveyance or encumbrance of the homestead[91] If the constitution expressly prohibits alienation of the homestead, or if such an intention on the part of the people clearly appears from the scheme of the homestead exemption as established by the constitution, the legislature has no power to allow alienation,[92] unless the constitution expressly authorizes the legislature to alter the homestead provisions in the constitution itself.[93]

Allowing waiver of exemption A statute authorizing a waiver of the homestead exemption is not in conflict with a constitutional provision giving to debtors the right to a homestead exemption, without expressly prohibiting a waiver thereof.[94]

§ 8. —— Construction of Homestead Laws

a In general
b Liberal or strict construction

a. In General

Homestead laws are subject to the established rules of construction applicable to laws in general.

Homestead statutes are subject to the established rules of construction applicable to statutes in general[95] Thus in the construction of a homestead statute, as in the construction of statutes in general, the court must, if possible, ascertain and give effect to the intention of the legislature[96] The statute must be fairly and reasonably construed[97] Effect must be given, if possible, to the whole statute and every part thereof,[98] and the court should not read into the statute conditions or provisions omitted therefrom by the legislature[99] If possible, the statute must be construed so as to give effect

to mandatory provisions of the constitution requiring the legislature to protect the homestead [1] When there are several statutes in the same state, enacted at different times, they are all to be construed together as if they were one act, in accordance with the rule that all acts of the legislature in pari materia are to be taken together as if they were one act [2]

Construction of constitutional provisions General rules apply in the construction of homestead provisions contained in state constitutions [3] Where such provisions do not define terms used therein, it is the right and duty of the legislative or judicial department to provide or apply a reasonable definition or construction of such terms [4] A constitutional provision that the legislature shall provide by law for homestead exemptions is mandatory [5]

b. Liberal or Strict Construction

As a general rule, homestead laws must be liberally construed in favor of the debtor and his family

Since, as has been seen supra § 6, homestead laws are remedial in character and are not in derogation of the common law, the rule, supported by the great weight of authority, is that such laws must be liberally construed in favor of the debtor and his family,[6] especially where the homestead exemption is

restricted within moderate limits[7] However, this rule does not require a strained construction to favor the debtor, but a natural construction of the act, effecting the purposes of its enactment without departing from the obvious meaning of its terms,[8] nor can the court, in the application of this rule of construction, go beyond the intent of the legislature[9] or ignore other statutory provisions[10] The homestead provisions are not to be so construed as to protect those not meant to be protected,[11] or to dispense with the necessity of parties bringing themselves within the purpose of the laws unaided by judicial construction,[12] or to make them an instrument of fraud and imposition on creditors[13] and a cloak for wrongdoing.[14] It is only where there is a substantial compliance with the homestead provisions that the rule of liberal construction can be applied[15]

The rule of liberal construction has been held to apply to the statutes only in so far as they allow the exemption[16] It does not apply to exceptions

and provisos in a statute by which a general allowance of property as exempt is qualified or restricted;[17] nor does it apply to a proviso which declares that the statute shall not apply as against certain debts or liabilities[18]

Minority rule In some jurisdictions the homestead laws are deemed to be in derogation of the common right and are subject to strict construction.[19]

§ 9. —— Retroactive Operation

A homestead statute will not be construed as retroactive unless the intention that it shall so operate is clearly apparent

A statutory provision on the subject of homesteads will not be construed as retroactive unless the intention that it shall so operate is clearly apparent,[20] particularly where such construction would invalidate the statute,[21] as where it would make the statute violative of constitutional provisions forbidding laws impairing the obligation of contracts[22]

The retroactive operation of a constitutional provision as to homesteads is considered in Constitutional Law § 40 a.

§ 10. —— Change or Repeal of Homestead Exemption

Subject to constitutional limitations, the legislature may change or repeal homestead exemption laws at will

Subject to constitutional limitations, the legislature may change homestead exemption laws at will[23] Although there is some authority to the contrary,[24] according to the weight of authority the statutes in force when a debt is contracted constitute terms of the obligation and a repeal of such statutes cannot affect the previous right of exemption[25] Repealing laws frequently preserve homestead rights previously existing, whether accruing or accrued; and in such cases the repeal does not affect the debtor's privileges arising under prior statutes[26] Whether a prior homestead law is repealed by implication in whole or in part by a subsequent statute or constitutional provision is determined by ascertaining if there is a necessary inconsistency between them[27]

§ 11. Right as Affected by Change in Form of Debt or New Promise

The right to claim a homestead privilege as affected by a change in the form of the debt or a new promise is considered infra §§ 96, 103.

Examine Pocket Parts for later cases.

§ 12. Right as Affected by Ownership of Other Property

Generally a debtor's right to claim a homestead is not affected by the fact that he owns other property In some jurisdictions, however, his right may be affected by the fact that his wife owns other property

In the absence of constitutional or statutory provisions to the contrary, a debtor is not precluded from claiming a homestead by the fact that he owns other property, real or personal[28] Accordingly the alleged fact that a debtor owned other property than his homestead and has fraudulently disposed of such property is immaterial and irrelevant to the question of his homestead exemption[29] Under the homestead provisions in some jurisdictions, however, there must be deducted from the benefit of the homestead exemption allowed a married man the value of property or means owned and enjoyed by his wife[30]

§ 13. Existence of More than One Homestead

No claimant of homestead rights is entitled to two homesteads at the same time.

No claimant of homestead rights is entitled to two homesteads at the same time[31] Thus he cannot claim both a rural homestead and an urban homestead,[32] and, as appears infra § 40, he can claim but one business homestead If he already resides on a homestead acquired under the federal laws, he cannot claim another under the state laws[33] Further, where a husband has claimed a homestead, the wife cannot claim another in a separate property during his life,[34] nor can a husband who has a homestead in his wife's land claim another homestead in his own land[35] Claimant cannot retain the option of choosing between two homes, when either is seized by creditors[36]

Second homestead claimable Where the first homestead has ceased to be exempt because of abandonment[37] or the invalidity of the statute securing it,[38] or has been sold,[39] or has become liable for the owner's debts by dissolution of the family and the owner has remarried,[40] a second homestead may be claimed by him; and if a widow to whom a homestead has been set apart out of her deceased husband's estate afterward marries, she may claim a second homestead out of her second husband's property[41]

Other exemption not inconsistent. An exemption secured by bankruptcy proceedings will not interfere with the bankrupt claiming a homestead, as the former is for his own benefit, and the latter for the benefit of his family[42] Similarly it has been held that the exemption from execution of a miner's dwelling and mining claim not exceeding a certain value granted by statute does not conflict with a homestead claimed in the same property, although the property protected as a homestead exceeds in amount that exempted under such statute[43]

§ 14. Separate Homesteads in Same Tract

Two separate homesteads cannot exist in the same land at one and the same time.

Two separate homesteads cannot exist in the same land at one and the same time[44] Thus an heir entitled to the reversion cannot acquire a homestead interest in the land during the existence of the widow's homestead therein[45] Where a widow was entitled to a homestead in the land of her husband, her son who did not live on the land had no such right[46]

§ 15. Duration and Termination

The homestead exemption is temporary and exists only so long as the conditions prevail under which it is allowed by the homestead laws

The homestead exemption is temporary and exists only so long as the conditions prevail under which it is allowed by the homestead laws[47] Generally, where the homestead right has once attached to property, this characteristic continues to adhere to the land until it is lost by death,[48] abandonment, see infra §§ 163–178, alienation,[49] dissolution of the family relationship, see infra §§ 158–161, estoppel, see infra §§ 191–195, or waiver, see infra §§ 179–186 The right to exemption may also be terminated when claimant ceases to be a bona fide resident of the state[50] If the exemption attaches to any estate less than a fee, it will not last beyond the termination of such estate[51] However, a homestead right acquired by one in land occupied by him as a tenant is not destroyed by his acquisition of the fee,[52] and a mere temporary loss of status as head of a family may not affect the homestead right[53]

The duration and termination of survivors' rights in the homestead are considered infra §§ 271–277.

One of the conditions which must coexist with others, such as those relating to the ownership, occupan-

provisions. One of the objects of the homestead provisions being the protection of the family, see supra § 2, it is generally held that a homestead can be reserved only for the benefit of a family,[56] but usually the right to claim the exemption is given in terms, not to a family, but to the head of a family, or to a householder or housekeeper with or having a family, see infra § 24, and a few homestead provisions are so worded and construed as to extend the homestead privilege to a person irrespective of whether or not he has a family or dependents, see infra §§ 25, 27, 28

§ 17. Citizenship

Unless expressly required by constitutional or statutory provision, citizenship is not necessary to entitle a resident of the state to the benefit of a homestead exemption

Where the constitution or statute requires residence, see infra § 18, but is silent as to political status, all residents of the state are entitled to the benefit of the homestead exemption, whether or not entitled to the political and civil rights of citizens,[57] and nonresident aliens are not so entitled[58] Under express provisions that the right shall be extended only to those who are both residents and citizens, citizens only are entitled to the benefit of the exemption[59] It has been held that the term "citizens of the state" is not broad enough to include all residents or inhabitants of the state,[60] but there is also contrary authority[61]

§ 18. Residence

It is agreed that, to obtain the benefit of a homestead exemption provided for by the laws of a particular state, a debtor must be an actual resident of that state; but, owing to a difference in statutory provisions, there is a lack of agreement as to the necessity of residence or actual presence of the wife or family of the debtor in the state.

Residents of the state only are entitled to the benefit of the homestead exemption created by its laws, whether or not these laws expressly limit it to residents[62] Residence, under the homestead laws, requires actual presence within the state, constructive residence will not suffice,[63] nor will mere intention to become a resident and to abandon a residence in another state give to a person the right to claim the homestead exemption.[64] On the other hand, daily residence is not essential,[65] nor is a temporary absence with intent to return precluded,[66] and it has been held that an intention to remain permanently within the jurisdiction is not required,[67] provided the debtor actually occupies the premises as his home[68] In any event, permanent residence in the state is sufficient whether or not, under nice distinctions, the place where the home owner lives is called his domiciliary residence or merely his residence[69] So too it is held in some states that actual residence in the state is sufficient, notwithstanding legal domicile is in another state,[70] and, conversely, that legal domicile in the state is insufficient where actual residence at the time is in another state,[71] but in other states the distinction between domicile and actual residence is not recognized in applying the homestead laws[72]

Although citizenship is not essential, see supra § 17, it is one of the factors to be considered in de-

ency and limited value of the property, at the very time the claim for homestead exemption is propounded is that the debtor must have a family or person or persons dependent on him for support —Brantley v Pruitt, 111 So 601, 175 La 879

termining the question of permanent residence vel non within the state [73]

Removal from the state as an abandonment of a homestead is discussed infra §§ 165, 166, occupancy of the property claimed as exempt infra §§ 32–41, and the necessity of use for residential purposes of property claimed as exempt infra § 54

Residence of wife Under some statutes a nonresident wife acquires no interest whatever in premises occupied by her husband as a homestead,[74] and this is true even though she intends to become a resident of the state where the intent is not carried out by actual removal to the state [75] Under other statutes she acquires only such homestead rights as result from and rest on the homestead rights of her husband, and if he acquires none she has none [76] It has been held that if a woman who resides in one state marries a man who resides and continues to reside in another state, but retains her actual residence in her own state, she does not cease to be a resident of the latter state, so as to prevent her claiming the benefit of the homestead laws [77] Whether consent or joinder of a nonresident wife is essential to the conveyance or encumbrance of a homestead by her husband is discussed infra § 130, and the rights of a surviving wife as dependent on her residence, or the residence of her deceased husband, in the state infra § 243

Residence of family It has been held that the actual personal presence of the debtor's family in the state as residents with him upon the land is not necessary to perfect the right in him, as his domicile ordinarily is deemed to be theirs,[78] but under some statutes if he leaves his family in another state, with no intention of bringing them to him, he is not entitled to the benefit of the homestead laws,[79] nor is he so entitled if the future removal of his family into the state of his residence is wholly uncertain,[80] and intent alone to bring the family into the state within a reasonable time is insufficient to bring the claimant within either the letter or spirit of the homestead laws [81]

§ 19. Ownership and Occupancy of Land

The occupancy of property claimed as a homestead is discussed infra §§ 32–41, and the ownership of, or estate or interest in, such property infra §§ 78–92

§ 20. Insolvency

Insolvency is not necessary to entitle a person to claim a homestead exemption.

In order that a person may be entitled to claim a homestead exemption, he need not be insolvent [82] A bankrupt's right to exemption of his homestead is considered in Bankruptcy § 498

§ 21. Moral Character of Claimant

No moral qualifications are required of a claimant of a homestead exemption

No personal qualifications touching the moral character of the claimant are prescribed by the homestead constitutional and statutory provisions and even those who are vicious, criminal, or immoral are not for that reason deprived of the protection given by these provisions [83] The unlawful use of premises is discussed infra § 39

§ 22 Particular Statutory Designations

The construction and application of constitutional and statutory designations of the particular person or persons who may claim the benefit of a homestead are considered infra §§ 23–28

§ 23. —— Family

Under any of the homestead provisions employing the word "family," the homestead right cannot originate without the existence of a family, and there is no family, within the meaning of such provisions, unless two or more persons, lawfully and otherwise than under a mere contract relation, live together under one head or manager, and there is a legal or moral obligation on the part of one to support the others or some of them, and a corresponding dependence, partial or total, on the part of such others

forced sale will be accorded effect.[84] As such provisions do not confer the exemption on the head of the family as such, who is the head of the family is not the vital question,[85] but in some homestead cases decided in states where such provisions exist reference is made to the head of a family,[86] as in stating what is necessary to constitute a family, as discussed in this section, or in giving effect to a statute conferring the right to select the homestead on the head of the family, as discussed infra § 47 While a majority of the homestead provisions do not confer the exemption directly on the family, but rather on the head of a family, or a householder or housekeeper with or having a family, see infra § 24 a, nevertheless, under any of the homestead provisions in which the word "family" is used, the homestead right, with its exemptions from forced sale, cannot originate without the existence of a family[87] or a family relationship or status.[88] It is said that the word "family" is used in such provisions in a restricted, rather than in a general, sense,[89] but it is also said that, while originally the word was used in a very restricted sense, it has, by gradual evolvement, come to have a much broader and more comprehensive meaning in the interpretation and application of homestead laws[90] Except where it is otherwise provided, and the case is within such provision,[91] to constitute a "family" within the meaning of the homestead laws, there must be a group or collection of persons living together under one head or manager,[92] but this alone is not sufficient,[93] there must be a legal or moral obligation on the part of some one of such persons,[94] such as the one who occupies the position of head of the house[95] or family,[96] to support the others or some of them, and on the part of such others

Necessity of head
(1) Word "family," as used in homestead law, does not mean mere aggregation of individuals occupying same home, but there must be one whom law designates or recognizes as head of family—Owens v Altsheller & Co, 93 S W 2d 844, 263 Ky 727

(2) To constitute "family" within homestead statute, there must be a head who has right, at least in limited way, to direct and control those gathered into household.

§ 24. —— Head of Family, or Householder or Housekeeper with or Having Family

a. In general
b. Obligation to support and condition of dependence
c. Living together on premises claimed
d. Inclusion or exclusion of particular classes of persons

a. In General

Proper construction and effect will be accorded constitutional or statutory provisions designating the person entitled to a homestead exemption as the head of a family, a householder, a housekeeper, a householder having a family, or a housekeeper with a family. These designations are usually, although not always, considered synonymous to the extent of requiring a householder or housekeeper to be the head of a family.

Under the constitutional or statutory provisions of a number of states, it is necessary[49] and sufficient,[50] in so far as personal status is concerned, that the claimant of a homestead be the head of a family, under others it is necessary[51] and sufficient[52] that the claimant be a householder having a family, and under still others it is necessary[53] and sufficient[54] that the claimant be an actual bona fide housekeeper with a family. The necessity of the existence of a family is discussed supra § 23, and the construction and application of a statute designating a debtor having a family infra § 28.

To constitute a person a head of a family or a householder or a housekeeper, within the meaning of the homestead provisions, it is not necessary that such person should be a husband, wife, or parent,[55] or a husband, or father, or of the masculine gender,[56] but where the relation of husband and wife or parent and child does not exist it is said that the relation should be one in which a continuing personal authority and obligation rests on one for the welfare of the others who in law should, or in fact do, recognize him as the head of the family.[57]

Head of family. Who is the head of a family within the meaning of a homestead provision must be determined from the facts of each case.[58] The expression has been considered to mean the person who controls, supervises, and manages the affairs about the house,[59] and to refer to a person who

keeps house and has living with him and is supporting some person or persons[60] whom it is his legal or moral duty to support, see infra subdivision b of this section The term means one of the persons composing the family and not two or more[61]

Householder or householder having a family While the ordinary meaning of "householder" is that such person is the head of a family, on whom the other members are dependent,[62] and hence usually does not embrace subordinate members of the family,[63] it has been held that the term "householder having a family" does not necessarily require a householder to be the head of a family[64] and that the exemption is given to a married woman in her separate property when occupied as a homestead by herself and her husband and children[65] As used in provisions conferring the exemption on a householder or head of a family, the term "householder" is held to mean the head of a family[66]

Housekeeper or housekeeper with a family As used in a statute conferring a homestead exemption on a housekeeper or head of a family, the word "housekeeper" is synonymous with "head of a family"[67] To be entitled to a homestead under a statute allowing a homestead to a "housekeeper with a family," a person must keep house in the state[68]

b. Obligation to Support and Condition of Dependence

In order to constitute a person a head of, or a householder having, or a housekeeper with, a family, there must be a condition of dependence on the part of the other members of the family on him and an obligation on his part to support them, but the support furnished may be partial and the obligation to furnish it may be moral or natural, rather than legal.

While there is some contrary authority,[69] and it is said that dependency is not the sole test,[70] it is generally considered that, in order to constitute one a head of a family, or a householder or housekeeper with or having a family, within the homestead provisions, there must be a condition of dependence on the part of the other members on him, and either a legal or a moral obligation on his part to support them, and a mere aggregation of persons living together under one head is not enough,[71] although it is not necessary for them to receive all of their support from the debtor,[72] and the extent to which contributions are made to dependents need not be considered,[73] especially in a state where the constitution makes a distinction between the head of a family and a person having another person or persons dependent on him or her for support, the head of a family being entitled to the exemption under such provision regardless of how much or little he contributes to the support of dependents[74] If the persons living with the debtor receive no support from him they are not dependents,[75] and a person who is himself a dependent is not entitled to a homestead as the head of a family or a householder having, or a housekeeper with, a family[76] A person who keeps a boarding house is not the head of a family, where there are no other persons besides the boarders, that is, no other persons dependent on him or her for support[77]

Sufficiency of natural or moral obligation In a few cases it has been held, or said, that there must be a legal obligation to support on the part of a person to constitute him the head of a family, as in the case of the relation of husband and wife or parent and child,[78] but the weight of authority is in favor of the rule that a mere moral or natural obligation to support and a condition of dependence and actual support are sufficient[79]

c. Living Together on Premises Claimed

Under some, but not other, homestead provisions, it is essential to a successful claim of a homestead interest in certain premises, by reason of being the head of a family or within some similar statutory designation, that the dependents of the claimant live with him on such premises

While under some homestead laws actual occupancy of the premises by the family of the debtor with him may not be required to entitle him, as the head of a family, to a homestead,[80] provided the incidents of the family relation exist,[81] the general rule is that to qualify as a homesteader, by reason of being the head of a family or within some similar statutory designation, it is essential that the dependents of the claimant should live with him on the premises claimed as a homestead,[82] and hence one who does not maintain a home and live with those who are dependent on him is not entitled to a homestead[83]

A mere temporary separation or absence of the family will not take away the homestead character of the premises[84] Occupation by the wife and family in the absence of the husband is equivalent to occupation by the husband[85] It has been held that the owner of a house does not cease to be the head of a family because he has rented the house and farm to a tenant, and the tenant lives therein with his family, when the owner also lives there[86]

As appears infra subdivision d of this section, wherein applications of the foregoing rules to particular classes of persons are stated, the necessity of dependents living with the claimant of the homestead exemption is of more importance where the claimant is unmarried than where he is a husband obligated to support his wife or a divorced husband obligated to support minor children The necessity of the residence of the family within the state is discussed supra § 18

d. Inclusion or Exclusion of Particular Classes of Persons

(1) Husband or father
(2) Wife or mother
(3) Widower or widow
(4) Unmarried persons
(5) Other persons

(1) Husband or Father

A husband is usually considered to be the head of a family or to be within a similar statutory designation of the person entitled to a homestead, but whether or not a father or divorced husband is the head of a family within the meaning of homestead laws depends on the circumstances and the law in the particular jurisdiction, the most important circumstance generally being the existence or nonexistence of minor children for whose support he is liable

A husband is usually the head of a family, within the meaning of exemption laws,[87] and it is held

Statutory right of husband, as head

that this is so although his wife, who constituted his family, has deserted him,[88] or lives apart from him,[89] or although he fails to support her and their children,[90] or even where he lives apart from her and fails to support her,[91] as the marital relation and his duty to support her still exist,[92] and it has been said he is still the head of the family although he is an invalid and she supports him.[93] Also a householder having a wife,[94] or a husband living and residing with his family,[95] is a householder having a family within the meaning of a homestead statute. Furthermore, a statute designating the person entitled to a homestead as a housekeeper with a family comprehends one who in good faith occupies premises as a homestead with his wife or wife and children,[96] or one who, having a wife and infant child, and a house which he has occupied as a homestead, induces a daughter, because of the infirmities of himself and wife, and their inability to provide for themselves, to move into the house with them, and to assume its expense and care.[97] One who lives with his wife on land is not deprived of his right to a homestead therein merely because he is on bad terms with her and does not cohabit with her,[98] or merely because he may leave home temporarily from time to time,[99] and, where his minor children live with him, a husband may acquire a homestead regardless of the enforced absence of the wife through her confinement in an asylum.[1]

A father may be entitled to a homestead exemption as the head of a family,[2] but a limit must necessarily be set to a claim of such exemption;[3] he is not allowed the exemption merely because he has children who have attained majority and left the paternal roof or have married and established homes of their own,[4] and he ceases to be the head of a family when the members of the family disperse and the husband and wife separate, each maintaining a separate existence independent of the other's authority.[5]

A divorced husband may be the head of a family under proper circumstances,[6] as where he has minor children who are actually living with him, notwithstanding their custody has been awarded to the divorced wife,[7] or, except under statutes contemplating residence of the minor child on the premises with him,[8] where he has a minor child for whose support he is liable, regardless of the custody of the child[9] or whether or not the child lives with him.[10] However, a man is not entitled to a homestead exemption where a divorce leaves him without a family of which he remains the head,[11] as where his only child is married and is a member of another family residing elsewhere.[12] One whose wife has secured a divorce because of his delinquencies cannot thereafter select a homestead in her land.[13]

(2) Wife or Mother

A wife or mother may or may not, according to the circumstances and the law of the particular state, be entitled to a homestead exemption as the head of a family, a householder having a family, or an actual bona fide housekeeper with a family

Inasmuch as the husband usually is deemed the head of the family, see supra subdivision d (1) of this section, as a rule, in the absence of constitutional or statutory provisions permitting a different conclusion, the wife, as long as her husband is living and there has been no separation, cannot claim a homestead in his property[14] This, it has been held, is the rule even though he fails to support her[15] She may not, under the circumstances, be entitled to a homestead exemption as the head of a family,[16] as where the family is supported by the husband[17] and she is living with him[18] or he has moved to another place for business reasons,[19] and she is not entitled to claim property in one county as a homestead where the residence and domicile of the husband and members of the family, other than herself, are in another county, and husband and wife are not legally separated[20] However, some constitutional or statutory provisions contemplate that the wife may in fact be the head of a family and as such head be entitled to homestead exemption rights[21] in realty owned by her, see infra § 90, and on which she lives with her husband and children,[22] or that the wife is entitled to such rights in property owned by her where she is an actual bona fide housekeeper with a family[23] Under the construction placed on some statutes a wife is entitled to interpose all claims of homestead which the husband could have interposed, where the husband has absconded,[24] has abandoned his family,[25] has become a fugitive from justice,[26] is imprisoned for crime,[27] or is under a disability,[28] provided the wife is otherwise qualified as a head of the family, a householder, or housekeeper, within the meaning of the homestead provisions[29] After a permanent separation of husband and wife,[30] even by agreement,[31] and his refusal or neglect to furnish her with a home or support, the wife will have the right to acquire and hold property in the same manner as though she were sole or had been divorced,[32] and if she purchases land and occupies it by herself and family as a homestead, she will be protected, under the statutes, in the same manner as any other householder[33] A married woman living with her minor son, apart from her husband but undivorced from him, is a "housekeeper with a family."[34] The homestead rights of a wife as such are discussed infra § 26, and the selection of a homestead by a wife infra § 47

A mother may be entitled to a homestead exemption where, in fulfillment of a natural or moral obligation, she is supporting adult children living with her[35] or temporarily confined in a hospital for the insane,[36] but not where she is separated from her husband, no other person resides with her, and no person is dependent on her[37]

(3) Widower or Widow

A widower or widow may be entitled to a homestead exemption as head of a family or as a householder hav-

ing, or a housekeeper with, a family, but not where he or she has no child or other relative dependent on him or her for support.

A widower may be entitled to a homestead exemption as a head of a family or a householder or housekeeper with or having a family, as the case may be, within the meaning of the homestead provisions, where he has a child or children or other relatives dependent on him,[38] but not where he has no child or other relative dependent on him for support,[39] whether he is living alone[40] or with another person or persons.[41] So also a widow may be the head of a family within the meaning of homestead provisions,[42] as where she has children living with, and dependent on, her,[43] or she supports other dependent relatives, such as grandchildren,[44] grandchildren of her deceased husband by a former wife,[45] nephews or nieces,[46] nephews or nieces of her deceased husband,[47] or stepchildren.[48] A fortiori, a widow, when she is the head of a family, can claim a homestead in her own separate property.[49] However, a widow cannot claim a homestead as the head of a family unless she has a child or some other relative dependent on her for support,[50] and she is not entitled to a homestead under some statutes where she is not an actual bona fide housekeeper with a family[51] or a householder having a family.[52] The continuance of a homestead exemption in favor of a surviving spouse is considered infra §§ 243, 259.

(4) Unmarried Persons

An unmarried person is entitled to a homestead exemption as a head of, a householder having, or a housekeeper with, a family when, and only when, there is living with such person someone who is dependent on him or her for support and whom he or she is under a legal or natural duty to support.

Under statutes restricting the right to the head of a family or to a householder or housekeeper with or having a family, an unmarried man is not entitled to homestead exemption if there is no one dependent on him whom he is legally or morally bound to support,[53] or if persons whom he supports do not live with him,[54] but it is otherwise if he maintains a home and has living with him and supports persons who are dependent on him, and whom he is under such a duty to support, as a father, mother, sister, illegitimate child, or the like.[55] Likewise an unmarried woman is not entitled to a homestead as a head of a family or a householder or housekeeper with or having a family, if she has no person living with her who is dependent on her for support and whom she is under a legal or natural duty to support,[56] but it is otherwise if she has living with her and supports such a person, as a mother, an illegitimate minor child, or the like.[57]

(5) Other Persons

A son, grandson, grandmother, guardian, or imprisoned convict may, under proper circumstances, be the head of a family within the meaning of the homestead laws, but it is otherwise as to a person living in a house with servants only and having no dependent

A son living with his widowed mother and supporting her may be the head of the family,[58] as may also a grandson who is the sole support of his aged grandmother.[59] Also a grandmother who has living with her and supports a grandchild is the head of a family,[60] or a housekeeper with a family,[61] within the meaning of the homestead laws.

A guardian may, under some provisions, be considered the head of a family of minor children.[62]

Imprisoned convict. A man does not necessarily cease to be the head of a family by reason of his being incarcerated in a state prison.[63]

Master. A man or woman who lives in a house with servants only, having no relative or other person dependent on him or her, is not the head of a family so as to be entitled to claim a homestead exemption,[64] but a person so living has been held to be a housekeeper entitled to a homestead.[65]

§ 25. —— Unmarried Person

An unmarried person may be within a statutory designation of the persons entitled to a homestead

Homestead laws, although not in terms designating an unmarried person, contemplate that such a person may, under certain circumstances, be entitled to a homestead.[66] The application of other designations to an unmarried person is discussed supra §§ 23, 24 d (4), infra § 28

§ 26. —— Wife

A wife has such homestead rights as are accorded her by constitutional or statutory provisions of the particular state

The property in which a wife may have a homestead is considered infra §§ 90–92, and whether a wife is entitled to a homestead as the head of, a householder having, or a housekeeper with, a family is discussed supra § 24 d (2). Under the express provisions of some statutes, a wife living with her husband may have a homestead.[67] Under other constitutional or statutory provisions, she has valuable and substantial rights in the homestead[68] of the family[69] or husband[70] during his lifetime, as well as after his death, see infra §§ 243-254, and in certain cases may select, see infra § 47, or claim, see infra § 211, the homestead, but she has no title to her husband's homestead during his life,[71] and her interest is dependent on his[72] and is not adverse to him except in so far as she is given the right to prevent alienation.[73] The necessity of consent to, and joinder in, a transfer or encumbrance is discussed infra § 130

§ 27. —— Guardian or Infant

Under a few homestead provisions, the guardian of a family of minor children or the minors themselves may have a homestead.

The right to a homestead has sometimes been bestowed by constitution or statute on the guardian

or trustee of a family of minor children[74] or on the minors themselves[75] The right of an adopted child to a homestead is discussed in Adoption of Children § 59 a.

§ 28. —— Other Designations

Various constitutional and statutory designations of the person entitled to a homestead exemption, some requiring, and others not requiring, the claimant to have a family or dependents, have been construed by the courts.

Constitutional or statutory provisions which do not require a person claiming a homestead exemption to have, or be the head of, a family or to have dependents include those which extend the homestead right or privilege to any person[76] or to any resident of the state[77] or which simply provide that the homestead must be the actual abode of, and occupied by, the owner, his or her spouse, parent, or child[78] Under such provisions an unmarried person may have a homestead[79] However, provisions exempting a homestead occupied as a residence by the family of the owner does not confer a homestead exemption on an adult unmarried person who is the owner of the property and a member of her father's family, but does not have a family of her own[80] An unmarried debtor who supports his minor illegitimate children and lives with them on the premises claimed as exempt is within a statute conferring a homestead exemption on a debtor having a family.[81] Such a statute is enlarged, rather than restricted, by another statute which declares husband and wife living together, and a widow or widower living with an unmarried daughter or unmarried minor son, entitled to the homestead exemption,[82] and the latter statute is not exclusive[83]

Person having dependents A constitutional provision allowing a homestead exemption to a person having a person or persons dependent on him or her for support is applicable when,[84] and only when,[85] the requisite condition of dependency exists It must appear that the persons claimed to be dependents, or who are actually being supported by the homestead claimant, are legally entitled to support by such claimant,[86] and the title to the homestead, and the obligation to support, creating the dependency, must occur in the same person[87] Persons who are able to earn a living are not dependents within the provision,[88] but it is otherwise as to infant children who do not own property sufficient to maintain them, although they work and earn their own living in part[89]

Under another constitutional provision giving a homestead exemption not only to the head of a family, but also to any person having the care and support of dependent females of any age, who is not the head of a family, any person occupying such a position, whether married or single, or male or female, is entitled to the exemption[90]

C. ACQUISITION AND ESTABLISHMENT

§ 29. In General

The establishment of a homestead is a matter of constitutional or statutory provision Use of the premises with intent to create a homestead is ordinarily required, ownership alone being insufficient

The acquisition or establishment of a homestead is a matter of statutory[91] or constitutional[92] provision, and the mode and proceedings prescribed are usually exclusive of all other methods of acquisition, establishment, or selection[93] The elements entering into the acquisition or establishment of a homestead have been variously stated to be a claim that the property is exempt as a homestead and its use as such,[94] the act of selection and the fact of residence,[95] possession and use of real estate by one who owns it, and who, with his family, resides upon it,[96] an actual intention to reside on the property as a permanent place of residence, coupled with the fact of residence,[97] and an intent to establish a homestead, evidenced by bona fide preparations to improve the land, coupled with its occupation[98] Ownership alone is not sufficient to constitute premises a homestead[99]

§ 30. Intent

To acquire a homestead there must be an intent to make the premises a homestead, and occupancy without such intent is insufficient Acquisition of a homestead is not defeated by the fact that the owner thereby intends to prevent his creditors from subjecting the property to their claims

The acquisition or existence of the homestead depends largely,[1] although not entirely,[2] on the intent of the parties, which has been said to be the prime factor in impressing property with the homestead character,[3] at least in cases where there has been no actual occupancy[4] There must be a bona fide intention of making the premises a homestead or permanent residence and occupying it as such,[5] exclusive of any other dwelling place,[6] and mere occupancy without such intention will not suffice[7] One cannot impress a homestead character on a tract of land which he has bought for speculation and which he has never intended to improve and occupy as a homestead[8]

The question of intent is to be determined by all

the surrounding facts and circumstances,[9] and not necessarily by the representations of the parties,[10] although proof of representations may show the intent[11] It has been said that perhaps the best evidence of an intention of an owner to establish a homestead is his occupancy and use of the premises,[12] and that, for this reason, further investigation of intention need not be made when the land is actually put to homestead uses[13]

Intent to prevent creditors from collecting debts In accord with the object of homestead provisions to permit one to place his family beyond the reach of financial misfortune, see supra § 2, if the intention of the debtor when he occupies land as a homestead is to make it his present home the exemption may nevertheless be secured, although he also intends thereby to prevent his creditors from subjecting the property to the collection of their debts[14] However, homestead intentions cannot be used as a shield for fraud[15] In a jurisdiction in which the law permits the mortgaging of a homestead, there is no fraud in claiming a homestead in property on which the claimants live at the time and continue to live, although at the time of making claim they intend to mortgage the property for the purpose of preferring the mortgagee over other creditors[16]

§ 31. —— Mere Intent to Occupy

A homestead in land cannot be created by a mere intent to occupy it in the future, such intent consisting only of a mental attitude and being otherwise unmanifested

A mere intent to occupy land at some future time as a homestead is never sufficient of itself to impress land with a homestead character,[17] as shown infra § 33 the general rule, subject to the limitations considered in subdivision b of that section, is that the intent to occupy must be accompanied by actual occupancy Something more overt is required than an intention consisting of a secret uncommunicated purpose,[18] or a mere mental attitude, based only on something in the mind of a

Necessity of putting intention into effect

"In order to establish his right to a homestead, one must put his intention into effect by actually making it his residence, and maintaining it by conduct as well as by intention"—Tyler's Ex'r v Williamson, 36 S W 2d 34, 36, 237 Ky 579

Manifest intention

There must be a manifest intention to occupy it immediately as a homestead, and in this connection "manifest" means apparent by examination, open, or visible, there must be an act by which the intention of the owner may be apparent to others and which will constitute evidence of such intention—First Nat Bank v Peel, 145 So 177, 107 Fla 413

person,[19] and amounting only to a hope or vague intention to use the property as a homestead at some future time,[20] and, as shown infra § 33 b, even in jurisdictions where homestead rights may be acquired prior to actual occupancy the intent to occupy must be manifested by overt acts

§ 32 Occupancy

The homestead character does not attach to property which the debtor has neither occupied nor intended to occupy

A homestead right does not extend to premises which the debtor has neither occupied as a home or residence, nor manifested any intention of so doing.[21] The mere fact of occupancy does not, however, ipso facto establish a homestead,[22] for the requisite intent must be shown to exist, see supra § 30, and certain formal steps are sometimes required, see infra §§ 42–47

§ 33 —— Necessity of Actual Occupancy

a General rule
b Limitations of rule

a. General Rule

Except in jurisdictions where the statute or constitution otherwise expressly provides, the general rule is that actual occupancy is necessary to acquire a homestead exemption

Subject to some exceptions by reason of express organic and statutory provisions,[23] and to the limitations considered infra subdivision b of this section, the premises must be actually occupied and used by the debtor as a residence or home for himself and his family in order to entitle him to the homestead exemption.[24] In a jurisdiction where the limitations considered infra subdivision b of this section are not recognized, constructive occupation of the premises is insufficient,[25] and the purchase or improvement of land with the intention of occupying it as a family home, even in the near future, is not enough,[26] nor is the requirement of occupancy satisfied by mere cultivation of the premises[27] marking and platting the premises as a homestead,[28] fencing and improving the land,[29] or placing a portion of the household goods on the premises.[30] The mere filing of a declaration or claim of homestead does not exempt the property so claimed, unless it is actually occupied as a home,[31] although

b. Limitations of Rule

(1) In general
(2) Nature of preparatory acts
(3) Time of occupancy or preparatory acts

(1) In General

In some jurisdictions homestead rights may be acquired prior to actual occupancy where there exists a bona fide intent to occupy in the future, coupled with appropriate and timely acts manifesting such intent.

In some jurisdictions a homestead right may be impressed on property in advance of, or as of a time prior to, actual occupancy[33] if there is a bona fide and clearly defined intention to occupy the premises at some future time as a homestead, accompanied or evidenced by overt preparatory acts in connection with the property definitely tending to show such intention,[34] and followed by actual occupancy at an appropriate time in the future.[35] Conversely, in order to impress the homestead character on property which has not been actually occupied, there must be a bona fide intent to occupy it and establish a homestead thereon, coupled with sufficient and timely acts of preparation evidencing that intention, and mere intention without the preparatory acts will not suffice.[36] Premises do

(2) Nature of Preparatory Acts

While the precise nature of the acts is not defined, they must nevertheless be of a physical overt character rather than mere declarations, and they must unequivocally manifest an intent to reside on the land as a home

There is no hard and fast rule as to the precise extent or nature of the specific acts of preparation necessary to show or accompany the required intent to occupy[39] The acts of preparation should be of a physical, visible, overt character, or something equivalent thereto,[40] and not mere declarations of intention to occupy the premises as a homestead,[41] particularly if the declarations are contradicted by the conduct of the person claiming the homestead,[42] but they need not consist of actually making improvements on the premises selected[43] The acts must be unmistakable[44] and sufficient to give rea-

(3) Time of Occupancy or Preparatory Acts

Preparatory acts and occupancy must follow within a reasonable time after the property has been acquired and the intent to occupy formed, the precise time allowable depending on the circumstances A delay caused by a temporary obstacle in the way of occupancy will not destroy the right

Although the homestead claimant need not occupy the property immediately after acquiring it,[48] the delay in occupancy or in taking appropriate preparatory steps must not be an unnecessary one or exceed a reasonable time[49] after the property has been acquired or the intention to claim it as a homestead has been formed[50] What is a reasonable time must depend on the circumstances of each particular case,[51] and it has been held that a homestead may be acquired, even though a considerable period of time may elapse before actual occupancy of the premises if the delay is not unreasonable under the circumstances[52] The delay in occupancy must be only for the time necessary to effect removal to the premises, or to build needed improvements or repairs, or to complete a dwelling house in process of construction, or the like[53]

Temporary obstacle in way of occupancy A mere temporary obstacle to occupancy will not prevent the owner of the land from acquiring a homestead therein where he intends in good faith to establish his home on the land as soon as the temporary obstacle is removed, and does so within a reasonable time[54] This rule has been held applicable where occupancy is prevented temporarily by an outstanding tenancy,[55] where intended improvements and occupancy are prevented by litigation,[56] and where the intended occupation is delayed by illness in the claimant's family[57] Where a debtor buys lands and commences the erection of a dwelling house thereon, intending in good faith to occupy the house as his residence, the fact that he is compelled to discontinue building for a time because of lack of means does not defeat his right to claim the land as his homestead[58]

stead, formed while the homestead act is in force, but carried into effect by moving on to the premises after the repeal of the homestead act, is not sufficient to exempt the property as a homestead [59]

§ 34. —— Effect of Occupancy of Other Property

Ordinarily, a person occupying one piece of property cannot acquire a homestead in another, but exception has been made, under certain circumstances, in the case of a man occupying land owned by his wife

In applying the rule requiring actual occupancy of the premises claimed as a homestead, it is generally held that claimant cannot exempt one piece of property as a homestead while he occupies other premises,[60] and that this is so, although the land on which he resides is leased [61] Even in a jurisdiction where homestead rights can be acquired in advance of actual occupancy, see supra § 33 b, one who occupies certain premises as a homestead cannot impress other premises with the homestead character by intention to occupy, coupled with preparatory acts,[62] or, a fortiori, by a mere intention to use the unoccupied premises in the future [63] Under some homestead laws, however, the fact that a debtor is living with his family on land owned by his wife does not necessarily debar him from the right to claim a homestead exemption in his own land [64] Thus, it has been held that, where a husband and wife own adjoining tracts of land which are cultivated as one farm, the fact that the dwelling house in which they reside is located on the wife's part of the land does not deprive the husband of the right to homestead exemption out of that part of the land owned by him,[65] since they are to be regarded as residing on his land within the meaning of the homestead law,[66] but the principle under which a husband may have a homestead in other land, although the habitation is on his wife's land, is confined to cases where the two farms are practically one and so cultivated and used as to constitute in contemplation of the state the family homestead,[67] and a husband living with his wife on her property is not entitled to a homestead in a distant farm not occupied as a homestead, and used by him purely as an investment or source of income [68]

A homestead right in urban property to which the owner has moved, intending to live there with his family, is not defeated by the fact that he continues to spend a large or the major, portion of each year in cultivating crops and attending to livestock on rural property formerly constituting his homestead [69]

§ 35. —— Character and Mode of Occupancy in General

The general rule, subject to some exceptions, is that the premises must be occupied as a bona fide home, and not, for example, as a temporary lodging place

Ordinarily, it is the use to which the property is put that determines the homestead character of the property,[70] and in jurisdictions or under circum-

Style; value as business place

It has been said that the question of whether a building is a residence does not depend on the style in which it is built, or that it would be more valuable as a place of business than a dwelling house, but on the fact of whether it is actually used as the residence of the family—Anderson v Shannon, 73 P 2d 5, 146 Kan 704, 114 A L R 200—Bebb v. Crowe, 18 P 223, 39 Kan 342.

stances where occupancy of the premises is required, the occupancy must be of such a nature as will stamp the premises with the character of the residence or home of the person claiming the homestead [71] Conversely, if the premises are used solely or principally as a home they may be claimed exempt as a homestead, within the limitations as to extent and value prescribed by law [72] Residential occupancy is not required in all jurisdictions or in all cases, however,[73] as, for example, in the case of business homesteads, see infra § 40

Occupancy, where required, must be bona fide and not a sham,[74] and the fact that premises are occasionally occupied as a lodging place or temporary residence will not impress the homestead character thereon,[75] especially where the actual and permanent residence of the debtor and his family is elsewhere [76] Occupancy may be of separate buildings on the same tract [77]

solely for purposes other than residence; but the right of homestead in property used primarily and in good faith as a residence is not lost by the fact that it is used incidentally for other purposes

Occupancy such as will stamp the place claimed as a homestead with the character of a residence of claimant being necessary ordinarily, see supra § 35, a debtor cannot claim as his homestead premises used by him solely for purposes unconnected with residence, as for example, solely for a place of business.[78] However, if premises are in fact used by the owner as a residence for himself and his family, the right to claim them as a homestead is not necessarily defeated by the fact that they are not all required for such purpose, and that they are partly used for other purposes, such as business purposes,[79] and particularly where the constitution or statute exempts a certain quantity of land owned and occupied by a debtor, the whole quantity specified is exempt if occupied as the residence of the debtor and his family, without regard to the use to which he may put that part of the land on which his dwelling is not physically situated, or the business he may pursue thereon.[80] Thus if a building is the actual bona fide residence of a party, he may establish a homestead right therein, although a part thereof is used for purposes other than as the party's family residence, such as for business purposes.[81] The fact that a debtor resides on a portion of certain land does not of itself constitute the entire land a homestead, whether it be in one tract or separate parcels,[82] and only such part will be acquired as a homestead as is intended by the owner as a part of his homestead and is used in connection with his place of residence, together with such part as the owner evinces by overt acts an intention to use immediately as part of such homestead.[83] In the case of an urban homestead, it has been held that only that part of the tract occupied as the family residence,[84] or constituting the actual residence and business house of the owner,[85] exclusive of other buildings, can be claimed.

Use for agricultural purposes Under some statutory provisions a specified quantity of rural land used for agricultural purposes is specifically made exempt, in addition to the dwelling house and appurtenances situated thereon,[86] and the word "agricultural" in such a statute has been construed to have been used merely to distinguish rural from city or village property, rather than in a technical sense.[87]

Extent of use for other purposes Consideration is often given by the authorities to the comparative extent to which the property is used for residence and business purposes, these authorities holding that, in determining the homestead character of property, it is the principal use to which the property is subjected that must be looked to,[88] and that any use of the property for business purposes should be of an incidental character,[89] so that, while the homestead character attaches to property occupied mainly as a residence and only incidentally for business purposes,[90] no exemption will be allowed

Renting summer cottages
The fact that part of the premises are used for the maintenance of summer cottages thereon for renting to tourists does not warrant exclud-

as to property used primarily and chiefly for commercial purposes, and only incidentally as the place of residence of the debtor and his family [91] Where the part of a building used for homestead purposes greatly exceeds in value the amount which is exempted by statute, and the sale thereof will not unreasonably interfere with the use of the owner of those parts of the building occupied as a residence, the part used for business is not exempt [92]

b. Use for Hotel

According to the weight of authority an owner who resides on property with his family does not lose his homestead exemption therein by the fact that the premises are also used as a hotel or lodging house

While there is some authority to the contrary,[93] according to the weight of authority, premises which are used by the owner for the purpose of a hotel or lodging house may be exempt as his homestead where he also resides there with his family [94] However, the mere sharing in the profits of a hotel conducted by another will not enable the owner who does not reside therein to claim it as a homestead,[95] and even where the owner of a hotel resides therein he does not acquire a homestead right if his residence is not of such a character as to meet the homestead requirements [96]

Previous use for hotel purposes Where it appears that a property owner at the time of filing a declaration of homestead was, with his family, using the place as a home and that it was at that time being used for no other purpose, proof of previous use for hotel and other purposes does not prevent the property from being impressed with the character of a homestead [97]

§ 37. —— Occupancy by Tenant

As a general rule a debtor cannot claim a homestead in property or a separate building which he has entirely leased to tenants, but the weight of authority holds that a building used by the owner as a residence may be exempt notwithstanding he has leased a portion of it to others

While the circumstances connected with the occupancy of the tenant may be such that the occupancy of the tenant will, in contemplation of law, be an occupancy by the owner entitling him to a homestead,[98] the general rule is that the occupancy contemplated by the homestead law is a personal occupancy and not an occupancy by tenant,[99] and that one who has granted a lease as to the entire property and is not occupying it as a residence has no right of homestead therein,[1] although the revenues therefrom are used for the support of the owner's family,[2] and although the owner has no other dwelling house and may contemplate living on the premises at a future time [3] On the other hand, although there is authority to the contrary,[4] the weight of authority is to the effect that, if a building is used by a debtor as his family residence, it may be his homestead, and exempt as such, notwithstanding a part of it may be leased to others for residence or business purposes [5] The fact that

ing the portions so used from the homestead where it appears that the business of renting the cottages is conducted for the purpose of maintaining a home rather than that the occupancy of the premises is incidental to the purpose of carrying on the business of renting cottages—Roche v Du Bois, 271 N W 84, 223 Wis 438

land is worked by a tenant does not bar the owner of the right to select the land as a homestead where the owner resides in the dwelling house situated on the land.[6]

Where two separate houses stand on real property sought to be impressed with a homestead, only one of which is occupied as a dwelling by the person claiming a homestead, the other being rented to tenants, an attempt to establish both as a homestead is inoperative.[7] Under this rule, the weight of authority is to the effect that, although the owner actually occupies a house on the premises claimed to be exempt as a homestead, yet if he leases another house or building located on the premises which is wholly distinct from the one occupied by him, no exemption exists in his favor in the premises leased, the view being taken that the homestead laws do not contemplate the exemption of buildings used mainly as a source of revenue.[8] A contrary view has been taken, however,[9] and it has been held that the renting of one of two houses does not defeat the owner's homestead rights in the house rented where the renting is temporary and without intent to discontinue or abandon the use of the house for homestead purposes,[10] although in such a case an unreasonable delay in occupying the rented house will defeat a homestead claim thereto.[11] Under the construction of some homestead provisions, if a house and the whole lot on which it stands are adapted to use as a homestead, and are actually used as such at the time of the dedication, the subsequent erection of an additional dwelling on the lot, for whatever purpose used, will not vitiate and affect the homestead as an entirety or render any part of it subject to seizure and sale under execution,[12] except where the second house increases the value of the homestead beyond the statutory limit.[13]

§ 38. —— Joint Occupancy

Persons other than joint tenants or tenants in common cannot occupy land jointly so as to give both occupants a right of homestead in the same tract.

The establishment of a homestead in property by joint tenants or by tenants in common is considered infra § 88. In the case of other persons, such as persons having successive estates in the property, property cannot be occupied jointly so as to give both occupants estates of homestead in the same land.[14]

§ 39. —— Unlawful Use of Premises

The authorities are in conflict as to the right to acquire a homestead in property used to conduct an unlawful business. The right is not lost by failure to obtain a certificate of occupancy.

It has been held that the fact that the homestead claimant conducts an unlawful business on the premises does not affect his right to their exemption as a homestead,[15] but there is authority for a contrary view.[16] A homestead exemption is not lost by the fact the premises have been occupied without first obtaining the required official certificate stating that the dwelling is suitable for human

habitation.[17] Where a statute renders premises liable for the payment of all fines and costs assessed, or judgments rendered, against any person for the illegal sale of intoxicating liquors on the premises with the owner's consent and knowledge, an owner who has consented to such illegal sale cannot prevent the property from being subjected to the statutory liability by asserting a homestead right therein,[18] but general creditors whose claims are not based on any violation of the intoxicating liquor statute cannot reach the premises.[19]

§ 40. —— Business Homestead

In Texas an urban homestead may be acquired in property used for business purposes While the business homestead need not be adjacent to the residence, and may consist of more than one lot, it must be in the same urban community as the residence. Only one business homestead may be claimed

Under the Texas constitution and statutes a homestead exemption may be had with respect to the property on which the head of a family exercises his calling or business,[20] and the constitutional provision affording such exemption is to be liberally construed.[21] These provisions have no application except to urban property.[22]

In order to acquire a business homestead, claimant must have a calling or business[23] to which the property is adapted and reasonably necessary.[24] The kind or character of business, if legitimate, is not restricted,[25] for the words "calling" and "business," although not synonymous,[26] are used in the applicable provisions in a very broad sense,[27] and, when taken together, embrace every legitimate avocation in life by which an honest support for a family may be obtained.[28] Although there is no right to an exemption if the building is devoted to an illegal business,[29] if the real business which the debtor conducts on the property is legitimate, the business homestead exemption is not lost by the fact that the owner has incidentally used the property for an illegal purpose, such as gaming.[30] The failure to pay a license tax does not render the business illegal so as to deprive the owner of the exemption,[31] nor does the fact that the business is conducted in fraud of creditors affect the right to the exemption.[32]

While the head of the family must have an intent to dedicate the property as a place to exercise his calling or business,[33] ordinarily the use made of the premises determines whether they con-

stitute a business homestead[34] The head of the family must use the premises as a place where he exercises his calling or business,[35] or in case there is not an actual occupancy there must be a bona fide intention to occupy the premises for business accompanied by acts amounting to a reasonable notice of such purpose,[36] in which case the same principles govern as in the creation of a residence homestead in advance of actual occupancy[37] In the case of one who has more than one business, the place must be that in which he exercises his principal, main, or chief business[38] The fact that but little, if any, business is actually transacted is immaterial, if the premises are in good faith occupied for business purposes[39] Where a building is an entirety, occupancy sufficient to exempt any part of it as a business homestead operates to exempt the whole,[40] but the use of an insignificant part of a building by a firm for business purposes does not render the premises a business homestead where the main portion is rented out to tenants[41]

Right as affected by residence. Although the business homestead exemption extends to property which is not used for the purpose of a home,[42] there may not be two homesteads, one of residence and another of business,[43] the business homestead is but a part of the one urban homestead exempted by law,[44] or, in other words, the business and residence homestead in a city, town, or village constitutes a unit, namely the one urban homestead[45] The business homestead exemption may be established in property which is not adjacent to the residence homestead,[46] but it must be located within the same urban community as the residence homestead, and not in a widely separated city, town, or village,[47] and one cannot claim both a rural residence homestead and an urban business homestead[48]

of business[51] The head of the family or owner of a business may have the right to elect, if he is engaged in two businesses, which he will hold as a business homestead.[52]

More than one lot, parts of lots The business homestead may consist of more than one lot if the lots are so used as to make them, all together, a place for transacting business,[53] and if a part of a lot or lots is occupied for business, the remaining portions thereof are exempt,[54] unless put to some use not connected with such business[55] However, in order for several lots to constitute a business homestead it is necessary that all the lots together constitute one place of business,[56] and where one lot constitutes the place of business, other lots are not exempt, notwithstanding they are in some manner connected with the conduct of the business,[57] for the constitution does not permit the use of different lots "for the purpose or in aid of" the business of the head of the family[58] A warehouse situated on a different lot from that on which the business is conducted and not adjacent thereto is not exempt,[59] but a warehouse or other auxiliary building on the same lot with the regular business house and attached to it as an enlargement thereof is a part of the business homestead and exempt[60]

Addition to building If property constitutes a business homestead, an addition to the building[61] to be used in increasing the volume of business[62] will also be exempt.

§ 41. —— Time and Continuity of Occupancy

Occupancy of the proper character suffices although it is of short duration; nor is the homestead right lost by brief temporary absences from the property.

It has been held immaterial whether the occupancy is for a long or a short period,[63] although, as shown supra § 35, occasional occupancy of premises as a lodging place or temporary residence will not impress the homestead character thereon A homestead exemption has been denied where claimant resided on the property for a short time, but soon abandoned the idea of occupying it and returned to a former dwelling and real home before the seizure of the property on execution[64]

Time of occupancy as affecting the enforceability of debts antedating the establishment of the homestead is considered infra § 97

Continuity of occupancy Continuous and actual occupation of land claimed as exempt is unnecessary, provided the homestead character has once attached thereto,[65] especially under statutes providing that there can be no abandonment of a homestead except by a declaration of abandonment or a grant thereof[66] Brief temporary absences will not affect the right[67] A change of occupancy

§ 43. —— Necessity, Requisites, and Sufficiency in General

Selection of the homestead is for the purpose of identifying and defining the property to which the exemption applies Whether formal acts are necessary depends on the statutes

The purpose for which selection of homestead is required is merely to identify and define the property to which the exemption applies so as to define that which is exempt from that which may be sold at the instance of creditors [69] The right of selection of homestead, residing in the owner, may, except as the statute may otherwise provide, be exercised whenever the necessity therefor arises [70] If the homestead laws specifically require the doing of designated formal acts as a condition precedent to the acquisition of a homestead, a compliance with these requirements is necessary [71] In the absence of such specific requirements, no formal acts are necessary for the selection or dedication,[72] and the question of a selection sufficient to impress the homestead character on property without actual occupancy thereof as a home must depend on the facts and circumstances of each particular case [73] The situation of a part of a tract may give adequate notice of intention to claim it as a portion of a homestead,[74] and, where the owner of a tract sells a part and retains the balance which is sufficient in value and extent to constitute a homestead, the owner thereby elects to treat the part retained as a homestead [75]

Registration of deed Under some statutes to that effect, where land is acquired by deed, registration of the deed is essential in order to give the property a homestead character,[76] in addition to the requirement that the premises be occupied as a homestead [77]

Property which may be selected as homestead It has been held that in selecting a homestead the owner of property is not bound to select the prop-

erty on which he actually resides,[78] but it has also been held that in making the selection, whether by declaration, designation, or otherwise, the place of residence cannot be excluded[79] The fact that a mortgage had been foreclosed does not preclude the filing of a declaration of homestead on the property to the extent of declarant's equity therein until title finally passes[80] It has been held that a dedication as a homestead may be made of property of which the fee has not yet passed to claimant, or, subject to the vendor's lien, of which the entire purchase price has not yet been paid[81]

Dedication of separate tracts Where tracts are separated, there must be a dedication of each to homestead use, and the dedication of one tract will not dedicate any portion of tracts separated therefrom[82]

§ 44 —— Occupancy as Selection

In some jurisdictions mere ownership and occupancy of the property may impress it with the homestead character, at least if its area and value do not exceed the statutory limit, unless the intention of the parties is to the contrary or is ambiguous

In some jurisdictions, when a debtor occupies such a status as entitles him to a homestead, his mere ownership of the land and occupancy of it may be sufficient to impress it with the character of a homestead,[83] especially when the property is within the extent and value limited by law for a homestead[84] Even in jurisdictions where a selection is required, when the premises are of greater quantity or value than the statutory limit, no selection is necessary, in the absence of express requirement to that effect, if the area and value of the property occupied as a homestead do not exceed such statutory limit, and if it is no part or parcel of a larger portion of land[85]

However, occupancy will not operate as a selection where the use and occupation are ambiguous, as where the debtor resided on his mother's land before her death, and after title vested in him as heir continued to use the land as before,[86] nor will occupancy operate as a selection where there has been an express contrary selection,[87] although it has been held immaterial that the parties declared to the contrary[88] The occupation by a husband and his family after he had executed a valid deed of the premises to his wife will not indicate their selection by him as a homestead[89]

§ 45. —— Entry on Record of Title

Under statute so providing, a homestead may be established only by a proper entry of the word "homestead" on the margin of the record of title.

Under statute so providing a homestead exemption may be established only by entering the word "homestead" on the margin of the record of title,[90] which entry must have been signed by the owner and attested by the clerk and recorder.[91] The statutory requirement must be strictly performed, as the provision exists for the protection of the public, and is mandatory.[92] A creditor's actual notice that the premises are occupied as a residence is, in the absence of such entry, immaterial.[93] Merely causing the word "homestead" to be written on the deed itself is not sufficient.[94]

§ 46. —— Declaration or Certificate

a In general
b Form and contents
c Execution, filing, and recording
d Construction and operation

a In General

In some jurisdictions, before a homestead can be acquired, a declaration or certificate of intention to claim a homestead is required, at least under certain circumstances

While in the absence of any statutory requirement no formal declaration is necessary, as considered supra § 43, under some homestead laws to that effect a written declaration or certificate of intention to claim a homestead is required as a prerequisite to the acquisition of a homestead exemption.[95] Under some statutes a compliance with the statute is in all cases indispensable,[96] and mere occupancy of the premises without making the required declaration will not make the homestead exemption available.[97] Under other statutes to that effect it has been held that a declaration is necessary only where the property is not actually occupied as a homestead,[98] under such a statute, occupation by a tenant will not obviate the necessity of the declaration.[99] Under still other statutes a declaration or designation is necessary only where the extent and value of the homestead exceed those fixed by the statute,[1] and the statute is merely intended to provide means whereby the homestead right of the family in a definite part of a large tract on which the family resides may be fixed,[2] but it has been held that, even though the statute provides a mode of making the designation, it does not pre-

Superseding statute

Homestead statute, providing that homestead could be created only by filing a declaration in form provided by statute, is complete in itself to the extent that although it contains no repealing clause it must be regarded as having been intended to supersede, as far as possible, previous statutes on the subject providing that homestead could be created by mere occupancy.—Davies v. Metropolitan Life Ins. Co., 71 P.2d 552, 191 Wash. 159, appeal dismissed 59 S.Ct. 465, 306 U.S. 665, 83 L.Ed. 1061

Rights acquired prior to statute

(1) Where no declaration was required under an earlier law a subsequent eviction of such declaration will not affect rights acquired under the former statute.—Garnier v. Jolliffon, 2 So. 797, 39 La.Ann. 881

(2) Owners of homestead acquired by mere occupancy pursuant to statute in force prior to passage of statute requiring filing of declaration could not be compelled to file declarations of homestead as required by that statute because their rights were already vested, but wife who married husband subsequent to enactment of statute requiring that declaration of homestead be filed did not acquire an unrecorded homestead right to property in which husband had acquired homestead by mere occupancy under former statute.—Davies v. Metropolitan Life Ins. Co., 71 P.2d 552, 191 Wash. 459, appeal dismissed 59 S.Ct. 465, 306 U.S. 665, 83 L.Ed. 1061

clude a designation in some other manner,[3] such as by a provision in a conveyance, mortgage, or trust deed, if the homestead is sufficiently described.[4]

It has been held that, even though designations of homesteads are not ordinarily required, a designation would be proper where the parties occupy two residences under such circumstances that either may be his homestead according to his intention,[5] and it has also been held to be a convenient form of giving notice of the purpose to return when the parties are not actually residing thereon.[6] In any event, a declaration of homestead is not necessary to preserve property, title to which is in the wife in her separate estate, against the judgment debt of her husband.[7]

Although a declaration of homestead is required, a person entitled to homestead is not compelled to claim it, and if he does not do so, the court cannot and will not declare it a homestead,[8] except, in some jurisdictions, in the case of the administration of decedent's estates, as considered infra § 279.

Property reacquired. Under statutes requiring a declaration, where property is reacquired after the abandonment, waiver, or forfeiture of the right of homestead, as considered infra §§ 157–200, a new declaration of homestead must be filed to protect the homestead rights.[9]

Prerequisite qualifications. There are certain qualifications necessary under the statute to enable a person to select a homestead, such as, ordinarily, that declarant be the head of a family,[10] or that declarant be a resident of the property.[11] These qualifications must exist in the person making the declaration at the time the declaration is filed,[12] and cannot rest on any preexisting right,[13] but such qualifications have been held not essential to the continuance of such right.[14]

Who may select the homestead generally is considered infra § 47.

b. Form and Contents

Provisions as to the form and contents of a declaration or certificate of homestead must be substantially complied with. Matters which have been held necessary include a statement of facts showing that the declarant is entitled to a homestead, a description of the premises, and an estimate of the value of the property.

The constitutional or statutory provisions prescribing what shall be contained in a declaration of homestead are mandatory and a compliance therewith is essential to the acquisition of the homestead exemption,[15] but a declaration which follows the

constitution or statute will be sufficient, since the court cannot enlarge the requirements thereof.[16] A substantial compliance with these requirements is sufficient,[17] and mere technical objections will be disregarded[18]

The statute in existence at the time the declaration was made is controlling as to the form and contents of the declaration[19]

Statement of facts showing claimant entitled All the facts necessary as a basis for the allowance of a homestead must appear on the face of the declaration and the omission of any one of them is fatal to the declaration of homestead[20] The declaration should show the right of claimant to the exemption under the law,[21] as, that claimant is the head of a family,[22] or is entitled to a homestead exemption as wife, guardian, or trustee of minor children, etc.;[23] and that claimant is residing on the premises claimed as a homestead,[24] or has purchased the property for a homestead, and intends to reside thereon, and claims it as a homestead.[25] If the statutory exemption relates to debts contracted after a fixed date, the certificate should show that immunity is sought from such debts as the statute covers[26]

Description of premises A description of the premises is essential to a valid declaration of homestead,[27] but the description need not be more particular than is required in the case of a deed[28] However, it has also been held that the declaration must contain an accurate statement of the area of the premises, to show that the premises are within the statutory limit as to area[29]

Estimate of value Under some statutes to that effect it is required that the declaration shall contain an estimate of the actual cash value of the property,[30] and its omission renders the declaration void, as it constitutes no notice to creditors

who might desire to contest the claim for exemption.[31] The requirements of the statute are satisfied if the value of the premises is computed with reasonable certainty,[32] and it has been held that a mere overestimate of the value will not vitiate the declaration,[33] although there is authority to the contrary.[34]

That husband has not made declaration If the statute requires the declaration by a wife to show that her husband has not already made it, and that she claims the homestead for their joint benefit, a failure to state these facts renders the declaration invalid.[35] However, where the declaration shows that it was filed for the husband and wife jointly, and that the husband had not made it, it is sufficient without showing expressly why the wife made it,[36] and it is sufficient to state generally that the husband has not made a declaration of homestead.[37]

Amendment of declaration It has been held that a defective declaration may not be cured by amendment at a later time when declarant would no longer be entitled to claim a homestead on the property.[38]

c. Execution, Filing, and Recording

Statutory requirements as to execution, acknowledgment, filing, and recording of the declaration must be complied with.

The requirements of the statute as to execution, acknowledgment, filing, and recording of the declaration must be complied with.[39] It has been held that a declaration of homestead must be executed in the same manner as a grant of real estate.[40] The declaration should be made and verified by one of the persons designated in the statute,[41] and, where it is made and verified by one other than those designated in the statute, it is invalid.[42] Under statute to that effect, where the property selected is part of the wife's separate estate, the wife must make, or must join with the husband in the making, of the declaration.[43] However, where, as is usually the case, the husband may designate the homestead without the knowledge or consent of the wife, it is of course unnecessary for her to join in or acknowledge the declaration,[44] although her doing so will not affect its validity.[45]

Acknowledgment Where the provisions require acknowledgment of the declaration, this requirement must be complied with and the declaration must show this fact on its face,[46] or the declara-

Where certificate of acknowledgment of declaration of homestead and its recitals established that mark of declarant, who was unable to write, was made in presence of two witnesses, one of whom wrote his name near mark, that declarant was duly sworn, deposed, and stated that he was declarant making annexed declaration

tion will be invalid[47] It has been held that the declaration must be acknowledged in the same manner as a grant of real estate[48] If the acknowledgment is by a married woman, the declaration may be invalid unless the certificate of the officer taking the acknowledgment recites that she was examined apart from her husband.[49]

Filing and recording. Statutory provisions as to filing the declaration must be strictly complied with,[50] and the declaration must be recorded, if the statute so stipulates[51]

Where the land is located in different counties, the declaration may be executed in duplicate and recorded in each county[52] However, it has been held that, where a homestead in community property is mainly situated in one county, a homestead declaration recorded in such county only is not void merely because a part of the premises covered by the homestead is claimed to be located in another county wherein no homestead declaration has been made[53]

Cure of defects in execution or acknowledgment. It has been held that a declaration of homestead, being an instrument affecting title to real property, is within the meaning of a curative act providing that any instrument duly recorded for a specified period imparts notice of its contents notwithstanding any defect, omission, or informality in the execution, or certificate of acknowledgment, thereof, so that such defect would not render the declaration invalid after the specified period[54]

d. Construction and Operation

The declaration must be liberally construed; but it is conclusive as to the right of homestead in the claimed property only if all the statutory conditions exist

The homestead declaration must be liberally construed,[55] and a declaration which is sufficient in other respects will not be held invalid because of improper statements which are mere surplusage[56]

Effect of Torrens Act

The California Torrens Act, which does not purport to amend or repeal California homestead laws, does not dispense with need for strict compliance, and failure to record declaration renders it a nullity—In re Grodzins, D C Cal, 27 F Supp 521

What constitutes sufficient recording

A homestead declaration, deposited in county recorder's office with proper officer for record, was "filed for record," which is tantamount to actual recording under California law, and filing for record is complete when it is deposited with proper officer, whether he actually notes and indorses filing thereon or not as his indorsement is not part of filing Moreover, the words 'filed for record" on county recorder's official stamp relate to instruments required or allowed to be recorded, such as homestead declarations, and imply filing and recording of original instrument and return thereof to person requesting recordation and where those words are placed on declaration, by deputy recorder who is also deputy registrar of Torrens titles it means that it was left with him and that he had it for purpose of recording and further notation of his capacity as registrar does not defeat such purpose—In re Grodzins supra

56. Wife executing blank for head of family

Where claimant attempted to homestead property on which she was living with an adult son by executing declaration of homestead on a printed blank designed for five thousand dol-

The use of the plural pronoun in a declaration by husband and wife has been construed as the personal declaration of each under a statute to that effect.[57]

The right to claim a homestead is not an absolute right in the sense that a declaration of homestead shuts off judicial inquiry,[58] since, unless all the statutory conditions exist,[59] the filing of a declaration of homestead does not conclusively establish the property as a homestead,[60] being merely prima facie correct,[61] although it is conclusive unless impeached because of some evasion of law.[62] It has similarly been held that, since mere intent to occupy property as a homestead is not sufficient to impress property with the homestead character, see supra § 31, a designation as a homestead of property not occupied as a homestead is not controlling.[63] However, the homestead, after it has been properly declared, stands impregnable against every assault, and can be changed in character only by the voluntary act of claimant, and his wife, if married.[64] Moreover, the filing of a proper declaration creates a vested interest in the property,[65] and once it is duly executed and filed and is not contested as allowed by law, it protects the property from forced sale, under an execution thereafter issued, except for debts not exempted by the homestead statute.[66] Where part of a tract exceeding the statutory limit is designated as the homestead, claimant would be limited in his claim to the land so designated.[67] An estimate of the value of the premises, contained in the declaration has been held not to be conclusive on either declarant, the court, or interested parties.[68]

Unauthorized declaration Where no manner of formal dedication is required or prescribed by statute, the filing for record of a selection of homestead will have no legal effect, and is not conclusive as against creditors or purchasers.[69] Declaration in cases not covered by the statute will not be effective for any purpose.[70] Thus a statute covering rural property has no application to urban property,[71] and property which is not subject to homestead cannot be made so by a declaration of homestead.[72] However, where the declaration seeks to exempt land not capable of being claimed as a homestead, the filing for record of such a declaration will not destroy the right of exemption as to other property actually occupied as a residence, and which could have been claimed, at least as against parties with notice of such occupancy.[73]

Defects or irregularities as to property claimed. A declaration of homestead is effective to create an exemption only to the extent of declarant's interest in the property,[74] but the fact that a homestead declaration included property which was not owned by declarant would not invalidate the homestead as to the remaining property which declarant did own.[75] A declaration may be insufficient as to a portion of the land designated as a homestead, yet valid as to another part which is properly claimed.[76] If the declaration describes and claims a tract larger than the statutory exemption, the declaration is not thereby rendered invalid, since the excess will not be exempted from execution sale and can be set aside as provided by law in cases of

lars homestead provided for head of family and declaration contained all recitals relative to homesteads of person not head of a family under liberal construction of the homestead declaration, recital that claimant was head of the family was 'surplusage' and instrument was sufficient to secure to claimant valid homestead which defeated attempt of judgment creditor to take title at execution sale.—Feintech v Weaver, supra

levy.[77] A formal declaration by husband and wife that their homestead consists of fewer acres than are exempted from forced sale has no force for that purpose, as the statute does not authorize the head of the family to contract but simply to define the homestead.[78]

§ 47. —— Who May Select Homestead

With some exceptions the husband, as head of the family, has the right to select the homestead, although the wife may do so where the husband fails or refuses. The husband's selection is binding on the wife if it is made in good faith

The right to select a homestead is in the person designated by the statute, generally the husband as the head of the family,[79] although under some statutes no distinction is made between a husband and his wife in this respect.[80] Under some statutes so providing, where the husband as head of the family has failed to select a homestead, the wife may for their joint benefit make the same selection that he could have made,[81] although it has been held that the wife's selection must be limited to community property.[82]

Also, as head of the family, the father has the right and authority, as between himself and the other members of the family, to select the homestead.[83]

Husband's selection as binding on wife When the husband has the right and exercises it, he may select the homestead without regard to the wishes of his wife,[84] and she is bound by his selection if it is made in good faith and not for the purpose of defeating her rights,[85] but he must exercise

Selection as binding on husband

Where a wife living apart from her husband selects a homestead in lands owned by her, her selection will not, in the absence of bad faith on her part, be set aside and the selection of her husband adopted although the wife's selection was from the roughest and most unproductive portion of the tract and cut off from convenient access to a highway.—Ehrck v. Wife abandoned by husband

Under statute providing that wife, living with husband, may assert her right to the homestead exemption where the husband fails or refuses to do so a wife who continues to live in the homestead premises after abandonment by husband is living with him within the intendment of the statute and is entitled to file a declaration of homestead.—Raymond v. § 48. Proceedings for Allotment

a In general
b In Georgia

a. In General

In some jurisdictions the homestead may, be set apart by allotment in accordance with statutory provisions

In some jurisdictions, particularly in Georgia, as appears in subdivision b of this section, a homestead may be allotted or set apart by proceedings in accordance with the statutory provisions [88]

The allotment and appraisal of homestead after, or in anticipation of, creditor's proceedings are considered infra §§ 216–221.

b. In Georgia

(1) Constitutional or "long" homestead
(2) Statutory or "short" or "pony" homestead

(1) Constitutional or "Long" Homestead

To acquire a constitutional homestead an actual allotment must be made in proceedings, in accordance with the statutory provisions, held before the ordinary

In Georgia there are two classes of exemptions, acquired by essentially different proceedings,[89] the "long" or constitutional homestead, and the "short" or "pony" or statutory homestead [90] The provisions providing for the constitutional homestead contemplate an actual allotment of homestead to the debtor or his family in proceedings had before the ordinary in order to impress property with the homestead character [91] The method prescribed by statute for setting apart a homestead must be strictly followed by the court on which jurisdiction is conferred and, if the court prescribes a method to suit its own convenience, it is acting without authority and its action in setting apart the homestead is illegal and void [92]

Who may apply or compel application No one can prosecute or compel the prosecution of a homestead application except the head of a family or the statutory beneficiaries [93] If the husband refuses to apply for the exemption, the wife or any person acting as her next friend may do so,[94] but his refusal to apply is a condition precedent to his wife's right to make the application,[95] and mere failure on his part is not enough [96]

Requisites of application The application for allotment must conform in all respects to the requirements of the statute providing what it shall contain,[97] and disclose affirmatively all the facts necessary to entitle applicant to the exemption [98] It must show either expressly[99] or by natural implication[1] that claimant possesses such a status as entitles him to claim a homestead, but an averment in terms of ownership is unnecessary [2] Residence is sufficiently stated by describing applicant

as being "of said county."[3] The application must contain a schedule giving a description of all claimant's real and personal property as required by statute,[4] and this is so whether all or only a part of the estate is to be exempted,[5] but the application need not fix the value of the property sought to be set apart.[6] A provision which requires applicant for the exemption to make a full and fair disclosure of everything which he has, and provides that, if he is guilty of fraud in failing to do so, he shall not be entitled to the exemption is not in violation of a constitutional provision granting the right of exemption.[7]

Where the application is made by the wife, it should state out of whose property the homestead is to be carved,[8] and should further allege that the husband has failed or refused to make the application,[9] although it has also been held that it must be stated that the husband refused, failure or neglect to do so being insufficient.[10]

The application may be signed by an attorney if sworn to by the debtor,[11] and, after approval by the ordinary, it must be recorded in accordance with the statutory provisions.[12]

Amendments Should the facts disclosed on the hearing of the application differ from those alleged, amendments may be made at any time, with the permission of the officer passing on the application,[13] and the schedule being a part of the pleadings is amendable at any time prior to judgment,[14] but an amendment of the application is not permissible where the original proceedings are absolutely void.[15]

Fixing time and place of hearing. Where the court fixes the time and place for hearing the application and on the date set was absent from the county and no provision for a continuance was made, the court cannot subsequently, without further notice or order, approve the application and grant the homestead,[16] and the setting of the hearing on the application and the approval of the homestead at a date earlier than the court is by law authorized to do constitutes a defect in the proceedings fatal to the jurisdiction, and the approval and setting apart of the homestead are void.[17] Where the time to be fixed by the notice when the court would act on an application for setting apart the homestead is not more than thirty days from the date of the order of the court to the surveyor, if more than thirty days intervened the conveyance is void.[18]

Hearing No question of title can be adjudicated at the hearing of an application for the allotment of a homestead.[19] A receiver may be appointed on the hearing of the application for an allotment of a homestead,[20] but cannot be delayed until final adjudication.[21]

Conclusiveness and effect of decrees and allotments A liberal presumption is indulged in favor of the regularity of homestead proceedings, and the judgment of the officer allowing the exemption cannot ordinarily be collaterally attacked,[22] as by objecting to the description contained in the debtor's schedule of property,[23] or to the want of regularity in the petition or in the acts of the surveyor who laid off the homestead,[24] and the debtor can-

Limitation on amendment of schedule

not claim a right to a reallotment on the ground of irregularity in the former proceedings, where he has enjoyed the benefits secured by them for a considerable period of time [25] The husband of claimant will be deemed to have assented to setting apart the homestead, where he fails to object to his wife's petition [26] If a first application is denied, on the hearing of a second application claimant may show that new homestead rights have accrued since the former adjudication, which prevent its being a bar [27] Where there is absolutely no right to a homestead as a matter of law, proceedings for the setting apart of a homestead are void and of no effect [28] A homestead in a man's own lands cannot be thrust on him if he objects by plea [29]

Estoppel The debtor, by acquiescence, may estop himself from thereafter objecting to the validity or regularity of the proceedings [30]

Notice to creditors. Creditors must be given notice and an opportunity to present objections to the application, or they will not be concluded by its approval [31] Where there is a misnomer in the notice, a judgment granting a homestead is of no force as against a creditor [32] The requirement as to notice being intended for the benefit of the creditors of the person out of whose estate the homestead is to be set apart, a defect in the advertisement would not avail one for whose benefit the publication was not made [33]

Appraisal If the debtor acquiesces in the amount of an appraisal of the homestead, he cannot object to it thereafter [34]

Survey and return Since the statute requires that before the application can be granted the land must be surveyed, if the homestead is set apart before the return made by the surveyor the proceeding secures no exemption to claimant.[35] The surveyor's return should be verified if this is required by statute,[36] but mere clerical errors in the affidavit will not vitiate it [37] It is also necessary that the ordinary should approve the return of the surveyor by order[38] or otherwise.[39] It is further necessary to the validity of the homestead that the survey should be recorded[40] within such time after the application as the statute provides.[41] When, on appropriate application by the wife, land has been laid off by the county surveyor and platted, and the plat has been duly returned, filed, and recorded by the ordinary, the family becomes the beneficiary of the homestead and is entitled to possession of the land [42]

Objections of creditors. Under provisions to that effect, any creditor is entitled to raise objections to the application and subsequent proceedings on specified grounds [43]

Review The remedy for an adverse adjudication of the ordinary is appeal to the superior court [44]

On appeal from the officer making the original allotment, the entire case is brought before the appellate tribunal, and either party may raise any objection or make any motion or amendment which would be permissible in appealed cases [45] The question of value has been held triable de novo on appeal,[46] as is also the fact whether claimant is in good faith the head of a family, and whether the alleged members are legitimately such [47] However, an appeal does not lie to the superior court from a judgment rendered by the ordinary sustaining a demurrer to an application for a homestead,[48] and in such a case the exclusive remedy for reviewing the judgment is by certiorari [49]

(2) Statutory or "Short" or "Pony" Homestead

To acquire a statutory homestead, it is merely necessary to file with the ordinary a schedule of the property claimed to be exempt The exemption so acquired may be collaterally attacked

Under provisions to that effect with respect to the statutory or "short" or "pony" homestead, which is the second of the two types of homesteads in Georgia, the first or constitutional type having been discussed supra § 48 b (1), no application for homestead is required, it being merely necessary to file with the ordinary a schedule of the property claimed to be exempt [50]

Conclusiveness of exemption The act of the ordinary in receiving and recording the schedule is ministerial only,[51] and the validity of such exemption may, in a proper case, be collaterally attacked [52]

Requisites of schedule The existence of facts necessary to constitute a valid exemption need not affirmatively appear from the face of the schedule of exempt property,[53] but such prerequisite facts must actually exist [54] On the other hand, where it does not affirmatively appear from the schedule that the facts do not meet the statutory requirements, the exemption cannot be held void as a matter of law [55] In determining the sufficiency of the description of the property in the schedule, the rule applicable to the sufficiency of the description in conveyances of land does not apply [56]

§ 49. Time of Acquisition of Homestead

a. In general
b. When property may be made homestead

a. In General

The time when homestead rights attach or property acquires the character of a homestead depends on the constitutional and statutory provisions of the particular jurisdiction

Homestead rights attach to property ordinarily when a dedication or selection thereof is made for that purpose in accordance with the statutory requirements prevailing in the jurisdiction [57] A homestead cannot be acquired prior to the acquisition of title or a possessory interest in the property.[58]

The date of acquisition of a homestead is not changed by reason of the fact that the homesteader improves his homestead and adds to its value,[59] and the fact that the homesteader, after his right of exemption had accrued, paid for the property or paid off liens on it, does not bring forward the date from which his right of exemption to the tract accrues [60]

Selection by occupancy Where mere occupancy is sufficient, see supra § 44, the time at which a party commenced occupation of land as a homestead will constitute the time of acquiring the homestead in the land,[61] notwithstanding the property was

One of the necessary facts is that the head of a family can exempt land not in a city town, or village, only when the improvements thereon do not exceed two hundred dollars in value.—Kimsey v Rogers, 142 S E 667, 166 Ga 176

55. Value of property

Exemption of property was not void as matter of law, on ground that property exceeded five hundred dollars in value when schedule was filed where excess did not affirmatively appear.—Wood v Wood, 143 S E 770, 166 Ga 519

56. Ga.—Clark v Kinney, 171 S E 763, 177 Ga 864

owned jointly with another [62]

Selection by intention coupled with appropriate acts. In those jurisdictions where intent to occupy, coupled with appropriate preparatory acts, is sufficient, see supra § 33, it has been held that homestead character is impressed on the property as of the date of an oral declaration of intention, if followed by overt acts and occupancy,[63] but it has also been held that the exemption attaches when definite acts are performed in furtherance of the intention [64]

Selection by filing declaration Where the filing and recording of a declaration is necessary, see supra § 46, the homestead character dates from the due performance of these acts,[65] and not from mere occupancy of the premises [66]

Selection by registration of deed Under homestead laws requiring that where the premises are acquired by deed the deed be registered or filed for record, the homestead rights attach when the deed is so registered or filed,[67] provided the premises are actually occupied as a homestead at that time,[68] or at a subsequent time, if it is within the period when the property may be rendered exempt [69]

Property acquired as homestead If the householder is actually occupying the premises as his home when he acquires title or a sufficient interest to support a claim of homestead, his right of exemption usually arises at the moment he acquires title or such interest,[70] provided the owner is a bona fide housekeeper with a family,[71] but if he merely holds a bond for a deed and is not in possession, the estate of homestead does not relate to the date of the bond, but begins when the deed is delivered [72] In some jurisdictions it is not always necessary that occupation follow immediately after acquisition of title, but the premises become a homestead at the time of acquisition if purchased for the purpose of using it as a homestead, as evidenced by overt acts in fitting it for such a purpose, and if actually occupied within a reasonable time,[73] but it has also been held that the exemption dates from the time of performance of the overt acts evidencing such intention [74]

b. When Property May Be Made Homestead

The right to claim a homestead on property arises on the purchase and occupancy of the premises. While in some jurisdictions property may be made exempt as homestead at any time prior to forced sale, in others it must be done before the rendition of judgment against the debtor

The right to impress property with the homestead exemption in accordance with the required formalities attaches immediately on the purchase and oc-

Legal fiction

In a case in which the debtor had abandoned the homestead and subsequently reoccupied it, it was held that in the statutory provision that the "homestead shall be subject to attachment and levy of execution upon all causes of action existing at the time of the acquiring such homestead, except as herein otherwise provided," and that "for this purpose such time shall be the date of the filing in the proper office for the records of deeds, the deed of such homestead," the latter clause is not an independent exception or a contrary provision, but is a legal fiction in aid of the stated exception and whether or not this fiction applies in a given state of facts is a judicial question—Palmer v Omer, 295 S W 123, 316 Mo 1188

cupancy of the premises[75] Under or apart from statutes to that effect, it has been held that property may be impressed with the right of homestead in the manner prescribed or contemplated by law, and thereby rendered exempt, at any time before forced sale,[76] even though the homestead is sought for the express purpose of passing a clear title to the property, free of creditors' liens,[77] but the property will not be exempt where it is not dedicated in accordance with statutory requirements until after the sale[78]

Under other statutes to that effect it has been held that property may be made a homestead at any time prior to the rendition of judgment against him, even though the purpose of impressing the property with a homestead character was to defeat the judgment, and even though the property had been held out as a possible asset in obtaining credit,[79] but the property may not be exempted as a homestead after the rendition of a judgment which becomes a lien on the property[80]

§ 50. Change of Homestead

Subject to limitations for the protection of third persons and of the debtor's wife, a debtor may change his homestead, and is entitled to a reasonable time to accomplish the change, but the abandonment of an existing homestead is a prerequisite.

Subject to the limitations herein considered, the general rule is, under or apart from the statute to that effect, that a debtor may change his homestead by moving from one tract of land to another and claiming the new homestead as exempt[81] The

(2) Prior thereto, and under an amendment to that effect in 1927, a homestead could be selected at any time before rendition of judgment—State v Superior Court of Chelan County 266 P 731, 147 Wash 574

(3) Under the 1927 amendment it was held that the provision could not deprive a judgment debtor who acquired property after the judgment from declaring it his homestead, that if the provision so operated it was unconstitutional, and that, in the absence of a valid provision as to the time of selecting property as a homestead, the rule that selection may be made at any time before sale would apply—Spencer v Pacific Mercantile Agency Collectors, 281 P. 482, 154 Wash 191

(4) Prior to the 1927 amendment it was held under provision to that effect, that the exemption could be obtained by the selection of a homestead at any time before the sale—State v Superior Court of Chelan County, supra—First Nat Bank v Galloway, 232 P 270, 132 Wash 355

(5) A declaration after judgment but before sale was valid under this provision, even though the declaration was made after the 1927 amendment became effective, where the judgment had been rendered prior thereto—Bilyeu v First Nat Bank, 283 P 169, 151 Wash 514

(6) Under this rule it was held that it is unnecessary, in defense of creditor's bill to set aside husband's deed to wife, to plead that property is homestead, when it is not, or that defendant intends to file declaration of homestead in order to avoid rule of res adjudicata, and realty, selected as homestead, after judgment canceling husband's deed to wife was not subject to sale under execution on judgment against husband, although second judgment provided that part or all of property be sold to satisfy it—First Nat Bank v Galloway, supra

(7) It was also held, without reference to statute, that homestead property is exempt even though it is dedicated after the rendition of judgment, which it is said becomes a lien on the property subject to the right of the owner to defeat execution sale by filing a homestead declaration—Snelling v. Butler, 119 P 3, 66 Wash 165

owner of the homestead is entitled to a reasonable time to accomplish the change,[82] and the fact that immediate possession is not taken of the new property may not affect the validity of a claim of homestead thereon.[83] Furthermore, the owner of the homestead is not limited to one change of homestead but may make the change several times[84]

Since a person cannot possess two homesteads at the same time, see supra § 13, abandonment of an existing homestead is a condition precedent to the acquisition of another[85] However, the mere intention to change, and the performance of certain acts to effect such intention, have been held not sufficient to impress the new property as a homestead prior to occupancy thereof[86]

Limitations on rule A limitation on the right is that if the homestead has once been designated or set apart, a change cannot be effected if this would work a fraud on the rights of third parties,[87] as by invalidating security taken on land which was not exempt when the security was given[88]

Who may make change. It has been held that, subject to certain limitations in favor of the wife,[89] the husband may change the homestead,[90] without the consent of the wife.[91] However, it has also been held that, while the husband may change a designation of homestead without the wife's consent if the property previously designated has not been impressed with the homestead exemption by occupancy,[92] if the designated property has once become occupied as a home he cannot designate another without the consent of the wife[93] At any rate, where the homestead is part of a larger tract of land, the husband, as head of the family, may eliminate one part and designate another, so long as he acts in good faith and with fairness to his family and retains the amount of acreage required by law, including the dwelling and its appurtenances[94]

§ 51. Evidence and Questions for Jury

a. Evidence
b Questions for jury

a. Evidence

(1) Presumptions and burden of proof
(2) Admissibility
(3) Weight and sufficiency

(1) Presumptions and Burden of Proof

The homestead claimant has the burden of establishing all facts essential to entitle him to the exemption; but all reasonable presumptions consistent with good faith will be indulged in his favor

In accordance with rules governing the burden of proof in civil actions generally, see Evidence §§ 103–113, the party claiming a homestead exemption in land has the burden of proving all the facts essential to entitle him to such exemption,[96] such as, that premises were duly set apart as a homestead,[97] that there was such occupancy as was sufficient to establish a homestead,[98] or that he was the head of a family [99]

In actions in which the homestead claimant is not involved, the burden of proving the existence of the homestead right is on the party asserting it [1]

Presumptions. In accordance with rules governing presumptions in civil cases generally, see Evidence §§ 114–157, all reasonable presumptions will be indulged in favor of the homestead right of exemption, where the facts are consistent with good faith [2] Thus, it will be presumed, in favor of a claim of homestead, that the court which took cognizance of the original proceedings had jurisdiction, where the homestead rights are collaterally attacked after the lapse of a considerable time,[3] that, where property is purchased to be used as a homestead, the intention was to use the entire lot therefor,[4] that the whole of the building or tract, of which part is occupied as a home, constitutes the

homestead,[5] unless it is proved that a portion of it has not that legal character;[6] and that the legal subdivision of land, on which the dwelling house stands, and which equals the statutory measure of the homestead right, has been selected by the owner as his homestead,[7] although there is authority to the contrary of this last proposition.[8] It will also be presumed that the husband of claimant consents to her application for homestead where only his creditors object.[9] However, that certain property was designated a homestead in an Indian allotment of land creates no presumption that such land constitutes a homestead within the constitutional and statutory provisions as to homesteads in the state.[10] It is presumed that a state of facts which entitles one to a homestead continues until the contrary is established.[11]

While it has been held that actual use of property for the purposes of a home will be deemed a designation of such premises as a homestead,[12] and that residence is prima facie evidence of an intent to dedicate premises to the purposes of a homestead,[13] such presumption is not conclusive, but is rebuttable by facts and circumstances aliunde.[14]

(2) Admissibility

Rules governing the admissibility of evidence in civil actions generally have been applied in actions and proceedings in which the acquisition and establishment of a homestead was an issue.

In accordance with rules governing the admissibility of evidence in civil actions generally, the admissibility of evidence to prove the acquisition and establishment of a homestead has been determined with regard to the relevancy, materiality, and competency of the evidence in the particular case.[15] In order to prove the acquisition or establishment of a homestead, or the intent to do so, on which the creation or existence of the homestead largely depends, see supra § 30, circumstantial evidence has been held admissible,[16] such as evidence of the actions of claimants,[17] of the entire transaction relative to the purchase of property,[18] and of the circumstances attending the occupancy of the land claimed as homestead.[19] Records of prior suits involving the property are admissible to show whether the property was regarded as a homestead.[20] It has been held not error to exclude evidence which is merely cumulative.[21]

It has been held that the declarations of a claimant are admissible to prove intent,[22] but not for other purposes.[23] However, the recitals in a declaration of homestead are mere ex parte statements of declarant, and are not legitimate proof of the truth of the facts recited, and the truth of the recitals must be proved aliunde, whenever the validity of the homestead is attacked.[24]

(3) Weight and Sufficiency

Rules governing the weight and sufficiency of evidence in civil actions generally have been applied in actions and proceedings in which the acquisition or establishment of homesteads was an issue.

In accordance with rules governing the weight and sufficiency of evidence in civil actions generally, see Evidence §§ 1016–1050, that property was impressed with a homestead character must be established by a fair preponderance of the evidence [25] The mere claim by the owner that the property is his homestead does not establish that fact [26] It has been said that whenever there is serious doubt as to whether property is, or is not, a homestead, the doubts should be solved in favor of the exemptionist, sustaining instead of defeating the estate which is created by a sound legal policy [27] Stronger evidence is required to establish a homestead in unoccupied property where it would be a deception or a fraud on a creditor who had extended credit on the faith or ownership of property in which debtor did not reside [28]

Evidence of intent Acts indicating an intention to constitute premises a homestead may be sufficient evidence to establish the character of the premises as a homestead [29] However, the declarations of the interested parties are not conclusive, as to the intent to establish a homestead, either in favor of or against the claim of homestead,[30] although there is some authority for the view that declarations of no intention to claim property as a homestead are direct and positive proof that there was no such intention and that the property was not exempt as homestead [31] Acts of claimants after suit to foreclose lien was filed are not of sufficient probative force to establish a bona fide intention to make certain property a homestead [32] Evidence of place of voting usually has a strong bearing on the question of intent, but is not absolutely controlling [33]

In particular cases the sufficiency or insufficiency of the evidence to show a bona fide intention to use the property as the homestead,[34] to show bad faith in filing a declaration of intention,[35] to show that the old homestead was sold with the intention of using the proceeds of the sale in the acquisition

Evidence of overt acts

Evidence that shortly after judgment debtor acquired an interest in lot purchased by his wife for homestead, they negotiated with builder regarding plans for a home but were unable to obtain necessary money until some two years thereafter, and that they demonstrated intention to use the premises as their homestead by doing certain overt acts, warranted holding that premises constituted the "homestead" of judgment debtor and his wife and hence were exempt from judgment lien —Schwitzke v American Nat Bank, Wis, 8 N W 2d 303

b. Questions for Jury

Rules governing the province of the court and the jury in trials in civil actions generally have been applied in actions or proceedings in which the acquisition or establishment of homesteads was an issue.

In accordance with the general rules governing trials in civil actions, see the C.J S. title Trial §§ 203–265, also 64 C J p 296 note 48–p 510 note 64, questions which are matters of law or on which the evidence is not conflicting are for the court,[49] except where the credibility of witnesses is involved,[50] but the jury or trial court must determine questions of fact on conflicting evidence,[51] such as whether the debtor's property was impressed with the homestead character at the time in issue,[52] whether particular property is part of the homestead,[53] whether claimant is the head of a family so as to be entitled to the homestead exemption,[54] whether the land was used and occupied as a homestead,[55] whether the property is a rural or urban homestead,[56] whether claimant intended to make the premises a homestead,[57] and whether the acts performed by claimant to enable him to occupy the property, in connection with his intention to occupy it, were sufficient to impress the premises with the homestead character[58]

In determining whether the evidence warrants the submission of the case to the jury, the test is whether reasonable minds could differ on the con-

D PROPERTY CONSTITUTING HOMESTEAD

§ 52. Nature and Character

The right of homestead is generally regarded as incidental to an interest in land, rather than to buildings considered apart from the soil, but it attaches to the structure erected on exempt premises and to fixtures permanently annexed to the realty.

While there is authority to the effect that the homestead exemption may attach to a building erected by one who has no interest or estate in the land on which it stands,[64] or by a tenant on leased land,[65] it is generally considered that the right of homestead is incidental to an interest in land rather than to buildings located thereon and considered apart from the soil,[66] but it attaches to the structure erected on premises which are exempt and to

fixtures permanently annexed to the realty.[67] It does not attach to chattels not affixed to the freehold,[68] or not, under the circumstances, a part of the realty,[69] or to structures and buildings which have been removed from the premises, although exempt before their removal,[70] although it has been held that such structure or building is not liable to an execution while in transit, if it was exempt before removal,[71] and of course buildings which have been removed from the land are not exempt if they were not exempt before removal[72]

Whether particular property was the homestead of persons executing an instrument involving the property has been required to be determined by the facts as they existed at the time of execution[73]

It has been held that where property is used as a homestead for the support of the family, the fact that an excess is produced above their actual and necessary support and maintenance will not change the homestead character[74]

The property which is subject to appropriation by surviving husband, wife, or children is considered infra §§ 266–270

Indivisible unit. In connection with the statement that the homestead includes the land with the dwelling and improvements thereon, the homestead has been said to be necessarily an indivisible unit,[75] however, whether separate and detached parcels of land may constitute a homestead is discussed infra § 65

§ 53. —— Rural or Urban Homestead

An urban homestead is ordinarily one within, and a rural homestead is ordinarily one outside of, the boundaries of a city, town, or village; and the general rule is that a homestead cannot be part rural and part urban. A rural homestead may in some circumstances become an urban one

An "urban homestead" has been defined as the residence or dwelling place of the family in a city, claimed or set apart as a homestead, including the principal house and lot and such lots as are used in connection therewith, contributing to its enjoyment, comfort, and convenience[76] "Rural homestead," in contradistinction to the term "urban homestead," is a term usually applied to a homestead claimed in premises outside the boundaries of a town, city, or village,[77] but under some circum-

stances, where the premises are not urban in character but wholly rural, a rural homestead may be located wholly or in part within the territorial limits of a municipality,[78] and the mere fact that land lies within the corporate limits of a city, town, or village does not necessarily stamp it with the character of an urban homestead.[79]

Whether a claimant is entitled to a rural or an urban homestead is to be determined on the facts of each case, bearing in mind the constitutional or statutory purpose and intent.[80] The occupation in which the owner is engaged does not conclusively establish the character of the homestead.[81] It is, in general, the place of the homestead that gives it its character as rural or urban,[82] although the use made of the land is material in determining the question.[83]

From its definition and nature, as above stated, an urban homestead generally must be confined to premises within a town, city, or village,[84] and cannot be claimed in land outside of the boundaries of the municipality.[85] It may be required that the town, city, or village in which the premises claimed as an urban homestead are situated shall be an incorporated municipality,[86] but under some provisions incorporation is not essential.[87] Under some provisions the premises must be within the laid-out or platted portions of the municipality,[88] which have been laid out or platted for urban purposes,[89] but under some provisions this is not absolutely

essential,[90] as where the owner has performed acts of actual subdivision, with reference to the premises, which are equivalent to a laying out or platting,[91] or where, the property being strictly urban in character, the court will carry out the intention of the legislature, by subdividing the land into lots for homestead purposes.[92] However, whether lands which have never been platted, but which lie within the laid-out portion of the city, are to be considered rural or urban depends on whether they are within a rural or an urban portion of the city.[93] The fact that a locality is without a map or plat has been held not controlling.[94]

Homestead partly urban and partly rural While there is some authority apparently to the contrary,[95] the general rule is that a homestead cannot be part rural and part urban,[96] but it has been said that this does not mean that a homestead never can be such, and that the question at last must depend on proof.[97]

Change from rural to urban homestead A rural homestead may be changed into an urban one,[98] as by an act of the legislature without the consent of the owner,[99] or it may become urban as a result of the acts and conduct of the owner,[1] or the facts and circumstances may be such as to show such a change in the character of the property.[2]

§ 54. —— Necessity of Use for Residential Purposes

A homestead, it has been held, cannot exist in premises which are incapable of use for residence although it may exist in any structure capable of such use

As a general rule, as discussed supra §§ 32–37, a homestead cannot be acquired or claimed in property which is not actually occupied by the debtor as a home, hence it has been held that premises which are incapable of use as a residence cannot constitute a homestead.[3] The particular kind of dwelling or house is not material if the premises are actually intended and used for a home.[4] Any structure which is sufficient for a debtor and his family actually to live in is sufficient for the purpose,[5] and the fact that a house is small and in a dilapidated condition will not prevent its occupants from acquiring a homestead.[6]

tion in fraud, the offender can acquire no rights therein paramount to those of persons defrauded

It has been held that a homestead may be acquired in land a part of which was acquired by preemption and part as a desert claim [7]

Homestead in property acquired by adverse possession, or by gift, descent, or devise, is considered infra § 78

Effect of fraud Where the title to homestead property has its inception in fraud, the offending party can acquire no rights therein paramount to those of persons whom he has defrauded [8] Hence, no exemption is secured for land wrongfully purchased by a guardian with his ward's funds,[9] by a partner with misappropriated assets of the firm,[10] by an administrator who fraudulently misapplies moneys of the estate,[11] or by an insolvent debtor who, to avoid creditors then pressing him, exchanges personal property for real estate and claims the latter as exempt [12] The declaration of a homestead by a bankrupt is not operative as against creditors when made in fraud of their rights,[13] but if the debtor, knowing his insolvency, merely buys real estate with proceeds of nonexempt assets, he may still claim his exemption [14]

§ 56. Amount and Extent

The amount and extent of the homestead, as fixed by law, cannot be exceeded, if more land than is allowed is occupied and claimed as a homestead, the whole tract is not subject to execution, but the excess, if severable, may be sold

The amount and extent of the homestead, as fixed by constitution or statute, cannot be exceeded,[15] but a homestead already acquired may be enlarged or increased to the maximum allowed, the addition becoming a part of the homestead [16] The limitation of the extent has been said to be a part of the definition of the homestead,[17] but the contrary has also been stated [18] The amount or extent is sometimes made to vary according to the value of the tract,[19] or the number of the children of the debtor,[20] although under the homestead laws of some states the area alone is restricted and no limit placed on the value of the homestead [21] The fact

Constitutionality

Statutes providing for homesteads limited in area but not in value have been held constitutional—Barton v.

that the net value of property claimed as a homestead is diminished by reason of a mortgage thereon does not authorize the claim of a greater quantity of land than could otherwise be claimed [22]

The fact that more land than is allowed by law is occupied and claimed as a homestead does not render the whole tract subject to execution, but the excess, if severable, may be sold [23]

Where a homestead statute contains no limitation as to quantity, but provides that the homestead shall consist of the dwelling house in which claimant resides and the land on which it is situated, only so much of the land surrounding the dwelling will be allowed as is reasonably necessary for the use of the dwelling as a home [24]

The permissibility, under organic laws, of legislation as to the amount of exemption is considered supra § 7

Streets and highways Under a statute providing an exemption of a stated area of land, in a city or town, owned and occupied by claimant, streets[25] and alleys[26] are not included, but it has been held that, in determining the quantity of land which may be selected as a homestead in rural areas, one half the area of abutting highways and the whole area of traversing highways are to be included [27]

§ 57. —— In City, Town, or Village

As used in statutes allowing one lot as an urban homestead, the term "lot" has been construed by some courts to mean a lot according to the survey or plat of the municipality, and by others to mean the actual lot or parcel occupied, whether including one or more lots according to the recorded plat and survey

A general statute providing that the word "village" imports only a municipal corporation organized by some special act or under some general law has been held to limit the word, as used in a statute fixing the quantity of land for a homestead in a village, to incorporated villages [28]

In at least one jurisdiction, a homestead in a city or town consists of the lot or lots on which the family resides and which it uses for the purposes of a home [29] In statutes allowing one lot as an urban homestead, the term "lot" has been construed by some courts as meaning one lot according to the survey or plat of the city, town, or village,[30] and the proper extent of the lot is to be determined by comparison with other platted portions of the town or city [31] However, in other jurisdictions, where a town or city lot is exempted, it has been held to embrace the actual lot or parcel of ground on which the debtor resides, whether including one or more lots according to the recorded plat and survey [32]

The Texas statute allowing the head of a family whose homestead is part of a larger tract than is exempt the privilege of designating a certain part of the homestead has been held to have no application to homesteads in cities or towns[33]

§ 58. —— Effect of Extension of Municipal Limits

In most jurisdictions, the limits of a municipality may be extended so as to include what was formerly a rural homestead and to afford the owner only the amount available as an urban homestead, but for this result the land may be required to be actually impressed with an urban character, as by laying out and platting for urban purposes

While there is authority to the contrary,[34] in most jurisdictions where the question has been raised it has been held that, even without the owner's consent and against his wishes, the limits of a city, town, or village may be extended so as to include what was formerly a rural homestead and to afford the owner only the amount available as an urban homestead[35] Where the mere fact that land lies within the boundaries of the city, town, or village, is not regarded as necessarily stamping it with the character of urban property for homestead purposes, as discussed supra § 53, it is necessary, in order that the owner shall lose the right to a rural homestead and be restricted to the right to an urban homestead, that the land, in addition to being embraced within the extended municipal limits, shall be otherwise actually impressed with an urban character[36] Thus, depending on the provisions of the particular urban homestead law, it may be necessary, as discussed supra § 53, that the municipality whose limits have been extended shall be an incorporated one, and that the land shall be within the laid-out and platted portions of the municipality, and, further, that it shall be laid out and platted for urban purposes[37] On the other hand, where the mere inclusion of land in a city, town, or village is all that is necessary to impress it with an urban character for the purpose of an urban homestead exemption, a rural homestead will become urban property and subject to the provisions governing urban homesteads merely by being brought within the corporate limits of the city, town, or village by legislative enactment,[38] although the owner may continue to use it for agricultural purposes[39]

Where a city is authorized to extend its corporate limits so as to include agricultural lands, a homestead right in such lands must be determined by the conditions existing when such right is questioned, and not at the time when such property was acquired[40]

§ 59. Value

A constitutional or statutory limitation as to the value of a homestead cannot be exceeded

Value has been said not to enter into the definition of a homestead, but to be merely a limitation on the exemption when established[41] While under some statutes there is no limit of value,[42] the homestead exemption within the limits of value specified by constitutional or statutory provision may be complete,[43] unless, as considered supra § 56,

(2) Under Florida constitution extension of limits of incorporated city, taking part of homestead into city limits, does not affect right of owner to add to homestead up to limit fixed therefor —Croker v Croker, D C Fla, 7 F 2d 218

In Nebraska it was held that a person who acquires a right of homestead exemption has a vested right to such an exemption as is given by the then existing laws, and that this right cannot be diminished by a subsequently enacted law in accordance with this view it was held that, where the owner of a tract of land near a city had acquired a homestead right therein, such right could not be diminished by the subsequent enactment of a law, without his consent or procurement, bringing the land within the corporate limits of the city —Gallagher v Smiley, 14 N W 187, 28 Neb 189 26 Am S R 319

§ 60. —— Effect of Excess in Value

An excess in the value of property occupied as a homestead, over the allowed value, is subject to levy and sale

A limitation of value is for the purpose of fixing the rights of the homestead claimants and the creditors respectively.[47] Excess in value of the homestead selected over the statutory exemption does not invalidate the selection if it is otherwise valid,[48] but where the premises occupied as a homestead exceed the statutory value, exemption can be claimed only to such value, and all the excess is subject to levy and sale on execution [49] If the property is subject to division, it may be reduced in quantity so as to bring it within the required value, provided it can be so reduced as to leave a homestead consisting of the dwelling house with the outbuildings and appurtenances necessary to its ordinary use as such [50] Where the property has been reduced as far as it is possible and still exceeds the statutory value, in some jurisdictions no

(1) Under statutes giving to a householder and the head of a family a homestead exemption not exceeding two thousand dollars, and providing that a creditor, on filing an affidavit that the homestead is of greater value than two thousand dollars, may proceed against it as in ordinary cases the filing of such affidavit is a necessary prerequisite to the validity of an execution against the homestead of a debtor who has taken the statutory steps to claim his exemption —Whitlock v Alliance Coal Co 214 P 516 73 Colo 205—Copeland v Colorado State Bank of Durango 59 P 70, 13 Colo App 189

exemption can be claimed;[51] but in other jurisdictions the premises can be sold only on paying to the owner the amount of his statutory exemption,[52] or the entire premises may be sold and the proceeds distributed in the manner prescribed by statute.[53]

The right of a judgment creditor to subject the excess to the payment of his judgment is lost by his failure to exercise the right before the owners had parted therewith.[54]

Allowance to debtor. Where it appears that the homestead premises are in excess of the statutory amount, that they are chargeable with the debt in question, and that it is impracticable to divide them so as to assign the homestead in the land itself, the sale of the whole tract may be ordered and an allowance of the statutory amount in lieu of homestead made to the owner out of the proceeds, irrespective of the rights of creditors whose claims are subject to the homestead exemption;[55] but this may be done only after paying such of his debts as have precedence over his homestead exemption.[56] The proceeds allotted in lieu of the homestead are subject to the same liabilities,[57] and may be protected to the same extent,[58] as was the original home tract.

§ 61. —— Effect of Increase or Depreciation in Value

a. In general
b Making additions to homestead
c Placing improvements on homestead

a. In General

Authorities differ as to whether an increase in the value of a homestead, over the statutory amount, occurring after the homestead has been set aside or allotted, is subject to the claims of creditors.

In some jurisdictions, where, after a homestead has been set apart or allotted, an increase takes place in its value, so as to render the premises of greater value than is protected by the statute, the owner has no exemption in the excess;[59] but in other jurisdictions an appreciation in value over the statutory amount, after allotment, is not subject to the claims of creditors.[60] It has been held that land, dedicated under a prior law, and increasing in value not to exceed the limit fixed for exemption by a later statute, may still be claimed as a homestead.[61] A debtor, after acceptance of a homestead, cannot have a reallotment on the ground that the premises have depreciated in value since the final appraisement.[62]

b. Making Additions to Homestead

If a homestead is of less value than the legal maximum, other land may be added to it, and become exempt, up to the statutory limit.

If the homestead, when set apart, is of less value than the maximum allowed by law, other land may be added to it and become exempt if the statutory limit is not thus exceeded.[63] It has been held that a homestead set apart under a former constitutional provision, which was not of as much value as the homestead allowed by the existing constitutional provision, may, after the adoption of the latter, be supplemented and increased to an amount not exceeding that provided for by the last constitution.[64] The owner of a homestead of the maximum value cannot buy adjacent lots and thereby increase his exemption,[65] and if the value of the homestead as originally designated has increased to or beyond the statutory limit, there can be no second designation including additional property, for the value at the date of the second designation is the test.[66]

c. Placing Improvements on Homestead

Authorities differ as to whether the excess of value, over the statutory limit, created by the placing of improvements on a homestead is subject to the claims of creditors.

The mere fact that, by reason of improvements placed on a homestead which is within the constitutional or statutory value when selected or laid off, its value is enhanced beyond the constitutional or statutory limits does not vitiate or affect the homestead as an entirety[67] Under some decisions the excess of value over the homestead exemption thus created is subject to the claims of creditors,[68] especially where the homestead claimant erects buildings on the premises which greatly increase their value[69] On the other hand, there is authority to the effect that the excess over the homestead exemption caused by the addition of improvements cannot be reached by creditors,[70] especially where such improvements are incidental and necessary to keeping the premises in repair.[71]

§ 62. —— Determination of Value

Authorities differ as to whether the value of premises claimed to be a homestead is to be determined from their fee-simple value or from the value of the claimant's interest therein, as in the case of a life estate, and also as to whether improvements on the land are to be considered It is generally held that in determining the value legal encumbrances are to be deducted.

The value of premises claimed to be a homestead is to be determined, according to some authorities, not from the fee-simple value of the land, but from the value of the homestead claimant's interest therein,[72] and this rule has been applied where the right of the debtor in the lands is only a life estate[73] On the other hand, it has been held that the value of the homestead is the value of the tract, not that of the debtor's interest in it,[74] thus, according to other decisions, the market value of the fee simple is estimated in setting aside the homestead, and not merely the value of the life estate[75] If the premises are held by husband and wife, as tenants in common, the interests of both will be considered in arriving at the value of the husband's exemption[76]

The exemption is determined by the value at the time the homestead claim is tried, rather than at the time of levy and filing of the exemption claim[77] The homesteader's affidavit has been regarded as prima facie evidence of the value of the premises[78]

Deducting encumbrances While there is some authority to the contrary,[79] it is generally held that, in ascertaining the value of premises claimed as a valid and subsisting homestead, legal encumbrances are to be deducted,[80] unless the encumbrance is

Execution of new mortgages Where two new mortgages executed by the owner of a homestead to take the place of previous mortgages took effect contemporaneously with, or prior to, the discharge of such old mortgages, and owner's interest after deducting incumbrances never exceeded the statutory amount, a judgment lien did not attach—Brock

subject to, or inferior to, the homestead right, in which case it should not be deducted.[81]

Deducting value of improvements. While there is authority directly to the contrary,[82] according to some decisions, if there are improvements on the land, their value is to be considered in determining the value, as the homestead statutes do not contemplate a homestead of land to the maximum value and also the buildings thereon [83]

Old and new homesteads. Under a statute providing that a new homestead, to the extent in value of the old, is exempt from execution wherever the former one would have been, as much of the value of a prior homestead as goes into a new one determines the amount of exemption of the new as regards indebtedness incurred after the acquisition of the old homestead and prior to the acquisition of the new [84] In determining the value of the old homestead, for this purpose, improvements on the new homestead cannot be considered,[85] nor can the creditor use the encumbrances on the old one to reduce its value,[86] since such value is the value of the tract and not of the debtor's interest therein [87]

§ 63. Form and Physical Characteristics

a In general
b Government subdivisions

a. In General

The general view is that, subject to requirements as to a showing of intention to occupy, homestead rights may attach to vacant land. A claimant cannot lay off a homestead in an arbitrary or unreasonable shape, so as to occasion loss to his creditors.

There is authority to the effect that vacant or unimproved land cannot constitute a homestead,[88] although claimant has made preparations for building on it,[89] and has filed and recorded a statement claiming the land as a homestead,[90] but other decisions hold that, subject to requirements as to a showing of intention to occupy, as discussed supra § 33, homestead rights may attach to vacant land [91] The principles governing parcels of land separate and detached from the parcel on which the dwelling is situated, as constituting part of the homestead, are considered infra § 65 Land is not excluded from the homestead exemption because unenclosed or uncultivated [92]

While it is not necessary that a tract of land, to be available as a homestead exemption, shall be in any particular shape,[93] a debtor claiming a homestead exemption will not be permitted to lay off the homestead in an arbitrary, capricious, or unreasonable shape,[94] so as to occasion loss to his credi-

tors;[95] and this is especially so where other rights have intervened and attached to the property and an irregular selection would operate to the injury of such right.[96]

Location of property at place of residence. It has been declared that the idea of a homestead carries with it a place of residence, and that all property used in connection with the residence must be located at the place of residence.[97]

b. Government Subdivisions

A debtor is not required to select his homestead with reference to governmental surveys or subdivisions.

While there is authority apparently to the contrary,[98] a debtor is commonly not required to select his homestead with reference to governmental or legal subdivisions or surveys, but may claim the quantity allowed by law, from such portion of the tract as includes his dwelling,[99] provided the selected portion is of reasonable shape;[1] but it has also been held that government subdivisions may be ignored and the area platted in any shape or form and from any part of the whole tract.[2] The government surveys are not of controlling importance.[3]

§ 64. —— Adjoining Lots or Tracts

Adjoining tracts or lots not exceeding the extent or value allowed by law for homesteads may be selected as a homestead. In order that a lot or tract adjoining that on which the dwelling is situated may be claimed as part of the homestead, it must be used in good faith for homestead purposes.

Adjoining tracts or lots not exceeding in total extent or value the limit fixed by constitutional or statutory provision may be selected as a homestead,[4] although the family residence is on one lot or tract only.[5] The divisions of the different lots or tracts have no controlling effect, and claimant may select one or more parts of several lots or tracts not embracing more than the statutory limitation and may exclude such parts thereof not so selected.[6] Of course adjoining land cannot be claimed as a part of the homestead where, if it were included, the whole would exceed the statutory quantity or value,[7] and a homestead cannot consist of adjoining tracts some of which are within a city, town, or village and some of which are not.[8] The different parcels should be so connected that they can be used as one tract,[9] and, as will appear in this section, they must all be used for homestead purposes.

Use in connection with homestead. Generally, in order that a lot or tract of land adjoining that on which the dwelling house is situated may be claimed as a part of the homestead, it must be used in good faith for homestead purposes,[10] but there is some authority to the contrary.[11] A tract or lot has been held to be used for homestead purposes, so as to be exempt as a part of the homestead, where it is used for the purpose of a garden[12] and, likewise, where

The use of a portion of an urban homestead for purposes of mere convenience or ornament,[24] and the purchase and holding of a tract to prevent its use for purposes detrimental to a homestead,[25] have been sanctioned. On the other hand, an adjoining lot which merely provides a driveway to reach the dwelling has been held not exempt[26]

Adjoining land leased to others. A lot or tract which adjoins premises occupied as a homestead, but which is leased to others and used only as a source of revenue, has been held to form no part of the homestead, and not to be exempt.[27]

Residence on leased land as affecting right. According to some decisions a debtor who lives on leased land and owns adjoining land which he uses in connection with his home and for homestead purposes may claim such land as his homestead,[28] but there is authority to the contrary.[29]

Parcels cornering on each other. While the opposite view has been taken,[30] it has been held that two parcels of land which corner on each other are contiguous within the rule that contiguous lots and tracts not exceeding in extent or value the limit fixed by constitutional or statutory provisions may be selected as a homestead,[31] and when occupied or cultivated as one piece or parcel of land, may constitute a homestead,[32] although the residence and appurtenances are all located on one tract.[33]

§ 65. —— Separate and Detached Parcels of Land

In some jurisdictions, although not in others, a debtor may claim, as his homestead, in addition to the tract of land on which his dwelling house is situated, separate and detached parcels, provided the legal limit of acreage or value is not exceeded, and the detached parcels are used in good faith as part of the homestead

In some jurisdictions a debtor is allowed to claim as his homestead, in addition to the particular tract or lot of land on which his dwelling house is situated, separate and detached parcels or lots, so long as the statutory or constitutional limit of acreage or value is not exceeded,[34] and if, as will appear in this section, the separate and detached lot or tract

is used in connection with, and as part of, the homestead or home place, but the selection must be reasonable and not purely arbitrary,[35] and it has been required that title to the separate tracts, or some interest therein, be vested in some member of the family.[36] One who occupies a tract otherwise than as a homestead cannot acquire a homestead right in another tract not contiguous merely by cultivating it.[37]

A contrary view has been taken in some jurisdictions where it has been held that the exempted premises must comprise adjoining or contiguous tracts or lots if an exemption in more than one tract or lot is claimed,[38] and it is immaterial that the use of one of them may be convenient for the procuring of articles, such as fuel and timber, essential to the enjoyment of the other on which the dwelling is situated.[39] In this view, noncontiguity has been held to mean absolute disconnection by intervening land of another, and not mere separation by surveyor's lines such as lots in a block, or by streets or alleys.[40]

Use in connection with homestead In those jurisdictions in which a debtor residing on one tract or lot of land as his home may claim as his homestead a detached lot or tract, it is essential to this right that he shall use the detached lot or tract in good faith, in connection with, and as part of, the homestead,[41] or, at least, that some act shall be done evincing an intention to use the detached

parcel in some way in connection with the home place for the comfort, convenience, support, or benefit of the family.[42] However, it has been held that, if a detached lot is actually used for homestead purposes, an open claim to it as a part of the homestead is not necessary.[43]

Lots or tracts leased to others. Separate and detached lots or tracts of land which are not only not used in connection with the home place, but are leased to others, cannot be claimed as parts of the homestead.[44]

Noncontiguous parcels lying within and without limits of municipality. Even in jurisdictions where noncontiguous tracts may be claimed as a homestead, it is not permissible to claim a lot within the limits of a municipality and a tract lying outside the limits thereof,[45] for as appears supra § 53, one is not entitled to a mixed homestead, part urban and part rural.

§ 66. —— Division of Lot or Tract by Highway, Street, or Alley, Railway, Stream of Water, Fence, or Garden

Where the legal limit of value is not exceeded, and the whole is used for homestead purposes, a landowner is commonly allowed to claim a homestead in a lot or tract divided by a highway, street, or alley, railroad right of way, stream, quarter-section line, fence, or garden.

Both in jurisdictions where a homestead may be claimed in noncontiguous tracts and in jurisdictions where it may not,[46] it is commonly held that an owner of land may claim a homestead in a lot or tract divided by a highway, street, or alley,[47] railroad right of way,[48] stream of water,[49] quarter-section line,[50] fence,[51] or garden,[52] provided the value does not exceed the limit fixed by constitutional or statutory provision,[53] but it is essential, for this purpose, that the whole shall be used for purposes of a homestead,[54] and hence if a part is used merely for purposes of profit by renting it to tenants, the part so rented cannot be considered as within the homestead exemption.[55] The contiguity

or compactness of tracts is commonly regarded as not affected by division of lands in the modes previously set forth,[56] except where the fee of streets, alleys, and other public grounds which have been dedicated to the public use is regarded as vested in the public and not in the abutting owners.[57]

§ 67. —— Part of Lot, Tract, or Building

Subject to limitations as to area, and the requirement that the dwelling house be included, a homestead may be carved out of a larger tract. A portion of a building may constitute a homestead.

A homestead may be claimed on the fractional part of a lot,[58] and may be carved out of a larger tract providing no more is set off than is allowed by the homestead provisions,[59] and provided it is set off so as to include the debtor's dwelling house.[60]

A portion of a building, as in the case of an apartment in an apartment house, may constitute a homestead.[61] Where a part of a building abandoned as a part of a business or residence homestead could not be separated, divided, or partitioned from the main building, but was a part of the same structure, the homestead exemption was extended thereto.[62]

§ 68. —— Appurtenances

A homestead includes everything appurtenant to the dwelling which may be, and is, used for the more perfect enjoyment of the home; but property cannot be considered appurtenant unless it is used principally and in good faith for homestead purposes.

Unless there is some express provision to the contrary, a homestead includes not only the dwelling house and the land on which it stands, but everything appurtenant thereto which may be, and is, used for the more perfect enjoyment of the home.[63] It includes lots or parcels of land used by the homestead claimant and his family for purposes immediately connected with their residence and the enjoyment of their homestead exemption,[64] outbuildings,[65] yards,[66] a playground,[67] family orchards,[68] a garden,[69] unless its use is merely occasional and incidental and not primarily for securing products for home consumption,[70] or unless the garden is a rural tract and the residence property urban,[71] a farm, if the homestead is situated in the country,[72] an irrigation canal on a farm;[73] a storehouse erected on a lot purchased with the proceeds of the sale of a homestead,[74] fixtures permanently annexed to the soil, as appears supra § 52, and easements.[75]

What are not appurtenances within rule Property cannot be considered appurtenant if it is not used principally and in good faith for homestead purposes.[76] The homestead must center in and about the dwelling house, and does not extend to any part of the real estate beyond that portion of

the dwelling and land used in connection therewith and within the value fixed by the statute,[77] or to buildings used as a source of revenue.[78] A debtor cannot cover his premises with trade buildings and claim all as exempt.[79] Appurtenances will not include a building used for a storehouse and an occasional working place,[80] woodland not adjoining the home tract from which the debtor obtains fuel,[81] a grist mill, not inclosed with the main homestead,[82] a stable used in carrying on the business of a hotel where the homestead is established in the hotel,[83] or a building on the premises in which claimant operated an illegal business.[84]

Permissive statute A statute providing that a shop, store, or other building situated on a homestead and used and occupied by the owner in the transaction of his ordinary business may be deemed appurtenant to the homestead is permissive and not mandatory.[85]

§ 69. —— Improvements, Additions, and Materials Therefor

Except as inconsistent with legal limitations as to the extent or value of the homestead, the exemption may extend to improvements made on the premises. Materials purchased for use in erecting or repairing the dwelling house are generally held exempt if the residence itself would be.

Except in so far as inconsistent with constitutional or statutory limitations as to the extent, see supra §§ 56–58, or the value, see supra § 61, of the homestead, the exemption may extend to the improvements made on the premises,[86] the right of exemption as to such improvements dating from the acquisition of the homestead;[87] but the improvements must be physically connected with the residence or business.[88] Similarly, unless prevented by limitations as to the extent or the value of the homestead, the owner of a homestead may purchase a fraction of the same lot on which the homestead is situated and impress it with a homestead character where he fears that it may be used for purposes detrimental to his homestead,[89] but he cannot for that purpose acquire lots separate and distinct from the one on which the homestead is situated.[90] An owner cannot build an unnecessary addition to his residence and claim it and the ground on which it stands as a part of his homestead where such addition is practically an independent structure and might be detached without interfering with the use of the homestead.[91]

An addition to the homestead, purchased partly with profits from the homestead itself and partly with other funds, may be equitably apportioned so as to exempt the part represented by the former funds.[92]

§ 70. Rents, Profits, and Products of Homestead

a Rents and profits
b Products

a. Rents and Profits

It is generally held that rents and profits arising from the homestead estate, so long as it retains its character as such, are exempt; but authorities differ as to whether property purchased by the head of a family with homestead income is to be treated as exempt as being part of the homestead estate.

While there is authority to the contrary,[96] it is very generally held that rents and profits arising from the homestead estate, so long as it retains its character as such, are exempt,[97] but the general rule has not been applied to rents from a business homestead.[98]

Property purchased with profits. In some jurisdictions property purchased by the head of a family and paid for exclusively out of the income of the homestead is regarded and treated as an addition to the corpus of the homestead estate, and is exempt as a part thereof,[99] although the head of the family may have contributed his labor in managing the homestead estate,[1] but in other jurisdictions a contrary view is maintained.[2]

Where a conveyance of the homestead is set aside, the homestead claimant will not be entitled to rents during the time that he was voluntarily out of possession by reason of his conveyance.[3]

b. Products

The exemption extends to crops growing on the homestead premises, or matured but ungathered, but authorities differ as to whether crops are exempt after severance. Underlying strata of coal are exempt as part of the homestead.

The exemption extends to crops growing on the homestead premises, or matured but ungathered,[4] and, according to some decisions, to crops which have been severed therefrom,[5] but other decisions hold that the crops are exempt only so long as they are not severed from the soil.[6] Underlying strata

§ 71. Proceeds of Voluntary Sale or Mortgage

a. In general
b. Proceeds given to wife

a. In General

As determined by the statutory provisions, the proceeds of a voluntary sale of a homestead may be exempt in all circumstances, or not exempt, or unconditionally exempt for a designated period, or exempt, for a designated or reasonable period, if intended for reinvestment in another homestead

A statute providing for the exemption of the proceeds of an execution sale of a homestead, up to a stated sum, has no application to a voluntary sale [8]

Statutes giving absolute right of exemption Under the statutes of some states the proceeds of a voluntary sale of a homestead are exempt in all circumstances; the exemption is in no way dependent on the vendor's continuing to be a housekeeper, or on his intention to acquire another homestead, or on the intent with which he keeps the proceeds [9]

Statutes giving no right of exemption. Under the statutes of some states it has been held that on a voluntary sale of the homestead the benefit of the homestead law is lost and that the proceeds of the sale are not exempt,[10] except to the extent of exemptions allowed a debtor in personal property [11]

Statutes giving unconditional protection for designated period Under the statutes of some states, proceeds of the sale of a homestead are protected absolutely for a designated period after the sale,[12] unless the owner abandoned the homestead before the proceeds were paid over,[13] no condition attaches to this exemption, not even that the sale shall be made for the purpose of investing in another homestead [14] After the expiration of the time fixed by statute, the proceeds of the sale are liable for the seller's debts,[15] and the transfer

thereof, within the period fixed by statute for reinvestment, to a third person without consideration will not exempt the proceeds from seizure by creditors of the seller if not invested within the statutory period[16] The statutes do not apply where the conveyance is in effect a gift, although for an expressed consideration, and there are no proceeds to be exempted[17] The term "proceeds" as used in these statutes has been said to mean some tangible thing which is the subject of manual delivery and receipt[18]

A partial payment made to the owner of the homestead sold by him is part of the proceeds of a sale to the same extent as the remainder constitutes part of such proceeds[19]

Statutes protecting proceeds intended to be reinvested in new homestead Under the statutes of several jurisdictions, the proceeds of a sale of his homestead by a debtor for the purpose of investing in another homestead are protected prior to such reinvestment[20] Under these statutes the money arising from the sale is not exempt unless the sale was in pursuance of a design to purchase another homestead; the intent to invest the proceeds in another homestead must be formed at or before the time of the sale.[21] As the matter of intention lies peculiarly within the knowledge of the debtor, the burden of proof of intent to reinvest in another homestead is on him[22] One who abandons all homestead rights in property before selling it cannot claim to have acquired exempt proceeds for reinvestment in another homestead.[23]

In the absence of a statutory provision fixing the period within which investment in a new homestead must be made,[24] a reasonable time will be allowed, for the purpose of protecting the proceeds, or a new homestead in which the proceeds are invested, from the claims of creditors,[25] and what will be a reasonable time must depend on the facts of each particular case[26] Other authority has required a sale for immediate reinvestment[27]

Where the statute authorizes an entire change of homestead by the owner, the exemption has been held not lost because of the debtor's intention to invest the proceeds in another state[28] However, there is authority requiring the reinvestment of the proceeds to be in a homestead in the same state, in order for the exemption to apply[29]

Voluntary surrender to assignee for creditors. Where a debtor makes an assignment for the benefit of creditors, reserving his homestead, and afterward agrees with his assignee and creditors to surrender his homestead for sale with the other land, in consideration of the payment to him of money in lieu of the homestead, the money thus paid to him is exempt as against any of the creditors who have consented to its payment to him in lieu of his homestead, and they cannot reach and subject it even after he has lent it out to another.[30] Where, at a sale of a homestead by an assignee for the benefit of creditors, the debtor announced that he relinquished his homestead, and purchased the land, and received a credit to the extent of the homestead exemption on his notes for the purchase money, it was held that he could not again claim a homestead when it was sought to collect the balance due on the notes.[31]

b. Proceeds Given to Wife

Where the proceeds of the sale or mortgage of a homestead are given to a wife, they have been held to be beyond the reach of the husband's creditors

It has been held that, where a homestead is sold, and the proceeds, whether money or property, are given or conveyed directly to the wife as her separate property and in consideration of her consent to the sale of the homestead, such proceeds are not liable to be reached by her husband's creditors,[32] and the same holding has been made as to money received by a wife as proceeds of a mortgage upon a homestead.[33]

§ 72. Exchange of Homestead

If the general requirements for homesteads are conformed to, a person exchanging his homestead for other realty acquires a homestead therein. Where there is no unreasonable delay in occupying the new property, the homestead exemption exists between the acquisition and the occupancy thereof.

Under the statutes of most jurisdictions, where an exchange of real estate is made, and either of the parties is entitled to a homestead in the property, the same right attaches immediately to the premises received in exchange,[34] up to the statutory limit.[35] Land acquired by exchange of homestead must be intended for a homestead,[36] and may consist of vacant land.[37] Where occupancy is necessary to the acquisition of a homestead, as considered supra § 33, the land acquired by exchange of a homestead must be subject to the same rules of occupancy which apply to the original homestead.[38]

A reasonable time must be allowed for the debtor to make the change from the old homestead to the new one,[39] and, where there is no unreasonable delay, the homestead exemption will exist during

the time between the acquisition and the occupancy of the new homestead.[40] The death of the homesteader before carrying out his intention to occupy the new home does not prevent the homestead right from attaching.[41]

Successive exchanges. The owner of a homestead acquired by successive exchanges is entitled to the same homestead rights in the one so acquired that he had in the original one[42]

Exchange of homestead in different state. Land obtained by exchange of, or purchase with, the proceeds of a homestead in another state may be subject to the claims of creditors, although in the foreign state it was free from such claims under the homestead laws of that state[43]

Exchange of a homestead for personalty does not of itself entitle the debtor to claim the personalty as exempt, and it is exempt only if within the laws governing exemption of personalty[44]

§ 73. Proceeds of Involuntary Conversion

The general rule is that after an involuntary disposition of the homestead property the exemption continues in any surplus proceeds remaining after satisfaction of the claim or lien to satisfy which the disposition was compelled

Subject to certain limitations appearing infra § 75, the general rule is that after an involuntary disposition or conversion of the homestead property, that is, one forced on the owner by judicial action or legal process, the fund realized from the sale represents and stands in the place of the land,[45] and the exemption continues in any surplus proceeds remaining after the satisfaction of the claim or lien to satisfy which the disposition was compelled.[46] The debtor may assert this exemption right at any time before there is a final order disposing of such proceeds.[47]

§ 74. —— Proceeds of Insurance

The general rule is that funds realized from the insurance of homestead premises are themselves exempt.

While there is some authority to the contrary,[48] the view which has been said to be that of the great weight of authority[49] is that funds realized from the insurance of homestead premises are themselves exempt, as they do not represent a mere personal contract of indemnity, but the homestead itself, the money taking the place of the property destroyed,[50] except, it has been held, as against a creditor whose indebtedness is secured by a lien on the homestead[51] The majority view is based on the ground that the homestead statutes are to be liberally construed,[52] and that a different view

Liberal construction generally see supra § 8
"To hold that creditors could seize the proceeds of the insurance policy would give them an advantage they

would pervert their object and spirit;[53] and, further, that the owner may rightfully insure the property to protect himself and his family from loss[54] The general rule has been said to apply whether or not there is a statute so providing,[55] and whether the property destroyed is personalty or realty[56]

An assignment of the policy for the purpose of collection and under an agreement that the assignee should apply part of the sum collected on a debt due from the insured does not destroy the exempt character of the balance[57] So, since insurance money received for the loss of a homestead is personalty, its transfer is not subject to the restrictions placed on the alienation of a homestead[58]

§ 75. —— Judicial and Execution Sales of Homestead

Generally a debtor may claim exemption in the surplus remaining after judicial or execution sale of the homestead for a debt as against which it is not exempt, but the rule is limited by some statutes, as by a provision limiting it to cases in which he intends to use the surplus in redeeming the homestead or in purchasing another.

Generally, where a homestead is sold at a judicial or execution sale for a debt as against which it is not exempt, and a surplus remains, the debtor may claim his homestead exemption in such surplus,[59] although under some provisions he may claim the exemption for a limited time only[60] Under some homestead laws the rule is limited to cases in which the debtor intends to use the surplus in redeeming the homestead or in purchasing another homestead,[61] and without such intention he is entitled only to the claim under the statute exempting personalty,[62] but it has been held that, if he claims the excess proceeds, the chancellor must award them to him and has no right to inquire of him whether it is his purpose to invest it in another homestead or not, and that thereafter if he deals with it so as to show an intention not to invest it the creditor may seize it[63]

The rule as to judicial sales above stated, with its limitations, has been applied to money paid by way of damages awarded in condemnation proceedings for a right of way over the homestead premises,[64] to the proceeds of a sale under foreclosure of a mortgage or deed of trust of the homestead premises,[65] and to the proceeds of a partition sale of the homestead premises[66] where, as considered infra § 88, a tenant in common is allowed to assert the right of exemption

for the wrong, or the money collected thereunder, is exempt to the same extent as the homestead would have been.

If an exempt homestead is wrongfully sold or otherwise taken from the owner by proceedings in invitum, as on execution or attachment, or is lost to him or impaired through any other wrongful act of another, a judgment recovered by him in an action for the wrong, or the money collected under such judgment, is exempt to the same extent as the homestead itself would have been [67] Thus damages recovered for causing a fire upon the homestead are exempt,[68] as are damages or rents recovered against a trespasser on a homestead for unlawful seizure and detention thereof [69]

§ 77. Property Purchased with Proceeds of Sale

a In general
b Homestead sold in foreign state

a. In General

With some limitations, and subject to the usual requirements as to occupancy, the rule in several jurisdictions is that a homestead in which the proceeds of the sale of a former homestead are invested is exempt, as was the former To be exempt, the new tract must have been purchased within a reasonable time after the sale of the old one

In a number of jurisdictions the proceeds of the sale of a homestead may be reinvested in a new homestead, which thereupon becomes exempt, as was the former,[70] the purchase of the new homestead is regarded as merely the continuance of the old homestead and not the formation of a new one [71] This rule is subject to limitations appearing infra this section and §§ 97–115, and it has no application if in fact the first homestead had been abandoned before the purchase of the second [72] Where only a part of the proceeds is invested in a new homestead, it is pro tanto exempt [73]

Time for making reinvestment In order to preserve the homestead right in the land acquired with the proceeds of the old homestead, it is essential that the new tract should have been purchased within a reasonable time after the sale of the old homestead,[74] but a reasonable time must be allowed [75] What will be a reasonable time must, to a great extent, depend on the circumstances of the particular case [76]

Occupancy of new homestead Generally speaking, the same occupancy or intent to occupy the new homestead is necessary as in the case of the acquisition of the original homestead,[77] subject, of course, to the same limitations and exceptions, as

claimed,[4] and the extent or duration thereof,[5] are not material, and that any estate or interest in land coupled with the requisite occupancy is sufficient to support a homestead exemption [6]

While ordinarily it is essential that there be at least a sufficient right to justify occupancy,[7] a perfect and complete legal title is not necessary [8] Mere permissive residence in the family of a landowner will not give rise to homestead rights in the premises, however long such residence continues,[9] but a head of a family has been held entitled to a homestead exemption even though he resides in a house, and on land, owned by his parent [10]

A homestead right has been said to be founded on ownership of some assignable interest in the land,[11] but according to other authority it is not necessary that the debtor's interest shall be an assignable one[12] or one subject to registration [13]

Title in husband or wife Under some constitutional or statutory provisions, a homestead is reserved for the benefit of the family whether the title to the property is in the husband or the wife [14] Homestead in property of which husband and wife are joint owners is considered infra § 88, a husband's or a wife's right to homestead in a wife's separate property infra § 90, and homestead in community property infra § 92

Subsequent acquisition of outstanding title Where a debtor has sufficient interest in land to support a homestead exemption, the fact that he subsequently acquires an outstanding title in the same property will not in any way affect his right of exemption [15]

b. Property Held in Trust

pecially where the cestui que trust is in the actual possession thereof[17] The rule applies with the same force and effect to resulting trusts as to express trusts,[18] to trusts which have all the qualities and effects of a resulting trust proper,[19] and to constructive trusts[20] Nevertheless, a trustee having not only actual possession of land which was subject to a trust but a beneficial interest therein is entitled to protect not only that interest but any other interest which he may have in the land as against creditors, by impressing the entire parcel with a homestead declaration[21] Inasmuch as an equitable title to property may be sufficient basis for a homestead right, see infra § 81, a cestui que trust who occupies his property is entitled to a homestead therein[22]

The homestead exemption may be claimed in land acquired by gift A provision for homestead in land "owned" and occupied by the debtor applies to land acquired by descent or devise

The homestead exemption may be claimed by a debtor in land acquired by gift, and occupied by him as a home, to the same extent as though he had acquired the land by purchase[23]

The effect of a particular statute may be to extend a homestead exemption only to lands acquired by deed and not to lands acquired by will or by descent cast,[24] but where the constitution or statute is general, and exempts land "owned" and occupied by the debtor, it is clear that the exemption may be claimed in land acquired by descent or devise,[25] and a devisee's vested interest in land devised has been held an estate within a statute providing for a homestead for the owner of a fee or less estate[26]

The manner of acquiring property as affecting the right to a homestead is considered generally supra § 55.

d. Property Acquired by Adverse Possession

One who has acquired title to property by adverse possession may have a homestead therein.

Where title to property has been acquired by adverse possession, the owner is entitled to a homestead in the property the same as though title had been acquired by deed,[27] but no homestead rights can attach to property which has not been adversely held for the statutory period, in a jurisdiction where mere possession gives no right of homestead[28]

e. Property in Hands of Receiver or Agent Appointed by Court

A debtor cannot claim a homestead exemption in property which has passed to a receiver or to a trustee appointed to recover and administer property fraudulently conveyed by the debtor

It has been held that, after property has passed to a duly qualified receiver[29] or a trustee appointed to recover and administer property fraudulently conveyed by the debtor,[30] the debtor cannot claim a homestead exemption in the premises, especially where he has not legal, actual, or constructive possession of the premises,[31] and even though he may still occupy the premises as a tenant of the receiver[32]

ble to seizure and sale on execution for the payment of debts, or in any realty that could be seized under an execution.

According to some authorities, a homestead exemption may be claimed in any interest which the debtor may have and which would be liable to seizure and sale on execution for the payment of debts if the property were not occupied as a homestead,[33] but, as will appear infra § 80, in some jurisdictions mere naked possession is sufficient. It has also been held that the homestead right may attach to any real property, susceptible of present occupation, that could be seized under an execution.[34]

§ 80. —— Possessory Interest

A claim of homestead exemption must be supported by some possessory interest in the land; there must be at least a present right of possession or occupancy In some jurisdictions mere naked possession of the premises occupied as a home is sufficient, while in others mere occupancy is insufficient.

To entitle a debtor to a homestead exemption he must have some possessory interest in the land claimed,[35] there must be at least a present right of possession[36] or occupancy,[37] and an exclusive possessory right has been required[38] Occupancy of premises by a debtor, although he claims them as a homestead, will give him no rights as against either the holder of a paramount title or one who would otherwise be entitled to possession,[39] thus an intruder or trespasser has no such right[40] No case, it is said, has gone to the extent of holding that a homestead right can attach even inchoately to premises in which the occupant neither owned nor claimed to own any right or interest[41]

Sufficiency of mere possession. In some jurisdictions the necessary possessory interest may consist in mere naked possession of the premises by the debtor occupying it as his home, without title or other interest,[42] at least as against all but the true owner[43] In other jurisdictions mere occupancy is insufficient as a possessory interest on which to base a claim of homestead exemption, even against creditors[44] Thus it has been held that an owner of land who conveys it but remains in possession can claim a homestead therein,[45] while other authorities hold the contrary[46]

§ 81. —— Equitable Estates and Interests

a. In general
b. Mortgaged premises; equity of redemption
c. Land held under contract of purchase

a. In General

The general rule is that any equitable ownership or title, together with the requisite occupancy, is sufficient basis for a homestead exemption.

With a few exceptions which will appear in this section, it has been uniformly held that any equitable ownership or title, together with possession and occupancy as a home, is sufficient basis for a homestead exemption.[47]

Possession as notice When an equitable owner of land is in actual possession thereof as his homestead, all persons are chargeable with notice of his homestead interest.[48]

Title taken in another's name. In a jurisdiction in which mere occupancy is insufficient to support a claim of homestead exemption, see supra § 80, and in which there is a statute declaring that, where one person pays the consideration for land, and the land is conveyed to another, no trust results in favor of the former because of his payment of the consideration, no homestead can be claimed by a person who pays the consideration for land and takes the title in another's name, although he occupies the land as a homestead, since he has no interest therein, legal or equitable.[49] The contrary has been held, however, in the absence of such a statute, on the ground that the person paying the consideration has such an equitable interest as will support a homestead.[50]

b. Mortgaged Premises; Equity of Redemption

A homestead may be allotted in mortgaged premises; and the owner of an equity of redemption in property mortgaged or conveyed by deed of trust is entitled to a homestead therein.

A homestead may be allotted in mortgaged premises.[51] The owner of an equity of redemption in property mortgaged or conveyed by deed of trust is entitled to a homestead therein,[52] even though the mortgage contains a release of homestead rights.[53]

c. Land Held under Contract of Purchase

The general rule is that one who occupies land under an executory contract to purchase is entitled to a homestead exemption therein, except as against his liability for the unpaid purchase money, but the rule is subject to qualifications, as where the contract provides that he shall not have possession until the price has been paid.

Subject to qualifications which will appear in this subdivision of this section, the general rule is that one who occupies land under an executory contract to purchase is entitled to a homestead exemption therein[54] except as against his liability under

contract for the unpaid purchase money,[55] and the fact that a lien is retained for all of the purchase money, instead of a part only, does not alter the legal status of the purchaser or defeat his homestead rights.[56] In order that a case may come within this rule there must be a contract by which the premises are sold, and not merely preliminary negotiations or agreements looking to a contract of sale to be entered into at some future time.[57]

Oral contracts. In the application of the general rule it makes no difference whether the contract of sale is in writing, as required by the statute of frauds, or oral, if the price has been partly paid and possession has been given thereunder, for in such a case a court of equity would decree specific performance by the vendor,[58] but, where the contract rests wholly in parol and the purchaser has done nothing to remove it from the operation of the statute of frauds,[59] as where he has failed to pay the consideration, take possession, or make valuable improvements,[60] it has been held that he has no title to sustain a claim of homestead.

Right to possession. If, under a contract for the purchase of land, the purchaser is not entitled to possession until the price has been paid, his right of homestead will not ordinarily attach until such payment,[61] but the provision as to possession may be waived.[62]

Purchase of public lands. The general rule applies to public lands occupied as a homestead under a contract to purchase them from the state,[63] the fact that the purchase has not been completed and the fee still remains in the state does not prevent a claim of homestead therein.[64]

Forfeiture or abandonment of contract. The homestead right is lost with the loss of the rights of the purchaser under his contract for the purchase of land.[65] It may be lost by a forfeiture of the vendee's rights under the contract of purchase and ejectment for failure to make the several payments stipulated in the agreement,[66] or where the contract not only has not been complied with, but has been abandoned.[67]

Payment of price by creditor. Where a person occupying land under a bond for a deed or a contract of purchase claims a homestead therein as against a levying creditor, his right will not be defeated by the fact that the creditor has paid the obligor the balance due from the obligee on the price fixed in the bond.[68]

§ 82. —— Future or Contingent Estates

The general rule is that a future estate, whether vested or contingent, will not support a claim of homestead exemption during the continuance of the prior estate

While it has been held that one having a vested remainder in fee in land may claim a homestead therein,[69] by the great weight of authority[70] a future estate, whether vested or contingent, will not support a claim of homestead exemption during the continuance of the prior estate,[71] there being no

sufficient right of present occupancy or possession.[72] The rule applies even though the owner of the remainder or reversionary right is permitted to live on the premises with the holder of the prior estate,[73] or is in possession, with such holder, by virtue of his ownership in fee of a portion of the premises, undivided,[74] but a remainderman having exclusive possession and occupancy under a lease from the life tenant has been held entitled to claim a homestead.[75] When the particular estate is determined, and the remainderman is entitled to immediate possession, he may claim his homestead in the premises, if his contingent interest has not been sold in the meantime by his creditors.[76]

§ 83. —— Property Held by Different Titles

The fact that various portions of the premises are held under different titles will not prevent acquisition of a homestead in the entire tract.

The circumstance that various portions of the premises are held under different titles will not prevent the acquisition of a homestead in the entire tract.[77] Hence, if a part of the land is owned in fee and another part is held under a lease,[78] if part is owned in fee and part is held under contract of purchase,[79] if part is owned by the husband and the rest by his wife, see infra § 91, or if the equitable interest is in the husband and the wife holds the legal title, see infra § 90, the exemption may attach to the entire tract.

§ 84. —— Life Estates

The right of homestead attaches to property in which claimant has a life estate.

The right of homestead attaches to property in which claimant has a life estate,[80] whether for his own life or that of another,[81] and the right of a debtor to a homestead in land in which he has such an estate terminates only when his estate determines.[82] Consequently, a surviving husband may exempt his estate by curtesy,[83] and a widow her dower,[84] even before it has been assigned to her.[85] Where a husband devised his homestead, not exceeding the statutory limitation as to value, to his

§ 85. —— Leasehold Estates

The general rule is that a homestead right may attach to property held under a leasehold, or to rented premises.

The general rule is that a homestead right may attach to property held under a leasehold, or to rented premises [87] However, it has been said that a tenant's homestead right in the premises he occupies cannot, of necessity, be absolute,[88] or as broad as that of the owner of a fee title;[89] and it does not survive the termination of the leasehold estate [90] The homestead right has been held to be no defense whatever in an action by the lessor to recover the premises,[91] but other authority holds that this is true only after the term expires, and not before [92]

Occupancy by both lessor and lessee. Since, as appears supra § 14, there cannot be two separate homesteads in the same land at the same time, a lessee of land, although he may live on it with his family, has no homestead exemption therein where the lessor also occupies the land under a reservation of a right of occupancy in the lease, and resides thereon with his family as his homestead.[93]

Stipulation against use as residence Where, under a lease stipulating against occupation of the premises as a residence, the lessee actually occupies and uses the premises for residence purposes, it has been both asserted[94] and denied[95] that he can acquire homestead rights in the premises.

§ 86. —— Tenants at Will or by Sufferance

Authorities differ as to whether a tenant at will or by sufferance is entitled to homestead exemption

A tenant at will of land containing a dwelling is, under some authorities, entitled to the homestead exemption,[96] but other authorities are op-

posed.[97] Similarly it has been both held[98] and denied[99] that a tenant by sufferance has such interest as will support a claim of homestead exemption.

§ 87. —— Croppers

One occupying land as a mere cropper has no such interest in the land or the ungathered crop as will entitle him to a homestead

One occupying land as a mere cropper has no such interest in the land as will entitle him to a homestead therein,[1] nor can he claim the ungathered crop as exempt to him as being on his homestead,[2] but, where one occupies as a tenant, his right to homestead is not affected by the fact that the rental is to take the form of a portion of the crop.[3]

§ 88. —— Property Held in Joint Tenancy or by Tenants in Common

Under the great weight of authority, there may be a homestead right in property held jointly or in common, or in an undivided interest in property, with the qualification that one joint tenant or tenant in common cannot acquire such a homestead right as will prejudice his cotenant's rights or interests.

There is a conflict of authority as to the existence of homestead rights in property held jointly or in common, or in an undivided interest in property.[4] On the theory that homestead laws are to be liberally construed,[5] and that, as so construed, their policy is to protect the debtor and his family in their possession of a home, irrespective of the character or extent of the estate owned by the debtor,[6] provided he is not a mere intruder,[7] one view is that such an owner, on satisfying requirements as to occupancy and use of the property, may acquire a homestead in the premises.[8] This

been said to be jointly seized of an estate of homestead in the land,[15] but the latter proposition has been questioned [16]

The rule is subject to the qualification that one tenant in common or joint tenant cannot acquire rights superior to those of the other owners,[17] and cannot obtain such homestead right or interest as will prejudice or interfere with the rights or interests of his cotenant or any person rightfully claiming under the latter,[18] such as the right to partition[19] or an accounting [20] Thus it is held that one joint owner of property cannot claim a homestead as against the other joint owners, but may against creditors,[21] and that one tenant in common cannot, as against his cotenant, establish a homestead on the whole property, but can only establish a homestead as to creditors on his separable interest or title [22]

Claim by both tenants Two joint owners of a tract of land, upon which both live with their families, are each entitled to a homestead,[23] even before any partition has been made [24]

Property exceeding statutory limit. It has been held that a homestead right will not attach to an undivided interest in a tract of land which, as a whole, exceeds the homestead limit in acreage,[25] or in both acreage and value where there has been no separation of the undivided interest,[26] and that, where the value of the property exceeds the statutory limit of value, each tenant in common can claim only his fractional interest in the maximum, and not the full exemption [27] In some states, where a tenant in common is entitled to a homestead, and the entire property exceeds in quantity the statutory limit as to the number of acres, his right of homestead extends to an undivided interest of the statutory number of acres out of the interest owned [28] In other states it is held that if the entire property exceeds the number of acres allowed by statute as exempt, the debtor can claim as exempt only land occupied by him not exceeding the number of acres and value fixed by the statutes, to be allowed to him just as though he owned the

entire tract,[29] and the fact that the value of his interest in the statutory acreage constituting the homestead happens to be less than the statutory limit of value does not entitle him to an exemption in the remainder of the estate.[30]

View that homestead cannot be acquired In some jurisdictions, on the theory that the exemption contemplated is of property to which the debtor has an exclusive right, and which could be set off to him by ascertained boundaries, it has been held that, except in particular instances named in a statute or constitution,[31] a cotenant, or holder of an undivided interest, has no right to homestead in property held jointly or in common.[32] It has been held that this is so even in case of a tenant holding and claiming the entire estate, or a tenant in exclusive possession without objection by his cotenant,[33] or although the tenants in common are husband and wife.[34]

§ 89. —— Partnership Property

a In general
b Individual property or homestead of partner

a. In General

In jurisdictions not allowing a homestead in property held by tenants in common or joint tenants, there is no homestead right in partnership property. Where a homestead is allowed in property so held, a partner may, in general, claim a homestead in partnership property, but this privilege is frequently made subject to the consent of his copartners, especially where the firm is indebted, and some courts do not permit such a claim as against creditors even with such consent.

As partners own the partnership property in common, see the C.J.S. title Partnership § 72, also 47 C.J. p. 758 notes 73, 74, it is clear that in jurisdictions in which homestead rights may be acquired in property held by tenants in common or joint tenants, as discussed supra § 88, a partner may claim a homestead in partnership property,[35] with limitations to be stated in this section, but he cannot assert his right of homestead in the entire property owned by the firm, as against his copartners or creditors of the firm, his right being limited to his interest.[36] In those jurisdictions in which a homestead cannot be claimed in property owned by tenants in common or joint tenants, a homestead cannot be claimed in partnership property,[37] and the same holding has been based on the ground that the partners do not hold as common or joint tenants.[38]

Where partnership property is withdrawn from the partnership assets and the partners become owners as tenants in common only, their right to claim a homestead is governed by the rule relating to tenants in common, and not by that relating to partners.[39]

If partnership property is conveyed to the partners individually, each may acquire a right of homestead in the property conveyed to him, for it is no longer partnership property.[40]

Consent of copartners In a jurisdiction in which homestead rights may be acquired in property held by tenants in common, a homestead right can be claimed in partnership property if the partners consent.[41] A member of a firm which is indebted cannot acquire a right of homestead exemption in partnership property without the consent of his copartner,[42] express or implied,[43] especially after the property has been seized or assigned to satisfy firm debts.[44] Some courts hold that a partner, at

least before dissolution of the firm, cannot claim a homestead exemption in the partnership property, as against partnership creditors, even with the consent of his copartners,[45] although he may make such a claim after the partnership debts have been paid,[46] but others hold that a homestead exemption may be allowed to members of a firm as against partnership creditors if all the copartners consent or if they do not object[47]

Where consent of a copartner has been given, it may be withdrawn at any time before the homestead is claimed or allotted[48]

Solvent firms, business homestead In Texas a member of a solvent partnership may designate his interest in partnership realty as part of his homestead,[49] more precisely, if a firm is solvent when one of the members files a designation of the firm real estate as a homestead, and is solvent also on final settlement of the firm's affairs, such partner may have a homestead,[50] subject only to equitable partition between the partners[51]

The rule in Texas that a partner may claim a homestead in the partnership property applies to the business homestead allowed by the laws of that state,[52] especially if, at the time the property becomes a business homestead, the partnership is solvent[53]

Dissolution of partnership It has been held that after the division of partnership property the individual owners may claim a homestead exemption out of such property, even though the firm was insolvent when the division was made and the purpose of the dissolution was to enable the former partners to exempt the property from partnership debts[54] So, where the members of a firm, acting in good faith, dissolve the partnership, and one member sells his interest in the partnership property to the other, the latter will not be deprived of the right to hold such property exempt as a homestead from the payment of a debt thereafter asserted against him, on the ground that such debt was a partnership debt at the time of the dissolution,[55] even though the partners knew the firm to be insolvent at the time of such dissolution[56]

b. Individual Property or Homestead of Partner

A partner's individual homestead cannot be subjected to the firm's debts or his indebtedness to the firm or copartners, nor is his exemption affected by occupation of his homestead for use in the firm's business

A partner's individual homestead, acquired during the existence of the partnership, cannot be subjected either to the partnership debts or to his indebtedness to the partnership or to his copartners[57] Occupation of a homestead, owned by one of the partners in a firm, for use in the partnership business, not being inconsistent with use as homestead, will not affect the homestead exemption attached to the property before such use[58]

Partnership property in name of partner If property, the title to which has been taken in the name of one of the partners individually, is in fact partnership property, the partner having title cannot claim a homestead therein[59]

Erection of house with partnership funds It has been held that, if a member of a firm uses partnership funds in erecting a house upon his separate property, the house becomes a part of the land itself, the firm having merely the right to reimbursement, so that if he occupies the premises as a home he may claim a homestead exemption therein,[60] but there is also authority to a different effect[61]

a. Husband's Right to Homestead

The weight of authority holds that a husband may have a homestead in his wife's property; but the consent of the wife may be required.

In some jurisdictions a husband is not entitled to a homestead in his wife's property during her life,[62] but land paid for with homestead land is homestead property, although the deed is taken in the name of the wife when it should have been taken in the name of the husband.[63] In other jurisdictions, and according to what has been declared the weight of authority,[64] a husband is entitled to a homestead in his wife's property, if it is the family residence and conforms in other respects to the requirements prescribed by statute,[65] especially where the purchase price was paid by the husband[66] or where the wife executes an agreement to hold the land subject to his disposal,[67] or the consent of the wife may be required for the selection of the homestead from her property.[68]

b. Wife's Right to Homestead

In some jurisdictions a wife may have a homestead in her separate property, while in others she may not, unless she is otherwise qualified, as by being head of a family

Under the statutes of some states, a wife is entitled to a homestead in her separate property,[69] although she lives with her husband[70] and is not the head of a family.[71] In other jurisdictions her right to homestead is denied,[72] unless she is otherwise entitled to claim the exemption.[73] Thus a

wife who has been deserted by her husband and who has the care and maintenance of a family has been held entitled to a homestead in her separate property as head of the family,[74] as has the wife after a permanent separation of a husband and wife by agreement, and his refusal or failure to furnish her with a home and support,[75] but it has been held that a wife does not become the head of a family, and as such entitled to a homestead exemption in her separate property, where her husband is disabled, or for any other reason is unable to support the family, and she is compelled to do so[76]

§ 91. —— Separate Tracts Owned by Husband and Wife

Under most authorities a husband and wife may claim as a homestead land of which each separately owns a part

Subject to statutory limitations as to amount and value, see supra §§ 56-62, a husband and wife may, under most authorities, claim as a homestead land of which each separately owns a part,[77] but there is also authority opposed[78]

§ 92. —— Community Property

A homestead may be selected from community property, whereupon the property selected ceases to be community property.

In those states in which the system of community property is recognized, as discussed in the C.J.S. title Husband and Wife, § 462, also 31 C.J. p. 12 notes 44-51, a homestead may be selected from the community property of husband and wife,[79] or partly from the community property and partly from the wife's separate property[80] Where a homestead in community property has been once lawfully claimed, it continues as such, although the children have attained their majority and left the parental roof[81]

Cessation of community interest Where a valid homestead is selected from community property, the property selected ceases to be community property,[82] and the husband's right of absolute control over it as authorized by statute immediately ceases,[83] although the homestead has been held to be under his management[84]

(3) Where the wife is not separated in property from her husband, and is not the head of the family, which is supported by him, she is not entitled to a homestead in her separate property.—Bank of Lafayette & Trust Co. v. Fabre, 126 So. 916, 169 La. 1185.

Prior sale by husband. The rights of purchasers of community property, acquired under a contract of sale made by the husband, are superior to the homestead subsequently selected by the wife,[87] where they successfully maintain an action for specific performance[88]

II. LIABILITIES ENFORCEABLE AGAINST HOMESTEAD

§ 93. In General

As a general rule, the homestead exemption applies to all debts not excepted by constitutional or statutory provision.

Constitutional and statutory provisions relating to homestead exemptions and providing for enforcement against the homestead of certain classes of debts,[89] as determined by the time when,[90] or the manner in which,[91] they are contracted, have been frequently construed and applied by the courts Independently of such exceptions, if the claim is one which is peculiarly a just charge against the homestead, it is sometimes allowed to be enforced,[92] but the homestead exemption will, as a rule, apply to all debts not excepted by the constitution and statute[93] Since the general policy of the law is to exempt the homestead, exemption is the rule, and liability the exception[94] Persons dealing with homestead rights must take notice of matters that will impress lands with such rights[95] Where the constitution provides for exemption from all debts, a statute excluding specified classes of debts is invalid[96] It is not within the equitable powers of the court to declare any indebtedness a lien on a homestead where the constitution prescribes the manner of its creation[97]

a. Contractual Liabilities

As against preëxisting contractual liabilities, state laws creating or enlarging the homestead exemption are invalid, but the rule is otherwise as to acts of congress; and generally provisions which decrease the homestead exemption are valid.

As against preëxisting contractual liabilities, state laws creating or enlarging the homestead exemption, whether statutory merely or embodied in the constitution, are inoperative and void[98] Thus, since the law of the place, as represented by existing constitutional and statutory provisions, is as much a part of the contract as if embraced or referred to in the contract itself, see Contracts § 330, a subsequent statute creating or enlarging a homestead exemption is invalid as to preëxisting liabilities, in so far as it may be inconsistent with the constitution or statutes existing at the time when such liabilities were incurred[99] If, however, when adopting a constitution or enacting a homestead law enlarging the homestead exemption, a prior law is expressly or impliedly continued in force as to the liabilities incurred by the debtor under it, as where the prior law is not repealed, is preserved by a saving clause in the subsequent law, or is substantially reenacted except as to the increase or enlargement of the homestead exemption, the respective rights of the debtor and his creditors as to such liabilities will be governed by the prior law[1]

Acts of congress creating or increasing exemption Congress is not precluded from passing homestead laws applicable to all contracts, regardless of the time when they were entered into[2]

Laws decreasing exemption. Although there are some decisions to the contrary,[3] it is generally held that provisions which decrease the homestead exemption are applicable to preëxisting contracts, determining both the rights of the creditor and those of the debtor[4]

b. Liabilities Arising Out of Torts

A homestead law is valid against an existing claim for damages arising out of a tort.

A homestead law may be valid against a claim for damages arising out of a tort although such claim existed prior to the enactment of the law[5]

Mortgage of land not owned by mortgagor

A mortgagor who did not own mortgaged land when deed of trust was executed, but who subsequently acquired title to land, could not impair mortgagee's rights by asserting

where the liability is for the purchase money of the land,[8] or is created at the same time that the debtor acquires title to the premises and as part of the same transaction.[9] It is not necessary that a judgment should have been rendered on the indebtedness prior to the time when the homestead is acquired, the liability attaching when the debt was incurred,[10] and it is immaterial that the amount of the debt was denied by the debtor and that an accounting was necessary to ascertain the amount.[11] However, a "debt" contracted prior to acquisition of the homestead within the rule is a debt which is certain and in all events payable, and does not include money payable on a contingency, which becomes a debt only when the contingency has happened,[12] and it has been held that until the lien of a judgment has been obtained, the premises cannot be seized in the hands of a purchaser without notice.[13] An abstract of judgment does not create a lien on the homestead subsequently acquired if the homestead was dedicated at the moment of the acquisition,[14] and it has also been held that where the property is purchased for use as a homestead, the homestead character and attending right of exemption attaches in such case simultaneously with the acquisition of the property in preference to judgment liens then on record against the purchaser.[15] Where land is purchased for a home, it has been held that although a registered judgment stands against the purchaser, he may proceed to occupy it, and if there be no residence thereon, he may proceed to provide one, and make such use of it as a base of family supplies as he may, and so prevent the attaching of a judgment lien.[16]

Some decisions have held that the homestead is not deemed to have been purchased or acquired, so as to become exempt from subsequently contracted debts, until paid for;[17] nor is it considered as having been purchased where it is given to the homestead claimant in settlement of his contest of a will which if successfully prosecuted would have given

An indebtedness is not brought within the statute permitting the sale of a homestead merely because it was contracted before the acquisition of the homestead That circumstance will deprive a living debtor of his homestead exemption as against an attachment or execution on an antecedent debt, but the statute has no application to the estate which passes on his death to his widow and children —Nettleton Bank v McGauhey's Estate, 2 S W 2d 771 318 Mo 918—Maupin v Longacre, 288 S W 54, 315 Mo 872

Grantee of judgment debtor

The lien of a judgment properly recorded in the county before the acquisition of realty by judgment debtor, who occupied the realty as a homestead, was not superior to the homestead right of the purchaser from the judgment debtor, who occupied the premises as a homestead before judgment debtor had vacated them, notwithstanding deed from debtor was placed in escrow under agreement providing for delivery thereof only on completion of installment payments of purchase price, and several months thereafter a correction deed was given by debtor and recorded providing for payment of purchase price by an installment vendor's lien note —Hughes v Groshart, Tex Civ App., 150 S W 2d 827

him, as heir of the testator, a greater share of his estate.[18] An analysis of these decisions discloses, however, that they hold only that, where one buys a homestead on credit and before it is paid for contracts other debts, the payments on the homestead after the other debts are contracted may be subjected to that extent to the payment of the debts contracted before the payment on the homestead,[19] and where there has been no payment on the homestead since the creation of the debts in question, and no improvements erected thereon, the homestead exemption can be claimed, there being no fund which has gone into the homestead which may be subject to the debt.[20] So if the homestead has been fully paid for before the debt was created, it is not subject to execution on the debt, although no deed for the land was made until after the creation of the debt.[21]

Separate property of wife Where a homestead is constructed on lots owned by the wife, and the greater part of its cost is voluntarily paid by the husband without any intention of having or receiving an interest in the homestead, it is exempt from execution for debts incurred by the husband prior to its acquisition.[22]

b. Property Acquired by Marriage, Gift, Descent, or Devise

Property acquired by marriage, gift, descent, or devise, and occupied by a debtor as his homestead is commonly held not subject to payment of his debts whether contracted prior or subsequent to its acquisition

While the contrary view is held under the statutes of some jurisdictions,[23] a debtor is under the statutes of other jurisdictions entitled to hold property acquired by descent or devise, or by gift, and occupied by him as a homestead, free from his debts whether contracted prior or subsequent to its acquisition,[24] and a homestead acquired by a debtor through marriage has been held to be protected against his debts, contracted before or after it was obtained.[25] The party who has acquired the property by any of these methods is entitled to a reasonable time in which to convert it into a homestead,[26] but if he does not act within a reasonable time the property will not be exempt.[27] Where after a tenant in common has established a homestead right in his undivided interest in the property, a judgment is entered against him, and subsequently he inherits the undivided interest of a cotenant, such undivided interest becomes impressed with the homestead character of the land, and the lien of the judgment attaches to no part of his interest.[28]

Homestead prior to acquisition
Where legal title to land is in the name of another and has been impressed with homestead character by one put in possession, to the exclusion of the owner, in contemplation of future vesting of title by inheritance or otherwise, claim of homestead right by the one in possession becomes coextensive with his after-acquired title and has priority over an abstract judgment lien.—Atkins v. Partition
Where tenant in common, who established homestead right in his undivided interest in land as father's heir subsequently inherited an undivided interest in same land as mother's heir, and property was then partitioned, a lien of judgment against the tenant in common abstracted after acquisition of interest from father and before acquisition of interest from mother attached to no part of tract received by the tenant in common on partition.—J. emption in land acquired before such change occurred;[29] or if such right did not exist when the original obligation was created,[30] but if a new obligation is created, an exemption may be claimed against it, in land then occupied as a homestead.[31]

§ 97. Liabilities Existing before Establishment of Homestead

a. In general
b Before occupancy
c. Before debtor has acquired personal homestead status
d Before filing of declaration
e. Before registration of deed conveying homestead
f Before selection or setting apart
g Mortgage or conveyance as security

a. In General

Although the rule is otherwise, or at least subject to limitations, in some jurisdictions, generally obligations or liens existing prior to the establishment of the homestead right will not be defeated where the debtor subsequently claims that the premises are his homestead.

In some jurisdictions it is held that general obligations existing prior to the establishment of the homestead right will not be defeated where the debtor subsequently claims that the premises are his homestead,[32] but in other jurisdictions a different rule apparently obtains.[33]

Prior liens While in some jurisdictions the rule is otherwise, or at least subject to limitations or modifications,[34] the general rule is that the exemption cannot be claimed as against valid liens which have attached to the premises before they are impressed with the homestead character, whether such

Good faith

A head of family, occupying encumbered land as homestead, has right to renew, rearrange, and readjust encumbering obligation and, in accomplishing such purpose may change form of obligation, if he acts in good faith and does not intentionally increase burden on homestead for purposes not necessary for readjustment of outstanding obligation Thus, an amended deed, substituting for grantee's obligation under original deed to support grantor an obligation to pay four thousand dollars, evidenced by two notes, in addition to notes for three thousand dollars balance of six thousand dollars consideration recited in original deed, was held not to impose renewal obligation so disproportionate to original obligation as to evidence bad faith or intention to increase burden on grantee's homestead for purposes not reasonably necessary for readjustment of obligation to support grantor—Machicek v Barcak, Tex, 170 S W 2d 715

Limitation respecting judgment liens

(1) In some states, including Colorado, Mississippi, and Washington, liens attaching by operation of law, such as judgment liens, are suspended by homestead exemption perfected at any time before the premises have actually been sold thereunder

29 C J p 859 note 60 [a]

(2) But it has been said that the determination rests solely on the existence or lack of a specific lien on definite property, as distinguished from a general or blanket statutory lien resulting through filing a transcript of judgment, the controlling factor being that if the lien which the homestead entryman would supplant precedes in time of record, and is specific and definite as to the property involved, it holds its preference—Bean v Eves, 20 P 2d 514, 92 Colo 339

(3) All contracts permitted by law with reference to land, by the owner thereof, are enforceable although afterward the land becomes such owner's homestead—Smith v. Smith, Miss, 8 So 2d 161

(4) Thus prior covenants, or encumbrances running with the land, such as options to purchase, defeat homestead exemptions subsequently arising—Smith v Smith, supra—Minor v Interstate Gravel Co, 94 So 3, 130 Miss 553

(5) The rule has been applied where husband owning land which was not a homestead mortgaged the land, and wife did not join in execution of mortgage which misdescribed land, and husband and wife thereafter occupied land as a homestead—Smith v Smith, supra.

(6) Judgment creditor was charged with knowledge that debtor might acquire status of householder before sale on execution, and thereby claim homestead rights—Brown v Manos, 250 P 36, 140 Wash 525

(7) Homestead declaration, filed after sale, is ineffectual—State ex rel Union Savings & Loan Ass'n v Kay, 26 P 2d 1045, 175 Wash 151

(8) Under former statute requiring selection of homestead prior to entry of judgment, mortgagor, failing to file declaration of homestead before entry of foreclosure judgment, was not entitled to possession during period of redemption—State v Superior Court of Chelan County, 266 P 731, 147 Wash 571

(9) The right of the head of a family to prevent the sale of land owned by him, but not his homestead, under an execution issued on a judgment against him, by moving on and occupying the land as a homestead before the sale, does not confer on him the right to convey land not his homestead, free from the lien of a judgment then existing against him—Bank of Philadelphia v Posey, 92 So 840, 130 Miss 530, reversed on other grounds 95 So. 134, 130 Miss 825.

liens are obtained by contract or operation of law[35] The rule has been applied in case of liens created by filing a bill in equity,[36] liens created by judgment,[37] liens created by levy of execution,[38] liens created by attachment,[39] mechanics' liens,[40] materialmen's liens,[41] liens created by the giving of a purchase-money note stipulating for the payment of attorneys' fees,[42] and liens created by the giving of a tax collector bond[43] Where the homestead is abandoned and later resumed, intervening liens are unaffected[44] However, on the discharge of the liens the exemptions may become effective.[45]

b. Before Occupancy

Where occupancy is required before the homestead privilege attaches, the homestead exemption cannot ordinarily be claimed as against valid liens which have attached to the premises, or claims which have arisen, prior to occupancy for homestead purposes.

Where occupancy is required before the homestead privilege attaches, see supra § 33, if the premises are not actually resided on at the time of levy they cannot be claimed as exempt;[46] and obviously the general rule, stated supra subdivision a of this section, will apply where it is sought to claim the exemption as against judgments,[47] other liens,[48] or even general claims,[49] existing prior to occupancy of the premises for homestead purposes In those jurisdictions where prior liens[50] or claims[51] will not be upheld as against a homestead subsequently claimed, however, the rule of prior occupancy may not be strictly applicable

c. Before Debtor Has Acquired Personal Homestead Status

Although there is authority to the contrary, generally no homestead can be claimed as against a lien which attached to the land when the debtor had not acquired the personal status giving him the exemption privilege.

In accordance with, and subject to, the limitations of the general rule, stated supra subdivision a of this section, it is frequently held that no homestead can be claimed as against a lien which attached to the land when the debtor was not entitled to an exemption because he had not acquired the personal status giving him the exemption privilege[52] However, a contrary view has been taken,[53] but even where the contrary view prevails it has been held that a nonresident moving into the state cannot, by occupying property on which a lien has become fixed, acquire a homestead exemption as against the lien[54]

d. Before Filing of Declaration

In some jurisdictions where a declaration of homestead is essential to the acquisition of the exemption, the homestead is exempt only as against debts contracted after the recording of such declaration, but in other jurisdictions the exemption may be claimed provided the declaration is registered prior to the attachment of a lien

In some jurisdictions where a declaration of homestead is essential to the acquisition of the exemption, see supra § 46, the homestead is exempt only as against debts contracted after such declaration of homestead has been recorded,[55] and a fortiori, the recording of a declaration of homestead has no effect on prior liens,[56] and the fact that no judgment was recovered on such debt until after recording of the homestead claim will not avail claimant[57] On the other hand, in other jurisdictions where such a declaration of a homestead is required, the exemption may be claimed, provided the declaration is registered prior to the attachment of a lien,[58] but if the attachment of the lien antedated the filing of the declaration of exemption the premises may be sold to discharge the lien[59] Under a statute which is silent as to the time when the making and filing of the declaration of homestead shall be done, it has been held that the homestead becomes exempt from sales for all debts or liabilities whatsoever,[60] although contracted before the declaration was made and filed[61] and whether or not secured by lien,[62] except such debts as are expressly excepted from the operation of the exemption by the homestead provisions themselves[63]

e. Before Registration of Deed Conveying Homestead

Under some statutes in order to preserve the homestead right against debts it is necessary, prior to the creation of the debts, to record the deed conveying the homestead

Under the statutes which provide that a homestead shall be subject to execution on all causes of action existing at the time of acquiring the homestead and that such time shall date from the filing of the deed of the homestead for record, it is necessary, in all cases to preserve the homestead right against debts, that the deed should have been filed before the creation of such debts,[64] even though the owner had lived on the land as his home until he filed his deed for record[65]

f. Before Selection or Setting Apart

The subsequent assignment to the debtor, under the homestead statutes, of premises which have become encumbered by a lien will not defeat the lien

When premises have become encumbered by a lien before they are set off or selected by the debtor as his homestead, their subsequent assignment to him under the homestead statutes will not defeat the lien [66]

g. Mortgage or Conveyance as Security

A debtor, by executing a mortgage on real estate in which he has previously established no homestead rights, or a conveyance in trust to secure a debt, prevents the assertion of such homestead rights as against the mortgagee or grantee.

In accordance with, and subject to, the limitations of the general rule stated supra, subdivision a of this section a debtor, by executing a mortgage on real estate in which he has previously established no homestead rights, prevents the assertion of such rights as against the mortgagee,[67] whether there is, in the mortgage, an express waiver of homestead privileges[68] or whether there is no such waiver [69] This rule has been applied where occupancy is required before the homestead privilege attaches and the mortgage was executed prior to occupancy [70] So a mortgage executed and delivered before the mortgagor's marriage but not recorded until thereafter is superior to the homestead claim of the mortgagor's wife, notwithstanding she did not sign or acknowledge it,[71] and the interest of a second wife, who was not one of the signers of an existing mortgage on a homestead, is inferior to the existing mortgage executed by the first wife and her husband [72] Even though a mortgage is executed after the premises become a homestead, if it does not create a new, but only changes the form of a prior lien, no exemption exists,[73] but an extension of a preexisting mortgage, without the consent of both husband and wife,[74] or the reissuance of a mortgage note held in the possession of the maker while the latter acquired homestead rights in the property,[75] will not have this effect A statute providing that the homestead is subject to execution or sale in satisfaction of a judgment obtained on debts secured by a mortgage on the premises executed before the declaration of homestead was filed for record contemplates a live mortgage at the time of the execution or sale, and not one the lien of which has been barred by limitations prior to the declaration of homestead before final judgment on the debt,[76] and the filing of a declaration of homestead in such case prior to entry of a money judgment on the indebtedness originally secured by the mortgage exempts the property from execution [77]

A conveyance in trust to secure a debt is governed by the same rules as is a mortgage [78]

Renewal or extension

Establishment of homestead on property did not affect existing trust deed or power of owner to renew or extend it, and the fact that renewal note was for amount in excess of that properly chargeable against homestead did not render note and mortgage void, but raised equities which courts would adjust in proper procedure seasonably instituted, but however, where mortgagor, with full notice, permitted sale of land under terms of mortgage, he could not question validity of sale or title -Price v McAnelly, Tex Civ App, 287 S W. 77

Abandonment of homestead

Where husband's homestead was abandoned, his subsequent trust deed could not be avoided by convevance to wife and by her asserting homestead—Cannon v Hathaway, Tex. Civ App, 12 S W 2d 618.

§ 98. Debts Contracted Prior to Erection of Improvements

Under a statute providing that the exemption shall not attach as against debts contracted prior to the erection of improvements, creditors may reach the property to the extent of the value of improvements erected subsequent to the time the debt was incurred

Under a statute providing that the homestead exemption shall not attach as against debts contracted prior to the erection of improvements, creditors may reach the property if their claims antedated its improvement by the debtor,[79] and this is so, although the note or document evidencing the debt was executed subsequent to the making of improvements.[80] It has been held, however, that only the buildings or other improvements erected subsequent to the time when the debt was incurred and not the homestead as it existed prior thereto can be subjected to its payment.[81] Furthermore, the statute applies only to new and extensive improvements placed on the land whereby its value is increased in an amount exceeding the homestead exemption and not such as are caused by repairing or adding to those already made for the increased comfort of the family,[82] and a building erected on homestead property under an agreement between the homesteader and the person building it that the latter could remove it at any time does not belong to the homesteader nor add to the value of the property in such a manner that the homestead, to the extent of the value of the building, could be subjected to the payment of a debt of the homesteader contracted before its erection.[83]

Improvements placed on inherited land may be subjected to the payment of prior debts.[84]

§ 99. Debts and Liens Prior to Change of Homestead

Where a debtor exchanges his homestead for another, the new homestead is generally liable or exempt to the same extent as was the one for which it has been substituted, but the rule has some limitations, as where the proceeds of the prior homestead which were used to purchase the new one were subjected to an intervening use, or where the land claimed to be the new homestead was charged with debts before it became a homestead.

Where a debtor may and does exchange his homestead for another, the new homestead stands in the place of the old homestead, and is liable or exempt, as the case may be, to the same extent as was the homestead for which it has been substituted,[85] in accordance with, and subject to, the limitations of the general rules discussed supra §§ 97, 98, infra §§ 100–115. The rule, however, has no application in respect of a homestead purchased with the proceeds of a prior homestead where such proceeds have been subjected to an intervening use,[86] or to a homestead purchased in another state.[87] Likewise, the homestead will be liable for purchase money unpaid on the former homestead,[88] and it has been held that, if the debtor owns two parcels of land, one of which he claims as a homestead, but subsequently removes to the other, which he thereafter occupies as his home, the latter is not exempt from debts chargeable against it before it became a homestead,[89] and also that, where the owner of a lot occupied as a homestead exchanged it for another lot of about the same value, which he claimed as his homestead, and at the same time purchased, with funds not derived from the homestead, another lot adjoining the new homestead, the lot purchased did not become part of the homestead, as against a judgment recovered before its purchase, the additional lot making the new homestead of greater value than the original homestead.[90] Where a debtor had a residence on part of a tract, and therefore had the right to claim a homestead therein, the fact that he moved into a

new house on the same tract and sold the part of the tract including the old dwelling house did not constitute an abandonment of the right to claim a homestead, and the property was exempt even as against a debt which accrued after acquisition of the land but before the removal.[91]

Intention in selling old homestead Where a debtor has sold his homestead and invested the proceeds in another homestead, it is not necessary, in order to entitle him to the exemption of the new homestead as against a debt created prior to the purchase of the new homestead, but subsequent to the purchase of the old homestead, that he show that the sale was made with the intention to reinvest the proceeds in another homestead, it is sufficient that the reinvestment has in fact been made.[92]

§ 100. Debts or Obligations for Purchase Money

a In general
b Agreement to pay debt of vendor to third person
c Purchase price of other property
d Money borrowed to pay purchase price
e Payment made by third person

a. In General

Whether a homestead is exempt as against claims for purchase money depends on the controlling statute

Whether or not property claimed as a homestead is exempt as against claims for purchase money depends on the particular homestead provisions.[93]

b. Agreement to Pay Debt of Vendor to Third Person

As a general rule, if the purchaser, as part of the consideration, agrees to pay the vendor's debt to a third person, the latter may enforce his rights in preference to the homestead claim

Under most homestead provisions if a part of the consideration for the conveyance of land is the purchaser's agreement to pay a debt of the vendor to a third person, the latter may enforce his rights in preference to the homestead claim.[94] The rule is otherwise, however, where the provisions contain no exception as to purchase money.[95]

c. Purchase Price of Other Property

If the homestead consists of several parcels of land, only that parcel not paid for is subject to the debt, but if part of the purchase money for the entire tract remains unpaid, no homestead in any parcel of the premises can be claimed as against vendor until full payment for the whole is made

If the homestead consists of a number of parcels of land, and the purchase price of one is not paid, that part alone is subject to the debt,[96] but, if the debtor has paid a part of the purchase money for the entire tract and a part of the purchase price remains unpaid, no homestead in any parcel of the premises can be claimed as against the vendor until full payment is made for the whole.[97]

d. Money Borrowed to Pay Purchase Price

Although there is some diversity of holding on this point, in many jurisdictions one who advances money to the debtor for the specific purpose of purchasing the premises acquires the rights of the vendor

There is some diversity of holding as to whether a homestead is subject to a debt incurred by procuring money for its purchase In some jurisdictions the courts construe the term "purchase money" strictly, applying it only to the original obligation owing to the vendor and created by the purchase.[98] In others, applying the doctrine of subrogation or construing the applicable statutory or constitutional

Apportionment of purchase price

The homestead rights having attached in absence of showing that money borrowed was used in payment of purchase money for a small tract used as part of rural homestead, no equitable lien would be created against such tract Thus, where owners of fifty-five-acre rural homestead acquired an equitable estate to adjacent eight and one-third-acre tract under contract of purchase and went into possession and began use and occupancy thereof and carried out intentions of making it a part of homestead and thereafter executed a note for a loan with which to pay purchase money of other tract and small portion of purchase money of eight and one-third-acre tract, lien on such tract could not be foreclosed except for such small portion—Hayes v First Trust Joint Stock Land Bank of Chicago Tex Civ App 111 S W 2d 1172 error dismissed

provisions, it is held that the lender acquires the rights of the vendor when he advances money to the debtor specifically for the purchase of the premises,[99] but the money must have been borrowed for that specific purpose.[1] The violation of an oral promise to mortgage the homestead for money lent to procure it does not require imposition of a lien to enforce a trust ex maleficio, and a judgment for money so lent cannot be declared a lien on the homestead under a statute exempting homesteads from seizure for debts not lawfully charged thereon in writing.[2]

e. Payment Made by Third Person

Generally a third person who, at the instance of the purchaser, pays the contract price directly to the vendor acquires rights which take precedence over the homestead right of the vendee

While there is some authority to the contrary,[3] it is very generally held that, where a third person, at the instance of a purchaser of land, pays the contract price directly to the vendor, the debt thereby created is deemed to be for purchase money, and no homestead rights of the vendee will take precedence over it.[4]

§ 101. —— Obligations Secured by Vendor's Lien or Mortgage

a In general
b Attorney's fees included in vendor's lien notes
c Effect of waiver or loss of lien

a. In General

Obligations for purchase money secured by liens contemporary with the transaction, such as a vendor's lien or a mortgage, take precedence over any claims of homestead

Under the homestead laws of practically all jurisdictions, obligations for purchase money secured by liens contemporary with, and a part of, the transaction, such as a vendor's lien,[5] or a mortgage

Money originally advanced for other purpose

The fact that the part of money secured by trust deed was originally advanced to purchase other property than the home which was purchased with it and money subsequently loaned did not defeat lien as to such part where lender permitted borrower to retain it under agreement that it was to be used in purchase of home.—Maxwell v. Schott, Tex. Civ. App., 295 S.W. 266.

Determination of liability

In determining what portion of present indebtedness against a tract of land which includes a homestead is chargeable as a lien against the homestead, such amount should be based solely on the amount of indebtedness unpaid on purchase price of homestead tract plus whatever interest has accrued thereon, and such amount should not be increased by any other indebtedness.—Laubhan v. Debt incurred by prior owner

Debt for purchase money incurred by prior owner, who had no homestead claim was not subject to claim of homestead by subsequent purchaser.—Booze v. Smith, Tex. Civ. App., 36 S.W.2d 1061, error dismissed.

Interest is agreed between parties to land purchase agreement, or in absence of agreement, legal interest on the unpaid purchase price of land is included in amount of vendor's lien which attaches to the land for the unpaid purchase price when the agreement to sell is executed, and the interest is included in the amount of the lien which is prior to the homestead exemption claim.—McMurdie v. Chugg, 107 P.2d 163, 99 Utah 403, 132 A.L.R. 135.

Lien provided in deed for antecedent debt to third person, who also advanced additional funds to carry out exchange of homesteads, was held not sustainable against homestead as lien for purchase money.—Andrews v. to secure payment of the purchase money,[6] take precedence over any claims of homestead and are enforceable against the premises, although a homestead may be obtained in such lands subject to such obligations.[7] Where, after the sale of a lot, the vendee moves thereon a house which prior thereto had been his homestead, and which continued as such to the vendor's knowledge, the vendor's lien attaches to the lot and improvements placed thereon by the vendor, but not to the house.[8]

Lands descending to widow and children of purchaser. Under the homestead laws of at least one jurisdiction it is held that homestead lands descending from the purchaser to his widow and children are exempt from the vendor's lien.[9]

b. Attorney's Fees Included in Vendor's Lien Notes

The plea of homestead is not available against the collection of attorney's fees provided the note given as a consideration for the purchase price includes such fees as a part of the consideration

Where a vendor's lien note given as a consideration for the purchase price includes attorney's fees as a part of the consideration, the plea of homestead is not available against the collection of such fees,[10] but, where provision is not made for attorney's fees in the original note given for the purchase money, and a renewal note is given after the property has become the homestead of the purchaser, containing a stipulation for attorney's fees, no lien is thereby created for the fees superior to the homestead rights.[11]

c. Effect of Waiver or Loss of Lien

Under some statutes a claim for unpaid purchase money takes precedence over the homestead right, even though the vendor may have lost or waived his lien, but under other statutes the rule is otherwise

Where the homestead laws except "debts" or "obligations" for purchase money generally, a vendor's claim for unpaid purchase money takes precedence over the homestead right, although he may have waived or lost his lien.[12] Where the constitution merely excepts from its operation property sold subject to a vendor's lien, however, and a mortgage is taken for the purchase money, the vendor's lien is thereby waived and the homestead is exempt from execution as against any purchase-money mortgage not recorded before the declaration of homestead was filed,[13] and it has been held that any right which a money judgment creditor might otherwise

have to proceed against the debtor's homestead on the ground that the debt was incurred in the purchase of the property may be barred by proof that all liens were waived by plaintiff in a compromise agreement subsequently consummated by a consent judgment [14]

§ 102. —— Unsecured Obligations

Where the constitutional or statutory provision relating to homestead exemption provides that the homestead property is liable for a debt or obligation contracted for the purchase thereof, even in the absence of a lien no homestead can be acquired in the premises as against a purchase-money debt

In many jurisdictions the constitutional and statutory provisions relating to homestead exemption contain exceptions by virtue of which property in which a homestead is claimed is liable for a "debt" or "obligation" contracted for the purchase of such property, and it has been said that homestead provisions containing exceptions of this character should be strictly construed [15] Under these provisions, even in the absence of any lien, no homestead can be acquired in the premises as against a purchase money debt [16]

Debt or obligation within rule. The following debts or obligations have been considered a purchase-money "debt" or "obligation" contracted for the purchase of property in which a homestead was claimed A debt incurred in the purchase of an outstanding title to premises occupied as a homestead which is paramount to that already possessed by the purchaser,[17] a note against a third person transferred by the vendor's indorsement in part payment of the purchase money,[18] a debt created for the purpose of paying for or erecting a house on a vacant lot,[19] and the assumption by each partner of a portion of the partnership liability on the dissolution of the firm and division of property [20] Where the vendee exchanges his homestead, against which there is a debt due for the purchase money, for other land which he claims as exempt, such debt is an obligation contracted for the purchase, and may be enforced against the land received by the vendee in exchange [21] Rents promised to be paid by a tenant constitute the purchase money for his homestead rights in the premises he occupies [22]

Debt or obligation not within rule The debt for purchase money excepted by the constitution can be none other than that created in acquiring some sort of title to the homestead,[23] and hence cannot arise from a contract made after such title is fully vested, and the homestead acquired [24] The following debts or obligations have been considered not a purchase-money "debt" or "obligation" contracted for the purchase of property in which a homestead was claimed A debt contracted for material used in the improvement of a homestead,[25] a debt resulting from a former sale of the property to one

Judgment for damages
Where plaintiffs traded farm to defendants for realty, stock of merchandise, and fixtures, which were warranted to be free of encumbrances, and merchandise and fixtures were lost in forced sale because they were incumbered, plaintiffs were not entitled in action for damages not remotely connected with purchase price to have judgment against defendants declared a lien on farm, which defendants were occupying as a homestead on theory that transaction was part of purchase price of homestead —Buzzard v Odle, 89 P 2d 360, 184 Okl 631

who is evicted by foreclosure of a prior mortgage and who afterward acquired a new title to the property,[26] and a judgment as for money had and received, recovered in an action to rescind a contract for the purchase of land.[27] Where arbitrators assign land to an heir and report that the heir owes the estate a stated amount, this debt, if partly contracted prior to the ancestor's death, is not deemed to be for the purchase price of the land so assigned.[28] Where a wife is the owner of a stock of goods and merchandise, the husband carrying on the business in his own name, if the proceeds of sales are invested in real estate, the title to which is taken in the name of the wife, and which is immediately occupied by the family as a homestead, no purchase-money obligation accrues to business creditors of the husband, at least where it does not appear that the proceeds of the goods sold by the husband and wife constituted any part of the purchase price.[29]

§ 103 —— Change in Form of Debt or Taking of Security

Land which has become subject to the payment of purchase money continues chargeable therewith, although the original indebtedness is changed in form and although new or substituted security is executed

Land which has become subject to the payment of purchase money continues chargeable therewith, although the original indebtedness is repeatedly changed in form, provided it can be traced,[30] and the rule is not rendered inapplicable by the fact that the new or substituted security is executed to a third party for money advanced or loaned for the purpose of paying off the original encumbrance.[31] If the original debt is evidenced by a note secured by indorsements,[32] or by mortgage,[33] or has been renewed by other notes, although for a different amount,[34] or with a different rate of interest,[35] or if the original or renewal note has been reduced to judgment,[36] the homestead remains liable for the payment of the purchase money so evidenced. Where time of payment of purchase money for a homestead was extended by execution of a deed of trust of the homestead to secure a note to a third party who took over the purchase money to his vendor, a sale under the trust deed is valid,[37] notwithstanding the note to the third party was in excess of the amount of indebtedness secured by vendor's lien.[38] Where an overdraft on a bank has been canceled by a drawer who has deposited in his own name money held by him as treasurer of a school district, but the depositor gives a note afterward for the money received thereby, the bank cannot enforce a judgment thereon against the depositor's homestead, purchased with money procured by the overdraft on the ground that the debt was contracted by the purchase money.[39]

§ 104. —— Transfer of Obligation

Obligations for purchase money may be assigned, and the assignee may satisfy his debt out of land claimed as a homestead

Obligations for purchase money, within the rules stated supra §§ 100-103, may be assigned or otherwise transferred to the same extent as liens or obligations for ordinary indebtedness, and the assignee may satisfy his debt out of the land, although it is claimed as a homestead.[40]

§ 105. Liabilities for Improvement and Protection of Property

Under common statutory and constitutional provisions no exemption can be secured against debts created in the improvement of the homestead, provided the contract for the improvement is in compliance with the requirements of the homestead law

Under common statutory and constitutional provisions no exemption can be secured against debts created in the improvement of the homestead, such as debts or obligations incurred in the erection of buildings and other improvements of a substantial nature on the premises[41] It has been held that provisions relating to this matter ought to be strictly construed,[42] and, if the homestead laws contain no exceptions in favor of debts created in making improvements, the courts can make none[43] Where the constitution defines and enumerates the exceptions to its homestead exemptions and does not except debts for labor and material used in improving a homestead, a statute assuming to make such exception is unconstitutional and void,[44] and, under a constitutional provision exempting a homestead from forced sale and authorizing the legislature to limit the amount in value that shall be exempt, a statute authorizing sale of a homestead for the agreed or reasonable cost of material furnished or labor performed in the original erection and construction of buildings thereon is void[45] A statute excepting claims for improvements is void where the constitution provides that a reasonable amount of property shall be exempt from seizure and sale for the payment of any debt or liability[46]

Creation of lien Provisions of the character under consideration do not of themselves create a lien,[47] but the lien must be acquired by some method provided by law,[48] the debt becomes a lien on the homestead in the same manner that other debts become liens[49] Under the provisions of some homestead laws the debt must be created by written contract in order to secure a lien[50]

Extent and limitations of rule generally. Where the contract for the improvement is in compliance

died intestate leaving as sole heir maker of notes and owner of land subject to vendor's lien, indebtedness evidenced by notes was not extinguished and lien discharged under principles of "confusion of rights" or "confusion of debts" where maker qualified as administrator of intestate's estate and in such capacity assigned the notes to third parties, and hence homestead right of maker and wife in the land was not superior to rights of assignees of notes to foreclose lien on such land —Fisher v First Nat Bank of Throckmorton, Tex Civ App, 171 S W 2d 223

Contract held sufficiently definite

Facts that only general character of building to be erected was set out in construction contract and that, although contract provided building was to be erected in accordance with certain specifications, no such specifications were ever prepared were held not to render construction contract so indefinite that lien could not be fixed on property as against claim of homestead where, after building was completed, owners accepted it as compliance with contract —Hufstedler v. Glenn, Tex Civ App., 82 S.W.2d 733.

with the requirements of the homestead law, a resulting lien is enforceable against the homestead, although the building when finished cost more than the contract called for[51] The fact that an advancement was a loan to husband and wife to improve their homestead did not avoid the effect in fixing the lien for the money so borrowed where the facts showed that all the loan was used for such purpose;[52] but the lien can be claimed only for such moneys as were expended on improvements placed on the property,[53] and not for attorney's fees provided for in the note and trust deed securing the indebtedness,[54] although the lender is not thereby prevented from recovering a personal judgment against the debtor for the amount of such fees[55] It is not necessary that the contract should insure value received for the moneys expended[56] Obligations incurred for personal property purchased for the improvement of the homestead and which has become a part of it by being attached thereto are debts, within the rule, which may be enforced against the premises,[57] but, if the party furnishing the improvement agrees to consider it as personalty, although annexed to the homestead realty, he cannot subject the latter to his claim for the price[58] A mortgage given on a homestead to secure the release of a judgment on a lien for improvements is valid to the extent of the debt for improvements and interest thereon, even though it covered sums over and above that amount[59]

Provisions of the character under consideration have no application to a claim for material furnished for the improvement of the homestead but not actually used for that purpose,[60] and, where the owner contracted for improvement of an entire tract, only a part of which constituted his homestead, the homestead is chargeable only with the amount actually expended on it, and not with the amount expended on the other parts of the tract.[61] As between the lender and the borrower, money borrowed and used in the improvement of the land is not a debt incurred for the improvement of the homestead, within the meaning of the rule.[62] Where a chattel mortgage has been taken to secure the purchase money of personal property after it has become attached as a fixture to the premises, the seller's only remedy is to enforce the lien which he has obtained under the mortgage[63] Improvements unauthorizedly placed on land by a tenant cannot be charged to infants claiming a homestead right in the premises[64] As long as a divorced wife's separate property is used as a homestead, no lien can be foreclosed against it for community funds used in making improvements[65]

Improvements made before execution of contract. A contract giving a lien for money loaned on a homestead to pay for improvements erected prior to the execution of the contract is ineffectual[66]

Abandonment of work after transfer of lien. Where the contract for improvements contemplated that the contractor, independently of all others, should perform the contract, and he thereafter transferred notes for the price and lien securing them to a third person, and then abandoned the work without cause, it was held that the third person could not enforce the lien[67]

An occupying claimant who makes improvements on land, supposing that he has acquired a good title thereto, has a lien therefor,[68] although the land may be assigned to the original owner as a homestead[69]

or materialman who has performed labor or furnished material in improving the homestead may be enforced against it, provided there is a compliance with the constitutional or statutory requirements.

Under the provisions of the homestead laws in many jurisdictions a mechanic, laborer, or materialman may have a lien on the homestead for labor and materials furnished in improving it, provided he has perfected his obligation or lien in accordance with the statutory requirements,[70] unless he is excused from doing so by reason of the death of the debtor during the time allowed from perfecting the lien,[71] or unless the work was done or the materials furnished on the personal security of the debtor alone.[72] Under some provisions, broader in their terms, claims for labor or material are excepted from the homestead exemption, without limitation as to the perfecting of the lien or obligation.[73] A provision making the property subject to seizure and sale for any debt incurred to any laborer or servant for labor or service performed refers to the relation of employer and employee between the owner of the property and the laborer or servant,[74] and the homestead is not liable for a debt incurred to a laborer by virtue of some collateral agreement with his employer.[75] Furthermore, a laborer or servant contemplated by such provision is one who performs manual labor or menial tasks.[76] Under the provisions of some of the homestead laws which do not impair a mechanics' lien on the homestead premises, its enforcement is suspended if and when the owner of the homestead claims the exemption.[77] By virtue of some provisions, if both husband and wife, when contracting for materials for a house, intend that it shall be their homestead, liens for these materials will not attach to either the building or the land unless acts of estoppel are shown,[78] but, if it is the intention of both husband and wife to erect the house for other than homestead purposes, the liens attach both to the building and the land on which it is situated.[79] In the absence of a statutory provision of the general character under consideration, the homestead exemption operates against claims for wages and materials furnished in making improvements on the property, as in the case of other claims.[80]

Requisites of contract In some jurisdictions, the debt must be created by a written contract, which must in all respects comply with the statutory requirements,[81] and it has been held that in the absence of such contract a lien declared by a city under an ordinance against a homestead to secure payment for material and labors furnished by a paving company is a nullity.[82]

Work done or materials furnished pursuant to contract In order that the lien may attach it is necessary that the labor must have been done or the materials furnished in pursuance of the con-

tract and not prior thereto,[83] and, where it appears that the labor was performed in part before the contract was made, to that extent at least there can be no recovery.[84]

§ 107. —— Loans and Advances Used in Removing Encumbrances

When authorized by statute, loans or advances made to discharge the homestead from enforceable liens or encumbrances and actually applied to that purpose may be charged against the premises.

Under the homestead laws of some states a loan or advance made to discharge the homestead from enforceable liens or encumbrances may be charged against the premises where the money is actually expended for that purpose;[85] and it has been held that this is so, although the instrument claimed to create the lien in favor of the party advancing the money may be void,[86] and that the fact that the lender of the money charged usury does not deprive him of the equitable rights resulting from the application of his money to the discharge of the encumbrance.[87] Nevertheless the mere fact that borrowed money was used to discharge liens or encumbrances will not subrogate the lender to the rights of the encumbrancer, unless the funds were loaned for that specific purpose.[88] It has been held that money borrowed to pay off purchase-money notes on a homestead already purchased is not purchase money[89] and the right to collect it does not take precedence over the homestead exemption,[90] but there is authority to the contrary.[91] Under a statute exempting a homestead from seizure and sale on account of any debt not lawfully charged thereon in writing, one who advanced money to another to pay a mortgage on a homestead, on the latter's unfulfilled oral promise to give him a mortgage to secure payment of the money advanced, is not entitled to be subrogated to the rights of the mortgagee whose mortgage was thus paid off or to any lien on the homestead property.[92]

§ 108. Debts Due to Government

An exemption from debts due the government is denied only if the statute expressly subjects the homestead thereto; and accordingly it has been held under some statutes and denied under others that the debtor is entitled to the exemption in the case of local assessments, fines, penalties and costs, and official defaults.

The general rule is that it is only in case the homestead statute expressly subjects the homestead to debts due the state or the United States that an exemption therefrom is denied.[93]

Local assessments. While it has been held that local assessments are not taxes within provisions in homestead laws which prevent the claim of an exemption as against taxes,[94] local assessments have been held enforceable against the homestead under laws containing no exception of debts due for taxes or assessments.[95]

Fines, penalties, and costs. The exemption has been held to include fines, penalties, and costs due the state in criminal prosecutions,[96] although in some jurisdictions the contrary view obtains.[97] Under a homestead law providing that, "where there is no special declaration of the statute to the contrary," the homestead of every family, whether owned by the husband or the wife, is exempt from judicial sale, a statute making premises, illegally used for the manufacture or sale of intoxicating liquors, liable for fines and costs assessed and judgments rendered for a violation of the law, contained a "special declaration" within the meaning of the law.[98]

§ 109. Judgments

As a general rule no lien attaches by reason of a judgment against the homestead claimant on property previously impressed with the homestead character; but in some jurisdictions a judgment against one occupying land in excess of the homestead exemption becomes a lien on the surplus On abandonment of a homestead without conveying the property the judgment lien attaches, according to some authorities.

Reducing a claim to judgment does not bar the debtor's right of homestead.[3] In a number of jurisdictions the homestead laws do not prevent judgments against the owner of a homestead from becoming liens on it, but the lien attaches subject to the homestead use and retains its priority over subsequent liens and may be enforced when that use has terminated by sale, abandonment, or otherwise,[4] but, in perhaps a majority of jurisdictions in which the question has arisen, no lien attaches by reason of a judgment against the homestead claimant on property previously impressed with the homestead character,[5] and, according to the deci-

Judgment on unpaid compensation award is not lien on employer's homestead notwithstanding law providing compensation award shall have preference against assets of employer—Aase v Langston, 220 N W. 421, 175 Minn 161

Rescission of contract
Where purchasers instead of trying to enforce contract or, in lieu thereof, obtain judgment against the

sions on the question, he may convey[6] or mortgage[7] the homestead property free from any lien against it on such judgment.

Excess of homestead exemption. In some jurisdictions a judgment against one occupying land in excess of the homestead exemption becomes a lien on the surplus from the rendition of the judgment,[8] and the lien is not postponed until the assignment of the homestead after a subsequent levy of execution.[9] In other jurisdictions, because of a difference in the provisions of the homestead laws, a judgment creates no lien on the surplus.[10]

Effect of abandonment of homestead. Although there is some authority to the contrary,[11] it is generally held, even in jurisdictions where the majority rule prevails, that, if the homestead is abandoned without the property having been conveyed, the lien of a judgment will then attach,[12] and if there were several judgments, the liens will attach in the order in which the judgments were rendered.[13]

§ 110. —— Judgments for Alimony

Although in some jurisdictions a homestead is exempt from the levy of an ordinary execution issued on a general judgment for alimony, the amount allowed may be decreed to be a lien on the property, or the court may require conveyance of the homestead by the husband to the wife.

In some jurisdictions it seems to be held without qualification that a husband cannot claim exemption of homestead against levy of execution on his land from forced payment of a judgment for alimony.[14] In others, a homestead is exempt from the levy of an ordinary execution issued on a general judgment for alimony in the same manner and to the same extent as in cases of execution on other judgments,[15] unless, as may be done,[16] the amount allowed is decreed to be a lien on the property,[17] and the homestead is brought into the jurisdiction of the court by proper pleadings,[18] which must at least describe the homestead, and make proper allegations of facts showing the necessity for declaring a lien, so that defendant may know at the time of the suit that his exempt property would be claimed to satisfy the debt, and to make proper showing as to why such lien should not be declared.[19]

Decreeing conveyance to wife. The court, in a

land for the amount paid under the contract, had brought an action to rescind contract for purchase of land and obtained a judgment as for money had and received, they could not, after vendors had filed a homestead claim, urge that the vendors could not by fraud take purchasers' money for purchase price and then claim homestead exemption on land to defeat purchasers' right to return of amount paid.—Brown v. Cleverly, 85 P.2d 769, 96 Utah 120, denying rehearing 83 P.2d 1009, 96 Utah 116.

In Mississippi

(1) Under statute providing that exempt property shall not by disposal become liable to debts of owner, judgment lien does not attach to exempt homestead, and exemptionist can convey homestead unaffected by enrolled judgment. So where homestead at time of conveyance was occupied as such, judgment lien did not extend to it and did not attach thereto when exemptionist moved.—De Bardelleben Coal Corporation v. Parker, 145 So. 341, 164 Miss. 728, overruling suggestion of 144 So. 474, 165 Miss. 728.

(2) Under early statutes, the homestead was exempted on the condition of occupancy as a residence, and when the occupancy was abandoned the right was gone and the property was open to seizure and sale by judgment creditors.—Edmonson v. Meacham, 50 Miss. 34.—Whitworth v. Lyons, 39 Miss. 467.

divorce proceeding by the wife, may decree a conveyance of the homestead by the husband to the wife within a fixed time,[20] and, on his failure to comply, it may direct the master in chancery to execute such conveyance and deprive the husband of the right of redemption[21]

Redemption Where a sale has been ordered to satisfy a judgment for alimony, the husband has the same right to redeem as in ordinary sales on execution[22] The court which has by its decree made the judgment for alimony a lien on the husband's real estate divested of its homestead character may not only direct a sale of the real estate under execution[23] but may authorize the redemption from such sale[24]

Claim of exemption after remarriage. Where a decree of divorce and for the payment of alimony is granted a wife, the derelict husband cannot defeat the collection of alimony by remarrying, and claiming the benefit of the Exemption Law,[25] but a homestead of the husband and his second wife declared on their community property has been held not subject to sale on a judgment for alimony owed by the husband to his first wife[26]

Homestead purchased with pay of retired soldier may be subjected to the payment of a decree, against such soldier, awarding alimony to his wife[27]

§ 111. —— Judgments for Torts

Under some statutes the homestead cannot be subjected to the satisfaction of a judgment for tort, but under other statutes the rule is otherwise.

Under laws which exempt a homestead without regard to the character of the liabilities against which it may be claimed, the homestead cannot as a rule be subjected to the satisfaction of a judgment for tort,[28] and this rule has been applied where the homestead was declared pending the tort action but prior to judgment therein,[29] and notwithstanding it was used to protect transactions bordering on fraud[30] The same rule is applied in some states where the law exempts the homestead from "debts contracted" or "any debt contracted"[31] In other jurisdictions no exemption can be claimed under such a law except as against a contract indebtedness[32] A statute exempting the homestead as against "any debt" allows the exemption as against liabilities generally,[33] while, if the language used is "debts founded on contract," liabilities arising out of torts and public wrongs override the exemption[34] A statute giving persons injured by the reckless operation of motor vehicles a lien on the vehicle next in priority to the lien for taxes creates a lien which is superior to homestead claims in the motor vehicle[35]

§ 112. Miscellaneous Claims Enforceable against Homestead

Various miscellaneous claims, such as claims for funds improperly invested in homesteads, debts owed in a fiduciary capacity, debts contracted through false representations, expenses of last illness, funeral, or administration, obligations incurred in raising crops, and allowance for support of abandoned wife or child, have under the particular circumstances of the case been held enforceable or not enforceable against the homestead

Where the parties are sui juris and dealing at arm's length, a homestead is notice to the world of restrictions on its alienation, but it cannot be employed as a shield and defense after fraudulently imposing on others[36] Dependent on the facts of the case, the right of the defrauded party may become paramount to that of the homestead owner where proceeds from property fraudulently obtained find their way into a homestead for purposes of seclusion[37] So, in an action by the injured party,

the exemption does not apply where the homestead was purchased or improved with, stolen money,[38] embezzled funds,[39] money procured by forgery,[40] or trust funds,[41] as where a guardian has used his ward's money [42]

Under a constitutional provision making the exemption available only against debts contracted, an amount decreed to be owing by complainants to defendants on rescission of a contract for exchange of realty on the ground of mutual mistake is not a contracted debt.[43] In such case where title was revested in complainant, who was to pay the stipulated amount to defendant, complainant held such amount as trustee, and hence the homestead exemption did not apply [44]

Debts owed in fiduciary capacity. Under the homestead provisions of some jurisdictions debts owed by an attorney, trustee, or other fiduciary in his fiduciary capacity are enforceable against his homestead, but to render these provisions operative it is essential that the debt should have been incurred by the fiduciary while acting in that relation [45] A constitutional provision which exempts homesteads from judgment liens, except judgments for money collected by the trustees of express trusts, does not extend the exception to ordinary clerks and employees or agents intrusted with the collection of money,[46] and does not apply to a judgment by a surety against a railway station agent for reimbursement of an amount paid in satisfaction of the bond of such agent.[47] So, if the demand arises out of a contract of bailment or agency in the ordinary course of business, or if it is a mere loan or credit induced by the confidence in the integrity or punctuality of the debtor, the transaction does not constitute an express trust within the rule,[48] the existence of liability must spring from some breach of trust, the defalcation or indebtedness must occur and exist while the debtor is acting in a fiduciary capacity, and must be no mere debt, but a contract which results from the rightful possession of money that belongs to another, and which is being used for his benefit.[49]

Debts contracted through false representations. A debtor who has rendered himself liable for the payment of money obtained by his fraudulent representations, or who has subjected himself to an action for fraud in the sale of property, cannot claim a homestead exemption acquired after the liability accrued as against such liability.[50] Likewise the owner of land, making a colorable transfer to a grantee who obtains a loan secured by mortgage on the premises, is estopped to set up a homestead claim against the mortgage, the mortgagee not knowing that the conveyance was simulated [51] An indebtedness incurred by a representation that real estate belonging to the debtor was unencumbered when as a matter of fact it had been impressed with the homestead character cannot be enforced against the premises [52]

Expenses of last illness, funeral, or administration. In the absence of a statute so providing, the expenses of the funeral and last illness of the owner of a homestead are not charges against the homestead estate,[53] but the expenses of the last illness, funeral, and administration of the estate are not debts of decedent within a statute directing that the homestead shall be exempt from the payments of the debts of decedent, and it has been held that, where the rest of the estate is insufficient for their payment, resort may be had to the homestead [54] Under a statute providing that the homestead shall be subject to the expenses of the last sickness, funeral, and probate, the homestead is subject to

such expenses only if there is not sufficient other property in the estate to meet them [55]

Obligations incurred in raising crops. A statute which provides that the products of the homestead shall be subject to the payment of obligations contracted for their production has been upheld as constitutional [56] Under such a statute, where defendant gave a note for fertilizer which was used on his homestead, it was given for an agricultural advance and enforceable against any crops grown on the homestead,[57] and a landlord who signs the tenant's note given for fertilizer is entitled to recover as one making agricultural advances [58]

Allowance for support of abandoned wife or child A husband's obligation to support his wife during the existence of the marriage relation is not a debt within the meaning of the constitutional provisions creating homestead exemptions, but arises out of the very nature and purpose of the marriage relation,[59] and, in making an allowance for the support and maintenance of an abandoned wife, the court may place a lien on the husband's homestead [60] This principle is applicable also to an allowance in a divorce case for the support and maintenance of an infant [61] A father required by divorce decree to make monthly payments for the support of his child does not on the theory of unjust enrichment, however, hold title to land subsequently acquired as a homestead under a trust for the benefit of the child to the extent of accumulated unpaid installments represented by a judgment recovered against him [62]

Lien for debt on other lands A homestead cannot be impressed with a lien for indebtedness on other lands after the homestead was established [63]

§ 113. —— Costs and Attorney's Fees

Whether or not a homestead is exempt from judgments or orders for the payment of costs or attorney's fees depends on the applicable homestead provisions and the particular proceeding or judgment in connection with which such costs or fees are allowed.

Whether or not a homestead is exempt from decrees, judgments, or orders for the payment of costs or attorney's fees would seem to depend on the homestead provision of the particular jurisdiction, as well as on the rules discussed supra §§ 109–111 as to the exemption of the homestead from the particular proceeding or judgment in connection with which such costs or attorney's fees are allowed [64] A decree subjecting the homestead to satisfaction of the judgment for alimony may provide also that an allowance of attorney's fees and costs may be made a lien on the homestead [65] In some jurisdictions costs recovered after the homestead enactment, in a suit brought previously to its taking effect, are not subject to the exemption [66]

Acquisition of property or preservation of homestead rights There is a lack of harmony with respect to the enforcement against a homestead of contracts for services rendered in the preservation of homestead rights, resulting from the diversity of the homestead provisions respectively, and the nature of the services performed, as well as the contract under which the services were rendered [67] It is generally held that attorney's fees stipulated for the collection of an amount due for improvements do not constitute a part of the lien on the homestead [68] So it has been held that a provision in a contract for the building of a house upon a homestead which gives an attorney's fee in case of a foreclosure of a mechanic's lien is invalid [69] A lien for attorney's fees for services rendered in acquiring real estate for a client, however, is superior to any claim of homestead which the client or his widow could assert in the property [70]

for necessaries contemplates such supplies and services as were furnished the family in connection with the enjoyment of the premises or the support of the family while residing thereon.

If the homestead acts subject the property to debts due for necessaries, the latter are construed to include such supplies and services as were furnished the family in connection with the enjoyment of the premises, or the support of the family while residing thereon,[71] but the term will not include the rent of a house and lot wholly disconnected from the homestead,[72] or a debt due a physician for services rendered a minor child of the homesteader.[73] Conceding that a statute which makes no property exempt from execution for debts for necessaries, etc., is applicable to homestead exemption, the homestead is not liable where there is no pleading or proof that the necessaries were furnished within the time designated by statute.[74]

§ 115. —— Liabilities Enforceable against Business Homestead

Debts incurred in the purchase of merchandise are not chargeable against a business homestead.

A business homestead is exempt from sale to pay debts incurred in the purchase of merchandise.[75]

§ 116. Time of Contracting Liability; Computation

In determining priority of a creditor's claim over that of the homestead, the date of the execution of the contract, or, in the case of a judgment creditor, the date when the judgment became a lien, is controlling

The date of the execution of the contract, and not that of the breach of it, governs with respect to the priority of the creditor's claim over that of the homestead.[76] In determining priority between a judgment creditor and the homestead right, the controlling date is the date the judgment becomes a lien.[77]

§ 117. Proceedings for Enforcement of Claims

a. In general
b. Jurisdiction
c. Parties
d. Pleading
e. Evidence
f. Trial
g. Judgment and enforcement thereof

a. In General

Proceedings to enforce claims against a homestead must comply with statutory requirements.

A creditor whose debt is collectable from the homestead must proceed to its enforcement according to the Homestead Law[78] and the general statutes supplementary thereto.[79] A homestead is not subject to attachment on the ground that the owner is a nonresident.[80]

b. Jurisdiction

In the absence of statutes providing otherwise, claims against a homestead may be enforced in the court which would have jurisdiction of such claims irrespective of homestead considerations, but equity will not interfere where the legal remedy is adequate

In the absence of a provision in the homestead law to the contrary, claims against a homesteader may be enforced in that court of law, or of equity, as the case may be, which would have jurisdiction of such claims, irrespective of homestead considerations.[81] Where the homestead is subject to sale on final process, equity will not entertain an action to set aside a homestead allotment and to enforce a judgment against it, since the legal remedy is adequate,[82] nor will equity interfere to set aside a decree of foreclosure against a homestead, where no objection to the enforcement of the mortgage is made in the foreclosure suit and no homestead rights appear therein.[83]

c. Parties

The wife may intervene to protect her interest if the homestead is about to be taken on execution, and she is a necessary party to a suit to foreclose a lien when her homestead right, if asserted, would present a possible defense against such foreclosure.

While it is held that the wife may intervene to protect her interest if the homestead is about to be taken on execution,[84] the authorities differ as to the necessity of making her a party to a proceeding to subject the homestead to a claim Thus she has been held a necessary party on foreclosure of a mortgage,[85] although the contrary view has also been maintained[86] So she has been held a necessary party to a petition for partition by cotenants of the husband to divide the estate and have certain claims of her husband made liens against the homestead,[87] and to an action to dissolve a partnership involving the question whether certain property is the homestead of one partner or partnership property[88] On the other hand, it is held that the wife need not be made a party to a suit in which the property claimed as homestead is attacked,[89] nor is she a necessary party to a suit against her husband to enforce a lien arising out of an obligation contracted for the purchase of property claimed to be exempt as the homestead of the family[90] She is a necessary party to a suit to foreclose a lien on the homestead only when her homestead right, if asserted, would present a possible defense against such foreclosure[91]

d. Pleading

A creditor must allege and prove facts sufficient to entitle him to reach his debtor's homestead, and if he relies on an exception contained in the exemption law he must plead it specially

A creditor must allege and prove facts sufficient to entitle him to reach his debtor's homestead, stating the grounds of his claim, how the property is liable, and who are the parties interested as homesteaders[92] If plaintiff relies on an exception contained in the exemption law he must plead it specially,[93] and, if the debtor bases his defense on the general immunities granted by the Homestead Act, the creditor must reply with facts depriving defendant of its benefit[94] Where a creditor seeks to subject the homestead of the debtor, alleging that the improvements to the value of five hundred dollars were placed on the land after the creation of the debt sued on, it is error to adjudge the entire property to the wife as a homestead on her petition therefor, in the absence of any denial of the allegations of the original petition[95] Evidence of the homestead right is admissible under the general denial[96] or when specially pleaded[97] Where a bill

to subject lands to a debt is taken pro confesso, the debtor may still claim his exemption, if the bill does not allege freedom from exemption [98]

e. Evidence

In proceedings to subject a homestead to a debt, general rules as to burden of proof, admissibility, and weight and sufficiency of the evidence have been applied

Where in an action to subject a homestead to a debt defendant seeks to take advantage of his homestead exemption, the burden of proof is on him to show that the case is within the provisions of the statute giving him such right,[99] and ordinarily he makes out a prima facie defense under the statute by proof that he is a homesteader, the head of a family, owning and occupying as a residence the premises in question at the time judgment was rendered against him, or the lien was acquired, and that the homestead right has not been released [1] When he has shown that he is prima facie entitled to the benefits of the statute, it is then incumbent on the creditor or other person denying the homestead right to rebut such prima facie case by showing that the debt is one against which no exemption exists [2] In an action by the seller of material for the improvement of a homestead to place a constructive trust on the homestead for fraud of the buyer in the concealment of his insolvency, the burden is on the seller to establish the facts necessary to his recovery [3] A party seeking to establish an indebtedness as a lien on a homestead has the burden of showing that no portion of the indebtedness due on any other land has been charged as a lien against the homestead [4]

Parol evidence is admissible for the purpose of showing that a debt on which an execution was issued existed at the time of filing the deed of homestead [5]

The weight and sufficiency of the evidence to show matters involved in the issues raised in proceedings to enforce claims against a homestead are governed by the general rules [6]

f. Trial

Disputed questions of fact should be submitted to the jury, but a verdict may be directed when there is no substantial controversy as to the facts

In accordance with the general rules applicable in the trial of civil actions generally, disputed questions of fact should be submitted to the jury for determination [7] If there is no material question of fact for submission to the jury on which there is any substantial controversy, the court may direct a verdict [8]

g. Judgment and Enforcement Thereof

Statutory provisions relating to the judgment and execution must be complied with. In some jurisdictions the homestead may be sold unconditionally on general execution, but in others the judgment or execution should indicate that the debt is one against which no exemption exists, or a certificate or affidavit to that effect should be placed in the sheriff's hands before levy.

A homestead liable to sale for claims against which no exemption exists may in some jurisdictions be sold unconditionally on general execution,[9] and it has been held that such a sale is not void, although there is no evidence of record that the execution was based on a judgment for an exempted debt, the sheriff taking the responsibility of acting on his own conviction that such was the case and his conclusion being right.[10] In other states the judgment[11] or the execution[12] should indicate that the debt is one against which no exemption exists, although in some jurisdictions this purpose may be accomplished by a certificate of the court issuing the process[13] or by an affidavit placed in the sheriff's hands before levy.[14] If the judgment includes both exempt and nonexempt claims, it is error to allow the whole judgment to stand as found against the homestead.[15] If land including the homestead is sought to be sold on execution, the writ must direct that other property also subject to sale shall be first disposed of.[16] Refusal to modify a judgment imposing a lien on a homestead for the amount of a trust fund which defendant admitted he had invested therein is not an abuse of discretion on an application alleging that only a part of the fund was so invested.[17]

After recovery the enforcement of the judgment cannot be interfered with by a mere affidavit of illegality filed by the debtor's wife,[18] or by an affidavit filed by the debtor that to the best of his knowledge and belief he had paid the debt sought to be enforced.[19]

Courts of equity are reluctant to appoint a receiver to subject the rents and profits of a homestead to the payment of a mortgage indebtedness,[20] but it has been held, in the absence of statutory provisions precluding such relief, that the matter rests in the sound discretion of the court,[21] and unless that discretion is improperly exercised the order will not be disturbed.[22]

Property acquired by descent Where, in a proceeding to sell land acquired by descent for debts, it appears by admissions in the pleading that the debts contracted by decedent before the adoption of the homestead exemption law exceeded the value of the personalty, an unconditional sale should be ordered,[23] and it is error to discriminate between debts incurred before and after the passage of the homestead law.[24]

Platting homestead before sale A sheriff's sale, to satisfy a nonexempt debt, is not open to attack because the homestead was not platted by the sheriff before being sold.[25]

Process against debtor's heirs If the judgment creditor could not proceed against the homestead during the debtor's life, he cannot proceed by execution against the debtor's heirs.[26]

Rights of surviving spouse, children,

The statute of limitations, in North Carolina, does not run against a judgment recovered against the owner of a homestead after there has been an actual allotment of homestead.[27]

§ 118. —— Waiver, Forfeiture, and Estoppel

That the premises have been impressed with homestead character will not generally preclude a creditor from proceeding against them on an excepted indebtedness, although he may be estopped where, by consent of all parties, a homestead is allotted a widow out of her husband's estate. No waiver or forfeiture results from failure to reach proceeds of other property, or from mere lapse of time short of the statutory period, although other circumstances may result in waiver or estoppel.

That the premises have been impressed with the homestead character, whether by decree of court, occupancy, or whatever may be necessary as the case may be, will not generally preclude a creditor from proceeding against them on a preexisting or other excepted indebtedness,[28] but it has been held that, if such creditor puts his right in issue and contests the allotment of the homestead in a legal proceeding, he is bound by the decree rendered,[29] although where the homestead allotment was made under a law invalid in toto a contesting creditor will not be bound.[30] Where by consent of all parties, homestead is allotted to a widow out of her husband's estate, the creditors are estopped to claim a return of the property to the estate, although the court transcended its jurisdiction, and although the exemption allowed was illegal.[31] No waiver results from failure to reach or participate in the proceeds of other property belonging to the debtor.[32] The mere lapse of time short of the statutory period of limitation will not cause a forfeiture of the creditor's rights against the homestead,[33] and as long as the judgment continues as a lien a judgment creditor is not barred by laches from equitable relief under a statute providing for suit to subject to execution property of the judgment debtor which the latter claimed as a homestead.[34] A creditor whose claim is a lien against the home property waives his rights against it, however, by agreeing to a reservation of the exemption by his debtor and participating in the proceeds from this or other of the debtor's property;[35] and a waiver may likewise occur where the creditor long neglects to pursue his remedy against the land and permits it to be set apart to the family of the debtor after the latter's death.[36] So a creditor by accepting benefits under a contract made between the homesteader and other creditors is estopped to set up any rights against the consideration received by the homesteader for waiver.[37] Under a statute giving to a landlord having a claim for rent a lien on the premises superior to the tenant's right of homestead therein, an office judgment by confession for rent due is a waiver of the lien, and renders the judgment inferior to the right of homestead.[38] A mortgagee forfeits his rights under a sale of the homestead so long as he does not account for the surplus proceeds after discharging his mortgage debt.[39]

§ 119. —— Joinder of Claims and Causes

An excepted indebtedness intermingled with other claims not entitled to priority can be enforced against the homestead only if the various amounts can be separately adjudicated

An excepted indebtedness cannot be enforced against the homestead if intermingled with other claims not entitled to priority, unless the various amounts can be distinguished and separately adjudicated.[40]

§ 120. —— Exhausting Other Property before Resorting to Homestead

It is a general rule with some qualifications that a debtor is entitled to have his nonexempt property exhausted before the homestead can be sold, but this right may be waived or abandoned

In the absence of special statutes so providing, a person who has a lien on land superior to a debtor's right of homestead need not resort to other property of the debtor before the homestead may be sold.[41] On the other hand, it is generally held, usu-

ally by reason of statute so providing, that all nonexempt property of the debtor, both real and personal, must be exhausted before the homestead can be sold,[42] and it has been held that a debtor may insist that recourse shall last be had to the homestead property, and that the lienholder whose security affects the homestead with other land shall resort, first, to the other lands,[43] even though by so doing the security of other creditors on the same land may be impaired or destroyed.[44]

Platting homestead

(1) Sheriff's deed of mortgaged property to purchaser on foreclosure sale was held not void, because mortgagors occupied part of property as homestead, and sheriff failed to serve notice on them to plat their homestead as required by statute, where mortgagors did not occupy property until after debt was created and pledged entire property to payment thereof, and hence deed could not be attacked in a collateral manner So the sheriff's failure to give mortgagors chance to plat their homestead was immaterial, where mortgagors were not seeking to redeem and sheriff in conducting sale offered various tracts constituting property separately and received no bid there on, and amount paid for property on sale was more than its actual value—Arnold v Murphy, 203 N W 387, 199 Iowa 934

(2) A sheriff's sale on foreclosure of mortgage was not invalid because sheriff failed to notify purchasers of mortgaged land from mortgagors to plat their homestead before sale as required by statute, where sheriff had homestead platted before sale, offered land, exclusive of homestead in separate parcels without receiving any bids therefor, offered homestead separately without receiving any bids therefor, and then offered land as a whole, and where purchasers of mortgaged land by specific agreement had waived platting and recording of homestead and had agreed in case of sheriff's sale that premises might be sold in one body—Travelers Ins Co v Brooks, 276 N W 617, 224 Iowa 170

der to save the homestead,[45] even though the mortgagor may have some defense in a suit brought by the payee which would not be available against a bona fide holder.[46] So, if several tracts are mortgaged, and none of them was then the homestead, but one is afterward selected as such, the mortgagee need not exhaust those which are nonhomestead lands before resorting to the home tract.[47] A purchaser of a homestead which is subject to an encumbrance, such as a mortgage, is not entitled to have the property of his grantor exhausted before the mortgage can be enforced against the property so purchased.[48] Trustees in a trust deed are entitled to sell two lots together as authorized by the deed notwithstanding a declaration of homestead as to one lot, where the grantors in the trust deed had lost all interest in such lot through a sale foreclosing a lien and expiration of the redemption period.[49]

Necessity of ownership of nonexempt property If a debtor seeks to restrain the sale of his homestead because the creditor has not previously exhausted all of the nonexempt property of the debtor, under the rule requiring this to be done, he must show actual ownership of nonexempt property.[50] Other property of the debtor, within the meaning of the general rule, comprises such property as still belongs to the debtor at the time of enforcing the claim, not that which he has conveyed away,[51] and he cannot require that the property sold should be exhausted before resorting to the homestead.[52]

Purchase-money mortgages. An exception to the general rule is recognized in case of purchase-money mortgages in which case an exhaustion of other property before resorting to the homestead is not necessary.[53] When land which one has received in exchange for another tract is taken from him to satisfy a lien for purchase money which existed when he received the land, he may recover the land which he gave in exchange free from any claim of the party in possession of the homestead.[54] Failure of a referee to claim that a homestead was subject to a purchase-money mortgage along with other land when the other land is first sold furnishes no ground of complaint to the mortgagor where the referee made no order of sale.[55]

Presentation of claims against decedent's estate is made a condition precedent, under some statutes, in order to fulfill the requirement of exhausting other property before resorting to the homestead.[56]

Waiver of right. The debtor's right to have the other property exhausted before resorting to the homestead may be waived,[57] and what will constitute a waiver depends on the circumstances of the particular case.[58] Thus it has been held that waiver results from failure to assert the homestead exemption and resulting right in the foreclosure suit,[59] or from permitting the whole property to be sold in bulk.[60] On the other hand, it has been held that the right is not lost by failure to demand that nonhomestead property be sold first, where no detriment resulted to the purchaser.[61] In suits to foreclose mortgage and vendor's liens, the mortgagors suffered no actual injury by refusal of their demand for a separate and prior sale of the mortgaged tract under the order of sale on the judgment foreclosing the vendor's lien where the proceeds of the sale of such tract were insufficient to satisfy both liens in full without the sale of property claimed as homestead.[62]

Sale in disregard of rights If homestead property is sold in disregard of the demands of the homestead claimant that property other than the homestead be first sold, the sale is voidable only at the election of claimant.[63]

the surplus remaining, if any, should be paid to the homesteader according to his interest at the time the fund is finally disposed of. In some jurisdictions, however, the proceeds may be reinvested under court order in another homestead for the benefit of the debtor or his family.

Where the homestead has been sold to pay a privileged creditor, such creditor should be paid in full,[64] and the surplus remaining, if any, should be paid to the homesteader[65] The rights of a debtor in the surplus proceeds of a sale of homestead property sold to satisfy liens existing prior to its acquisition must be determined on the state of facts existing at the time the fund was finally disposed of,[66] and the debtor is not entitled to the fund if at such period he has abandoned[67] or sold[68] or waived[69] the homestead If certain debts are charges against the homestead while others are not, the former share pro rata with all other debts in the surplus remaining after deducting the statutory exemption,[70] and, as far as concerns the unpaid balance of the nonexempt claims, they may come against the proceeds which represent the exemption[71] Such part of the proceeds as remains after satisfying nonexempt claims will, however, not be subject to general debts which are unenforceable against the homestead, if the debtor intends to use such surplus in redeeming his homestead or purchasing another.[72] The debtor may elect to have the surplus fund applied to payment of a homestead mortgage in preference to prior judgments, which, although constituting a lien on it, do not subject it to sale[73] Debts contracted before the enactment of the homestead law take precedence in distribution of proceeds over debts contracted after such enactment, although reduced to judgment before judgment is recovered on the old debts[74]

Investment of proceeds. In some jurisdictions the proceeds realized from the sale of a homestead may be reinvested under order of court in another homestead for the benefit of the debtor and his family, where it appears that he is insolvent,[75] or, in case of his death, for his widow and children[76] In at least one jurisdiction where a judgment debtor mortgages all of his lands, including his homestead, the homestead right passes to the mortgagee, and where land, including the homestead, is subject to the lien of a judgment, duly docketed before the execution of a mortgage given by the husband and wife on the entire tract, and such tract is sold by agreement of parties, as much of the proceeds as exceeds the statutory exemption will be applied to the judgment, the amount representing the exemption will be invested under direction of court, and, on termination of the homestead right, will be applied on the judgment, the remainder of such amount, with accruing interest, being applied on the mortgage debt[77]

§ 122. Perfecting and Keeping Alive Liens

Liens which attach to the homestead premises must be perfected as provided by the general law and kept alive in order to retain whatever rights they may possess against the homestead

Liens which are held to attach to the premises, whether arising prior or subsequent to the time when the premises were impressed with the homestead character, must be perfected as provided by the general laws, with such qualifications as may be injected by the exemption law, and kept alive, in order to retain whatever rights they may possess against the homestead, and priority over other liens[78]

III. TRANSFER OR ENCUMBRANCE

A. POWER TO TRANSFER OR ENCUMBER

§ 123. In General

In the absence of constitutional or statutory restrictions, or where there has been a compliance with such restrictions, the owner of a homestead may sell or encumber it

The power of alienation is an incident of the ownership of the property independent of the homestead law, and the directions and prohibitions of the constitutional or statutory homestead provisions as to the alienation are mere restrictions on this antecedent power[79] Accordingly, where there is neither constitutional nor statutory prohibition or where there has been a compliance with applicable restrictions, the owner of a homestead may as incident to the right of ownership sell or encumber it[80] either in whole,[81] in part,[82] or conditionally,[83] and the sale or transfer, when evidenced by a proper conveyance, will be as valid as though the property had not been set apart as a homestead[84] He may sell undivided portions of his homestead and claim an exemption in the undivided residue, as against all persons except his cotenants,[85] and he may exchange his homestead for another, see supra § 72 A mortgage executed in lieu of another

Exercise of power Generally an intent to convey is an essential element in an exercise of the power to convey a homestead [87] A reservation of a life estate in the grantors does not stop the passage of title to the grantees when the deed is delivered [88] In some jurisdictions an executory contract to convey the homestead in the future is without legal force,[89] and a conditional delivery or a delivery in escrow is insufficient to pass title [90]

§ 124. Conveyance Subject to Homestead Right

A conveyance may be made subject to the right of homestead

A conveyance of land subject to the right of homestead therein has been held to be valid and to carry with it the estate of the grantor, subject only to the homestead right,[91] that is, the reversion after the existing homestead rights shall have expired,[92] and this is so in jurisdictions where the homestead is not considered an estate in land [93] Such a reservation is neither conclusive nor presumptive evidence of fraud [94] So a conveyance by the husband alone, not expressed to be subject to the homestead right, has been held to vest the estate in the vendee, subject only to the use and occupation by the husband and wife until another homestead is acquired, or until the character of the premises as a homestead is otherwise gone [95] On the other hand, it has been held that a conveyance of homestead prop-

§ 125. Creation of Lien

Constitutions and statutes frequently place restrictions on the creation of liens on homesteads

Whether or not a lien may be given on homestead property, and the circumstances under which it may be given, depends on the particular constitutional and statutory provisions Where a lien permitted by law is created on a homestead, it does not operate in favor of creditors generally, and does not extend beyond the debt for which it is granted [97]

A statute providing that a homestead shall be subject to seizure and sale for certain debts,[98] or an agreement by owners that they will not claim homestead rights as against a particular debt,[99] does not of itself create a lien on homestead property

Restrictions of encumbrances except for certain debts are discussed infra § 134.

B CONSTITUTIONAL AND STATUTORY RESTRICTIONS

§ 126. In General

Homesteads, where there are constitutional or statutory restrictions, cannot be alienated or encumbered except as the law directs

The people, as far as future debts may affect it, have the right, in their constitution, to prohibit the owner of a homestead from conveying or encumbering it or may place material limitations on his power in this regard, and the legislature may do the same thing when not restricted by the constitution [1] Where the constitution or statutes place restrictions on the transfer or encumbrance of homesteads, they cannot be alienated except in compliance with such restrictions [2] There can be no operative convey-

ance or effectual release of the exemption unless the mode pointed out by statute is pursued with reasonable strictness;[3] and no requirement of the constitution or of the statutes may be waived by the husband and wife or by either of them.[4] Equity will not interfere to give relief, but will remain passive, where by express law there is a limitation on the power of alienation of the homestead, and the final relief sought is merely to relieve such limitation.[5]

§ 127. Construction and Operation of Restrictions

Statutes regulating transfers and encumbrances of homesteads must not conflict with constitutional provisions. Such statutes ordinarily do not operate retroactively, and it is generally held that the right of alienation or encumbrance of a homestead is governed by the law in force when the property was acquired

In case of conflict between a constitutional provision securing homestead rights and a statute on the same subject, the constitution controls, whether the statute enlarges or diminishes those rights.[6] As between different statutes repeals by implication are not favored,[7] nor will a subsequent statute ordinarily be deemed retroactive.[8]

While there is some authority apparently to the contrary,[9] it is generally held that the right of alienation or encumbrance is governed by the law in force when the property was acquired, since vested rights of ownership cannot be destroyed by legislative or constitutional provisions.[10] The owner may, however, voluntarily dedicate the property to the purposes of a homestead after the restrictions of the constitutional or statutory provisions have become effective.[11] If the homestead rights under a prior law have been lost by abandonment, they can only be gained anew under the law in force when the attempted acquisition occurs; and a mortgage executed after such abandonment and before the new acquisition is valid.[12] It has been held that conveyances of homesteads which are formally defective when executed may be validated by subsequent curative acts,[13] but it has also been held that, where a contract conveying a right of way over homestead was void when executed, it could not be validated by any subsequent constitutional provision relating to homestead.[14]

§ 128. What Law Governs

The law of the state where the land is situated controls in cases of conflict between the laws of different jurisdictions.

The validity and operation of an encumbrance on a homestead is to be determined by the homestead legislation of the state where the land is situated and the judicial decisions construing such legislation.[15]

a. In General

Where the constitution or a statute so requires, a homestead can be alienated or encumbered only with the consent and joinder of husband and wife.

Unless restrained by constitutional or statutory provision, a homestead may be sold or encumbered by the husband without the wife's consent or joinder in the conveyance.[16] However, in the majority of jurisdictions by reason of express constitutional and statutory provisions, the homestead can be alienated or encumbered only with the consent and joinder of husband and wife[17] On the other hand, in the absence of other constitutional or statutory

(1) Under the constitution a husband may make a bona fide sale of the homestead without his wife's consent The constitutional provision for the waiver of the exemption refers only to mortgages, and the husband is free to make a bona fide sale of the homestead—Reymond v Louisiana Trust & Savings Bank, 148 So 663, 177 La 409—29 C J p 885 note 48 [a] (2)

(3) Such sale must be a genuine and bona fide sale and not made to evade the homestead exemption Sales and resales, having for their purpose merely the conversion of an unsecured debt into a debt secured by mortgage and vendor's lien on property otherwise entitled to homestead exemption, are pignorative contracts, and void as to the homestead—Clarke v Oden, 99 So 605, 155 La 801

As a general rule, the effect of these provisions is to prohibit all methods of alienation or encumbrance other than those therein designated,[21] and a conveyance or mortgage of homestead property by one spouse, in which the other spouse does not join as required by law, is generally held to be void,[22] both

(3) Wife's homestead rights, necessitating her joinder in deeds of trust thereto, arise by virtue of use and occupancy of the property for homestead purposes A vacant lot on which a house is being constructed does not assume character of "homestead" as to deprive husband of right to designate another piece of common property suitable for home, or encumber premises without concurrence of wife, or over her protest—Continental Southland Savings & Loan Ass'n v Palmer, Tex Civ App, 92 S W 2d 1053, error dismissed

Evidence held sufficient to show that mortgagor's wife never joined in execution of mortgage on homestead—Addington v McKee, 282 S W 678, 170 Ark 1192

Exception to general law

Statute prohibiting encumbrance of homestead by married person unless executed and acknowledged by both husband and wife is regarded as an exception to general provisions of statute providing that property owned by husband before marriage and that acquired afterward by gift, bequest, devise, or descent should not be subject to debts or contracts of wife, and might be sold or encumbered without wife joining as effectively as though husband were unmarried—Davies v Metropolitan Life Ins Co, 71 P 2d 552, 191 Wash 459, appeal dismissed 59 S Ct. 465, 306 U S 665, 83 L Ed 1061.

Validity

It has been said that these provisions constitute a proper means of protecting and perpetuating the homestead and that they are not open to an objection that by legislative action only they impair or defeat the husband's right of individual conveyance—Gaar v Collin, 110 N W 81, 15 N D 622—29 C J. p 887 note 51

Additional security

A wife who joined with her husband in a mortgage on their homestead as additional security to bank on notes of her husband and son simply pledged her interest in property as additional security, since bank parted with nothing and she derived no benefit from transaction—First Nat Bank v Ten Napel, 200 N W. 405, 198 Iowa 816

Assignment of rents

A provision in mortgage given to Home Owners' Loan Corporation by husband and wife that, in case of default in payment of mortgage debt, all rents from the premises should be assigned to the mortgagee, was not invalid because mortgaged premises were a homestead—Home Owners' Loan Corporation v. Benner, 91 P 2d 9, 150 Kan 108.

Continued residence

Husband joined by wife may in good faith sell homestead to pay debts, and fact that they continue to reside on the property after sale does not as a matter of law avoid the transaction—Ellerd v Dollar, Tex Civ App, 265 S W 754

Erasure of word "homestead"

As respects spouses' warranty deed of homestead by which wife affirmatively relinquished dower and homestead rights, erasure of word "homestead" therefrom would have no legal effect, and it would be immaterial whether word "homestead" was or was not included in recitals of deed—Clark v Chapman, 239 N W. 797, 213 Iowa 737

Wife's veto power against conveyance of homestead by husband without her consent is not a property right—Kimbrough v. Powell, 108 So 498, 143 Miss 498.

Waiver of damages

The owner of the legal title to a homestead may not impair it by a waiver of the right to bring an action for damages to the homestead in derogation of the statutory provisions requiring the signature of the spouse to a valid conveyance or encumbrance—Conlon v City of Dickinson, N D, 5 N W 2d 411, 142 A L R 525

as to his interest and her rights therein,[23] although, as discussed supra § 124, in some jurisdictions a conveyance or encumbrance of a homestead by one spouse is upheld subject to the homestead right The object of such requirements is to protect the wife and family of a homestead claimant against his improvidence,[24] as well as against the rapacity of the creditor[25] The fact that a full consideration was paid cannot prevent the operation of the rule established by the statute that a conveyance by the husband without the joinder of the wife is invalid[26]

Where the marriage is void, the restrictive provisions as to joinder of the wife in the transfer of a homestead do not apply[27]

The fact that the husband procures another woman, who is described as his wife, to join with him in the execution of an encumbrance on the homestead cannot serve as a protection against the claim of the wife or estop her to deny the validity of the mortgage[28] A grantor's conveyance of the homestead is not invalidated by failure to secure the signature of a woman with whom he lived upon the premises but who was not his lawful wife[29]

Conveyance by wife. It has been said that the constitution and laws may confer on married women such absolute right to the disposition of their own separate property that a married woman who is the owner of the homestead may convey it without the husband joining in the instrument[30] On the other hand, ordinarily under the various constitutional and statutory provisions the consent and joinder of the husband in a transfer or encumbrance of the homestead by the wife are as essential as the wife's consent and joinder in a transfer or encumbrance of the homestead by the husband,[31] and a conveyance or encumbrance by a wife of homestead property owned by her is void[32] and is

Recovery of interest

Where wife did not consent, in manner provided by statute, to sale or exchange of realty in which she had a homestead right, she and her husband were entitled to recover interest in realty that husband's deeds undertook to convey —Cleveland v Milner, Tex Com App, 170 S W 2d 472, reversing, Civ App, 166 S W 2d 351

insufficient to divest the husband of his homestead rights.[33]

A deed of the homestead from the husband to the wife does not operate as a surrender of the husband's homestead rights in the property conveyed so as to enable the wife to convey the homestead to another without the joinder of the husband.[34]

Husband imprisoned Notwithstanding a husband is in jail, a conveyance by the wife without his joinder will be void where he does not lose his status as head of the family by reason of the continued relationship between himself and his wife and his resumption of his ordinary relations with his family as soon as he is released.[35]

Injunction against interference A decree in an action for divorce denying a divorce to both parties and enjoining the wife from interference with the husband's possession of homestead does not divest the wife's interest therein so as to render valid a conveyance by her husband without her consent or joinder.[36]

Knowledge These restrictive provisions apply with full force and effect to conveyances executed by the husband alone, with the wife's knowledge[37] and without objection on her part.[38]

Property in excess of exemption Where property owned by the husband and occupied as a homestead exceeds in value or extent the constitutional or statutory exemption, he may without his wife joining in the conveyance execute a valid deed or mortgage of as much of it as is in excess of the exemption,[39] provided, according to some decisions, the land so conveyed is not, and has not been, used for any household or other purposes connected with the dwelling, although capable of being so used.[40] Also, when he owns several tracts of land and resides with his family on one of them worth as much as the homestead exemption, he may convey the other tracts free of the homestead right.[41]

b. Particular Kinds of Homestead Property

Constitutional and statutory restrictions requiring the joinder of spouses in conveyances or encumbrances of homestead property have been held to be applicable to various kinds of homestead property

Constitutions and statutes requiring the consent and joinder of husband and wife to a conveyance or encumbrance of the homestead property have been held to apply to community property occupied by husband and wife as a homestead,[42] to property occupied by them as joint tenants,[43] to a business homestead,[44] to property acquired by husband and wife by adverse possession,[45] to property for which the husband has exchanged his homestead and which is to be occupied in its place instead as a homestead,[46] and to property in respect of which the husband had equitable title only.[47]

Homestead held under contract of purchase Under some constitutions and statutes, where land is held under a contract of purchase and is occupied as a homestead, rights existing under the contract cannot be alienated unless both husband and wife join therein,[48] unless the assignment is to one who has furnished the homesteader with all moneys which have been paid on the purchase price,[49] nor will a cancellation and surrender of a contract for

Homestead of leased premises It has been held that the wife must join in an assignment or surrender of a lease under which the husband occupies the premises as a homestead,[52] and the same rule has been applied to a building erected on the leased premises[53] A new contract modifying a contract of purchase and a lease executed between seller and purchaser not signed by or consented to by the wife are void[54]

Proceeds of condemnation It has been held that a husband, part of whose homestead is taken under the right of eminent domain, may dispose of the compensation awarded him therefor without the consent of his wife[55]

c. Particular Transfers or Encumbrances

(1) In general
(2) Contract to convey, mortgage, or exchange
(3) Dedication to public use or grant of easement
(4) Lease
(5) Relinquishment of equity of redemption and conveyance of reversionary interest

(1) In General

The restrictions relating to the joinder of husband and wife have been applied to or held inapplicable to transfers or encumbrances in many and various forms

Constitutional and statutory restrictions requiring the joinder of husband and wife in transfers or encumbrances of homestead property have been held applicable to. An agreement fixing the boundary line between the homestead property and a tract belonging to an adjoining owner,[56] an agreement to arbitrate differences arising on a partition of land where one of the parcels was occupied as a homestead after partition,[57] an agreement to repay taxes paid by a third person under a tax deed to the premises;[58] a conveyance of all the minerals in the homestead with the right to enter and mine or drill for them,[59] a disclaimer of water rights appurtenant to the homestead,[60] a gift of homestead land to the son of the person owning the homestead,[61] the creation of a lien for materials purchased in improving the homestead;[62] the giving of an option on the homestead,[63] and a mortgage on crops, raised upon the homestead land, where it is given to secure payment for supplies used in their cultivation[64]

On the other hand, the restrictive provisions under discussion have been held inapplicable· Where the husband contracts to deliver fruit to be grown upon the premises,[65] where the husband disposes of proceeds of the land realized from an involuntary alienation,[66] where the husband waives the exemption from garnishment of money derived from an insurance policy on the homestead,[67] where one homestead is exchanged for another,[68] where the property, although occupied as a homestead, is above the statutory value,[69] to the filing of a plat and incorporation of the homestead as an addition to a city, notwithstanding the resulting reduction in the extent of the homestead exemption,[70] and where the premises are purchased by the husband in his own name to defraud his creditors[71] A statute giving the wife veto power against encumbrances or conveyances by her husband of the exempt homestead imposes no limitation on his rights to deal with the indebtedness secured by the homestead.[72] Statutes requiring the wife's consent

to an alienation of the homestead do not apply to a descent of the land on the husband's death [73] A statute providing that no deed of conveyance of a homestead shall be valid unless both husband and wife execute it does not include a sheriff's deed made pursuant to sale on execution [74]

Chattel mortgages A chattel mortgage on improvements on homestead premises has been held to be invalid where both husband and wife did not join in the mortgage [75] In some jurisdictions a mortgage given on fruit produced by cultivation on the homestead is not an alienation of the homestead real estate requiring the joint consent of husband and wife [76]

Conditional conveyances. It has been held that a husband cannot, without the consent of his wife, make a conditional sale of his equitable interest in land occupied by him as a homestead [77]

Conveyance of part of premises occupied as homestead The restrictive provisions requiring the joinder of the spouses have been held not to apply where the part conveyed is a portion of the homestead tract, but enough remains to satisfy all homestead demands [78] The invalidity of a conveyance by the husband, without the joinder of his wife, of so large a portion of the tract of land occupied by them as a homestead that the value of the part retained is less than the statutory exemption, is not affected by the fact that the husband owns and retains other land worth more than the amount which can be held exempt as a homestead [79] Where a husband and wife are occupying as a homestead more land than the law exempts as such, and the homestead has not been selected and platted as required by law, it has been held that a mortgage executed by the husband alone on any part of the land so occupied is invalid [80]

Conveyance of timber Some decisions hold that a conveyance of timber on homestead property is ineffectual without the consent and joinder of both husband and wife in the conveyance,[81] except, perhaps, to grant a mere license which may be terminated on notice not to cut further timber on the premises [82] Other decisions hold that, although the owner of the homestead is forbidden to convey the homestead without his wife joining in the conveyance, a sale by him of timber thereon will be valid if the use of the lands as a homestead is not interfered with or the value of the homestead impaired by the sale of the timber [83]

Licenses In applying the restrictive provisions under discussion, it has been held that the husband need not join in a wife's grant of a license to use a stairway situated on her land, no easement being created,[84] and that a husband may, without the joinder or assent of the wife, give a valid license to remove minerals where the wife has knowledge thereof and makes no objection [85] On the other hand, a contract granting a license to take oil and gas from a homestead has been held to be void where there was no compliance with a statute requiring joinder of husband and wife [86]

Partition deed Where tenants in common obtained title simultaneously, consent of defendant's wife to partition was unnecessary, as defendant's right of homestead was subject to plaintiff's right of partition [87]

Release of disputed claim Where a wife's claim to property which she and her husband were occupying as a homestead was disputed by others, her release of all claim thereto, although incidentally extinguishing the homestead, is valid without the husband joining therein, as required by statute or a valid conveyance of a homestead [88]

Replacing lost deeds Statutory requirements as to joinder of husband and wife in the same deed in making a conveyance of the homestead do not render invalid a transaction by which the husband's grantor replaces a lost deed to the husband by a deed to the wife in which the husband acquiesces [89]

Reservation of life interest to wife. These restrictive provisions apply notwithstanding a reservation in the conveyance of a life interest in the property for the wife's benefit.[90]

(2) Contract to Convey, Mortgage, or Exchange

Under the various constitutional and statutory restrictions it is generally held that a contract to convey, mortgage, or exchange homestead property executed by one spouse, and in which the other spouse does not join, is invalid

In applying the restrictive provisions under discussion, while there is some authority to the contrary,[91] in most jurisdictions husband and wife must join in the execution of an agreement to convey the homestead,[92] to mortgage it,[93] or to exchange it.[94] The rule has been applied to verbal contracts to convey the homestead,[95] even though the wife consents to,[96] or subsequently ratifies, the contract,[97] and the husband alone afterward executes a deed in accordance with it.[98]

A conveyance which is invalid for noncompliance with the requirements as to consent and joinder of husband and wife is not enforceable as an agreement to convey.[99]

Waiver of rights by wife. While a contract for the sale of a homestead, in which the wife did not join, is void, her joinder in the deed, which was intended to be delivered, and which was deposited in escrow, waives her homestead rights on its subsequent delivery.[1]

(3) Dedication to Public Use or Grant of Easement

In some jurisdictions a husband may grant an easement over homestead property owned by him, without the joinder of his wife, where the easement granted does not materially interfere with the use of the property as a homestead

In some jurisdictions it is held, under the particular constitutions and statutes, that no right of way over homestead property can be granted except by the joint deed of husband and wife.[2] On the other hand, in other jurisdictions in applying the particular restrictions applicable it has been held that a dedication of the homestead property, in which the wife does not join, for a purpose which practically excludes all use of the premises as a homestead, is void.[3] Likewise the grant of a perpetual easement which materially impairs the use and value of the homestead is invalid without the signature of the wife.[4] The husband, however, may, without the concurrence of his wife, grant a right of way over the homestead, provided it does not materially interfere with the use of the premises as a home,[5] and this rule has been applied in respect of private ways,[6] railroad rights of way,[7] and roads[8] and streets.[9]

(4) Lease

In some jurisdictions a husband cannot lease homestead property without his wife's joinder. In other jurisdictions the husband cannot lease homestead property without the wife's consent if it will interfere with its use as a residence

Under some constitutions and statutes it has been held, without qualification, that a lease of homestead premises, in which the wife did not join, is absolutely void[10] The husband may, of course, lease premises in which no homestead has been selected, without his wife's joining in the lease.[11]

In some jurisdictions the husband cannot lease and transfer possession of the homestead without the wife's consent if its use and enjoyment as a place of residence will be thereby interfered with,[12] and, on the other hand, in a number of decisions it is held that, if a lease will not interfere with the use or enjoyment of the premises as a homestead, the wife's consent is not necessary to the validity of the lease[13]

Lease of homestead and personal property is good as to the latter, although executed by the husband alone.[14]

(5) Relinquishment of Equity of Redemption and Conveyance of Reversionary Interest

Under some statutes a husband cannot relinquish an equity of redemption to the prejudice of his wife's homestead rights without her consent It has been held that it is not necessary for the wife to join in a conveyance of the reversionary interest after the termination of the homestead.

Under some homestead laws the relinquishment by a husband, without his wife's knowledge or consent, of a right to redeem from a mortgage will not bar her right of homestead.[15] A conveyance of such future interest in homestead premises as may arise after the homestead has terminated, where such conveyance is permissible, is not within the requirement of the statute that the wife shall join in a deed of the land.[16] A conveyance by the husband alone, reserving the use of the property conveyed to himself and wife during their lives, is invalid if it gives the grantee any present rights in the property which amount to an encroachment on the wife's homestead privilege,[17] and the same is true where the husband reserves the right of possession, and the rents and profits during his life, but does not reserve the wife's interest in the homestead[18]

d. Conveyances by Unmarried Persons or after Separation or Abandonment

A requirement of the homestead laws that spouses join in the execution of conveyances or encumbrances of homestead property is inapplicable to conveyances or encumbrances by an unmarried person, but such restriction usually is applicable to a conveyance or encumbrance where the spouses have separated and are living apart.

the joinder of spouses in transfers of homestead property do not restrain the powers of alienation possessed by unmarried persons,[19] whether such person be the surviving husband or wife,[20] or the head of a family who is unmarried.[21] A deed or mortgage of homestead property signed and acknowledged at a time when the grantor was a married person is not invalid for failure of the other spouse to join therein where it is not delivered until after the death of such other spouse.[22] Where a single man contracted to sell and convey his homestead and thereafter married, the homestead rights of the wife in the land were subordinate to the contract, irrespective of whether or not she had notice of the contract before the marriage.[23] Where a mortgage is given by an unmarried debtor on land subsequently claimed by him as a homestead after his marriage, the mortgage may be enforced against the homestead,[24] especially where the mortgage has been transferred to a third person.[25]

As a general rule under the various homestead laws neither spouse can mortgage or convey the home tract without the other's consent, even though they are not living together at the time.[26] The rule has been held to apply in case of a conveyance by the husband, although the wife at the time is living in another state,[27] or although in fact she had never lived in the state where the homestead property is situated.[28] The wife's absence from the premises does not authorize the husband to convey or encumber the homestead without her joinder as required by statute,[29] particularly where such absence does not amount to abandonment.[30] On the other hand, under some constitutions and statutes, after separation or abandonment one spouse may encumber or convey homestead property belonging to him or her without the consent or joinder of the other spouse.[31] Where the statute requires the joinder of the wife where the husband is living with her, and the spouses have separated and are living apart, the husband's conveyance of homestead property belonging to him is valid without the wife's signature.[32] Under some statutes a husband may convey the homestead without the joinder of his wife who has never been a resident of the state.[33] A statute requiring the conveyance of a married person's homestead to be executed and acknowledged by both husband and wife has been held not to be intended to apply to an instance where the wife was always a nonresident alien without any

Under a statute providing that where the title to the homestead is in the husband, and the wife voluntarily abandons him for a period of one year, or from any cause takes up her residence out of the state, he may convey or mortgage the homestead without being joined therein by her, a deed executed by a married man whose wife was never a resident of the state and never lived on the land in question, but on which he lived until its sale, conveyed title to grantee without the signature of the wife—Armstrong v Independent Oil & Gas Co, 219 P 353, 95 Okl 231.

intention of ever making the homestead her dwelling place and who was never in this country.[34] Where the statute merely exempts the homestead from sale under coercive process and leaves the husband's right to alienate the exemption unchanged, it has been held that a husband, after his abandonment of the wife, has the legal right to sell and alienate homestead property owned by him without his wife joining in the conveyance.[35]

The rule requiring the joinder of spouses in conveyances or encumbrances of homestead property although they are separated has been held to be applicable where the misconduct of the spouse executing the conveyance or encumbrance is the cause of the separation.[36] Even where the homestead statute requires the wife's signature only when she is living with the husband, his sole deed has been held to be invalid if he has driven her from home without cause, and will not permit her to return,[37] and the husband will be considered as living with her, unless he has left her with a settled determination never to return.[38] Further, it has been held that, unless the homestead provision makes an exception to the rule,[39] a conveyance by one spouse alone, who has been wrongfully abandoned by the other, is invalid.[40]

e. Conveyances and Mortgages between Husband and Wife

In many jurisdictions a conveyance or encumbrance by the husband to the wife, or to the wife and children, is valid without the joinder of the wife

In many jurisdictions where the homestead laws require conveyances or mortgages of homestead property to be executed by both husband and wife, the husband may make a valid conveyance of,[41] or, in some jurisdictions, a valid mortgage on,[42] the homestead property to, or in favor of, his wife, without her joining in the conveyance or mortgage. This rule has been extended to a conveyance by the husband to a trustee for the wife and children,[43] and to conveyances made by a husband to third persons who immediately reconveyed to his wife,[44] or to himself and his wife.[45] It has been held also that the husband may make a conveyance of the homestead to his wife and children without the wife's joinder,[46] although there is also contrary authority.[47] A conveyance by a husband to his wife after divorce is valid without her signature.[48] Notwithstanding a conveyance to the wife, the husband's right to occupy the premises as a home is not defeated thereby and, as the law requires his consent to his wife's alienation of the homestead,

his right cannot be impaired so long as the place is used as a homestead.[49] A conveyance to the wife for life with remainder to a third person, in which conveyance the wife did not join, has been held to be invalid[50]

Contrary view In some jurisdictions, however, it is held that the homestead laws requiring conveyances of the homestead to be executed by both husband and wife apply as well to conveyances by husband to wife as to conveyances to strangers[51]

Mortgaging community homestead A homestead declared on community property cannot be mortgaged by the wife to her husband to secure money lent her by him[52]

f. Conveyances Where Husband or Wife Is Insane

In some jurisdictions the restrictions requiring joinder of spouses apply although one of the spouses is insane; but this rule is not followed in all jurisdictions, and under some statutes such joinder is unnecessary.

A constitutional or statutory provision requiring joinder or consent of husband and wife to a conveyance or encumbrance of the homestead applies with full force and effect in case one of the two spouses is insane[53] If the homestead laws make no exception in case of insanity, it has been held that the courts have no power to do so[54] In some jurisdictions and under some statutes, however, the husband or wife of an insane or incompetent spouse may convey homestead property[55] A conveyance

In Florida

(1) Under Const. art. 10 §§ 1, 2, a homestead is not alienable without the joint consent of husband and wife, and the homestead rights inure to the widow and heirs of the party entitled to such exemption. Consequently, where there is a child or children of the husband, who is head of the family, homestead real estate may not be conveyed by deed made by the husband to the wife. Jahn v. Purvis, 199 So. 310, 145 Fla. 354.—Norton v. Bava, 102 So. 361, 88 Fla. 1.—29 C.J. p. 897 note 29 [a] (1)-(3)

(2) The reason for this rule is that homestead exemptions inure to the heirs, infant or adult, of the owner of the homestead as well as to the widow.—Norton v. Bava, supra

(3) If there are no children, a conveyance of the homestead to the wife by the husband, in which conveyance she does not join, will operate as a relinquishment of the rights of the husband in the homestead.—Rawlins v. Dade Lumber Co., 86 So. 334, 80 Fla. 398

(4) Where the homestead has been abandoned, the disability imposed by the constitution of the alienation of the property is removed, and the husband may validly convey to the wife.—Miller v. West Palm Beach Atlantic Nat. Bank, 194 So. 230, 142 Fla. 22

Abandonment statute inapplicable

Where husband had been adjudged insane and was under guardianship the statute authorizing a husband or wife having title to a homestead, to convey, mortgage or make any contract relating to the homestead after an abandonment of a year by the other was not applicable.—Marathon Oil Co. v. Western Oil & Drilling Co., 89 P.2d 939, 185 Okl. 53

Mortgage by guardian

Where wife of an insane husband did not join with the guardian, who had been duly authorized by the court, in the execution of a mortgage on the homestead property, the mortgage was not enforceable as a lien against the homestead.—Evans v. First Nat. Bank of Fairbury, 297 N.W. 154, 138 Neb. 727

(1) Homestead which is community property or separate estate of husband may be conveyed by husband whose wife is insane.—Reynolds Mortg. Co. v. Gambill, 280 S.W. 531, 115 Tex. 273, answering certified question, Civ.App., 276 S.W. 480.—Gersdorff v. Torres, Com.App., 293 S.W. 560, affirming in part and reversing in part Torres v. Gersdorff, Civ.App., 287 S.W. 668

(2) Where the husband has been regularly appointed and duly qualified as administrator of the community estate of himself and his insane wife he may make a good conveyance of homestead property.—Green v. Windham, 278 S.W. 1101, 115 Tex. 162, affirming Civ.App., 230 S.W. 726

(3) The statutes relating to conveyance by wife of insane husband, with court's permission, of separate property or the homestead were merely cumulative of wife's right to convey theretofore recognized were not restrictive thereof, and did not invalidate conveyances made without compliance with statute by wife joined by insane husband.—Ross v. Tide Water Oil Co., 145 S.W.2d 1089, 136 Tex. 66, affirming Tide Water Oil Co. v. Ross, Civ.App., 123 S.W.2d 479

or encumbrance made without attempting to comply with statutes governing the transfer of the homestead when one spouse is insane is void[56] Under some statutes, after obtaining the approval of the guardian of the incompetent spouse, the husband or wife of an insane or incompetent ward is authorized to convey any real estate, the title to which is or may be in such husband or wife, as fully as though he or she were unmarried[57] Where the husband has legal authority to make conveyance of the homestead of himself and insane wife, where the homestead is either community property or the separate estate of the husband, one who claims title to homestead property under a deed executed by the husband has the burden of proving the fact of the wife's insanity at the time the deed was executed[58]

The guardian of an insane wife is not authorized to sell the homestead without the husband joining in the conveyance and the latter is not estopped to claim a homestead by such sale made without notice to him[59] Likewise the fact that the wife was the guardian of her insane husband has been held not to authorize her to convey homestead property[60]

g. Transfers and Encumbrances Prior to Acquisition and Establishment or after Termination

Restrictions of the homestead laws requiring joinder of spouses are inapplicable to transfers and encumbrances made prior to the acquisition and establishment, or after the termination, of the homestead

It is not necessary for a husband and wife to join in a conveyance or encumbrance of the homestead to satisfy or secure a debt accruing before the constitutional provision giving homestead rights went into effect,[61] nor, although there is some contrary authority,[62] does the rule apply to conveyances of, or encumbrances on, the premises by the husband before the homestead right has been perfected in accordance with existing homestead law[63] If no homestead rights attach until the land is paid for, a husband's release or encumbrance of the property prior to payment is valid without the wife's signature[64]

The fact that the encumbrance was not recorded until after the filing of the homestead does not render it unenforceable because of the fact that the wife did not join in its execution,[65] and this is so although a statute gives preference to debts secured "by mortgages on the premises, executed and recorded before the declaration of homestead was filed for record"[66]

The fact that a man has conferred on an agent authority to sell his homestead before his marriage will not authorize him to sell it after his marriage, either in person or by his agent, without his wife's joining in the conveyance, even though the authority to the agent to sell has never been revoked[67] The wife's right in the homestead cannot be subordinated to a mortgage executed by her husband alone after the marriage, even though he applied

Before acquisition of title

That husband had no title to land when he gave plaintiff a deed of trust purporting to cover the land and that husband and his family at a subsequent date had moved upon land and were making it their home when husband acquired title did not warrant treating deed of trust as becoming operative as of date of acquirement of title by husband and deed of trust was not void on ground that wife did not join in its execution—Meyers v American Oil Co, 5 So 2d 218, 192 Miss 180

Written option to repurchase, executed by defendant husband the day after deed was executed to him and his wife, under plaintiff's oral contract to convey, with option to repurchase being manifestly executed to reduce a part of the oral contract to writing should be construed as contemporaneous with the deed, and the two should be read together, so that the agreement, being thus made while the property was plaintiff's, and before it became defendants' homestead and the signature of the husband, who was authorized by the wife to act for her in the purchase with option to repurchase, bound both—Papenthien v Coerper, 198 N W 391, 184 Wis 156

Where, however, the statute provides that no deed of conveyance or mortgage of a homestead regardless of whether or not a declaration thereof has been filed shall be valid for any purpose unless both husband and wife execute and acknowledge it the homestead sought to be protected is the homestead de facto created by its being the abiding place of the husband and wife and although the homestead has not previously been registered as required by law, the husband's sole conveyance of it does not pass title Myers v Matley C C A Nev, 130 F 2d 775 affirming D C, In re Matley 47 F Supp 558, certiorari granted Myers v Matley 63 S Ct 435 317 U S 621, 87 L Ed ——, affirmed 63 S Ct 780

for the loan before his marriage and at the time of the execution of the mortgage the mortgagee did not know of the marriage.[68] Where an option to purchase was given by a single man, who afterward married and occupied the land as a homestead, a conveyance to the optionee in accordance with the option has been held to be valid, although the wife did not join therein.[69]

Conveyance after termination After a termination of homestead rights by a general waiver or abandonment, the homestead premises may then be conveyed or encumbered without the wife's joinder or consent.[70] After abandonment the property is subject to conveyance the same as other property belonging to the husband,[71] and he may convey an abandoned homestead without joinder of the wife whether it is his own property or the community property of the husband and wife.[72] The abandonment having been established, the power of the husband exists, regardless of whether at the time of the conveyance an intent on the part of the husband to acquire another homestead exists or whether another homestead in fact is ever acquired.[73]

h. Transfer or Encumbrance to Secure Debts Enforceable against Homestead

Ordinarily it is not necessary for a spouse to join in a transfer or encumbrance to secure a debt enforceable against the homestead

It is generally held that a debt enforceable against the homestead property may be satisfied or secured by a deed or mortgage executed by the husband alone,[74] as long as the indebtedness against the homestead is not increased.[75] If, however, the husband seeks to bind the homestead by a new contract or encumbrance relating to but not constituting or securing a former enforceable debt, the wife is a necessary party to its execution.[76] Accordingly the mere fact that there is an encumbrance against the homestead does not authorize the husband, without the wife's joinder, to convey[77] or mortgage the homestead premises, even though the purchaser assumes the indebtedness, and although no actual fraud against the wife is shown.[78]

Encumbrance for purchase money It is very generally considered that the owner of a homestead may, without the joinder or consent of his or her spouse, encumber the property for the purpose of securing the purchase money due thereon,[79]

Contract to recovery

A contract by purchaser to reconvey land in event of default in payment of purchase money, which was executed and delivered as part of transaction for purchase of land, was not void as a fraud on homestead rights of purchaser or wife, who did not join in contract, since by express statutory provision, purchaser's homestead exemption is subject to purchase-money mortgage and vendor's lien —Coon v Henderson, 199 So 704, 240 Ala. 492.

or even, in some jurisdictions, to alienate it to satisfy the claim for purchase money,[80] provided this is done in good faith,[81] and the rule has been applied to a mortgage on the homestead, payment of which was assumed by the purchaser at the time of acquiring the property,[82] and to a deed of trust given on the release of a mortgage given for purchase money.[83] However, it has been held that, where personal security is taken by the vendor, he waives his lien for purchase money and a mortgage thereafter executed to secure the purchase money must be signed by the wife,[84] that a husband's conveyance of the homestead, his wife not joining, will pass no title as against her homestead rights, where the deed is made under a fraudulent claim that it is necessary for payment of purchase money, the grantee taking with notice of the fraud,[85] and that a husband by signing as surety a note which falsely recites that it is for purchase money of the homestead occupied by the surety and his wife does not render the homestead liable, if the wife was not a party to the contract of suretyship.[86] It has also been held that the fact that the money used in the purchase of property was acquired from a third person does not entitle such person to a lien therefor, and that a trust deed given by the borrower without his spouse's joinder to secure such loan was invalid.[87]

Encumbrance for improvements Although there is some authority to the contrary,[88] it is usually held that a mortgage for the purpose of obtaining funds or materials to make improvements on the homestead is not within the rule requiring the joinder or consent of the wife of the homesteader,[89] unless it is otherwise provided by statute.[90]

Extensions and renewals The wife need not join in an extension or renewal of a lien on the homestead where her joinder was unnecessary in the creation of the original lien,[91] but her joinder is essential to a valid extension or renewal where her joinder was necessary in the creation of the original lien after the homestead rights had vested.[92] The wife's consent is necessary to a renewal for an amount in excess of the original indebtedness.[93]

Mortgage to secure money

There is no homestead exemption against a claim for purchase money due for the homestead property and it is not necessary that a wife shall join with her husband in a mortgage given to secure money with which to pay off the purchase price for the homestead—Ratliff v. Anderson & Ratliff, 242 S.W. 35, 195 Ky. 320.

29 C.J. p. 895 note 93.

Mere existence of vendor's lien does not authorize the husband to alienate homestead property, at least where the note representing the indebtedness is not in default and the transfer is not a settlement of the indebtedness.—Smith v. Prater, Tex.Civ.App., 161 S.W.2d 361.

Mineral rights

Where husband and wife were in default on their contract for purchase of land, the husband alone without joinder of wife had right to protect their homestead by canceling the contract and entering into new contract which reserved most of the mineral rights to the vendors.—McGuire v. Roemer, Tex.Civ.App., 162 S.W.2d 1018, error refused.

Returning unrecorded deed

Where land was conveyed to the husband, who paid a small amount thereon, the wife could not set up homestead rights where the husband returned the deed unrecorded to the grantor without acting in fraud of the rights of the wife who raised no objection until after the land had enhanced materially in speculative value.—Cooper v. Hinman, Tex.Civ.App., 235 S.W. 561.

In Oklahoma the constitution places two limitations on transactions wherein a homestead is involved. First, it shall not be subject to forced sale for the payment of debts. Second, it cannot be sold by the owner, if married, without the consent of his or her spouse. An exception is made as to the first limitation in that the homestead may be subject to forced sale for the payment of purchase money, but there is no exception to the second limitation.—Mathers v. i. Subsequent Agreements Affecting Liability under Transfer or Encumbrance

Ordinarily under the various homestead laws the wife must join in a subsequent agreement materially changing the terms of a conveyance of, or encumbrance on, homestead property in order that it be valid

In applying constitutional and statutory restrictions requiring the joinder of husband and wife in conveyances and encumbrances of homestead property, subsequent agreements, entered into by but one of the spouses, which materially change the terms of a conveyance or encumbrance of homestead property, which had been properly executed by both spouses, are invalid[94] A subsequent agreement, however, which does not enlarge the rights granted,[95] or which relieves the homestead instead of burdening it,[96] or which is for the preservation of the homestead,[97] is not invalid for failure of the wife to join therein

Where the wife has joined her husband in the execution of a mortgage, it is not necessary that she should assent to an assignment thereof[98]

It is not necessary for the wife to join in an extension of a prior valid mortgage previously executed by both spouses[99]

Reviving or restoring liability After a mortgage on the homestead, executed by both husband and wife, has been paid, the husband alone by verbal agreement or otherwise cannot revive the mortgage and attach its security to other debts[1]

Some decisions hold that the husband cannot, without the consent of the wife, extend the duration of a mortgage lien on their homestead beyond its original term,[2] but other decisions have reached an opposite conclusion,[3] even to the extent of upholding the validity of an agreement by the husband alone renewing a cause of action, barred by the statute of limitations, on a mortgage of the homestead executed by the husband and his wife[4]

§ 131. —— Consideration for Consent of Spouse

Redelivery of instrument

Under some statutes where the indebtedness is fully paid and the deed of trust executed by husband and wife is delivered to one of the grantors, the lien thereof is extinguished and the redelivery of the instrument to the mortgagee by the husband to secure a further loan does not inject life into it so as to create an enforceable lien on the homestead of the grantors Jones v Hyman Mercantile Co, 98 So 845, 131 Miss 275

the mere power of veto against conveyances and encumbrances of the homestead, as where he or she is jointly interested with the other spouse in the nature of a joint tenant,[6] in order to render valid a conveyance of the homestead in which both spouses join there need be no consideration proceeding to the consenting spouse [7]

§ 132. —— Nature and Sufficiency of Consent or Joinder

a In general
b Joinder by separate instruments or separate execution of same instrument
c Reality of consent

a. In General

The nature and sufficiency of the consent or joinder of the spouse to a conveyance or encumbrance of homestead property depends largely on the particular constitutional or statutory restriction

The nature and sufficiency of the consent or joinder of the spouse to an instrument conveying or encumbering the homestead, within the meaning of the constitutional and statutory restrictions under discussion, depend largely on the particular homestead provision [8]

Conditional consent A consent granted on certain conditions is not sufficient where the conditions are not accepted [9]

Conveyance by trustee or guardian It has been held that, where a husband and wife have joined in a deed conveying the homestead to a trustee for the husband, with full power and authority in the trustee "to sell and convey the same in his own name as trustee and execute all necessary conveyances and contracts therefor without any intervention or signature of the grantors or either of them," it is not necessary to the validity of a subsequent mortgage of the property by the trustee that the wife should join therein [10] A guardian appointed by the court on the insanity of the husband has no right, without the consent of the wife, to sell a homestead acquired by the husband before his lunacy, and a sale without such consent is void, even though made by order of court and with the consent of an attorney whom the court has appointed to represent the wife [11]

Conveyance not delivered The depositing of a deed signed by husband and wife with a custodian, to await completion of a pending sale, but without authority to the custodian to deliver it, is not a sufficient compliance with a statute which prohibits the maintenance of an action for the specific performance of a contract to sell or exchange the homestead, unless the contract is signed by both husband and wife [12]

Effect of joinder for release of dower While the mere insertion in a mortgage of the usual clause

Florida rule relating to restrictions on voluntary alienations to wife where there are children living see infra § 135

Transaction of renewal

A mortgage of homestead premises is supported by a sufficient consideration as to the wife where she executes the mortgage jointly with her husband as a part of a transaction whereby he procures a renewal and extension of a then existing indebtedness owing by him alone—First Nat Bank v Benson, 220 N W 645, 57 N D 117

In Iowa

(1) Where the wife in signing a mortgage executed by her husband occupies the position of a surety, it is not necessary that a consideration run to her—Charlson v Farmers' State Bank of Lake Mills Iowa, 206 N W 812, 201 Iowa 120

(2) Where the wife denied having any knowledge or information whatever as to the transaction of her husband and his indebtedness to the mortgagee, and also denied that she ever received anything of value for her alleged signature to the note and her evidence with relation thereto stood undenied in the record, it was held that there was no consideration for her signature to the note and mortgage—Greenland v Abben, 254 N W 830, 218 Iowa 255

8. **By instrument "duly executed"**

(1) If the homestead provisions require that a conveyance or mortgage of the homestead be "duly executed" by husband and wife it is necessary that this requirement be complied with in order to give validity to the transfer

(2) "Duly executed" means executed by husband and wife in the manner prescribed by law for the execution by them of conveyances or mortgages of real estate—New York Life Ins Co v Oates, 166 So 269, 122 Fla 540

(3) Mortgage on homestead real estate owned by spouses by entireties, which mortgage appears on its face and by appended official certificate to have been executed by spouses in accordance with law, is prima facie valid—New York Life Ins Co v Oates, supra

Joinder held sufficient and to be in compliance with statute

Kan—Elliott v Faulkner, 292 P 918, 131 Kan 528
Okl—Moore v Beverlin, 99 P 2d 886 186 Okl 620

The consent required, under some statutes, in the alienation of the homestead of the wife consists of the wife's joining in the conveyance, her signature thereto, and her separate acknowledgment thereof taken and certified to by the proper officer—Logan v Aiken, Tex Civ App, 123 S W 2d 401, error dismissed, judgment correct

releasing dower does not manifest an intention not to part with the homestead right,[13] if the husband alone assumes to grant or mortgage the premises, but both he and his wife join in signing and acknowledging the instrument, the homestead right is not defeated, if the wife signs merely to relinquish her dower right, this fact appearing either by the instrument itself or by her acknowledgment,[14] and it has been held that, although the body of the instrument contains a formal release of the homestead right, the latter is not affected if the wife in her acknowledgment only assumes to release her dower,[15] but there is also authority to the contrary.[16]

Execution of a will The execution of a will by husband and wife is not such a compliance with the homestead requirements as to joinder as will satisfy their requirements[17]

Execution under power of attorney or by husband as agent Ordinarily the consent required by statute cannot be given by an attorney in fact,[18] and, consequently, the husband cannot consent for his wife by signing her name, although he is expressly or impliedly authorized so to do[19] Under some statutes, however, the wife may alien her rights under a power of attorney,[20] but the power of attorney must be acknowledged by the wife in the manner prescribed by statute in order for a conveyance thereunder to be valid,[21] and she may withdraw her consent at any time before the deed is executed by her attorney[22]

In pleadings. An answer filed in a foreclosure suit agreeing to the reformation of a mortgage sought to be corrected for a mutual mistake in omitting the homestead is not a sufficient consent[23]

Oral or written consent While there is some contrary authority,[24] in most jurisdictions mere verbal consent is insufficient[25] A verbal agreement for the transfer of the homestead, however, assented to by both husband and wife, followed by a change of possession and a performance of the agreement, has been held to operate to transfer the equitable title[26]

Signature alone In some jurisdictions, subject to certain limitations,[27] the wife must join in the granting part of the instrument as an actual party thereto, and her mere signature is insufficient[28] This is the rule under statutes requiring her to "join in a deed of conveyance,"[29] requiring "a conveyance signed by the husband and wife" and acknowledged and recorded,[30] requiring the "joint consent" of the husband and wife "evidenced by conveyance duly executed,"[31] or providing that husband and wife must concur in and sign the same joint instrument[32] A deed reciting in the granting clause that the grantor joined by his wife does grant, etc, duly subscribed and acknowledged by

husband and wife, satisfies a provision that no conveyance of the homestead shall be valid unless in writing and subscribed to by both husband and wife[33] Where the wife was not named in the granting clause, but where after the habendum clause there appeared the statement that she thereby joined in the conveyance, it has been held that the wife thereby became a grantor with her husband[34]

On the other hand, in some jurisdictions the name of the wife need not appear in the body of the instrument, but it will be sufficient that it is signed by her[35] It is so held, where the statute requires the wife's "voluntary signature and assent,"[36] requires that the conveyance be "subscribed" by husband and wife,[37] or requires that the wife's signature be attached to the instrument[38] Under the construction of some homestead provisions, no form being prescribed for the manner of her giving consent, it is sufficient that it be in writing and signed with no more formality than is necessary in ordinary contracts concerning land, and the wife need not join in the conveyance[39]

b. Joinder by Separate Instruments or Separate Execution of Same Instrument

In some jurisdictions the joinder of spouses in the conveyance or encumbrance of homestead property cannot be by the execution of separate instruments or by the separate execution of the same instrument

Where a homestead can be conveyed or encumbered only by the joint conveyance or joint consent of the husband and wife, it cannot be conveyed or encumbered by their separate and independent instruments[40] In those jurisdictions in which the joint consent must be concurrent, a conveyance or encumbrance executed by the husband or wife alone cannot be subsequently assented to or ratified by the other, either by a separate execution of the former instrument or by an execution of a separate instrument, so as to release or bar his or her interest in the homestead[41] In some jurisdictions, however, the joint consent need not be contemporaneous, and an instrument executed by one may be subsequently assented to and ratified by the other,[42] but there can be no valid delivery until this is done[43]

Ratification by subsequent deed An oil and gas lease, invalid for nonjoinder of wives of joint owners occupying the land as a homestead, has been held to be ratified by the wives' joinder in a subsequent mineral deed expressly made subject to the gas and oil lease[44]

c. Reality of Consent

Insanity, fraud, or duress may invalidate a wife's consent to a transfer or encumbrance of homestead property

All transactions in which the joinder or assent of the wife is obtained in or to any disposition of the homestead, by either lease, mortgage, or absolute sale, will be scrutinized by the courts with jealous vigilance, and the wife's rights will be protected against the influences of force, fraud, or mistake, but this will not be carried to the extent of relieving her from the consequences of her own acts which she clearly did understand or should have understood[45] A wife who joins her husband in a conveyance of the homestead will be conclusively

presumed to have had knowledge of its contents,[46] and the fact that she did not read it will be of no avail.[47]

Effect of fraud and duress. Where a husband executes a mortgage without joinder of the wife in its execution or acknowledgment and another person fraudulently signs her name to the mortgage and acknowledges it, it is void and of no effect,[48] even in the hands of an innocent purchaser for value and without notice, and even though the mortgage and the execution thereof in every way appear regular on its face.[49]

Consent of a wife, obtained by fraud, may be insufficient to satisfy the homestead provisions,[50] but if the wife signs the document under a mistake as to its scope and effect, due to misrepresentations of the husband or of a third person, the contract is binding in the absence of fraud on the part of the grantee or mortgagee,[51] but it is otherwise if he is a party to the fraud.[52]

Consent of the wife obtained by duress will not satisfy the homestead provisions,[53] notwithstanding the grantee was ignorant of the duress,[54] although it has been held that, where property has passed to a bona fide purchaser from the grantee, it cannot be recovered.[55] If there was no coercion exercised to procure her signature, her act is in law deemed voluntary notwithstanding she signed the instrument reluctantly and after great hesitation.[56]

Effect of insanity or minority. If the husband or wife is insane when a joint conveyance or mortgage of the homestead is executed, the conveyance is invalid, because it is not the joint act of both,[57] and the rule applies even though the grantee was ignorant of the incompetency,[58] although it has been held that such an instrument may be enforced after the death of the insane spouse where the mortgagee was ignorant of her insanity and where the mortgage money was paid over to the mortgagor and by him used for the betterment of the homestead property.[59] Similarly, even though the wife joins in the execution of the instrument, it has been held that it may be disaffirmed if she was a minor at the time of the execution.[60]

Presumption and burden of proof

A married woman who had gratuitously released her right of ownership of an entire homestead owned by husband for a life interest in one-half of the homestead on misrepresentations of her husband and his friends was presumptively acting under the influence of her husband and friends, and the burden is on the husband or those benefited to show that she fully and voluntarily entered into the conveyance with a full knowledge of her interest in the estate and its approximate value—McCollough v McCullough, 185 So 417, 237 Ala 77

What constitutes fraud

Husband, in procuring wife's signature to mortgage on homestead, practiced no fraud on her, where he did no more than put document before her with request to sign, and merely on his request and without inquiry as to what it was she affixed her signature. Her inability to read it and her signing it without being informed of its character would not entitle her to relief—First Nat Bank v Ten Napel, 200 N W 405, 198 Iowa 816

Matters no defense

"The lack of information and experience of a wife as to the method of mortgaging land, and the knowledge of the legal description of her homestead, and her failure to read the mortgage or have it read to her, and the failure of her husband to properly inform her, will not deprive her of the defense of want of joint consent in the execution of the mortgage on her homestead when the plaintiff, being interested in the matter of obtaining the mortgage, intentionally did not disclose to her when she executed the mortgage that it covered her homestead"—Larrick v. § 133. Consent of Court and Reinvestment in New Homestead

Where the state constitution so requires, land set apart as a homestead cannot be conveyed by the head of the family during the existence of the homestead except by order of the court for the purpose of reinvesting the proceeds for the same use.

Since the Georgia constitution of 1877 land set apart as a homestead cannot be conveyed by the head of the family pending the homestead, except by order of the court,[61] where the homesteader resides or where the land is situated,[62] for the purpose of reinvesting the proceeds for the same uses,[63] in the manner prescribed in the statute,[64] and any attempted sale otherwise is invalid,[65] and does not convey even a reversionary interest.[66] This provision is operative, even though the conveyance is by the husband to his wife who is the sole beneficiary of the homestead,[67] or although the conveyance is to his wife in trust for his daughter.[68] It cannot be mortgaged for any purpose either by the husband or by the wife who applied for the homestead out of her husband's property, he having refused to apply.[69] If the officer consents, his decision on the sufficiency of the price paid is final.[70] No confirmation of the sale is necessary.[71] The court may order a third person to receive the proceeds, and invest them in a new homestead for the original parties, and this will not prevent such third person from purchasing the old homestead.[72] Where the proceeds were reinvested in land which by the husband's direction was conveyed to the wife in fee, such deed to the wife included any reversionary interest in the land to which the husband might have been entitled after termination of the homestead.[73]

§ 134. Restricting Encumbrances Except for Certain Debts

Under some constitutions and statutes no encumbrance of a homestead is permissible except for designated debts

In some jurisdictions under the restrictions of the homestead provisions no encumbrance of a homestead is permissible except for designated debts,[74] the most common debts designated being those for purchase money[75] or for improvements.[76]

These restrictions apply to mortgages by the husband to the wife as well as to strangers.[77] They

stead in any manner,[86] or the subsequent divorce of the husband and wife,[87] does not validate an encumbrance executed in violation of such restrictions at a time when the land was impressed with the homestead character. The fact that the mortgagors had formed the intention of abandoning the homestead at the time of giving the mortgage does not alter the rule[88]

Covenants and sworn statements A mortgage for a debt other than one excepted is void, although the instrument contains a covenant on the part of the mortgagor that the property covered is not his homestead[89] A trust deed to land on which the owners actually resided as a homestead was held to be void, notwithstanding the sworn statements of the owners that they had abandoned the land and moved from the state[90]

Crops and fixtures It has been held that the restrictions do not apply to crops growing on the homestead,[91] but the rule is otherwise as to fixtures[92] If property covered by a mortgage was part of the mortgagor's homestead, he could not render the mortgage valid, and take it out of the protection of the constitution, by agreeing that the mortgaged property should be treated as chattels, and not as fixtures[93]

Proceeds of sale Constitutional and statutory restrictions as to encumbering homestead property have been held not to extend to the proceeds of a voluntary sale thereof, and such proceeds may be pledged[94]

Simulated transactions; conditional sales These restrictions cannot be evaded by simulated transactions which are in fact intended to operate as mortgages,[95] and the rule applies with full force and effect to a conveyance absolute in form but intended as a mortgage[96] Whether the instrument is an absolute deed or a mere security does not de-

pend on the form of the instrument, but on the intention of the parties thereto[97] On the other hand, such a constitutional provision does not declare every sale of a homestead involving a condition of defeasance void, but only pretended sales involving such conditions are void[98] Consequently a conditional sale of a homestead is valid[99]

Status as homestead property The status of the property as homestead property, so as to be protected from unauthorized encumbrances, must be decided by the conditions existing at the time when the attempt to create the lien was made[1] The restrictions do not apply to property as to which the homestead right had not attached when mortgaged,[2] although at the time of the mortgage the mortgagor intended and was preparing to use the property as a homestead and did so use it afterward,[3] or to property in which the homestead rights had been abandoned before the mortgage was given[4]

§ 135. Restricting Alienation Where Children Living

Under some homestead laws the power of alienation is restricted where there are infant children.

Under some homestead laws it is not within the power of husband and wife to release their homestead rights, where there are infant children living,[6] although it is competent for husband and wife to release the wife's homestead interest where there are no such children.[7]

In Florida, in view of the constitutional provisions that homestead exemptions shall inure to the widow and heirs of the person entitled to such exemption, and that nothing in the homestead article shall be construed, if the holder be without children, to prevent him or her from disposing of his or her homestead by will, where there are children surviving it has been held that it follows by necessary implication that a homestead cannot be alienated to the wife even by joint deed, if the real effect would indirectly nullify the constitutional inhibition.[8] The "alienation" of homesteads contemplated by the constitutional provision that homestead real estate shall not be alienable without the joint consent of husband and wife, when that relation exists, is a bona fide conveyance of the homestead to third persons for a valuable consideration,[9] and is not a conveyance without consideration by the owner of the homestead directly to his wife,[10] or by the husband and wife joining in a conveyance without consideration to a third person who reconveys the same property without consideration to the wife alone[11] or to the husband and wife as tenants by the entireties,[12] which conveyances necessarily would have the effect of divesting children of the owner of their vested rights in the homestead.[13] Apparently if the conveyance to the wife is based on a consideration it is not invalid as an indirect attempt to evade the constitutional restriction.[14] The restriction is inapplicable to transfers of property which is not homestead property at the time of the conveyance.[15] The statute authorizing a husband to deed real estate directly to his wife, as though they were not married, does not apply to homestead real estate.[16]

tion,[26] and delivery [27]

Description of premises. The conveyance of a homestead must, as in the case of other property, sufficiently describe the homestead,[28] but, as in other cases, a description is sufficient if the property can be identified therefrom [29] In jurisdictions where an express release of the homestead is unnecessary, a deed or mortgage need not refer to the premises as a homestead if they are otherwise sufficiently described [30] A warranty deed to a homestead, duly executed and acknowledged by both husband and wife, passes all their interest, including the homestead estate, although that particular estate is not specifically mentioned [31] If the description of the land is erroneous it may be reformed,[32] but a defect in this respect cannot be cured by the subsequent act of the husband alone so long as the property is occupied as a homestead [33]

Necessity and sufficiency of release of homestead Under some homestead provisions a formal and express release or waiver of the homestead rights in deeds or mortgages is necessary to accomplish this purpose,[34] and it will not be sufficient to recite in the certificate of acknowledgment that the wife acknowledged her release of her homestead rights,[35] or to release in the body of the instrument "every claim, interest and estate, of whatever description, at law, or in equity,"[36] nor will the insertion of general covenants operate as a release or waiver,[37] and where the proof as to the contents of a lost deed does not disclose a release or waiver the deed must be held to convey only the excess on the homestead [38] In other jurisdictions no express release is required,[39] but nevertheless an express waiver results from inserting the words "We jointly relinquish our right of homestead or dower in our landed estate,"[40] or by using the phrase, "bargain, sell and convey" the homestead property [41]

§ 137. Acknowledgment

Where the statute so requires, a conveyance of the homestead, to be valid, must be acknowledged in the manner prescribed.

While in some jurisdictions, except for the purposes of recordation, no acknowledgment of a conveyance of a homestead is necessary,[42] by express provision in many homestead laws the conveyance to be valid must be acknowledged by the wife,[43]

26. Necessity of attestation
(1) Under the constitutional and statutory provisions in some jurisdictions a homestead deed or mortgage, to be properly executed, must be signed, sealed, and delivered in the presence of at least two subscribing witnesses—Everglade Cypress Co v Tyner, 160 So 513, 119 Fla 43—Oates v New York Life Ins Co, 152 So 671, 113 Fla 678, 116 Fla 253—McEwen v Schenck, 146 So 839, 108 Fla 119—Hutchinson v Stone, 81 So 151, 79 Fla 157

or by both husband and wife.[44] Under these provisions it is as essential that a conveyance shall be acknowledged as that it shall be executed,[45] and a failure to acknowledge the conveyance as required by statute renders the conveyance void.[46] Where a separate acknowledgment of the wife does not comply with the statutory requirements, it has been held that no subsequent acknowledgment by the wife can make the conveyance effective,[47] although she was the only heir so that the title vested in her.[48] A properly signed contract to convey homestead property, although not acknowledged, is valid, however, where it is made simultaneously with the execution of a warranty deed which is properly acknowledged and delivered in escrow.[49] If witnesses to the acknowledgment are required by statute, this provision must be strictly complied with.[50]

Second acknowledgment after reformation. If the mortgage releasing the homestead right is corrected by a court of equity in its description of the premises no further acknowledgment by the wife is necessary.[51]

Time of acknowledgment While the conveyance of a homestead may be acknowledged by a wife on a date subsequent to the signing of the document, and the instrument is thereby rendered binding from the latter date,[52] such acknowledgment will not operate to affect the title of the husband's heirs, where he has died before the wife's acknowledgment was taken,[53] or the rights of those who purchase the land on execution sale, prior to the acknowledgment.[54]

Mode of taking acknowledgment An acknowledgment of a conveyance or encumbrance of homestead property should be taken in the manner prescribed by statute.[55] In the absence of contrary statute, the acknowledgments of husband and wife need not be taken before the same officer,[56] and, in the absence of special statutory provisions requiring it, a separate private examination of the wife in taking her acknowledgment is not necessary.[57] However, in some jurisdictions a privy examination of the wife is sometimes, by statute, made a prerequisite to the validity of a deed or mortgage of the homestead interest, executed by husband and wife.[58] While substantial compliance with the stat-

band in a conveyance of the homestead, she is estopped thereafter to assert any right, title, or interest therein;[95] and a wife, who joins her husband in deeding the homestead owned by the husband as security for a loan then made and for future advances to him, binds her homestead right for such future advances.[96] A court, however, may not impose a greater encumbrance on the homestead than has been placed thereon by the parties themselves, or by the law[97]

§ 140. Conveyances Not in Compliance with Statutory Requirements

a In general
b Effect of divorce
c. Remedies of homestead claimants

a. In General

Conveyances of the homestead not in compliance with statutory requirements are generally considered to be void as to the homestead interest.

A conveyance or encumbrance of homestead property which does not comply with the statutory requirements for the conveyance or encumbrance of homesteads is generally considered to be void[1] as to the homestead interest.[2] Such a conveyance, however, is not void as to those grantors who have no homestead interests in the premises conveyed,[3] and, as will be seen infra § 146, it is not necessarily void as to that portion of the property conveyed which is in excess of the statutory homestead exemption

Where the wife does not consent to a mortgage of the homestead, it may nevertheless be enforced if neither the mortgagor nor his wife claims the premises as a homestead[4]

b. Effect of Divorce

According to the weight of authority a homestead conveyance which is invalid because not the joint act of husband and wife is not validated by their subsequent divorce

Where a conveyance or encumbrance of the homestead without the joinder or consent of both husband and wife is invalid, it is held, according to the weight of authority, that a subsequent divorce of the homesteader and his wife will not give force to the invalid conveyance or encumbrance,[5] but the contrary view also finds support[6]

c. Remedies of Homestead Claimants

Where a conveyance of the homestead is invalid, the homestead claimant may institute an appropriate proceeding to protect his rights

In a proper case the homestead claimants may recover damages from one claiming under an invalid conveyance of the homestead where he has wrongfully deprived them of possession of the homestead premises[7]

not signed by the spouse of the vendor, it cannot be enforced specifically by the vendor while it remains in that condition;[8] but if the nonjoining spouse thereafter confirms the sale and both spouses are willing to perform the contract and offer to do so they may enforce specific performance of the contract against the purchaser,[9] provided he has not previously repudiated the contract[10]

The right of the vendee to specific performance of a contract to convey the homestead is considered infra § 151 b

Damages for breach of contract to purchase When a husband alone enters into an executory contract for the sale of homestead premises and afterward tenders a sufficient conveyance in which the wife properly joins, the husband can compel the purchaser to respond in damages if he refuses to accept the conveyance[11] This is also true where a properly signed and acknowledged deed is tendered by the husband after making a contract to convey which is defective because not properly acknowledged, at least where the tender is made before the contract is renounced and the purchaser at the time of the tender does not object because the contract is not acknowledged[12]

The right of the purchaser to recover damages for breach of a contract to convey homestead property is considered infra § 151 c

§ 141. —— On Termination of Homestead

The authorities differ as to whether a homestead conveyance not in compliance with statutory requirements becomes operative on the premises subsequently losing their character as a homestead

In many jurisdictions a conveyance or encumbrance of homestead property, which is inoperative because of failure to comply with statutory requirements for the conveyance or encumbrance of homesteads, does not become operative on the premises subsequently losing their character as a homestead,[13] as, for instance, by the death of both husband and wife.[14] The rule is, however, subject under some statutes to the limitation that the title, which remains in the grantor because of the insufficiency of the conveyance, will pass to the grantee if possession thereof is abandoned by the grantor pursuant to the conveyance,[15] although mere abandonment not pursuant to the conveyance and for the express purpose of giving effect thereto has no such effect[16] In other jurisdictions the rule above stated does not obtain, and on termination of the homestead such a conveyance does not continue to be inoperative,[17] and it has been held that, although the wife did not join in a deed or mortgage of the homestead, it will become operative when for any cause the homestead terminates[18] Where, however, a contract for the sale of a homestead belonging to a husband and wife in which the wife did not join is void, it cannot thereafter become valid by their ceasing to occupy the land as a home, no other homestead having been acquired[19]

a. In General

The parties to a conveyance or encumbrance of a homestead may be estopped by their acts or conduct to assert its invalidity.

Although a conveyance or encumbrance of the homestead not executed as required by the statutes may be void or at least inoperative during the existence of the homestead, see supra §§ 140, 141, it has frequently been recognized that the parties may by their conduct estop themselves to assert its invalidity.[20] Neither the statute of frauds[21] nor the various statutory provisions for the protection of the homestead[22] do away with the general equity doctrine of estoppel, and courts of equity will not permit laws enacted for the protection of the homestead to be invoked as a shield to perpetrate a fraud.[23] In order to work an estoppel, however, the essential elements of an estoppel must be present.[24] Thus, to work an equitable estoppel, it is essential that the spouse charged therewith should have done, or refrained from doing, some act, or pursued some course of conduct, on which the estoppel may be based,[25] that he or she should have acted with knowledge of the facts and of his or her rights,[26] that the party claiming the estoppel was without knowledge or means of knowledge of the facts on which he bases his claim of estoppel,[27] and that he was misled[28] and prejudiced[29] by the acts or conduct of the spouse sought to be estopped.

Against husband. The husband is not estopped by his false representation that his wife's acknowledgment was taken before the proper officer,[30] and his participation in the execution of a deed or mortgage as an individual will not estop him, in a representative capacity, to deny its validity as to beneficiaries of the homestead.[31] The husband, however, may not question the validity of a conveyance executed by himself and a woman erroneously supposed by him to be his lawful wife, where he subsequently secures a divorce from his lawful wife and the latter dies, leaving no children of the marriage.[32]

Against wife. A wife may be estopped by her acts or conduct to assert the invalidity of a conveyance or encumbrance of the homestead.[33] An

Estoppel of wife by acts of husband see infra subdivision e of this section.

Wife held estopped.
Married woman signing note on repurchase of homestead with deed of trust containing notary's certificate of acknowledgment, following appearance before notary was estopped as against innocent holder of note for value to assert that original deed conveying homestead lacked acknowledgment.—Sanger v. Calloway, Tex.

estoppel may be created against the wife by her affidavit that the money, to secure which a mortgage is given on the homestead, is to be used in paying the purchase price,[34] by her surrendering possession of the homestead attempted to be conveyed, permitting the grantee to contract with third persons respecting the land and to improve it,[35] by her reciting in the deed, made under an order of court requiring a cash sale, that the consideration has been paid,[36] by her sale of part of a tract of land subject to a lien, and by her consenting to a release of the lien on that part,[37] by her delaying to make objection until after the land had enhanced greatly in value by reason of the discovery of oil in the vicinity,[38] or by her joining with her husband in a subsequent valid mortgage, where previously a defective one had been executed by him alone,[39] but no equitable estoppel arises against the wife unless she has been guilty of a positive fraud or some act of suppression which in law would be equivalent thereto.[40] No estoppel arises against her from a recital in a valid contract, executed by both spouses, of a prior but invalid lease executed by the husband alone,[41] or by a surrender of the premises to the vendee by husband and wife, when the wife knows nothing of the contract of sale and did not join therein,[42] or by husband and wife giving an option for the sale of land, subsequently claimed as a homestead.[43] The mere acceptance of the purchase money and the delivery of an instrument which is void as a conveyance of the homestead will not estop the wife to deny the validity of the conveyance as against one who is not a purchaser for value without notice.[44] Likewise, where the husband becomes insane and the homestead is sold by order of court to pay the expenses of the wife and children, the fact that the wife receives a part of the proceeds of the sale will not estop her to recover possession of the homestead from the purchaser.[45]

Against both husband and wife Both husband and wife may be estopped if they convey jointly and surrender possession of the premises,[46] if they verbally agree to convey and the purchaser pays the whole or a part of the price, enters into possession, and makes permanent improvements with their acquiescence,[47] if they convey by deed absolute, subsequently disavowing all interest in the land and permitting their grantee to mortgage it to an innocent third person,[48] or if they mortgage one of two tracts of land, residing at the time upon the parcel not encumbered.[49] If the conveyance is valid on its face and the homestead laws have been complied with, husband and wife may be estopped to set up the actual fraud of either to render the conveyance void.[50]

Against purchaser or mortgagee Where the elements of estoppel are present, the purchaser of homestead premises may be estopped to set up the invalidity of the conveyance or contract to convey.[51] So also a mortgagee may be estopped to assert the invalidity of a prior mortgage of the homestead.[52]

General covenants of title. Although there is authority to the contrary,[53] it has been held that where the deed or mortgage contains general covenants of title these will estop neither the homesteader[54] nor his wife[55] to assert homestead rights

b. Nonjoinder of Husband or Wife in Conveyance

A husband and wife may be estopped by their acts or conduct to assert the invalidity of a conveyance of their homestead on the ground that one of them did not join therein

On the principle that estoppel will not supply the want of power or make valid an act prohibited by express provision of law,[56] it is held in jurisdictions where a conveyance of the homestead is void without the joinder of husband and wife that the husband is not estopped by a deed,[57] although founded on a valuable consideration,[58] or by a mortgage of the homestead,[59] or by a lease,[60] in which the wife does not join, and that the wife is likewise not estopped by a conveyance, lease, or encumbrance of the homestead in which she did not join,[61] and the fact that she was willing to join in the conveyance does not estop her[62] It has also been held that no estoppel results against the wife from her executing a mortgage[63] or lease[64] of the premises without her husband joining her in its execution, even though she accepts the benefits of the transaction[65]

Estoppel independent of fact of nonjoinder Notwithstanding the rule, above stated, of no estoppel arising from mere nonjoinder of the spouses, where the acts or conduct of the grantor[66] or the nonjoining spouse[67] are such as to raise an independ-

(2) A wife who observed her husband removing timber from their homestead property and received benefit from proceeds of sale of the timber was estopped to deny validity of timber deed on ground that she had not joined in its execution and acknowledgment —Edwards v Jones, 123 S W 2d 286, 197 Ark 229

(3) Husband to whom wife deeded one-half interest in homestead subject to mortgage executed by her alone is estopped to deny validity of mortgage as to interest so conveyed —Truro Sav Bank of Truro v Foster, 220 N W 20, 206 Iowa 432

Acts held not to raise independent estoppel

(1) Failure of wife to make complaint to mortgagee on learning that mortgage not executed or acknowledged by her, was outstanding against homestead does not estop her from claiming relief against mortgage —Bacon v Western Securities Co, 252 N W 317, 125 Neb 812

(2) Wife's request to husband to transfer homestead and recognition

ent estoppel, such estoppel may be invoked against them. As against the grantor, this may be done where the grantor stated at the time of the execution of the instrument that he or she was single and unmarried,[68] unless the advantage from his or her wrong will accrue at least in part to some person other than himself or herself protected by the homestead law,[69] but it has been held that the mere fact that the grantor is described in the conveyance as a single person will not estop the grantor to show that he or she is a married person and that the conveyance is invalid.[70] Where the husband and wife are occupying property standing in the name of the husband as their home without a declaration of homestead, a mortgage executed by the husband alone to a mortgagee who knows the facts is binding as to the interest of the husband in the homestead,[71] but not as to the wife's interest.[72]

Death of the nonjoining spouse will not affect an estoppel arising before such death.[73]

Estoppel as against spouses' children. Where the children of a husband and wife inherit an interest in the homestead on the death of the husband, they may be estopped by their conduct to claim that a conveyance by the husband of the homestead in which his wife did not join is void.[74]

c. Representations or Recitals That Property Is Not Homestead

Where land is not actually being used as a homestead, representations by the owners in conveying it that it is not homestead property may estop them to assert the contrary later. If, however, the land is actually being used as a homestead, such representations, do not work an estoppel

Where land is not actually being used as a homestead,[75] or where it is being used in such an ambiguous manner as to render its status as a homestead doubtful,[76] representations by the husband

d. Pretended Sales and Encumbrances Prohibited by Law

Homesteaders may be estopped by their acts and conduct to claim the benefit of homestead laws forbidding pretended sales of the homestead and the fixing of liens thereon except for certain specified debts.

The owners of a homestead may be estopped by their acts and conduct to claim the benefits of a constitutional or statutory provision forbidding the fixing of liens on the homestead except for the purchase money therefor or improvements made thereon [81] Such an estoppel may arise from declarations made by the owners inconsistent with their claim of exemption [82] Thus the homestead owners may be estopped to assert the invalidity of a prohibited mortgage of the homestead executed by them where at the time the mortgage was executed they represented or declared that the property mortgaged was not homestead property, see supra subdivision c of this section, and when the homestead owners represent that existing notes are valid mechanic's lien notes for improvements, secured by a mechanic s lien contract properly executed, and they thereby induce innocent third persons to invest funds on the faith and credit of such lien, they are estopped as to such third persons to plead that the lien is invalid [83] Likewise an estoppel may arise where the owners of the homestead enter into a pretended sale thereof Thus, where the owners enter into a simulated transaction having all the outward appearance of a valid and unconditional sale of the homestead, they are estopped to assert as against an innocent third person without notice of the facts who purchases a vendor's lien note created by the pretended sale,[84] or as against bona fide purchasers

(2) Thus a husband and wife representing that purported vendor's lien notes on homestead occupied by them are genuine are estopped to deny the vendor's lien —Thurman v. First State Bank of Carbon Tex Civ App, 300 S W 123, reversed on other

or other lienholders from their vendee,[85] that the simulated transaction, although in the form of an unconditional sale, was in fact a mortgage or pretended sale involving a condition of defeasance prohibited by law Subsequent declarations by the owners of the homestead inconsistent with their claim of homestead rights, however, will not necessarily estop them to claim as against their grantee, that their deed to him was but a mortgage[86] Where an attempted lien on the homestead is enforced on an estoppel, the attempted lien is not thereby made valid, but recovery is permitted to prevent fraud[87]

e. Estoppel of Wife by Acts of Husband

Acts or conduct of the husband in conveying the homestead in which the wife does not join or participate will not ordinarily estop her to claim homestead rights in the property

As will be seen infra § 195, acts or conduct of the husband with relation to homestead property in which the wife does not join or participate will not ordinarily estop her to claim homestead rights in the property Hence if the husband executes a conveyance or encumbrance of the homestead in which the wife did not join, see supra subdivision b of this section, or makes false representations in conveying or encumbering the homestead,[88] such

grounds First State Bank of Carbon v Thurman, Com App, 12 S W 2d 146

Affidavit that conveyance was bona fide

When a vendor and his wife and the purchaser all represent under oath that a deed, absolute in form, has been executed and delivered on a valuable consideration as a bona fide transaction, and such deed is duly registered, both vendors and purchaser are estopped to assert that the transaction was simulated and that the purported vendor's lien was void because of the realty being the homestead of the vendors, as against one who in good faith and without notice, purchases or lends money to take up and extend the vendor's lien note —Rabbe v Federal Land Bank of Houston, Tex Civ App 161 S W 2d 1097, error refused- Zeigler v Federal Land Bank of Houston Tex Civ App 86 S W 2d 861 error dismissed —Humphreys v Standard Savings & Loan Ass'n Tex Civ App 80 S W 2d 438, error refused - Rowland v Skiles, Tex Civ App, 79 S W 2d 898

Particular applications of rule

(1) Where recorded warranty deed executed by vendor and his wife, who were in possession of the land, recited existence of purchase-money note, and the note, secured by vendor's lien, was acquired by good-faith holder and nothing occurred that was calculated to put holder on notice of vendor's claim of homestead, vendor was estopped to contend that purported sale was simulated and was intended not to pass title but to create a mortgage of vendors homestead to secure an existing debt and was void under homestead laws — Goodrich v Second Nat Bank of Houston, Tex Civ App, 151 S W 2d 276, error refused

(2) Where owners of realty which was their homestead, conveyed the realty to a relative, and the relative borrowed money from insurance company to pay amount of vendor's lien note, owners were estopped to deny, in suit by insurance company to foreclose trust deed executed by relative that there was a sale of the homestead and to maintain that conveyance to relative was merely a simulated transaction to borrow money on the homestead — Anderson v Jefferson Standard Life Ins Co, Tex Civ App, 167 S W 2d 797

85. "A homestead claimant is estopped to assert the invalidity of her purported absolute deed of conveyance, as against a bona fide purchaser or lienholder from such homestead claimant's vendee in which she has apparently vested title, that is, as against a purchaser (1) in good faith, (2) for a valuable consideration, and (3) without any notice of the facts invalidating the homestead claimant's deed"—Red River Nat Bank in Clarksville v Latimer Tex Civ App 110 S W 2d 232, 237

Rule limited to bona fide purchasers or lienholders

Where it appears that the conveyance by the homestead claimant was a simulated or pretended one, one who holds under the claimant's grantee cannot assert estoppel as against the homestead claim unless he is in the position of a bona fide purchaser for value and without notice of the facts giving rise to the claim of homestead--Vogel v Zipp, Tex Civ App, 90 S W 2d 668, error dismissed —Anderson v Barnwell, Civ App, 52 S W 2d 96, affirmed in part Anderson v Brawley, 86 S W 2d 11, 126 Tex 182—Walter Connally & Co v Gaston, Tex Civ App, 295 S W 953— Bailey v Bailey, Tex Civ App, 188 S W 261

Particular applications of rule

(1) Husband and wife who executed conveyance to third person which appeared regular on its face, and signed affidavit to effect that conveyance was real transaction in good faith were estopped to assert homestead claim as against company which made loan to third person believing that husband and wife had in fact parted with all title to property in question in absence of information by loan company to the contrary —Union Central Life Ins Co v Roach Tex Civ App, 106 S W 2d 374 error dismissed

(2) Grantors who conveyed land to grantee to enable him to procure loan thereon, and who assisted grantee to procure loan knowing that he was asserting title to the land, will not be permitted as against mortgagee to assert title and invalidity of mortgage on ground that land was their homestead--Welborn v Earle, Tex Civ App, 268 S W 982

86. Affidavit that conveyance was unconditional

Where deed absolute to homestead executed to bank was intended as mortgage, and bank knew the property was homestead, affidavit of mortgagor, executed after the deed, which stated that conveyance was unconditional, negatived idea of reconveyance, and which stated that conveyance was not for purpose of creating lien on the property, did not estop mortgagor to assert that deed was but a mortgage —First Nat Bank v Farrier, Tex Civ App, 113 S W 2d 285

§ 143. —— Ratification

In a proper case a voidable conveyance or encumbrance of the homestead may be rendered effectual by subsequent ratification

As a general rule an invalid conveyance or encumbrance of the homestead may be rendered effectual by subsequent ratification[97] provided it was not absolutely void when made[98] and the power to make the conveyance or encumbrance exists under the homestead laws at the time the ratification is made[99] Thus an invalid conveyance or encumbrance of the homestead may be made effectual by ratification where it was originally voidable for fraud[1] or temporary incapacity,[2] and in some jurisdictions a conveyance which is invalid because executed by only one of the spouses may be subsequently assented to, and ratified by, the other[3]

Ratification of a voidable conveyance or encumbrance of the homestead may be shown by subsequent acts, words, or conduct evidencing an intent to ratify,[4] as by the homesteader's acceptance of the benefits flowing from the conveyance or encumbrance[5] To establish ratification, however, a clear intent to ratify must be shown[6] It has been held that mere acceptance by a widow of the benefits of a parol contract by the husband to convey does not constitute a ratification,[7] nor will knowledge by the wife of improvements made by the purchaser have this effect[8] It has been held that a husband can-

not by subsequent acts, unauthorized by the wife, validate a conveyance of the homestead, voidable on the ground of the grantee's fraud, practiced on the husband and wife joining in the conveyance [9]

When a ratification has been properly made it cannot thereafter be repudiated [10] The ratification relates back to the date of the defective conveyance so as to make it effective from that date [11]

§ 144. —— Curative Acts

A defective homestead conveyance may be validated by a curative act provided the conveyance was not absolutely void in the beginning.

The legislature may by a curative act cure defects in the execution of a conveyance or encumbrance of the homestead,[12] but it cannot render valid a conveyance or encumbrance which was absolutely void in the beginning [13]

§ 145 Conveyances Prohibited by Constitution or Statute

As has been seen supra § 134, where the constitution and statutes prohibit absolutely a mortgage of a homestead a mortgage thereof, whether executed by husband and wife or by the husband alone, is void In a proper case, however, the homestead claimants may be estopped to assert the invalidity of such a mortgage, as discussed supra § 142 d

Examine Pocket Parts for later cases.

§ 146. Lands Conveyed or Leased in Excess of Homestead

A conveyance, even though it is invalid as to the homestead, may be sufficient to convey that portion of the property covered by the conveyance which is in excess of the statutory exemption.

While there is authority to the contrary,[14] the general rule is that a deed or mortgage covering the homestead and other lands, or covering a single tract whose value exceeds the statutory exemption, although it is invalid as to the homestead, may yet be sufficient to convey or encumber that portion of the property which is in excess of the statutory exemption [15] The same rule applies to contracts to convey as well as to conveyances and mortgages,[16] and also to leases [17] Where a homestead exceeds in value or area the statutory exemption, a sale of the excess operates as a selection of the remainder as the homestead to the exclusion of the alienated tract,[18] and hence a sale of such excess is not rendered invalid because it fails to comply with the statutory requirements for the conveyance of homesteads [19]

§ 148. —— As against Persons Having Homestead Interests

a. In general
b. As affected by good faith and notice

a. In General

(1) Rights of purchasers and lessees
(2) Rights of lienholders

(1) Rights of Purchasers and Lessees

Generally a properly executed conveyance of the homestead passes title to the grantee free from homestead claims. A void lease of the homestead is not binding on the lessee

As a general rule a conveyance of homestead property executed in conformity with the requirements of the homestead law passes title to the grantee free from homestead claims [21] Grantees of homestead property, however, take subject to defects in execution [22] and statutory restrictions concerning the joinder of husband and wife [23] Where a deed transfers only the reversionary interest in a homestead, the purchaser cannot assert his title until the homestead estate has expired [24] A purchaser of the homestead cannot set off against the purchase price debts of the vendor against which the homestead was exempt [25]

Ordinarily the rights of a purchaser of homestead property must be determined as of the date of the execution of the instrument of transfer [26]

Purchaser's right of election A purchaser of lands including a homestead, if the defense of homestead is raised, may exercise an option to take conveyance of the premises other than the homestead,[27] but, in the absence of such defense, or if it is waived or withdrawn before final decree in an action for specific performance, no option exists,[28] and the purchaser cannot escape the obligation to accept a tendered conveyance of the entire property by alleging the invalidity of the contract on such ground [29]

A lessee of homestead premises is not bound by the lease where it is void because not signed by the lessor's wife [30]

(2) Rights of Lienholders

Generally the homestead right is postponed to the lien of a mortgage, if the latter is not forbidden by statute and is properly executed

As a general rule the homestead right is postponed to the lien of a mortgage, if the latter is not forbidden by statute and is properly executed,[31]

Rights of mortgagee as to interest of surviving spouse or children see infra § 262.

A mortgage with covenants of warranty and against encumbrances, signed, sealed, witnessed, and acknowledged by both husband and wife, in which the wife joins with the husband in the granting clause, in which they grant the land, bars the homestead right, unless there is a clause in the mortgage reserving and disclosing an intention to reserve the homestead right.—Perley v. Woodbury, 78 A. 1073, 76 N.H. 23.

Extent of lien
Interest on notes secured by mortgage was properly charged as secured by lien on homestead.—Shaw v. American Life Ins. Co., Tex.Civ.App., 60 S.W.2d 1110, error dismissed.

but mortgagees take subject to defects in execution,[32] to statutory restrictions concerning joinder of husband and wife,[33] to express reservations of homestead, existing when the mortgage is executed,[34] and to the general right of homestead exemption when it is not waived or otherwise released.[35] One who takes a mortgage of homestead property contrary to law acquires no rights under the instrument,[36] but the invalidity of a lien on the homestead does not necessarily render invalid the debt purported to be secured thereby.[37]

Ordinarily the rights of one obtaining a lien on homestead property must be determined as of the date of the execution of the instrument creating the lien.[38]

Right of possession Where a mortgage of the homestead is properly executed and not forbidden by statute, the mortgagee is entitled to possession of the homestead premises where the mortgage so provides.[39]

Release of lien increasing burden on homestead The act of a mortgagee in releasing part of the land from his mortgage and renewing the mortgage for the entire amount on the remainder of the land, including the homestead, does not release the remainder of the land from the mortgage, even though the burden on the homestead is thereby increased.[40]

b. As Affected by Good Faith and Notice

The equitable doctrine protecting bona fide purchasers and lienholders applies to bona fide purchasers and lienholders of homestead property.

In applying the rules governing the rights of bona fide purchasers, it has been held that one who becomes a purchaser or mortgagee of homestead property, under circumstances giving him neither actual nor constructive notice of its homestead character, takes free from homestead claims,[41] but purchasers and mortgagees are bound to make search for such facts as might reasonably be ascertained by them,[42] and must take notice of the conditions that impress the homestead with the homestead character.[43] Hence a purchaser or a mortgagee of homestead premises takes them encumbered with homestead rights where he had notice of the homestead character of the premises or of facts charging him with such notice,[44] unless he acquired his rights from one who was himself a bona fide purchaser of the homestead premises without notice of the homestead rights.[45]

Bona fide purchasers under defective conveyances While a bona fide purchaser claiming under a voidable conveyance of the homestead may be pro-

tected,[46] a void conveyance of the homestead passes no title and cannot be made the foundation of a good title even under the equitable doctrine protecting bona fide purchasers.[47] One who in good faith takes title to a homestead under a void conveyance and makes judicious improvements thereon, however, is entitled to an allowance for the improvements.[48] Statutes protecting bona fide purchasers from insane persons have been held inapplicable to a conveyance of the homestead by an insane spouse.[49]

Subsequent purchasers under simulated sale The rule protecting bona fide purchasers and lienholders has been applied to a purchaser or lienholder from one who purported to take title under a simulated sale intended merely to operate as a mortgage or encumbrance of the homestead premises when the homestead laws prohibited such mortgages or encumbrances,[50] but the rule does not apply to a subsequent purchaser or lienholder in such a case who is not a purchaser for value[51] or who has knowledge or notice of the facts giving rise to the claim of homestead,[52] although an exception has been recognized in the case of mere constructive notice;[53] but, even where the subsequent purchaser has notice of the homestead character of the premises, it has been held that he will be protected if his grantor was a bona fide purchaser,[54] or if the mortgagors or simulating grantors were estopped to assert the homestead exemption against the mortgagee or simulating grantee.[55]

Subsequent holders of simulated liens Where simulated or fictitious transactions give rise to ostensible liens on homesteads, subsequent bona fide purchasers of such liens will usually be protected.[56] Thus, where a fictitious vendor's lien is created on homestead property at the time of its purchase or as a result of a pretended sale of the homestead, a subsequent bona fide holder of the pretended lien acquiring it for value before maturity and without notice of its invalidity will be protected.[57] One is not entitled to protection as a bona fide holder of the

Improper acknowledgment

(1) To entitle a subsequent purchaser to a community homestead, notwithstanding defects in the wife's acknowledgment on the ground that he is an innocent purchaser, it must appear that he purchased in good faith, without notice, actual or constructive, of the invalidity of the wife's acknowledgment, and that he paid a valuable consideration at the time he purchased.—Stephenson v. Duress

(1) Duress is not available to wife as defense against foreclosure of mortgage on homestead as against purchaser of note and mortgage before maturity for value and without notice.—Illinois Bankers Life Assur. Co. v. Day, 62 P.2d 970, 178 Okl. 281

What constitutes notice In accordance with well-settled equitable principles, anything that will put a prudent man on inquiry is notice,[63] and gross negligence in failing to make inquiry, when the surrounding facts suggest the existence of others and that inquiry should be made, is equivalent in courts of equity to notice.[64] It is sufficient to put one on inquiry as to the character of the property that a deed thereof mentioned both husband and wife and was signed by only one,[65] that a deed of trust stated with particularity that it secured only debts supposed to support a lien on the homestead, such as purchase money, taxes, etc.,[66] or that a deed conveying land recited that the premises were purchased with the proceeds from a sale of the former homestead.[67] A mortgagee or purchaser is charged with knowledge of all instruments of record in the chain of title,[68] and notice to an agent acting for the purchaser or mortgagee is notice to his principal.[69]

§ 149. —— As against Third Persons

a. In general
b Rights as against prior defective conveyances

a. In General

As a general rule, when a homestead is sold, the purchaser takes title clear and free of judgment liens and claims against the vendor which could not be enforced against the homestead during the time the vendor occupied it as a residence

It is a well established general rule, almost universally followed, that when a homestead is sold the exempt character of the homestead property existing at the time of the sale runs with the transfer and, as far as the rights of the purchaser are concerned, no claim[79] or judgment[80] against the vendor can be asserted against the property which could not be enforced during the time the debtor occupied it as a residence This rule has been held to apply with full force and effect in favor of mortgagees as well as purchasers[81] It applies even though the homestead has not been admeasured and set off[82] The rule has even been extended to transfers by the homesteader for a nominal consideration[83] or on no consideration whatever,[84] or even where the vendor has afterward removed from the state,[85] but there is also authority to the contrary of this last proposition[86] Such property is not subject to the lien of a bond given by the homesteader as collector of taxes,[87] or to claims of his creditors who have levied an attachment or execution on the property prior to the conveyance,[88] nor is it liable for the satisfaction of a note or bond given for the purchase price,[89] or a note executed by the vendor prior to the sale of the homestead[90] On the other hand, claims, judgments, and liens enforceable against the homestead premises before its sale or transfer by the homesteader can be asserted after as well as before such sale or transfer, and hence a lien may follow the homestead property after its sale by the homesteader where the lien was one enforceable against the homestead in the hands

of the vendor,[91] where the homesteader sells the premises in order to move to another state and reinvest the proceeds in a new home,[92] where the property is conveyed subject to the homesteader's existing debts,[93] where the homestead tract exceeds the statutory limit of value, the lien attaching to the excess,[94] where the exemptioner sells, but subsequently procures a conveyance by the purchaser to the former's wife, on surrender of the purchaser's notes,[95] or where no homestead was allotted to the vendor during his life and he leaves no wife or minor child[96]

One who purchases homestead property in good faith and for a valuable consideration, prior to the term of court at which personal judgment was rendered against the husband for a debt which is by statute made a claim against the homestead when reduced to judgment, takes the property discharged of the judgment[97]

Minority rule. Under some homestead provisions the rule is that, when the owner of a homestead sells it, the purchaser takes it subject to all valid claims or judgments against it, even though they are not of such a character as to have been enforceable against the homestead in the vendor's hands[98]

b. Rights as against Prior Defective Conveyances

In the absence of an estoppel or agreement to the contrary, a purchaser or mortgagee of the homestead ordinarily takes free from prior defective conveyances

It has generally been held that if the homesteader has attempted to transfer or encumber the homestead in violation of law or by an instrument incomplete or defective, and subsequently conveys the property by a valid deed to a third person, the latter will, in general, obtain a good title,[99] even though he knew of the prior ineffectual transaction[1] Similarly a mortgagee ordinarily takes free from prior defective conveyances,[2] but not if the mortgagor executes a first mortgage containing no release of homestead and afterward a second containing such release and then abandons the premises[3]

Limitations of the rule have been asserted Thus it has been held that a purchaser will not be protected if he buys subsequent to a transfer of possession to one who purchased at a sale under a trust deed containing no release of homestead rights,[4] if he pays only a nominal consideration and seeks to perpetrate a fraud on the prior grantee,[5] if his acts or conduct are such as to create an estoppel against him to assert the invalidity of the prior conveyance,[6] if he contracts, in the case of a prior ineffectual encumbrance, to assume it,[7] or if the premises were abandoned by the grantor as a homestead at the time of the prior conveyance, and possession was in the first grantee when the second grantee obtained a deed, founded on an inadequate consideration[8] Where a donee of a homestead was in the open, notorious, and exclusive possession under a parol gift in which the wife of the donor joined, a subsequent purchaser from the donor will be put on inquiry as to the rights of the donee[9]

mortgagee in whose favor homestead rights are waived may redeem from a prior mortgagee and hold free from the homestead, but cannot compel the first mortgagee to set out and assign him a homestead in the premises [10]

§ 150. —— Effect of Adverse Possession as against Homesteaders and Third Persons

A purchaser under an invalid conveyance of the homestead may acquire title thereto by adverse possession

A purchaser under an invalid conveyance of the homestead may acquire title thereto, free and clear of the homestead right, by peaceable, continuous, and adverse possession of the premises for the statutory period,[11] but title cannot be gained by lapse of time where the occupant apparently holds under a recorded lease, but in reality under an unrecorded deed, of which the homestead claimant is ignorant [12] As against the creditors of the homesteader, the purchaser under an invalid deed cannot begin to acquire any rights until the homestead interest terminates [13] In computing the statutory period, the possession of the homesteader's wife, under order of court setting apart a homestead, cannot be tacked to the subsequent possession of a purchaser, in order to bar the rights of a creditor whose claim was enforceable against the original homestead [14]

§ 151. —— Remedies and Proceedings for Enforcement of Rights

a In general
b Specific performance of contract to convey
c Damages for breach of contract to convey
d Recovery back of purchase money
e Foreclosure

a. In General

A purchaser of a homestead may institute an appropriate proceeding to protect his rights as such.

Where a homestead has been conveyed by a valid conveyance, the grantee may, to prevent a cloud on his title, enjoin a sale of the premises under a judgment rendered against his grantor,[15] provided he has no adequate remedy at law [16] If the grantee has purchased an undivided interest in the homestead, he may, it is held, compel partition [17] If, however, the conveyance is invalid, the grantee is not entitled to an injunction restraining the homesteader and his family from the free use of their homestead,[18] and where an instrument, although in the form of an absolute deed, operates as a mortgage of the homestead in contravention of the homestead law, the grantee or mortgagee cannot maintain ejectment for the premises [19]

Allotment of homestead or cash in lieu thereof Where a husband conveys the homestead without the consent or joinder of his wife, the grantee, in a proper case, may apply to the court for an order to sell the property and set aside from the proceeds for the benefit of the wife an amount corresponding to the statutory valuation of the homestead exemption, or, in case this cannot be done, to have an amount in cash awarded to her in lieu of the homestead rights and possession awarded to the grantee [20]

Contract liens A valid contract lien on a homestead may be enforced by the usual methods for enforcing contract liens [21]

Proceedings General rules governing civil proceedings usually apply to proceedings by a purchaser of homestead property to protect his rights as such [22] Thus the general rules of the law of pleading[23] and evidence[24] are ordinarily applicable in such proceedings

b. Specific Performance of Contract to Convey

Subject to certain recognized limitations, a contract to convey the homestead made by the husband and wife or by only one of them cannot be specifically enforced by the intended purchaser.

Subject to certain recognized limitations,[25] the general rule is that a contract to convey homestead property cannot be specifically enforced by the intended purchaser where either husband or wife fails to join in the execution thereof,[26] and some decisions have gone even further and hold that as long as the homestead right exists[27] specific performance cannot be decreed of a contract to convey the homestead, although both husband and wife join in its execution,[28] on the theory that the homestead cannot be made the subject of an executory contract for its sale by the husband and wife,[29] even though the contract was based on a valuable consideration.[30] It has been held that a contract to convey real property made after the recording of a claim of homestead thereto is not specifically enforceable by the intended purchaser,[31] but a declaration of homestead made subsequent to the execution of the agreement to convey does not impair the purchaser's right to specific performance.[32] A judgment decreeing specific performance of a contract to convey real property is not a "sale" or "forced sale" within the meaning of statutes exempting a homestead from forced sale.[33]

c. Damages for Breach of Contract to Convey

By the weight of authority a contract to convey the homestead executed by only one spouse furnishes no basis

Admissibility of evidence

In an action of ejectment by a grantee of premises including a homestead, evidence of the value of the portion claimed as exempt is admissible to determine whether it exceeds the statutory limit—Hill v Bacon, 43 Ill 477

After termination of homestead

A limitation of the rule has been placed on it by some decisions which hold in effect that a contract to convey a homestead invalid for failure of one of the two spouses to join in its execution may be specifically enforced against the one executing it after the termination of the homestead by abandonment, death of the wife or otherwise, provided the homestead terminates before the contract is barred by the statute of limitations—Hudgins v Thompson 211 S W 586 109 Tex 433, reversing, Civ App, 163 S W 659- Bell v Crabb Tex Com App, 244 S W 371, reversing Crabb v Bell, Civ App, 220 S W 623—29 C J p 922 note 13 [a]

Contract to reconvey

Where the husband at the time he purchased the homestead entered into a contract to reconvey it to the vendor in the event of default in the payment of the purchase money, the vendor, on such default, is entitled to specific performance of the contract to reconvey even though the vendee's wife was not a party to the contract—Coon v Henderson, 199 So 701, 240 Ala 492

Under Code 1907 § 4161, as to homestead alienation, the rule that although specific performance is denied, the bill may be retained to allow the purchaser a lien on the land to reimburse for purchase price paid or the cost of improvements made by him, is not applicable, where the land involved is a part of a homestead, the whole of which is worth less than two thousand dollars, and the wife refuses to join in the verbal sale sought to be enforced, for verbal sale of part when the whole is worth less than two thousand dollars cannot be treated as a selection of a homestead to the exclusion of the alienated tract—Irvin v Irvin, 93 So 517, 207 Ala 493

for recovery of damages by the intended purchaser for its breach.

While in some jurisdictions the rule has been denied or at least limited in its operation,[34] according to the weight of authority a contract to convey the homestead which is executed by the husband without the consent and joinder of his wife or vice versa is absolutely void and furnishes no basis for recovery of damages by the intended purchaser[35] for its breach, and it has been held that this is so even though the contract is accompanied by partial performance on the part of the intended purchaser.[36] In some jurisdictions neither the husband nor the wife is responsible for damages for the wife's failure to comply with her executory contract to convey her homestead where the intended purchaser has knowledge of the homestead right.[37]

Contract to convey land in excess of homestead Where the owner of a homestead enters into a contract, in which his wife does not join to convey the homestead together with other land, damages may be recovered from him in some jurisdictions for his refusal to convey that part of the land not occupied by him as a homestead,[38] but in other jurisdictions the contrary has been held.[39]

d. Recovery Back of Purchase Money

Where a conveyance of the homestead, or an agreement to convey it, is invalid, the consideration paid by the intended purchaser may be recovered back in some jurisdictions, but not in others

Although there is authority to the contrary,[40] it has been held that the consideration paid by an intended purchaser, on a contract to convey the homestead void for want of the joinder of the wife therein, may be recovered back,[41] and even that, where the husband executed a conveyance of the homestead without the wife's consent and joinder therein, the grantee may recover back the money paid for the conveyance in an action of assumpsit.[42]

e. Foreclosure

The holder of a valid mortgage on the homestead may enforce his rights by foreclosure

If a mortgage of the homestead is valid, the mortgagee may enforce his rights by foreclosure[43] even after the mortgagor's death.[44] No action is maintainable, however, to foreclose a mortgage where, by reason of noncompliance with statutory provisions on the part of the mortgagee, the homestead property is released from the mortgage.[45] In case a homestead is sold and part of the proceeds invested in another, on which a mortgage is given to secure the balance of the price, the mortgagee on foreclosure, it seems, may sell only such a fractional interest in the premises as represents the unpaid balance together with the debtor's reversion in the rest of the land.[46]

Proceedings in general It is within the power of the legislature to regulate proceedings for the foreclosure of mortgages on homesteads.[47] In the absence of specific statutory regulations, however, the foreclosure of mortgages on homesteads is usually governed by the general rules applicable to the

It has been held that, if there has been a release of the homestead right by a mortgage which covered the residence and other property, the latter need not be first sold on foreclosure if the residence tract was not such when the instrument was executed or if the mortgage was given to secure the price Gaither v Wilson, 46 N E 58, 164 Ill 544, affirming 65 Ill App 362

Trust deed securing sum in part not chargeable against property

(1) A sale made under a deed of trust for a sum larger than the amount with which the homestead property is properly chargeable is not void —W C Belcher Land Mortgage Co v Taylor, Tex Com App, 212 S W 647—Miller v Gibralter Sav & Bldg Ass'n, Tex Civ App, 132 S W 2d 606, error dismissed, judgment correct—Wood v Eastland Building & Loan Ass'n, Tex Civ App, 75 S W 2d 466, error refused—Chambers & Co v Little, Tex Civ App, 21 S W 2d 17, writ denied

(2) At the most it is only subject to be set aside by the homestead claimant paying, or offering to pay, the amount properly chargeable against the property —Floyd v Hammond, Tex Com App, 268 S W 146, affirming Hammond v Floyd, Civ App, 255 S W 777—Bruce v Thomas, Tex Civ App, 106 S W 2d 806

Where the mortgage is void, a sale thereunder is void —Burkhardt v Lieberman, 159 S W 2d 847, 138 Tex 409, modifying, Civ App, 142 S W 2d 283.

58. Enforcement of deficiency judgment

A statute providing that a deficiency judgment rendered on an indebtedness evidenced by a mortgage on a homestead shall not be enforceable after two years is valid, but it does not operate to preclude the enforcement of a deficiency judgment rendered for an indebtedness secured by mortgage on premises never occupied or held as a homestead —Montalto v Yeckley, 34 N E 2d 765, 138 Ohio St 314

59. Wife not executing mortgage note

The mortgagee can obtain no personal judgment against the wife if she did not execute the mortgage note —Wolf v Shenandoah Nat Bank, 50 N W 561, 84 Iowa 138

60. Lien covering part only of premises

Where a homestead and other property were mortgaged by a husband and wife, she is entitled to have the property outside the homestead applied to the satisfaction of that mortgage before its application to a mortgage not valid against the homestead — Hunt v Davis, 96 A 811, 90 Vt 153

Distribution of surplus

(1) One joined by wife in mortgaging homestead, after recovery of judgment against him, was not entitled to present cash value of foreclosure sale proceeds exceeding mortgage debt — Farris v Hendricks, 146 S E 77, 196 N C 439

(2) Mortgagees purchasing mortgaged homestead for more than sum due them on vendor's lien crediting excess on general judgment against mortgagors, were not equitably entitled to benefit of purchase —Wilson v Levy, Tex Civ App, 62 S W 2d 501, error dismissed

61. Minor heirs of mortgagor

If mortgaged realty was homestead, the minor children of deceased mortgagor then became "necessary parties" to foreclosure action, as a "condition precedent" to the effective foreclosure of their interests, and the failure to join them resulted in their interests not being foreclosed —Rives v Stanford, 106 P 2d 1101, 188 Okl 108

Wife of heir

The wife of deceased mortgagors' son inheriting an interest in mortgaged homestead was not a "necessary party" to suit to foreclose mortgage, where marriage was not consummated until nearly one month after filing of foreclosure suit and lis pendens notice — Federal Land Bank of St Louis v Cottrell, 126 S W 2d 279, 197 Ark 783

joined, to answer to her rights, she may intervene and litigate the question of homestead [67]

Allotment of homestead Where a mortgage of an entire tract covers more than the homestead portion and is invalid as to that portion, an allotment of the homestead may be made under orders of court in proceedings to foreclose the mortgage,[68] and the court may order commissioners to set off the exemption[69] in as compact a form as possible, including the dwelling house [70]

Receivership Courts of equity are reluctant to appoint a receiver to subject the rents and profits of the homestead to the payment of the mortgage indebtedness [71] In some jurisdictions, under particular statutes, it is held that the remedy of appointing a receiver in an action of foreclosure is not applicable where the mortgaged property is the homestead of the mortgagor,[72] but in other jurisdictions it is held that it is a matter within the discretion of the lower court.[73] Where the homestead right does not attach to the entire property and there is no objection on the ground of difficulty in separating it, a receiver may be appointed so as to subject the excess to dispossession [74]

Right of possession during period of redemption. The right to possession of the homestead premises during the period of redemption usually is governed by statute [75] Under the statutes in some jurisdictions the judgment debtor is entitled to retain possession of the homestead premises during the period of redemption,[76] provided the premises are occupied by him as a homestead[77] at the time of the foreclosure sale [78]

Appointment of receiver

(1) Application to appoint a receiver to take possession of mortgaged homestead is to be granted or denied according to rules of equity jurisprudence, and with due regard to statutory limitations—Sheakley v Mechler, 203 N W 929, 199 Iowa 1390

(2) Facts justifying appointment of receiver for premises not a homestead do not always warrant appointment of one for homestead—Crosby v Keilman, 239 N W 431, 206 Wis 252

(3) Where mortgage pledges rents and profits and authorizes appointment of receiver and proof shows inadequacy of security, receiver should be appointed although mortgage covers homestead, unless circumstances justify refusal to appoint receiver—Iowa-Des Moines Nat Bank & Trust Co v Crawford, 252 N W 97, 217 Iowa 609

(4) Appointment of receiver held proper—Farmers' Trust & Savings Bank of Laurens v Miller, 214 N W 546, 203 Iowa 1380

(5) Refusal to appoint receiver held error—Iowa-Des Moines Nat Bank & Trust Co v Crawford supra.

Possession of premises by receiver

In view of Code 1924 §§ 10150, 10155 par 2, a mortgagor may pledge as security for debt right of occupancy of homestead, with its incidental rights and profits during year of redemption but as homestead cannot be resorted to to pay for a deficiency on judgment, if a deficiency exists, until mortgagee has exhausted all other property by same contract, receiver under a mortgage cannot take possession of homestead until sale on execution is had, when it can be determined whether deficiency exists—Sheakley v Mechler, 203 N W 929, 199 Iowa 1390

Disposition of funds in hands of receiver

Income from mortgaged property in the hands of a receiver appointed in a suit to foreclose a mortgage against a homestead must be applied by receiver to the judgment obtained by mortgagee in the mortgage foreclosure action—Home Owners' Loan Corporation v Rusch, 80 P 2d 639, 183 Okl 145

Persons entitled to benefits of statute

(1) Although mortgagee had released them from personal liability, mortgagors were "judgment debtors" and entitled to possession of homestead during period of redemption—Union Central Life Ins Co v Fischer, 13 P 2d 889, 169 Wash 75

Rights and remedies of purchaser at foreclosure sale. Where the mortgage of the homestead is valid, a purchaser at a foreclosure sale thereunder acquires a good title,[79] and may maintain an appropriate action,[80] such as an action of ejectment,[81] to recover possession, but, where the mortgage covered more property than enough to satisfy a homestead exemption that might be claimed by the mortgagor who had previously conveyed without his wife's consent the same premises to another, the purchaser of the homestead interests under the foreclosure of the mortgage has not the right to select what portion of the whole tract he wishes to be considered as the homestead, and then bring ejectment therefor, for the grantor and mortgagor, in the absence of a selection by him, will be presumed to have selected that part of the premises as a homestead on which his dwelling house is situated.[82]

As a general rule a void foreclosure sale passes no title to the purchaser,[83] and if he takes possession of the premises he is not entitled to recover for improvements made by him where he did not act in good faith.[84]

Ejectment against purchaser Where the mortgage is invalid because executed by the husband alone, the heir of the mortgagor may maintain ejectment against one who holds under a sale on foreclosure.[85]

E. AVOIDANCE

§ 152. Persons Entitled to Assert Invalidity

a Owners of homestead
b Other persons

a. Owners of Homestead

In a proper case the grantors or mortgagors of homestead property, provided they have not since parted with all right, title, and interest therein, may have the conveyances or mortgages set aside or canceled In some jurisdictions the relief is limited to avoidance of the conveyance only as to the rights of a spouse as to whom it is defective

As in the case of other invalid instruments, see Cancellation of Instruments §§ 45, 46, the grantors or mortgagors of their homestead property may in a proper case maintain actions to set aside or cancel conveyances or mortgages,[86] which are invalid under the rules heretofore considered, see supra §§ 123–151 The husband may not impeach his deed of the homestead to the wife, on the ground of informality, where he has deserted her since its execution.[87]

The grantors of a trust deed covering homestead property, who have since parted with all their right, title, and interest therein to a grantee who assumed the indebtedness, are not entitled to oppose the foreclosure of the trust deed.[88]

Enforcement as to grantor and avoidance as to spouse In some jurisdictions where a deed or conveyance does not pass the wife's homestead rights because of defects in the wife's acknowledgment or other matters which render it ineffective as to her, she is entitled to have it canceled in its entirety, as against the contention that it is effectual as respects the husband and will become operative when the homestead rights terminate.[89] Under statutory provisions which expressly provide that a husband or wife who executes a deed, mortgage, or conveyance of the homestead without the other joining therein is concluded thereby, and that the deed may be avoided only by the husband or wife who did not execute it, a deed or mortgage of the homestead by

89. Tex—Cates v Greene, Civ App, 111 S W 2d 592

Basis for rule
The holding is predicated on the proposition that the homestead right is not a mere privilege of possession and enjoyment but extends to full dominion over the title to the property for the purposes of sale or exchange, to which dominion the conveyance of the husband constitutes an impediment which the wife has the right to remove at any time during the existence of the homestead—Cates v Greene, supra.

the husband is conclusive against, and may not be avoided by, him,[90] but it may be avoided as to the wife's rights,[91] and the decree which protects the rights of the grantee or mortgagee should subject the land to the homestead rights of the wife as long as they may exist.[92]

b. Other Persons

Other than the husband and wife, only those standing in privity with them or possessing a valid lien on the property may attack a conveyance or mortgage of homestead property; general creditors of the grantor or mortgagor cannot attack such a transfer and the heirs of the homesteader cannot in general assert rights contra to executed agreements of the ancestor

Aside from the husband and wife, only those standing in privity with them,[93] or those having a valid lien on the homestead property[94] are entitled to attack a conveyance or mortgage deed thereof by husband or wife in which one of the spouses did not join. The nonjoinder of the wife may be made a ground of attack by a grantee or mortgagee whose deed is subsequent to the one alleged to be invalid.[95] The purchaser of homestead property under an executed contract of sale under which possession of the premises was delivered, the consideration paid, and a deed to the premises properly executed and acknowledged by the husband and wife tendered, cannot have the contract of sale set aside because not executed and acknowledged by both husband and wife as required by statute.[96] A grantee of the premises may not maintain an action to annul a prior conveyance, where he secures the property for a nominal consideration and for a fraudulent purpose,[97] nor can a grantee question the regularity of a prior mortgage, where the amount of the mortgage debt was deducted from the purchase price, and assumed by the grantee.[98]

General creditors of the grantors or mortgagors cannot attack transfers of homestead property.[99] Creditors of the exemptioner cannot question the validity of a voidable mortgage of the homestead executed by him, where he waives the irregularity by failing to claim his exemption.[1] An attaching creditor whose subsisting rights as an unsecured creditor were not affected by the passage of a homestead law cannot question the validity of a husband's sole conveyance and thereby acquire a lien on the homestead.[2]

Heirs of homesteader. Heirs of the homesteader cannot assert a claim of homestead which will be paramount to the right of one who holds a purchase-money mortgage.[3] Also, they cannot contest the validity of a contract of sale entered into by their ancestor by alleging that the property constituted his homestead, where the vendee has been placed in possession by the ancestor and has paid the purchase price,[4] but they may refuse to complete the sale if the vendor dies before conveyance or abandonment of the homestead pursuant to contract.[5] However, if a transfer of the homestead title has been ordered by the court in performance of an oral contract of sale, entered into by the ancestor, the heirs may sue to revise the order, when the quantity of land specified therein was erroneous.[6] The husband's mistake of law in believing the law required the deed to land in which the proceeds of his homestead were reinvested to be taken in the name of his wife does not authorize the annulment or modification of the instrument by the heirs of the husband.[7]

a. Nature and Form of Action

Defects in a conveyance of, or encumbrance on, homestead property may be shown by direct attack, and if statutory provision is not made for the determination of various questions involved the court will devise a suitable procedure A suit to quiet title is proper.

The infirmities in a mortgage on homestead property can be shown on direct attack on its validity [8] Where the statute does not provide a remedy for determining the excess of land over the homestead allowance, a court of equity will invent a suitable remedy in a suit by the wife to cancel the husband's deed to land, including the homestead [9] If a husband has attempted wrongfully to assign away his wife's homestead rights, she may remain in possession of the premises and defend against ejectment [10]

Suit to quiet title Suit to quiet title may be brought by a holder of a homestead right to quiet title thereto [11] A wife may maintain a bill quia timet, filed by her next friend, for the removal of a cloud on her title and for the confirmation of her homestead rights in the property [12]

b. Limitations on Time to Sue; Laches

Statutes of limitations begin to run against a person entitled to assert the invalidity of a homestead conveyance from the time of transfer In some jurisdictions laches is not available as a defense

It has been held that the statute of limitations begins to run against a wife who is entitled to assert the invalidity of a homestead conveyance, from the time of transfer, and her coverture continuing after such time will not suspend the running of the statute [13] In some jurisdictions the defense of laches is not available when homestead rights are involved [14]

§ 154. Proceedings Generally

a. Parties

In general all parties in interest must be made parties, but a person having no interest in the cause is not a necessary party The wife may unite with, or intervene in, a proceeding brought by her husband, but ordinarily she is not entitled to sue alone during her husband's lifetime

In general, all parties having an interest in, or whose rights will be affected by, the decree in the cause must be made parties,[15] but a person having no interest therein is not a necessary party [16] As a general rule, although there is authority to the contrary,[17] the wife may unite with her husband in an action to set aside a conveyance,[18] or mortgage of homestead premises,[19] in which she did not join, and her death pending such suit does not affect its further maintenance where a child survives and is made a party thereto [20] It has been held also that she may intervene in the husband's suit to recover

back the homestead exchanged by him for other land,[21] or defend against the enforcement of a claim founded on a note, by showing usury;[22] or that she may intervene in an action brought against the husband for specific performance of a contract to convey the homestead, and thus protect her interests.[23] She cannot, however, as an intervener in a foreclosure suit, question by demurrer an alleged assignment of the mortgage to the present plaintiff from the original mortgagee, as she has no interest in the validity of the assignment.[24] Where residence land is claimed as the wife's both she and her husband, occupying it, should be joined as defendants in a suit in ejectment to test the validity of a conveyance to her.[25] She is not a necessary party, if she has joined in a mortgage to release dower and homestead rights, and the husband seeks to enjoin a sale under the mortgage.[26]

Right of wife to sue alone As a general rule, although there is some authority to the contrary,[27] during the husband's lifetime the wife is forbidden to sue alone, to set aside a conveyance of the homestead, as she is held to possess no property right therein, but a mere veto on the husband's power of alienation,[28] and where as the vendee of her husband she brings such a bill her authority to sue is referable solely to the title acquired by conveyance from her husband.[29] However, under some circumstances, it has been held that the wife may alone assert her homestead rights, as where her husband has deserted her,[30] in which case she is regarded by the law as a feme sole for the purpose of suing and being sued,[31] where her husband has died;[32] where her husband refuses to act in seeking the relief sought,[33] where she executed a conveyance of a homestead under her husband's coercion,[34] or by reason of the misrepresentations of the grantee,[35] where by fraud or deception of either her husband or a third person she was induced to sign a release or conveyance of their homestead rights,[36] where by the fraud of her husband and the grantee she has been induced to join in the deed, believing it to be a mortgage;[37] or where a creditor is wrongfully attempting to subject the homestead to the payment of his claim,[38] or, where she states facts sufficient for the recovery of alimony and the bill prays general relief.[39]

b. Pleading

The plaintiff's pleadings must allege facts sufficient to constitute a cause of action The issues must be clearly presented by the pleadings The proof should conform to the pleadings and must support the cause of action alleged

One who seeks to set aside or have canceled a deed, mortgage, or other lien of homestead premises must allege facts which show that the property was homestead property at the time the deed or mortgage was executed,[40] but it is not necessary to allege that no new homestead has since been acquired, nor that complainant has no homestead at the time of filing suit.[41] If cancellation is sought on the ground the instrument is a mortgage on the

Allegations held sufficient

In suit to foreclose vendor's lien defendant's plea of business homestead, alleging that he was sixty-four years old, had wife and family, and had used and occupied premises involved in conducting his business for thirty years, that property was adapted to such purpose, that he had no other place or way in which to earn livelihood, and that he had no other place of business, was sufficient —Pyland v Sayers, Civ App, 148 S W 2d 450, reversed on other grounds Sayers v Pyland, 161 S W 2d 769, 139 Tex 57, 140 A L R 1164

Allegations held insufficient

Allegations that complainants were living on the place when the bill was filed are insufficient to show that it was their homestead at the time prior thereto when the mortgage was executed —King v Chandler, 105 So 184, 213 Ala 337

41. Tex —Hays v Hays, 1 S W 895, 66 Tex 606.

homestead prohibited by constitutional or statutory provision, facts must be alleged which show that the transaction is one that is forbidden and not within the exceptions stated in the statute or constitution [42] In a suit to foreclose a vendor's lien, the burden is on defendant husband and wife claiming the sale was simulated to plead that fact [43] In a suit to annul and cancel a mortgage it should be alleged that the mortgage was not a part of a transaction of purchase and sale [44] If the pleadings attacking the mortgage show that anything was obtained on the security thereof an offer to do equity by restoration of what was thus received must be made [45]

Where during the life of a husband the wife has no legal or equitable title to a homestead owned by the husband, she cannot maintain a bill to avoid a conveyance of the homestead, on the ground that it was executed without her voluntary signature and assent in the absence of an allegation that the husband fails to act [46] As against a general demurrer, all reasonable intendments are indulged in favor of plaintiff's pleadings [47] If the bill or complaint states facts entitling the homesteader and his wife to substantial relief, mere technical errors in pleading will be ignored.[48]

Issues, proof, and variance. As is true in civil actions generally, see the C.J.S. title Pleading §§ 512–519, also 49 C.J. p. 780 note 50–p. 785 note 51, in order that questions be put in issue they must be clearly presented by the pleadings [49] Evidence within the legitimate scope of the pleadings and issues is admissible [50] A wife cannot defeat a homestead conveyance merely by proof that she was misled by the notary as to the character of the instrument without proof that the grantee participated in the fraud [51] Invalidity of a mortgage on a homestead because it was acknowledged by a notary public with a financial interest in the mortgagee cannot be shown except on direct attack [52]

c. Evidence

The rules applicable in proceedings to set aside or cancel instruments in writing generally apply as regards the burden of proof, and the admissibility and weight and sufficiency of the evidence

One who seeks to avoid a conveyance or encumbrance of homestead property has the burden to prove all the elements essential to his right thereto,[53] such as that the property was impressed with

Pleading held sufficient

(1) Purchaser's petition to remove cloud on title alleging making of mortgage by vendor on homestead and its invalidity, is good against general demurrer.—J. P. Wooten Motor Co. v. First Bank of Swenson, Tex. Com. App., 281 S.W. 196, affirming, Civ. App., 260 S.W. 1093

(2) Under a statute which prohibits the mortgage of a homestead, a petition which alleges plaintiff's indebtedness and that conveyance of homestead was not in payment thereof sufficiently shows continuance of original indebtedness, so as to show that transaction operated as a lien and not as a conveyance.—Mosher Steel & Machinery Co. v. 50. Proof admissible under pleadings

Averment that joinder by wife in conveyance of homestead property under constitution of Florida, was induced by fraud is sufficient basis for proof, which, if made would vitiate transaction on theory that, if property was homestead, "joint consent" of husband and wife to alienation thereof was essential.—Lightsey v. (1) That the wife was mentally incompetent at the time she signed the instrument.—Whittington v. McMasters, 109 P.2d 228, 188 Okl. 334

(2) That a subsequent purchaser of the homestead was not an innocent purchaser, although the homestead owners were in possession at the time of his purchase.—Stephenson v. Mallett, Tex. Civ. App., 240 S.W. 633, error refused.

(3) That assignee of vendor's lien note had notice of the simulated character of the sale.—Strauss v. Friedman, Tex. Civ. App., 109 S.W.2d 553, error dismissed

(4) Mortgagee's knowledge or notice, when executing refinancing mortgage, of unrecorded contract under which they claim homestead.—Brooks v. Capps, 115 So. 864, 217 Ala. 375

(1) Married woman suing to set aside mortgage apparently executed

the homestead character at the time of the conveyance or encumbrance complained of,[54] and for this purpose it is necessary for him to show every fact or element essential to give the land a homestead character,[55] including the extent and value thereof.[56] On the other hand defendant has the burden of proof as to matters of affirmative defense.[57] In a suit to foreclose a vendor's lien, in which defendant husband and wife claim that the sale was simulated and the lien void because it was a lien on homestead property prohibited by statute, the burden of proof is on the spouses to prove the sale a simulated one.[58] In order to avoid a conveyance on the ground that the wife of the grantor did not join therein, it must be shown that he had a wife living at the time when the conveyance was made.[59] If the owner attempts to avoid a lien created by him, alleging that the homestead was free from prior equities and encumbrances and that the lien was not a substitution for them, he must prove that the former have actually ceased to exist, and mere evidence of lapse of time sufficient to outlaw them is not sufficient.[60] If the parties seek to set aside a conveyance of the homestead on the ground that it was obtained by fraud, the burden is on them to prove the fraud alleged,[61] and where this is based on the violation of a relation of trust and confidence, complainant has the burden to show that such relation existed.[62] When the wife, during coverture, is induced without adequate consideration to release or renounce her homestead interest, the burden is on the husband or those thereby benefited to show that she fully and voluntarily entered into the conveyance with a full knowledge of her interest in the estate and its approximate value.[63]

Under a statute which forbids mortgaging homestead premises except for specified purposes, a trust deed cannot be avoided by proof of the homestead character of premises at the time of executing the deed, but it must be shown not to have been given for any of the claims excepted from the statutory prohibition.[64] However, under such a statute, in an action by a debtor to cancel a transaction which grew out of a preexisting indebtedness in which the debtor conveyed his homestead to his creditor and then leased the property, the burden is on the creditor to show that the debt was extinguished and that the deed and lease contract did not represent a mere change in security.[65]

Admissibility The rules governing the admissibility of evidence in proceedings to set aside or cancel instruments in writing generally, see Cancellation of Instruments § 70, control its admissibility in suits to avoid a conveyance or encumbrance of homestead property.[66] A previous declaration of

by her covering homestead had burden to establish that she did not sign and acknowledge it—Walthall v McArthur, 48 S W 2d 227, 185 Ark 437—Johns v McNutt, 276 S W 859, 169 Ark 1211

(2) In suit to foreclose deed of trust covering homestead, where the wife denies that she signed or acknowledged the deed of trust but fails to verify her answer, she has the burden of proving that she did not sign and acknowledge it—Callaway v Ashby, 95 S W 2d 907, 192 Ark 929

(3) In suit by husband to enjoin sale of mortgaged property, the husband has the burden of proving that his wife's signature to the mortgage, concurring in the homestead waiver, was a forgery Barron v Jackson Parish Bank 168 So 90, 184 La 886

The burden is on those claiming under a husband's deed of a homestead in which the wife did not join, to show that the value of the premises exceeded one thousand dollars—Karsten v Winkelman, 71 N E 45, 209 Ill 547

57. **Abandonment by spouse**

Where title to the premises was in plaintiff, the burden is on defendant to prove the defense that plaintiff's husband abandoned her for such a period prior to the execution and delivery of the instruments as enabled her, under the statute, to make a valid conveyance of her homestead without being joined by her husband—Taylor v Bunyard 239 P 131, 111 Okl 146

Cancellation authorized

A married woman ignorant of rights in real estate owned by husband and induced to sign a deed by which she gratuitously renounced her right of ownership of an entire homestead for a life interest in one half of it, in reliance on representations by her husband and his friends, was entitled to cancellation, although the deed may have been signed voluntarily when those who benefited by the deed failed to show that she had voluntarily made the conveyance with full knowledge of her interest and its approximate value—McCollough v McCollough, supra

Evidence held admissible

(1) Statement of agent of grantee as to indebtedness of grantor to grantee and its possession of a lien on the homestead was admissible, on the issue as to whether deed was in reality a mortgage—Mosher Steel & Machinery Co v Nash, supra

(2) In suit to invalidate trust deed on ground that some of signers of deed were married and occupying

homestead is admissible in evidence where the validity of a conveyance of an alleged homestead is involved.[67] The wife may disprove her consent to the instrument by showing that it was obtained from her by fraud.[68] Should the wife rely on the fact that fraud has been practiced on her by the husband in behalf of the grantee or mortgagee, the latter may show, by affidavits, that he acted in good faith and for a valuable consideration, and if no counter-affidavits are presented, such purchaser may proceed to assert his claim against the homestead, and to that end may obtain a dissolution of an injunction against him.[69] Where the deed is ineffectual to convey the homestead but may pass the excess above the statutory amount, as considered supra § 146, the fact that such excess existed can be ascertained by proof of the consideration agreed to be paid by a grantee who received his deed several months after the execution of the deed in question, and by proof of the value at the time of trial.[70] A defective deed improperly acknowledged by the wife may be introduced in evidence where there is proof of possession taken under it.[71] In ejectment, where defendants claimed under a deed from plaintiff and his wife, evidence that the grantee paid nothing for the homestead conveyed to him is admissible as affecting his own right, and contingently that of his grantee, to protection as a purchaser for value.[72]

Weight and sufficiency In conformance with the general rules relative to the weight and sufficiency of the evidence in proceedings to set aside or cancel instruments in writing, discussed in Cancellation of Instruments § 71, which apply in proceedings to avoid a conveyance or encumbrance of homestead property, complainant is required to establish by a preponderance of the evidence the various matters as to which he has the burden of proof,[73] such as that complainant did not sign and acknowledge a mortgage apparently signed and acknowledged by her.[74] In the notes cases are referred to in which the sufficiency of the evidence has been considered as to various questions in issue,[75] such

and the conveyance intended as a mortgage;[84] whether the homesteaders were estopped to deny the invalidity of the lien sought to be canceled;[85] whether the contract was without consideration,[86] and whether there was not a sufficient and proper delivery of the instrument[87]

d. Trial

On conflicting evidence questions of fact should be submitted to the jury, where the trial is to a jury, under proper instructions. The judgment must be supported by the findings and the evidence.

In suits to avoid a conveyance or encumbrance of homestead property, which are tried to a jury, issues of fact as to which there is substantial evidence in support thereof, or as to which the evidence is conflicting, should be submitted to the jury[88] However, under proper circumstances the court may direct the verdict[89] Proper instructions on the various issues submitted should be given,[90]

84. Ev'dence held sufficient

(1) To warrant finding that bank, taking vendor's lien notes as security for money loaned to vendors and vendee, knew that land conveyed was vendors' homestead and that sale was simulated to encumber it with lien—Chapman v Clark, Tex Civ App, 262 S W 161, affirmed, Com App, 276 S W 197

(2) To warrant finding that defendant purchased land without knowledge that deed to his grantor was intended as mortgage—Allen v Northcutt, Tex Civ App, 65 S W 2d 403

(3) To sustain finding that assignee of lien was innocent purchaser—Garrett v Katz, Tex Civ App, 23 S W 2d 436, corrected on other grounds 27 S W 2d 373

Evidence held insufficient

Continued occupancy of homestead premises after conveyance thereof was not, as matter of law, proof that assignee of vendor's lien note had notice that conveyance was merely a pretended sale for purpose of obtaining money on the homestead—Strauss v Friedman, Tex Civ App, 109 S W 2d 553, error dismissed

but instructions should not be given on issues not raised.[91]

The judgment must be supported by the findings and the evidence.[92] A judgment invalidating the conveyance of a homestead is supported by findings that the contract to convey was without consideration and that the conveyance was never delivered for the purpose of taking effect.[93]

e. Review

The appellate court, on its own motion, and regardless of whether or not the question was presented in the lower court, may declare invalid an alienation of a homestead where it appears that both spouses did not consent thereto.

The public policy against permitting one spouse to alienate any interest in the homestead without the consent of the other is so strong that, regardless of whether or not it has been pleaded in the lower court and whether or not there is a shift of theories on plaintiff's part in the appellate court, where it clearly appears that a homestead has been alienated without the consent of the other spouse, the appellate court can on its own motion declare the alienation to be void.[94]

§ 155. Nature and Conditions of Relief

a In general
b Rents and profits
c Improvements

a. In General

The avoidance of a conveyance of a homestead, invalid because in violation of a prohibition against the alienation of the homestead by a married man without the consent of his wife, will be as to the interest of both the husband and the wife. The cancellation of a homestead conveyance will not affect the rights of a lienholder whose rights attached prior to the execution of the conveyance avoided.

Under constitutional and statutory provisions prohibiting the alienation of the homestead by a married man without the consent of his wife, evidenced in the manner required by law, in a suit by the wife to avoid a conveyance on such grounds the relief granted will not be limited to an avoidance of the conveyance as to the wife's interest only, but it will be held void and inoperative to convey any interest in the premises of both the husband and the wife.[95] If the wife of a homesteader procures the cancellation of an agreement between an unpaid vendor, the husband and a third party, whereby a previous conveyance to the husband is replaced by one to the third party, thus defeating the wife's rights in the premises as a homestead, the relief granted to her will not defeat the rights of the unpaid vendor to his lien against the land for purchase money.[96]

b. Rents and Profits

The possessor of a homestead under an invalid conveyance must account for the profits received therefrom or its reasonable rental value, but the wife is not entitled to income from the homestead which accrued when she was living apart from her husband or which became personalty under the control of her husband.

One who obtains possession of a homestead under an invalid conveyance may be required to account for mesne profits received by him[97] or for the reasonable rental value of the premises,[98] but if the beneficiaries of the homestead have enjoyed the proceeds of the conveyance, such proceeds may be set off against the claim for profits.[99] Where a wife living apart from her husband received a mortgage on the homestead to secure a postnuptial settlement and subsequently foreclosed the mortgage, she was not entitled to recover rents and profits during the years of nonoccupancy against the holder of a void deed from her husband alone.[1] Where a conveyance of property which was community property and the homestead of husband and wife is canceled because of a defective acknowledgment by the wife, income from the property which accrued prior to

that it would be in no danger of foreclosure was held not misleading, ambiguous, or confusing.—Rotge v Dunlap, Tex Civ App, 91 S W 2d 905, error dismissed by agreement

91. Okl.—Warden v Kerns, 233 P 1048, 108 Okl 115

92 Judgment held proper

(1) Judgment denying cancellation of instruments was proper where jury did not find that property was plaintiffs' homestead when they executed note to defendants, and did find that deed from plaintiffs to defendants was not intended as mortgage.—Hagar v McCaskill, Tex Civ App, 98 S W 2d 367

(2) Findings that wife was precluded by abandonment from claiming homestead and attacking husband's mineral deeds because of wife's failure to join in their execution were not insufficient to support judgment for grantees because of absence of finding that husband and wife had lived apart for ten years prior to execution of deeds, since, to constitute "abandonment" it was not necessary that they should have lived apart for ten years, which is the time necessary to constitute a ground for divorce.—Graham v Hollandsworth Drilling Co, Tex Civ App, 169 S W 2d 1001, error refused

the cancellation became personal community property and passed under an assignment by the husband to the grantee [2]

c. Improvements

In general a purchaser of homestead property under a void conveyance is not entitled to reimbursement for improvements placed on the premises, particularly where he knew of the facts which invalidated the conveyance, but in proper cases innocent parties may be protected.

A court of equity cannot fasten a lien on the homestead for improvements made by one in possession under a void contract of purchase on the theory of an equitable estoppel, for this would be doing indirectly by the machinery of a court what the parties could not have done directly except in a certain manner [3] If the purchaser of homestead property places improvements on the premises, knowing the homestead rights of a widow therein, the improvements inure to the benefit of her estate [4] However, the grantee of a wife, to whom the husband made an invalid conveyance of the homestead, is entitled to be reimbursed for the value of permanent improvements he placed on the premises less the value of timber or other property he took therefrom during his occupancy, in a suit by the heirs of the husband in which cancellation of the conveyance from the husband to the wife and from the wife to her grantee is granted [5] Where improvements are erected at the joint expense of the cotenants, and one of them occupies the improvements by consent of the other, and claims his homestead estate therein, if the land is afterward partitioned, the occupant is entitled to his homestead estate, and the other cotenant is entitled to one half of the value of the improvements erected at the joint expense of both [6]

§ 156. —— Restoration of Status Quo

Conformably to the general rules as to the restoration of the status quo, a return of the consideration paid is ordinarily a condition precedent to relief in suits to avoid instruments conveying or encumbering homestead property, but it is not ordinarily required of persons who did not themselves receive the consideration, or where the return thereof would establish a lien on the homestead in violation of the policy of the law, or where the instrument was obtained through fraud, or the grantee was present and knew of its defective execution

Conformably to the general rules as to the restoration of the status quo, with their limitations and exceptions, considered in Cancellation of Instruments § 44, which are generally applicable in suits to avoid instruments conveying or encumbering homestead property, an owner who invokes the jurisdiction of the court to cancel a mortgage given on his homestead, as a condition precedent to such relief, must offer to restore to the mortgagee whatever of value he received from such mortgagee at the time of the execution of the mortgage [7] Also restoration of the consideration paid is a condition of the rescission in a suit by a husband and wife to rescind a conveyance of homestead premises, where the conveyance was regular in form and substance and the grantee was ignorant of the defect and innocent of any wrong doing, as where the conveyance was void because of a defective acknowledgment of the grantor's wife,[8] or the husband's

Wife suing as vendee of husband

A mortgagor's wife suing as the vendee of her husband to cancel a mortgage covering the homestead as a cloud on her title on the ground of the invalidity of her acknowledgment must as a condition precedent to cancellation, make restitution of the money or other things of value obtained by the mortgagor on the supposed validity of the mortgage.—Fies & Sons v. Sufficiency of offer

An offer to set off against the price received a claim against the grantee for timber cut on the land and, if the value of the timber is less than the money received to pay the excess, is not a sufficient offer to return the consideration received to entitle complainant to relief.—Loxley v. incapacity,[9] or both[10] However, parties who did not actually receive the consideration for a conveyance or encumbrance of the homestead are not ordinarily bound to restore it as a condition precedent to having the conveyance or encumbrance canceled,[11] and when the mortgagee or other alience of homestead property is the actor who invokes the jurisdiction of the court in a suit in which one of the parties seeks cancellation of the mortgage, the owner need not offer to restore whatever of value he received as a condition precedent to cancellation, the rule requiring such an offer when the owner invokes the jurisdiction of the court being inapplicable[12] Also a return of the consideration paid on a conveyance of the homestead, void for want of the wife's consent, will not be required as a condition precedent to its recovery, where to do so would result in the fastening of a lien or encumbrance thereon which could not be placed thereon by the direct and voluntary act of the owner[13] If the mortgage of the homestead was obtained by fraud, the mortgagors need not tender the amount of liens paid thereon by the mortgagee in order to have the mortgage avoided,[14] and where a husband and a third person fraudulently induced the wife to deed to the third person her homestead, the wife believing that the transaction constituted a mortgage, she could have, against a purchaser of her vendor's lien note from the third person with knowledge of the facts, cancellation of the note and deed, irrespective of her return of the consideration paid her[15] Restoration of the property received is not required on the cancellation of a conveyance of the wife's separate property constituting her homestead, which was void because her separate acknowledgment was not taken, where the vendee was present and knew of such defective acknowledgment[16] It has also been held that even in equity, to establish or assert a homestead right in opposition to a deed void for usury, neither payment nor tender of the debt which the deed was made to secure is necessary.[17]

A husband and wife are not entitled to cancellation of an encumbrance or conveyance of a homestead which was given in the adjustment of prior liens or equities enforceable against it, or to an injunction to restrain the enforcement thereof, in the absence of payment or tender of payment of the amounts expended in the adjustment of the prior valid liens or equities[18] So if an equity of redemption is sold by an assignee in insolvency, subject to the debtor's homestead right, and the purchaser pays a mortgage in which the homestead right was released, the insolvent is not entitled to a homestead without redeeming from the mortgage although the purchaser's deed from the mortgagee stated that its intent was to discharge the mortgage[19] If the debtor had but an equitable title, and executed an informal mortgage on the homestead to secure the repayment of the purchase money advanced for him, and the mortgagee afterward acquired the legal title, a court of equity would not cancel the mortgage and decree a divestiture of the

legal title, without requiring the repayment of the purchase money so advanced [20]

In jurisdictions where constitutional or statutory provisions prohibit the mortgaging or other encumbering of homesteads and provide that such a mortgage or encumbrance shall be invalid, a debtor suing for the cancellation of a mortgage or other security arrangement is not required to tender the indebtedness due at the time the mortgage or other security agreement was executed,[21] but in a proceeding to avoid a simulated sale of their homestead by a husband and wife, an innocent party who, without notice of the simulated character of the sale, purchases the premises or loans money on the security of a lien thereon is entitled to be protected to the extent of the money advanced or liability incurred thereon [22]

Under constitutional provisions prohibiting the alienation of homestead property without the joint consent of husband and wife, when that relation exists, money received by the husband and wife on the execution of a trust deed or other lien agreement on their homestead cannot be decreed a lien thereon where either the husband or wife is insane [23]

In a suit by husband and wife to cancel a quitclaim deed executed by the husband alone to homestead property, the equitable title to which was held under an executory contract of sale, the husband and wife were entitled to pay defendant the amount he expended in paying the unpaid part of a purchase-money note given by the husband to his vendor [24]

Where a husband, after mortgaging premises, files a declaration thereon, and the wife is not made a party to a foreclosure of the mortgage, it is no defense to an action of ejectment by the wife against the purchaser at the foreclosure sale, that the mortgagor had not paid the mortgage debt [25]

Failure to perform contract to transfer. Where a husband, acting in good faith, attempts to sell or lease the homestead or a part thereof, and the contract fails because of the nonjoinder of the wife, the purchaser or lessee is entitled to recover the money paid by him in reliance on the contract [26]

Right to judgment in personam A purchaser of homestead property from the husband, the transfer of which is void because not signed by the wife, is entitled to recover a personal judgment against the husband for the return of the money paid [27]

IV. ABANDONMENT, WAIVER, OR FORFEITURE

A LOSS OR RELINQUISHMENT OF RIGHT IN GENERAL

§ 157. General Statement

Aside from cases in which the right is lost by termination of a limited estate or interest in the property or, in some jurisdictions, by death of the homesteader or dissolution of his family by death or otherwise, a homestead right, once acquired, is not lost, destroyed, or defeated except by some act or omission of the owner, such as abandonment or alienation

A loss or relinquishment of the homestead exemption is not favored by the law,[28] and is held to occur only in the manner and by the means specified in the statute, if the matter is regulated by statute [29] Also, any relinquishment of homestead rights must be unequivocal [30]

A homestead right, once acquired, is not lost, defeated, destroyed, or terminated except by some act or omission on the part of the owner,[31] such as abandonment[32] or alienation,[33] or except by death,[34] acquisition of another homestead,[35] cessation of ownership[36] or right of occupancy,[37] cessation of occupancy and use[38] as a homestead[39] or residence for the family,[40] a definite repudiation of an intention to retain the homestead,[41] or by the owner's leaving the property with the intention of not returning or his forming of such intention after leaving.[42] As noted infra § 158, dissolution of the family relationship terminates the homestead right in some, but not other, states. A sheriff's deed to the mortgagee in foreclosure proceedings does not extinguish the homestead right of the mortgagor where, by virtue of a parol agreement for redemption, the deed is for security only and the mortgagor remains the equitable owner;[43] and the debtor's ignorance of the execution, and consequent nonacceptance, of a deed to him does not deprive him of his homestead in property of which he is the owner by adverse possession.[44] The making of improvements on his property by the husband with borrowed money does not defeat the wife's homestead rights in the property.[45] The marriage of a person after acquiring a homestead right does not deprive such person of the right or cause it to be lost or terminated.[46]

The duration of the homestead exemption generally is discussed supra § 15

§ 158. Dissolution of Family Relationship

In many, although not all, states a homestead, once acquired, is not lost by the dissolution of the family by the death, removal, or majority of all members of the family other than the head, provided he or she continues to occupy the premises. On the death of the owner of the homestead, the homestead terminates where no constituent member of his family survives or, under some statutes, where neither spouse nor minor children survive

In some jurisdictions the right to homestead terminates when the debtor ceases to be the "head of a family," by death or permanent removal from the premises of all the dependent members or by their reaching the age of majority[47] This has been held to be the rule in a state where the statutes extend the homestead exemption to the "family" only[48] On the other hand, in many jurisdictions it is held that after a homestead has once been acquired, it is not dependent on the continued existence of a family,[49] or on the continued dependence of other members of the family on the owner,[50] or their continued residence on the property,[51] and that it is not lost by the subsequent loss, dissolution, or disintegration of the family[52] through the death, permanent removal, or majority of all the members other than the head thereof,[53] but continues to be exempt as long as the premises are occupied as a home[54] Under either rule the right is not lost by the death of the wife or other constituent member of the family where there are other persons who are members of the family of the owner of the homestead, so that the family relation continues[55] Where the owner of a homestead dies, the homestead terminates, although he leaves descendants, if the latter are not constituent members of his family,[56] or, under some statutes, where neither spouse nor minor children survive[57]

§ 159. —— Desertion

of the offending spouse but not affect the homestead character of the property generally or the homestead rights of the nonoffending spouse and children in the property while they continue to occupy it.

The homestead character of property, previously existing, may remain where the wife refuses to move from the property and continues to reside thereon without the husband,[58] even though the husband has virtually abandoned the family[59] While there is authority to the contrary,[60] the better view is that the abandonment by a husband or a husband and father of his wife or of his wife and children does not operate to deprive them of their homestead rights in the homestead premises if they continue to occupy them,[61] and the same rule applies where the wife has been driven from home by or through the fault of the husband,[62] it not being permissible for the husband to defeat the wife's homestead right by the simple expedient of denying her the privilege of using or occupying the property[63] A deserted wife does not lose her right of homestead by being out of possession where she had been forcibly and unlawfully dispossessed under color of legal process,[64] if she has never evinced any intention of abandoning the homestead,[65] or where, subsequent to her husband's desertion, she was forcibly removed from the homestead which she occupied as such, and imprisoned in an insane asylum[66] Also, the wife does not lose her homestead rights by abandonment where the husband abandons her and she leaves the homestead merely because she cannot live there alone, but retains control of it by tenants until such time as she personally returns to it[67] Nevertheless, if after her husband's desertion she removes from the homestead premises with her children to another county, where she remains for over a year and until execution has been levied on the property, she will be considered as having abandoned the homestead,[68] her act alone being sufficient to evidence an abandonment of the homestead after she has been abandoned by the husband and while she is acting as head of the family[69] Where husband and wife left their homestead with intent to return to it, and while they were away he abandoned his family, and went to another state, his agency for his family ceased with the formation of his intent to abandon it, so that as regards the question of abandonment of the homestead his intent from such time not to return to it is not controlling[70]

The husband may be disentitled to the protection of a homestead exemption law where he has deserted his family,[71] but he does not forfeit his rights in a homestead, the legal title to which is in his wife's name, by abandoning his wife, unless the abandonment is wrongful,[72] and it has been held that a husband remaining in possession of a homestead owned by the wife does not forfeit homestead claims by mistreatment of the wife which causes her to abandon the premises[73]

Desertion of husband by wife The desertion of a husband by his wife without cause will not deprive him of his right of homestead in the premises occupied by them if he continues to occupy them as such,[74] and property does not lose its homestead character altogether when the wife temporarily leaves the husband who remains on the premises[75]

just cause and without intent to return to him, her rights in his homestead property are thereby abandoned or forfeited,[76] especially where she also lives in adultery.[77] A fortiori is this so where she removes from the state without any intent to return and cohabits with another man for several years.[78] It has been held that, if the fee to the premises is in the wife, she may on abandoning him and her home sue in ejectment for possession as against him,[79] but it has also been held otherwise where the homestead was selected with the wife's consent from her separate property.[80]

§ 160. —— Divorce

a In general
b Effect on husband's right
c Effect on wife's right

a. In General

A homestead exemption may or may not continue after a divorce. Determining factors may be the existence or nonexistence of minor children and disposition or nondisposition of the property by the divorce decree

The homestead character of property may continue after a divorce[81] where the property is occupied by constituent members of the family, including minor children.[82] So, too, a divorce does not destroy the homestead rights of the family where there are minor children who, with one parent, continue to occupy and use the premises.[83] On the other hand, a divorce terminates homestead rights where the couple is childless[84] and, after the divorce, the person claiming the homestead is not the head of a family.[85] In other words, where the homestead exemption is based wholly on the marriage relationship, it is dissolved when the relationship is dissolved by the divorce decree,[86] it being destroyed by voluntary abandonment on the part of the actor who brings the suit[87] and, as against defendant, as a part of the judicial result of his or her derelictions during the existence of the relationship.[88] Also, if the divorce is accompanied by a partition of the homestead between the parties,[89] or if the decree sets apart premises to the wife for life, and she, having no family, continues to occupy them,[90] the privileged character of the property is destroyed. The power or duty of the court in a divorce action to dispose of homestead on granting divorce is discussed in Divorce § 294 c, and on denying divorce in Divorce § 291.

An interlocutory divorce decree does not impair a homestead,[91] and a decree of annulment of marriage is not a decree of divorce within a homestead exemption statute declaring that the right shall continue in favor of the party to whom it is adjudged by a divorce decree during continued personal occupancy by such party.[92]

Community property. By virtue of valid express provisions therein, a decree in a divorce suit may effectively vest all of the community property in one spouse and destroy the homestead in such property,[93] but, where a decree of divorce makes no provision as to community property occupied as a homestead, the former husband and wife hold the property as tenants in common, as discussed in Divorce § 180 b, and the homestead rights of each may continue in respect of his or her share.[94]

Childless couple

In one case it was said that the homestead character of community property continues after dissolution of the marriage contract where no child or children are born to the union, but it was also said that no creditor may seek to subject the property on the theory that, there be-

Effect on rights of children When not conferred by statute, children are without homestead rights, after a divorce, in property occupied as a homestead at the time of the divorce.[95] Sometimes, it is provided by statute that the title to the homestead shall be vested, by decree of the court granting the divorce, in the wife, and after her death, it shall pass to the children,[96] but the right under such a statute is lost when the wife does not seek and obtain it[97]

b. Effect on Husband's Right

While it is otherwise as to his homestead rights in the wife's separate property, a husband's homestead rights in his own property survive the granting of a divorce where he continues to occupy the property and there are minor children whom he is obligated to support.

The homestead rights of the husband in his own property may continue after the granting of a divorce[98] where the divorce decree makes no disposition of the property[99] and he continues thereafter to occupy the land,[1] even though he occupies the property alone[2] or no family lives with him,[3] and even though the divorce was procured by the wife[4] His homestead rights continue where there are minor children and they remain with him[5] or even where the custody of such children is awarded or voluntarily relinquished to the wife,[6] since he still is under the legal and moral obligation to support them,[7] but, according to some authorities, it is otherwise where there are no minor children and no other persons living with him, such as will give him the status of the head of a family.[8]

In separate property of wife The husband's statutory right of homestead in the separate property of his wife will cease if a decree of divorce is granted either in her favor or in his,[9] unless the right to the homestead is permitted by statute to be secured to him by the decree and is so secured[10] It is immaterial in such case that he continues to occupy the premises, especially when he allowed the family to separate from him,[11] and the wife may recover possession of the premises by ejectment or a proceeding in the nature thereof.[12]

c. Effect on Wife's Right

Subject to some exceptions which are not uniform in the different states, a wife's homestead rights in her husband's property cease, and her homestead rights in her own property continue, after a divorce.

In the absence of statutory provision to the contrary, a wife's homestead rights in her husband's property cease after a decree of divorce,[13] where he continues to occupy such property[14] and the divorce decree makes no disposition of the property,[15] or, according to some authorities, even where she occupies the property[16] and has obtained, in the divorce decree, a statutory allowance or allotment of one third of his property[17] It is held to make

no difference that the custody of the children is given to the wife,[18] but it is also held that, where the wife obtains a divorce and custody of the children, the homestead right passes to her as the head of the family.[19] Also it has been held in some states that, where the wife and children continue to occupy the homestead after a decree of divorce, the wife, as the head of the family, may claim it as exempt as against creditors of the husband,[20] but this is denied in others.[21] In some jurisdictions the wife is entitled to a homestead in her husband's property if she is abandoned by the husband who procures a divorce by publication and without her knowledge.[22]

Separate property A divorced wife who resides on her own separate property with her minor children whom she supports is entitled to a homestead in such property,[23] but a woman who has been divorced and has no children is not entitled to a homestead in property which she owns.[24]

§ 161. —— Separation by Agreement

Homestead rights may continue while husband and wife are living apart; and, under some, but not other, circumstances this may be true notwithstanding an agreement between the parties whereby property is partitioned or transferred between them

The homestead character of property may continue while husband and wife are living apart, where he resides on the property and discharges his obligation to support her.[25] The homestead right of the wife may continue while husband and wife are living apart,[26] and so may the homestead right of the husband where he resides on the property and discharges his obligation to support her and there are no grounds for divorce.[27]

It has been held that, where, on separation by agreement, there is a division of the property including the homestead, this constitutes an abandonment of the homestead by both husband and wife.[28] Also, it has been held that the husband abandoned the homestead where, in pursuance of a separation agreement and his intention to abandon the property permanently as his home, he executed a deed of the property to the wife and lived separate and apart from her for several months.[29] Under some

circumstances, however, where husband and wife are living apart and an agreement relative to property is entered into by them, certain property remains the homestead of husband and wife notwithstanding the retention of the property in question by the husband on partition of all their property,[30] or the wife retains her homestead rights notwithstanding the giving of a deed to the property by her to the husband.[31]

§ 162. Forfeiture

In accordance with the rule that forfeiture of a homestead is not favored, various specific matters have been held not to forfeit or divest a homestead right or exemption

Forfeiture of a homestead is not favored.[32] The right of a homestead claimant is not affected by the fact that he also asserts an unfounded claim as absolute owner of the premises,[33] or that he commits perjury in swearing to a false schedule in making a claim for a homestead exemption.[34] Where, in an action against a husband, land was attached, and thereafter the wife intervened, claiming the land as her own, and a mortgagee also intervened, asking that his mortgages be declared prior liens to the attachment, the facts that the wife may have sworn falsely in assisting the mortgagee to have his mortgage liens established, and that no demand was made that the mortgagee be required first to exhaust the land described in the mortgage other than the homestead, did not operate as a forfeiture of the homestead or warrant a decree that the mortgage be first satisfied out of the homestead.[35] The question whether forfeiture of homestead rights results from abandonment or desertion of one spouse by the other is discussed supra § 159, and whether absence or removal from premises constitutes forfeiture or abandonment infra §§ 164–166.

Notwithstanding some decisions to the effect that a homestead exemption is lost by a conveyance with intent to defraud creditors, as discussed in Fraudulent Conveyances § 31 a, it is generally considered that a homestead right or exemption is not forfeited, defeated, or divested by the making[36] and setting aside[37] of a fraudulent conveyance of the property. On the other hand, it has been held that a debtor cannot claim a homestead exemption in land taken by him in exchange for goods transferred in fraud of his creditors.[38]

B ABANDONMENT OF HOMESTEAD

§ 163. In General

In most states, a homestead may be abandoned. Also, a part of a lot or tract may be abandoned as a homestead. The question whether there has been an abandonment is largely, although not entirely, one of intention and is to be determined from all the pertinent facts and circumstances of the particular case. Usually, the intentions of the husband, rather than those of the wife, are controlling

Abandonment, as it relates to homesteads, has been distinguished from waiver in that it is nonjudicial action, while a waiver is the act of the owner in a suit or judicial proceeding.[39] However, as appears infra §§ 181–186, a waiver, although it may arise from the act of the owner in a suit or judicial proceeding, may also arise otherwise. Also, abandonment is sometimes spoken of as a form of waiver, as in the statement that a homestead once acquired can be waived only by abandonment or

by alienation in the manner provided by law.[40]

In some states, it seems that there is no such thing as an abandonment of a homestead right, except in the sense that, where a person owns more than one parcel of land, he may claim the right as to one parcel and later abandon that as his homestead and claim another.[41] In most states, however, a homestead may be abandoned[42] by the owner of the property[43] or head of the family,[44] and the right to the homestead exemption may be lost by abandonment.[45] The question whether there has been an abandonment of a homestead is to be determined from all the pertinent facts and circumstances of each particular case as it arises.[46] An abandonment of a homestead exemption is largely,[47] primarily,[48] and almost entirely[49] and exclusively,[50] a question of intention,[51] to be determined from the facts and circumstances of each particular case,[52] but, while an intention to abandon is ordinarily necessary,[53] an abandonment of a homestead right cannot be accomplished by mere intention,[54] the intention must be accompanied by

actual cessation or discontinuance of use of the property for homestead purposes.[55] Where it is sought to base abandonment on removal from the premises, there must be both removal and intention, as discussed infra §§ 164, 165, an unexecuted intention to remove not being sufficient, as discussed infra § 167; and, as stated infra § 169, an unexecuted intention to sell the property is not sufficient. It is unnecessary to decide any question relating to the subject of abandonment of the homestead right where such right did not exist at the time in question.[56] Abandonment of homestead right acquired by survivorship is considered infra § 273, and abandonment of spouse, or spouse and children, by other spouse as affecting homestead rights supra § 159.

In a few states the abandonment of a homestead is purely statutory,[57] the exclusive method for accomplishing an abandonment being provided by statute.[58]

Part of property constituting homestead A part of a lot or tract may be abandoned as a homestead,[59] if there is an intention that cessation of use of such part for purposes of a home shall be permanent,[60] and the abandonment is done in good faith[61] and by acts clearly evidencing the intention.[62] This is true, even though the part claimed to be abandoned is contiguous to that retained as a homestead.[63]

Act or intention of husband or wife Usually, abandonment of a homestead is the act of the husband,[64] and his intentions, rather than those of the wife, are controlling,[65] but, if the husband has abandoned the wife, and she is acting as head of the family, her act alone is sufficient to evidence an abandonment, as discussed supra § 159. There may be an abandonment by both husband and wife where they are joint tenants.[66]

§ 164. Removal from Premises

In most states, a removal from the premises may be, but is not necessarily, an abandonment of the homestead, the question of whether it is an abandonment being one, or largely one, of intention. Under the statutes of a few states, a removal is not an abandonment unless it is a permanent removal beyond the limits of the state.

stead can be abandoned only by a declaration of abandonment or by a grant, as considered infra § 172, or there are statutes under which occupancy is not necessary[68] or the homesteader may, within a limitation of value, claim an infinite number of parcels anywhere within the state,[69] it is a rule of general application that the homestead exemption may be lost or abandoned by a removal from the premises[70] under circumstances clearly indicating that the removal is not merely temporary.[71] Indeed, some authorities declare that a homestead, once acquired, can be abandoned in no other way than by moving from the premises with the intent to abandon them as a home,[72] but it is more often considered that there are other ways in which abandonment may be accomplished, such as a change in the character of the use of the property, as discussed infra § 171, or, under statute, a declaration of abandonment, as discussed infra § 172. The question whether conveyance above, or in connection with other matters, constitutes an abandonment is considered infra §§ 168, 172, 173.

Continuous actual occupation of,[73] or residence on,[74] the premises by the homestead claimants is not necessary in order to preserve or continue the homestead rights therein. So, also, for this purpose, the occupation need not in all cases be a personal occupation by the debtor himself at all times and under all circumstances.[75] A homestead claimant is not required to remain on the premises all of the time,[76] and he does not necessarily lose, forfeit, or abandon his homestead rights merely by removing[77] or being absent[78] from the premises, especially where the absence is temporary.[79] Even

Temporary absence and intent to return see infra § 166 a.

absence for a long period is insufficient of itself to establish abandonment of a homestead,[80] but it is a matter proper to be considered, in connection with other circumstances, in determining the question of abandonment.[81] The question whether one who removed from his homestead has abandoned it is one of intention,[82] or is largely one of intention,[83] which must be determined from the facts and circumstances attending each case.[84] So, also, the question whether a claimant who, during certain periods, was absent from the property and left it unoccupied has abandoned the homestead depends on his intention.[85]

If the homesteader is demented or too weak-minded to form a rational purpose of abandonment, none will occur, although he absents himself from his home.[86]

Resumption of occupation of a homestead once abandoned by removal gives a right of exemption dating from,[87] and only from,[88] the commencement of the new occupancy.

Removal from state A homestead exemption may be lost when the owner removes from the state and becomes a nonresident,[89] and, after it has been so lost, a return to the state in which the homestead premises are situated does not revive the homestead rights.[90] Under constitutional or statutory provisions requiring a homestead claimant to be the head of a family, as discussed supra § 24 a, and a resident of the state, supra § 18, a homestead exemption may be lost by the owner ceasing to be the head of a family, residing in the state,[91] and the exemption ceases when the family residing in the state ceases, by removal, so to reside.[92] Under provisions conferring the right of exemption on the family, as discussed supra § 23, it has been held that the right does not cease on a removal by the head of a family into another state to establish a new home if the family remains in possession of the original homestead.[93] Temporary removal to another state and intent to return are discussed infra § 166 a, and temporary renting or leasing of premises while owner is in another state infra § 175.

§ 165. —— Removal without Intent to Return

Either a lack of intention to return to the property and occupy it again as a home, or an intent never to do so, is necessary and sufficient to render a removal from the premises an abandonment of the homestead. Even where no new homestead is acquired, an actual removal with no intent to return, or with an intent never to occupy the property again as a homestead, is an abandonment.

While it is very generally held that, in order to constitute an abandonment of a homestead by a removal from the premises, the removal must be accompanied by an intent never to return,[94] or occupy the property as a homestead,[95] or claim the ex-

emption,[96] or the removal must be without an intention to return and reoccupy the premises as a home,[97] yet it is equally well settled that an actual removal from the homestead with no intention of returning to it[98] and occupying it as a home,[99] or with a definite intention never to return,[1] or an intent not to occupy the property again as a homestead,[2] constitutes an abandonment of the homestead exemption, and, a fortiori, there is an abandonment where there is not only a lack of intention to return, but also an intention to occupy another house at a future time.[3] It is generally considered that, even where a new homestead is not acquired, an actual removal with no intention to return,[4] or with an intent never to occupy the property again as a homestead,[5] amounts to an abandonment; but it has been held otherwise under a particular statute.[6] Effect of acquisition of new homestead is considered infra § 170.

§ 166. —— Removal with Intent to Return

a. In general
b. Absence due to casualty or necessity
c Absence for business purposes
d Absence for education of children
e Absence on account of health
f. Filing claim or notice on removal

a. In General

A person may remove from his homestead without abandoning it, provided he has, in good faith, from the time of removal, a fixed, constant, abiding, and continuing intent to return to the property and occupy it as a homestead, and provided such intention is not vague, indefinite, or ineffective because of a condition attached thereto.

A removal from property constituting a homestead does not cause an abandonment of the homestead where the owner has an unqualified,[7] fixed, and abiding[8] intention to return to the property[9] and occupy it as a homestead,[10] where such intention remains at all times,[11] and no other homestead is acquired[12] This is true even though the removal is to another state[13] So, also, a temporary absence or removal, or a removal for a temporary purpose,[14] from the homestead will not forfeit, or constitute an abandonment of, the right of exemption where there is a constant,[15] abiding,[16]

continuous,[17] definite,[18] fixed,[19] and settled[20] intention to return,[21] or, as sometimes expressed, an ever-present intention to return and occupy the property as a homestead,[22] where the intention is entertained honestly[23] and in good faith,[24] and the owner does nothing inconsistent therewith;[25] and it has been held that this is so, even though the removal is to another state,[26] or other governmental subdivision,[27] and even though the absence continues for several years.[28] Nevertheless, the element of lapse of time during which the owner has remained away is a matter to be considered, see supra § 164, and if the absence is prolonged, it may, if there is no evidence of a fixed intention to return, constitute an abandonment.[29]

A person removing from his homestead must, to avoid an abandonment thereof, have, from the time of removal,[30] a constant,[31] abiding,[32] continuing,[33] fixed,[34] specific,[35] and unequivocal[36] intent to return; a vague[37] or indefinite[38] intention is not sufficient. If at the time of removal there is an intention to return, but this intention is subsequently abandoned, the original intention ceases to be effective and there is an abandonment of the homestead right in the land,[39] and no resumption of the intention will reclaim the right to a homestead;[40] and although a homesteader who has removed from the premises with no intention to return may change his intention to resume possession and thereby reinvest the property with the homestead character,[41] such resumption of possession has only the effect of creating a new homestead right from the time of the new occupancy,[42] and it does not affect the rights of third persons acquired in the interim between the loss of the old and the acquisition of the new homestead.[43] It has been said that the intention to return formed on leaving the homestead must be executed by a resumption of the occupancy that once characterized the premises as a homestead.[44] To retain his homestead rights one leaving a homestead must in good faith intend to return at some future date,[45] but it is not essential that he

Mere claim of intent

Where the case is not one of temporary absence with a fixed intention of returning to one's residence on the premises, but is one where claimant was absent for a period of ten years, during which time he established two homes several miles distant and a third home in another state, the mere claim that during all this time he intended at some future period to build on the land and occupy it as a home is not sufficient to support a claim of homestead.—Richardson v. should intend to return at any particular time in the future [46]

The intention of a homesteader to return to and occupy the homestead after the termination of a removal therefrom is to be gathered not only from his declarations, but also from his actions and the surroundings and environment accompanying his absence [47]

Conditional intention. A removal from a homestead may constitute an abandonment thereof where the intent or purpose to return is contingent on the happening or not happening of a certain event,[48] especially where claimant intends to avoid the contingency,[49] as where he intends to return only in case his business is not a success,[50] or he cannot make a living elsewhere,[51] or he cannot make a sale of the homestead premises.[52] So, also, there is an abandonment where the condition attached to the intention to return, such as the erection and living in a new house on the premises, indicates that the owner will not occupy the premises again as they now exist [53] However, it is not necessary that there should be an intent to return regardless of all possible contingencies,[54] and a conditional intention of acquiring a residence elsewhere has been held not fatal [55] Qualified or conditional intent not to return is considered supra § 165

b. Absence Due to Casualty or Necessity

No abandonment is occasioned by a removal or temporary absence caused by some casualty or necessity and accompanied by an intent to return as soon as circumstances will permit Under a particular statute, a cessation of residence on the property must be so caused and be attended by such intent to avoid an abandonment

In order to constitute an abandonment of a homestead a removal must be voluntary and not under compulsion of any kind.[56] An abandonment is not occasioned by a removal or temporary absence caused by some casualty or necessity,[57] if there is an intention of returning as soon as circumstances will permit,[58] and if such intention is not abandoned [59] The fact that the length of enforced absence cannot be accurately forecasted will not alter the effect to be given the intention to return,[60] and it has been held that the rule applies regardless of the length of the absence.[61]

A casualty or necessity within the rule may consist of the destruction of the homesteaders' dwelling house,[62] or its unfitness for human habitation,[63] the disturbed conditions of the country,[64] a judgment or decree of court,[65] an execution sale,[66] imprisonment,[67] confinement in an asylum because of insanity,[68] or poverty [69] Where a mortgage by a husband was valid as against the homestead right and the wife of such mortgagor was compelled by the mortgagee to leave the homestead during her husband's life, she was not deprived of her rights of homestead after his death although the husband paid rent to the mortgagee for the same premises [70]

70. N.H.—Wood v. Lord, 31 N.H. 448.

Under a statute providing that, whenever the debtor shall cease to reside on the property, it shall be liable to his debts, unless his removal be temporary, by reason of some casualty or necessity, and with the purpose of speedily reoccupying it as soon as the cause of his absence can be removed, both a sufficient cause for removal and an intent speedily to reoccupy must exist to protect the homestead exemption.[71] The statute allows only a removal which may be justly adjudged as temporary,[72] it requires a speedy return as soon as the cause of absence can be removed, and, under it, there is an abandonment, notwithstanding an intent to return, where the obstacle in the way of a speedy return may never be removed.[73]

c. Absence for Business Purposes

A temporary removal or absence for business purposes, with a continuing intent to return, does not constitute an abandonment of a homestead.

To constitute an abandonment of a homestead by reason of removal for business purposes, there must in addition be an intent not to return to the property as a home.[74] A removal for temporary business purposes will not debar the debtor from his exemption[75] if he continually purposes to return.[76] Hence such absence to engage in trade,[77] to seek or engage in work elsewhere,[78] to raise crops during several seasons on the land of another,[79] to dispose of a stock of goods owned by the wife,[80] to hold an official position,[81] or to secure a more convenient location for the practice of medicine,[82] will not forfeit, or constitute an abandonment of, the homestead. However, the intent not to return may appear notwithstanding the declarations of the homesteader to the contrary,[83] and an abandonment takes place where the absence is for a lifelong purpose and is in the pursuit of practically the life work of the debtor.[84] A reasonable time will be allowed after the completion of the business to return to the old home,[85] and, if the debtor is prevented forcibly from so doing his homestead rights will continue for a reasonable time after the removal of the preventing cause.[86]

d. Absence for Education of Children

Absence for the purpose of obtaining better educational facilities for the debtor's children, and not intended to be permanent, is not an abandonment of the homestead.

If the debtor removes from the home property for the purpose of obtaining better educational facilities for his children, his absence is not regarded as an abandonment, if the removal is not intended to be permanent,[87] even though he votes in the city of his temporary residence[88] or subsequently sells the homestead and never returns.[89] Especially is the rule applicable where he left a tenant

in possession[90] and with the proceeds supported his family,[91] or where he rented a part of the property but continued to cultivate the balance.[92]

e. Absence on Account of Health

A homestead is not abandoned by a temporary absence due to the state of health of the debtor or some member of his family.

A debtor may be absent without abandoning his homestead where the state of his health, or that of some member of the family, renders it necessary or advisable for him to remove temporarily from his home,[93] and he intends to return,[94] or no intent to abandon the homestead appears,[95] and especially is this so where he leaves a tenant in possession.[96]

f. Filing Claim or Notice on Removal

As properly construed, and within their limited sphere of operation, statutes requiring notice of claim of homestead to be filed in case cessation of occupancy continues more than a prescribed period, or providing that, when a declaration of a claim of homestead has been filed, the leaving of the homestead temporarily shall not operate as an abandonment, will be accorded effect

A statute providing that, when a declaration of a claim to a homestead has been filed in the probate office, the leaving of the homestead temporarily shall not operate as an abandonment does not add anything to the essential rights and privileges of the owner,[97] although it may aid him in the proof thereof,[98] the filing of the declaration being prima facie,[99] although not conclusive,[1] evidence of an intent to return, and, in the absence of evidence to the contrary, stamping on the place the brand of a homestead.[2] So, also, while the court will note a failure to prove compliance with the statute,[3] the statute does not deny to the owner, leaving temporarily, any privilege he had previously enjoyed,[4] and, notwithstanding a failure to comply with the statute, there is no abandonment where an owner leaves his home only temporarily, with an intention to return, and without putting it out of his power at any time so to do[5]

Under another statute requiring notice of claim of homestead to be filed in case cessation of occupancy continues more than six months, the homestead exemption is lost by ceasing to occupy the property more than six months and failing to file the notice,[6] even though there is an intention to return;[7] but retention of the homestead within the six months' period is not dependent on the filing of the notice;[8] and where the owner removes from, and ceases to occupy, the homestead, with the intention of permanently abandoning it as a home or place of residence, his homestead right ceases immediately and does not continue for six months,[9] nor is it preserved or continued by filing the statutory notice[10]

§ 167. —— Effect of Intent to Remove without Actual Removal

When it is unperformed, an intention to remove from the premises is not an abandonment.

An unperformed intention to remove from the premises will not constitute an abandonment; there must be an intention to change the residence and an actual change.[11] This is true, even though the intent to remove is accompanied by preparations

for removal.[12] However, it has been held that, where the owner of a city homestead makes all preparations to abandon it and to reoccupy a former country homestead as speedily as possible, but is prevented by sickness and death from actually taking possession, the country homestead becomes reinvested with its homestead character and there is an abandonment of the city homestead.[13] Insufficiency of intent alone to effect abandonment of homestead generally is discussed supra § 163.

§ 168. Removal and Conveyance

An abandonment may arise from a removal from the premises followed by a conveyance, or a conveyance followed by a removal.

If the homesteader and his family remove from the premises and he afterward conveys them by a valid and absolute deed,[14] or if there are a sale and a conveyance followed by a removal from the premises[15] and delivery or surrender of possession to the grantee,[16] this constitutes an abandonment of the homestead, or at least it is prima facie sufficient to show an abandonment;[17] but it has been held that a sale and a conveyance of, and removal from, the land do not constitute an abandonment of the homestead so as to make the land subject to the payment of a judgment.[18] Sale and conveyance of property as abandonment of homestead generally are considered infra § 173. The question whether abandonment arises on marital separation and division of property or conveyance to wife is discussed supra § 161.

Defective or invalid conveyance. The execution of a deed to the homestead without conforming to legal requirements if followed by delivery of possession to the purchaser constitutes an abandonment;[19] but the execution of an invalid deed without a previous abandonment is not conclusive of abandonment unless accompanied or followed by surrender of possession to the purchaser.[20] If the removal follows a conveyance void by statute because not joined in by the wife, the homestead is not considered as abandoned.[21]

§ 169. Offer or Unexecuted Intention to Sell

A mere offer, attempt, or unexecuted intention to sell property constituting a homestead is not of itself an abandonment of the homestead.

A mere attempt[22] or offer[23] to sell homestead premises, or an unexecuted intention to sell and reinvest the proceeds in another home,[24] does not of itself amount to an abandonment of the homestead, even though, in the case of an offer, the owner, at the time thereof, is temporarily residing away from the premises,[25] an offer to sell not being necessarily inconsistent with an intention to return and reoccupy the property as a home if not sold.[26] However, it has been said that an offer to sell one's homestead not then in occupation as such is a fact to be considered on the question of intent to abandon.[27]

There was no abandonment by removal under contract to sell, where the purchaser abandoned the contract and the widow and children of the owner who had died immediately after the execution of the contract returned to the premises within a few months after the contract was made.[28]

§ 170. Acquisition of New Homestead

Abandonment of a prior homestead necessarily results from the acquisition of a new homestead, and the same result may, but does not necessarily, follow the

removal to, and occupancy of, other property under circumstances entitling the occupant to claim it as a homestead, the question being one of intention.

Since no one can own two homesteads at the same time, as considered supra § 13, if the debtor acquires a new homestead he thereby abandons and loses his homestead rights in the former place of residence.[29] This is so, although he leaves part of his furniture in the prior residence, or files a notice that he claims the premises as exempt.[30] Removal, without acquiring new homestead, as abandonment is discussed supra § 165

The best evidence of the abandonment of a former homestead is the fact that a new and permanent home has been acquired[31] and appropriated as such.[32] The removal of the owners from one property to another, and the occupancy and use of the latter property as a homestead, unaccompanied by any act evidencing an intention to return to the former home, silently, but effectively, proclaims the latter property to be their homestead and constitutes the highest and most conclusive evidence of the abandonment of the former property as a homestead.[33] However, the mere fact of acquiring, and moving on, another piece of property does not conclusively establish abandonment.[34] A person may retain his old homestead notwithstanding removal to, and occupancy of, other property under circumstances entitling him to claim it as a homestead,[35] provided he does not form an intention never to return to the original property and occupy it as a homestead.[36] In a case of acquisition of, and removal to, other property, the question of abandonment depends on the intention of the head of the family,[37] to be determined from the surrounding circumstances,[38] but there is no abandonment of a homestead at the time of the execution of a deed of trust on newly acquired property where the latter property has not yet been used for homestead purposes, even though the owner has contracted to sell the property on which he is living and has declared his intention to abandon such property and reside on the newly acquired property.[39] Where there is no intention to abandon the prior homestead, the temporary occupancy of other property which might be claimed as a homestead does not constitute an abandonment,[40] and it has been held that a person who has acquired a new residence, although not a homestead, cannot be permitted to insist on the homestead right to defeat a deed or mortgage executed by him while occupying such newly-acquired residence, and which fails to release the benefit of the act,[41] unless it clearly appears that the new residence is only temporary.[42]

42. Ill.—Titman v. Moore, supra.

It has been held or stated, on the one hand, that a homestead is abandoned by taking up a permanent abode at a distant place,[43] and, on the other hand, that the acquisition of title to, and occupancy of, premises in a near-by town do not alone amount to such permanent absence from the homestead as to work an abandonment thereof as long as an intention to return to the homestead exists[44]

§ 171. Change in Character or Use of Property

A homestead may be abandoned in whole or part by changing the use of all or a part of the homestead tract so that it is no longer of a homestead character

The homestead may be abandoned either in whole or in part by changing the character of the use of all or a part of the homestead tract from residence purposes to some other character of use which will deprive it of the homestead character[45] Since a residence exempt as part of a homestead loses its identity when utterly destroyed or demolished, the material, when hauled away and used in combination with other material for the construction of another house on other land which is subject to a mortgage, does not carry with it the exemption of the homestead house, of which it had formed part, but as part of the house into which it thus enters becomes subject to the mortgage resting on the land[46]

Before it will be held that a part or portion of a homestead has lost its exemption right, it must appear that there was an intention to abandon it as a homestead[47] and that it has been put to a use inconsistent with the homestead character of the premises[48] It has been held that a landowner does not lose, destroy, or abandon his homestead exemption by using part of the homestead for business purposes,[49] erecting on the land some structure useful to him in his business or calling,[50] creating an easement on or through the land,[51] enlarging the building constituting his home,[52] moving his dwelling from one part of the homestead premises to another,[53] removing one of two houses from the premises,[54] or, as to a tract which continues to be used as a part of the homestead, by residing on a separate tract which also forms a part of the homestead[55] The building of a house for the owner's son and grandchildren on a portion of his homestead lot is not an abandonment of that portion[56] Where property in which homestead rights exist is owned by cotenants and is not partnership property, devotion of the use thereof to partnership purposes does not cause a cessation of homestead rights,[57] especially in a state where, as

long as actual occupancy of a homestead exists, its use otherwise matters little [58] Cessation or discontinuance of use of property for homestead purposes as essential element of abandonment of homestead generally is considered supra § 163.

§ 172. Declaration of Abandonment

By virtue of express statutory provisions in a few states, a homestead may be abandoned only by a declaration of abandonment or by a grant.

Real property may be abandoned in whole or in part as a homestead by express declaration and conduct consonant therewith [59]

Under the express provisions of some statutes, a homestead may be abandoned only by a declaration of intent to abandon, signed, acknowledged, and recorded, or by a grant executed and acknowledged as provided by statute [60] Hence a removal from the premises,[61] or the execution of a mortgage,[62] a lease,[63] or a lease and the purchase of other property and residence thereon,[64] will not destroy the exempt character of the premises, and, in the absence of such declaration or grant, no other premises than the original homestead may be claimed as exempt [65] A deed of the homestead, or part thereof, by a husband to his wife is not an abandonment within these statutes,[66] nor is a quitclaim deed by the wife to the husband, signed by the wife alone, even though, as part of the same transaction, the husband quitclaims other property to the wife, as, under the statute and the construction thereof, a homestead cannot be abandoned by separate instruments separately executed by the husband and wife [67] On the other hand, a joint conveyance of the homestead by the husband and wife,[68] a quitclaim deed,[69] or an agreement of separation between husband and wife which provides for an equal division of all property between them,[70] provided it is recorded,[71] is a grant within the meaning of these provisions, and an abandonment of the homestead Indeed, it has been stated broadly that the word "grant," as used in such statutes, is applicable to all transfers of realty, including transfers by operation of law as well as voluntary transfers [72] There may be a destruction of the homestead right when title to all or a portion of the homestead property is transferred to a third person, even though the conveyance contains a reservation of the right of possession and profits during the life of the spouses,[73] but it is otherwise where there is a reservation of a life estate sufficient to support the homestead [74] Also, a conveyance may destroy the homestead right even though the property or a portion thereof is immediately reconveyed to one of the spouses as a part of the same transaction,[75] but the opposite conclusion was reached where a deed was given by husband and wife to another in constructive trust for the wife's use and benefit, without intent to convey any beneficial interest to the grantee, and the grantee subsequently reconveyed the legal title to the wife without consideration [76]

§ 173. Sale and Conveyance

While, in so far as the homesteader himself is concerned, a valid conveyance of homestead property may constitute a loss, destruction, or abandonment of the homestead exemption, there are various situations, involving, in most cases, a simulated transaction and

lack of intent to vest any beneficial interest in the grantee, in which a conveyance is not an abandonment. In connection with other circumstances, a parol sale or defective deed may cause an abandonment; but a mere executory contract to sell does not do so.

In so far as the homesteader himself is concerned, there is a loss, abandonment, or destruction of the homestead exemption on a valid conveyance of the homestead property,[77] especially when the conveyance is followed by a surrender of possession to the grantee, as considered supra § 168, or where the proceeds are appropriated to the purchase of other property not exempt from seizure and sale for debt,[78] and after the exemption has been so lost, it is not revived by a reacquisition of the property by the former owner,[79] although the property may, on reestablishment of a home thereon, take on a new and independent homestead status.[80] However, a conveyance of homestead property by a judgment debtor may raise no question of abandonment that will affect the homestead right of the purchaser.[81] The question whether grantee of homestead property takes title free of claims and judgments against grantor is considered supra § 149, and the question whether judgment is enforceable lien after conveyance of debtor's homestead property supra § 109

Conveyance of undivided interest
(1) Where husband and wife after they had acquired their homestead in property conveyed an undivided one-half interest in the property to another in manner provided by law for sale of homestead, husband and wife thereby voluntarily subordinated their homestead right to all the rights and obligations appertaining to relation of tenants in common, and consequently they thereafter stood in same position as if their homestead rights in property had been acquired after parties had become tenants in common in the property—Sayers v Pyland, 161 S W 2d 769, 139 Tex 57, 140 A L R 1164, reversing Pyland v Sayers, Civ App, 148 S W 2d 450

The cancellation, by agreement of parties, of a deed made by husband and wife, which had conveyed the absolute title to the homestead, and had declared the amount of unpaid purchase money, without express reservation of a vendor's lien, cannot reinvest the husband and wife with such homestead rights in the land as will prevent it from being subjected to forced sale to satisfy notes for the unpaid purchase money in the hands of one who acquired them before cancellation of the deed—Brooks v Young, 60 Tex 32

Deeds executed for convenience
Where landowner conveyed land

property by a surviving husband to his children,[84] a conveyance of homestead property to a third person to enable the grantor to borrow money from a bank, which was not intended to vest in the third person any beneficial right to the land,[85] the execution of a deed of the homestead by parents to their son to induce him to live with them on the homestead and to secure his assistance in maintaining them on the premises,[86] a voluntary conveyance of a homestead, reserving to the grantor the rents thereof for life,[87] or by a mere assignment[88] in trust for the assignor[89] Also, the homestead of a person owning an undivided interest in land remains notwithstanding the land has been ordered to be sold in order to divide the proceeds,[90] and there is no abandonment of a homestead where the purpose of an agreement of partition of property constituting the homestead is only to place the legal title of one half in the wife and title to the other half in the husband, and there is no intent to convey homestead rights,[91] but a devisee and his wife abandon their homestead rights, if any, in that part of property which they deed to a codevisee who is unmarried and can have no homestead rights[92] When not otherwise abandoned or extinguished, a homestead may continue notwithstanding the husband's conveyance, or pretended conveyance, of his part of, or interest in, the homestead property[93]

Remaining in possession. Notwithstanding the grantor remains in possession at the sufferance of the grantee, property may cease to be the homestead of the grantor on the making of a real, and not a simulated, conveyance thereof,[94] or at least the question of abandonment is one of fact where there is an intent to abandon and the deed carries with it a right to immediate possession by the grantee,[95] but, where the grantor remains in possession, the homestead exemption status is not changed by a conveyance to a son or daughter[96]

Purchase of reversionary or dower interest A loss of homestead rights results from a purchase by the sole beneficiary of a homestead estate of the absolute title to the reversionary interest in the property out of which the homestead estate was carved, when it does not appear that it was the intention of such beneficiary to keep the two estates separate,[97] but a remainderman may acquire the dower interest on which his estate is expectant, even after levy of execution, and not lose his homestead rights[98]

Conveyance to wife or for her benefit Homestead rights are not lost by reason of a conveyance of the homestead property by the husband to the wife[99] Where the homestead is conveyed to a

third person, under an agreement that it shall be immediately reconveyed to the wife, which is done, the homestead rights are not affected;[1] but, in the absence of such an agreement, express or implied, a conveyance to a third person may constitute an abandonment notwithstanding a reconveyance to the wife.[2]

Invalid or defective deed A conveyance of the homestead premises, although itself defective, may, when taken in connection with other circumstances, work an abandonment of the homestead exemption,[3] as, for instance, where a new homestead is subsequently acquired,[4] or where the purchaser is put into possession, as considered supra § 168, but ordinarily a defectively executed deed, in the absence of delivery of possession, does not constitute an abandonment of the homestead.[5]

If the conveyance fails as to part of the interest sought to be conveyed, the grantor may afterward declare a homestead in that portion.[6]

An executory contract to sell a homestead does not as a matter of law deprive it of its homestead character,[7] but it is a circumstance to be considered by the jury in determining the issue of abandonment.[8]

Parol sale accompanied by delivery of possession A sale by parol when accompanied by delivery of possession to the purchaser amounts to an abandonment of the homestead exemption.[9]

§ 174. —— Conveyance as Security for Debt

It is generally, although not always, considered that, where he remains in possession of the premises, a person does not destroy his homestead exemption, or abandon the homestead to other creditors, by executing a mortgage or a deed absolute on its face, but intended only as security. Failure to redeem after foreclosure causes a loss of homestead rights.

The execution of a mortgage covering homestead property does not destroy the exemption[10] or constitute an abandonment of the homestead[11] to other creditors,[12] in the absence of foreclosure or interference with possession.[13] So, also, except as to an innocent purchaser,[14] destruction or abandonment is not caused by a conveyance absolute on its face, but intended only as security for a debt,[15] where the owner continues to reside and pay taxes on, and improve, the premises.[16] However, the giving of a second mortgage after a judgment lien has attached is held to be an extinguishment of the homestead as against the judgment lien.[17] Also, where a mortgage of the homestead to secure a loan would be contrary to law, the continuity of an intention not to abandon as a homestead property from which the owners have removed is deemed to be broken when they mortgage the property to secure a loan, as it will not be assumed that they would be parties to a void, illegal, and futile act.[18] Furthermore, the owner will not be permitted, after the execution of a mortgage, to claim exemption as against the mortgagees, where, at the time of execution, the owner was not occupying the prem-

ises and had not made known his claim of homestead, even though, under the law in force at the time, occupancy of the premises was not necessary.[19]

An instrument giving security on moneys due as oil and gas royalties does not withdraw minerals from a homestead exemption[20]

Mortgages as waiver of homestead rights are considered infra § 183, and the operation and effect of special waiver infra §§ 188–190

Reconveyance Where there has been a conveyance of lands as security for a debt, and later a reconveyance to the original grantor, there is no abandonment of the homestead right[21] A like conclusion has been reached where there was an agreement to reconvey on payment of the debt secured, the debt was paid, and the deed was returned, although no formal reconveyance was made[22]

Redemption or failure to redeem. Where, on foreclosure of a mortgage which releases the homestead, the mortgagor fails to redeem, he loses his homestead rights,[23] and the rule has the same operation as against a purchaser from the mortgagor, where he does not redeem,[24] but the homestead right is not extinguished where another creditor having no claim to the homestead redeems, and on sale of the premises there remains a surplus[25]

§ 175. Lease

The renting or leasing of homestead property, or a part thereof, may, under some circumstances, constitute an abandonment of the rented property as a homestead, but not where the renting or leasing is only temporary, there is no intent to abandon the premises as a homestead, and another homestead has not been acquired.

In one state, under an amended statute now in force, which differs not only from the original statute but also from the rule obtaining prior to the enactment of such statute, any leasing which transfers the exclusive possession to the lessee for any definite term is an abandonment of the homestead right unless the right is saved and preserved by the filing of a declaration of claim to the exemption[26] In most states, however, the mere renting or leasing of property does not destroy its homestead character,[27] since, if claimant in good faith intends at some future time to return and again occupy the property as his home, he may retain his homestead exemption right as against creditors,[28] but the renting or leasing is a proper matter to be considered, in connection with other matters, in determining the question of abandonment[29] A temporary renting or leasing of the homestead premises is not an abandonment of the homestead right[30] where there is no intent to abandon the premises as a homestead[31] and no other homestead has been acquired,[32] this being true even where the homestead-

er has removed from the state,[33] and it being especially true where the lease is by husband to wife, since this in itself indicates an intent that the right of occupancy shall remain in the family.[34] On the other hand, except in those jurisdictions where it is provided by statute that a homestead can be abandoned only by a declaration of abandonment or by a grant thereof, as considered supra § 172, leasing the premises and giving possession to the tenant with no intention of again occupying the property as a homestead will amount to an abandonment of the exemption,[35] even though the term covered by the rental contract is only a short period of time.[36] There must be an intention on the part of the owner again to use the property for residence purposes,[37] but the fact of renting or leasing the homestead in connection with other circumstances may show such an intent.[38] Where the homestead is rented or leased for such a length of time or under such circumstances as to constitute an abandonment, it commences from the time possession is surrendered to the tenant or lessee, although the term does not begin until a later date.[39]

Lease of portion of premises A temporary[40] renting or leasing of a portion of the homestead premises, the owner continuing to occupy and use the remainder, does not deprive such portion of its homestead character,[41] whether the portion rented is a part of the dwelling house,[42] or a separate building and the land it occupies.[43] However, the renting of a house located on the debtor's homestead may under some circumstances amount to an abandonment of the rented portion,[44] as where the rented portion is permanently detached for rental purposes,[45] or where a building is erected on a part of the homestead tract with no view of making it a part of the homestead, but solely for the purpose of renting it to others for mercantile or other purposes, as considered supra § 171.

§ 176. Miscellaneous Acts of Abandonment

Various miscellaneous acts have been claimed to constitute an abandonment of a homestead and, as to some, the contention has been sustained, but, as to many others, the opposite conclusion has been reached

An aged couple were deemed to have abandoned their homestead in a small farm which they surrendered to an adult son in consideration that he remain on the premises, operate the farm, and support them.[46]

Beryle, Tex.Civ.App., 88 S.W.2d 767, 769.

46. Iowa.—Robison v. Robison, 175 N.W. 9, 187 Iowa 1209.

There was no abandonment of the homestead where the owner moved from a town house to a country residence, leaving part of his personal effects in the former and intending to return,[47] where he removed from a farm homestead to a town, leaving most of his household goods at the former, and considered it his home,[48] where he left his residence for that of his son, selling his personalty, but soon afterward made arrangements to return to his former home and there reside,[49] where the husband and wife left the dwelling, removed their furniture and went out to work separately, the wife returning from time to time to care for the property,[50] or where the owner stored his personal property in his dwelling, and slept there part of the time, but took his meals elsewhere[51] Also, no abandonment was occasioned where the former residence tract was used in connection with a neighboring one to which the family of the homesteader removed[52] Abandonment cannot be predicated on representations alone,[53] and it does not result from the mere filing of a suit to partition the homestead property,[54] the payment of a poll tax in another county,[55] or the acceptance of a lease during occupancy under a contract to purchase[56] The fact that the owner, who is seeking to borrow money on the security of only a part of the property, proceeds to take the necessary steps to free that part from apparent liens which would attach except for the homestead character of the property, does not constitute an abandonment of the balance of the property as a homestead[57] The cessation of preparation, during the pendency of litigation regarding the homestead claim, to unite another house on the same lot with the house occupied is not an abandonment of the claim[58] Even a total cessation of use does not result in abandonment unless there concurs with the cessation the absence of any intention to resume use[59]

Devise The fact that a homestead is devised by the owner does not work an abandonment of the exemption,[60] and it has been said that the fact that the owner of a homestead disposes of a part of it by will does not have the effect of destroying the homestead character of the part which is not devised[61]

The question whether divorce is abandonment of homestead right is considered supra § 160, and the separation of husband and wife and division of property as abandonment supra § 161

§ 177. Abandonment of Business Homestead

There is no substantial difference between the rules for determining whether a business homestead has been abandoned and those for determining whether a residence homestead has been abandoned

The rules for determining whether a business homestead has been abandoned are substantially the same as those for determining whether a residence homestead has been abandoned[62] The element of intention is of vital concern[63] If the owner of a business homestead ceases to use the premises for business purposes with no intention to resume them or to pursue some other calling or business on the homestead property there is an end to the exemption,[64] and a mere intention again to occupy the premises as a place of business at some indefinite time in the future and dependent on a contingency which may not happen does not preserve the exemption[65] On the other hand, the homestead is not

Mere willingness to go into business again in the near future, without a definite intention to use the property in question in business at any definite time, coupled with the means of doing so, is not sufficient.—

abandoned where the owner temporarily quits business on account of illness with the intent to reëngage in business as soon as he is restored to health,[66] where the place of business is necessarily closed temporarily in consequence of the levy of an attachment on the stock and fixtures,[67] or where there is a temporary interruption of the conduct of the debtor's business by his performance of the duties of a public officer[68] A business homestead is not abandoned in part by tearing down a portion of the building standing on it, for the purpose of erecting a new building, which new building is immediately erected, and, before it is finished, is occupied and used in connection with the old one[69] Possession and use of a building for carrying on a business enterprise are not surrendered by an agreement to pay another tenant in common a certain sum monthly for designated purposes, including the payment of all taxes, insurance, and upkeep of the building[70]

Transfer There may be an abandonment of a business homestead where there is a transfer, in good faith, to a corporation of all the stock and fixtures used in the business[71] or a transfer of the real property to a corporation, an assignment by the corporation to others, and a holding of the property by the assignees for one year[72] However, a general assignment of the business homestead is not an abandonment where the homesteader retains his homestead, and carries on his business subsequent to the assignment[73]

Leasing While a mere temporary renting of the business homestead or a portion of it may not constitute an abandonment,[74] a leasing for several years, with an option of renewal, where there is only an indefinite intention to resume the business on the land, will constitute an abandonment[75] There may be no abandonment under the circumstances, notwithstanding a renting or leasing of a portion of the property,[76] but it is held that the leasing of a portion of the business homestead for purposes inconsistent with its use as such will operate as an abandonment of the business homestead in the portion so leased, where there is ample space left the owner for the business carried on[77] Where defendant made a general assignment, and his assignee sold his business homestead, and the person in possession paid only one month's rent to the purchaser, holding the remaining rent until the right to the homestead should be determined, there was no question of abandonment by lease or other contract[78]

Reasonable time for reembarking in business Where, because of ill health, failure in business, or any other good reason, the owner of a business homestead ceases to carry on the business in which he has been engaged, the property does not immediately become subject to forced sale, he is allowed a reasonable time in which to plan and arrange for, and embark in, some business, of the same or a different kind, at the same place, and during this interval the exemption of the place of business is not lost[79]

§ 178. Power of Husband to Abandon Homestead without Wife's Consent

In some, but not all, states, the husband may in good faith abandon the homestead without the wife's consent

In a majority of the states wherein the question has arisen, the husband may, provided he acts in good faith and without fraud on the rights of the wife,[80] abandon the homestead and withdraw it

from the right of exemption given by the homestead laws for the benefit of his family,[81] and he may do so without the wife's knowledge[82] or consent,[83] or against her wishes.[84] The rule applies to homesteads in both separate and community property,[85] and to business homesteads.[86]

Insanity of the wife does not affect the operation of the rule for the reason that her consent is not necessary.[87]

In some jurisdictions, however, where land has once been impressed with the homestead character, the husband cannot abandon the homestead without the wife's consent.[88] In such jurisdictions, the abandonment of a homestead by the husband and father while his wife is confined in an insane asylum does not deprive her of her right therein.[89] Similarly the wife cannot abandon the homestead and thereafter sell it to the exclusion of the right of her insane husband.[90]

Wife leaving premises voluntarily. Under the majority rule not requiring the wife's consent, the abandonment is not dependent for its validity on the wife's voluntarily leaving the property and ceasing to use it as her home,[91] although, if the wife voluntarily leaves the homestead to accompany her husband when he abandons it, there can then be no question that her homestead rights are lost,[92] even under the minority rule against abandonment without the consent of the wife.[93]

debtor and creditor with respect to a specific debt must exist between the parties at the time of the waiver in order to render it binding.[96]

Before or after allotment. While in some jurisdictions there can be no waiver of a homestead after it has been set apart,[97] in others the waiver may be made either before or after the property has been set apart[98]

General or special waiver Where the constitution provides that the waiver may be either general or special, the homesteader and his wife may restrict the waiver of their homestead rights as they think proper[99] The waiver may be as to all creditors,[1] a particular creditor,[2] or a particular debt.[3]

The waiver must be certain to the extent that it may be operative,[4] especially in the case of a special waiver[5]

§ 180. By Whom Made

Generally a homestead right may be waived only by the person entitled thereto

As a general rule no waiver of a homestead exemption by one of the persons entitled to its enjoyment can affect the rights of the others,[6] and accordingly it is usually held that no waiver by a husband can affect the rights of his wife and children,[7] but there is also contrary authority.[8]

A partner may waive his own homestead rights;[9] but one partner cannot waive the right of another partner to the benefit of homestead out of the latter's individual real property,[10] unless he has express authority to do so,[11] nor can the general manager of a mercantile firm, even though authorized to sign notes to creditors of the firm, waive the homestead exemption of any partner without express authority to do so[12]

§ 181. How Waived

Where the method of waiving homestead rights is prescribed by statute, there can be no waiver except by the method so prescribed.

Where the method of waiving homestead rights is prescribed by statutory provisions, there can be no waiver except by the method so prescribed[13] Accordingly, where the statute or constitution so provides, a waiver of homestead rights must be in writing,[14] and the instrument of waiver must be duly acknowledged[15] and recorded[16] In the absence of contrary statute, however, the waiver need not be by notarial act,[17] nor need it be judicially recognized[18]

18. Suit on, or judicial recognition of, homestead waiver is not necessary to continued validity thereof,

§ 182. —— By Contract in General

The homestead right may be waived by contract providing for such waiver

Aside from waiver by mortgage considered infra § 183, the homestead exemption may be waived by contract providing for such waiver[19] To be effective, however, a waiver of homestead rights by contract must be supported by an adequate consideration[20] and must comply with any statutory requirements on the subject which may exist[21] The contract must in general be in writing,[22] and the waiver must be in plain and unmistakable language[23]

In instrument creating debt In some jurisdictions the contract creating the debt may contain the waiver,[24] while by special statutory provisions in others the waiver must be made by separate instrument in writing[25] In still other jurisdictions a debtor's waiver of homestead rights in the contract creating the debt is void as against public policy[26]

In usurious contract While usury in a debt will defeat a waiver of homestead made in an instrument which represents the debt,[27] it is well settled that, where the debt has been reduced to judgment, both the maker of the instrument waiving the homestead right and the beneficiaries of a homestead set apart after the execution of such instrument are estopped to set up that the waiver of homestead was void because of usury in the debt,[28] unless the usury appears on the face of the instrument.[29]

Prior to claim of homestead While a contrary rule prevails in some jurisdictions,[30] in other jurisdictions the homestead right cannot be waived by contract in advance of the occasion of asserting such right,[31] the view being taken that such a contract of waiver is against public policy[32] The contracting parties, it is said, cannot repeal the statute or upset the constitution itself[33]

Recordation If acknowledgment and recording are provided for by statute a satisfaction of these requirements is necessary[34]

§ 183. —— Mortgage Waiving Exemption

Except where homestead mortgages are prohibited by law, homestead rights may be waived in a mortgage of the homestead by a provision therein expressly releasing such rights

Except where mortgages of the homestead are prohibited by law,[35] homestead rights may be waived by inserting in a mortgage on property to which such rights attach a provision expressly re-

since such waiver in proper form reflects its own existence—Jeffcoat v Hammons, La App, 160 So 182

In the absence of contrary statute, there may be an implied waiver of homestead rights.

In the absence of contrary statute, there may be an implied waiver of homestead rights.[40] Such a waiver may arise under various circumstances[41] Thus a waiver may result from a failure to assert the homestead right in apt time[42] or in an appropriate proceeding[43] Where the statute requires an

express waiver, however, there can be no implied waiver of homestead rights [44]

§ 186. —— Failure to Object or Consent to Levy and Sale

A homestead right may be waived by consenting to a sale of the homestead premises under execution or other legal process.

As a general rule homestead rights are waived where the homestead claimants consent, directly or indirectly, to a sale of the homestead premises under execution or other legal process [45] Thus, where the owner of a homestead who has ceased to occupy the premises for a number of years directs the sheriff to levy thereon,[46] or where he executes a written surrender of the premises to the sheriff, removes therefrom, and remains away for a number of years without asserting his rights,[47] he cannot afterward claim the premises as a homestead. There is, however, no waiver of homestead right by reason of the debtor's acquiescence in an illegal execution sale, where such acquiescence is based on a contract for maintenance made, and later repudiated, by the purchaser,[48] or by his neglect to demand an exemption where the writ of execution could be levied on lands other than the homestead,[49] or by a delay in applying for the surplus from a valid sale until after confirmation,[50] but it has been held that, where the homesteader allows the officer to apply the surplus on other executions against him, he cannot thereafter assert his exemption rights in such funds.[51] A written waiver of the publication of notice of a sale of land under a venditioni exponas and a consent to such sale at a specified time without further notice does not operate as a waiver of defendant's homestead rights in the land [52]

D OPERATION AND EFFECT OF WAIVER OR ABANDONMENT

§ 187. In General

A valid abandonment or general waiver of homestead rights terminates the homestead exemption. Thereafter the property may be dealt with in the same manner as other nonexempt realty.

Since, whenever there is a valid abandonment or general waiver, the right to the homestead exemption ceases,[53] it has, accordingly, been held that such a waiver or abandonment of homestead rights enables the husband to convey his property in which such right had existed without the joinder of his wife by his sole deed, see supra § 130, or to make any other disposition of it,[54] at his pleasure, and to control the proceeds of the sale or other disposition of the premises,[55] that it removes the inhibition against encumbering,[56] and leaves the premises subject to judgment liens,[57] attachment,[58] and sale on execution,[59] even though the owner had acquired no homestead at the time of the levy,[60] and that it enables a judgment debtor to sell the homestead property to the judgment creditor for a fair price,[61] even though no order of court em-

powering such transfer is obtained.[62] After abandonment, a creditor's claim under an attachment made subsequent thereto will prevail over a grantee's claim under a deed made after the attachment.[63] An abandonment of a homestead does not relate back and validate a void sale thereof under execution,[64] but, as has been seen supra § 141, it may validate a prior defective conveyance of the homestead by the homestead owner

Property and rights subsequently acquired In jurisdictions where it is not considered against public policy to waive homestead rights which may thereafter be acquired, it has been held that if the general waiver is express it operates as to all homestead rights which then exist or may thereafter arise by the debtor becoming the head of a family[65] A waiver does not apply to property subsequently inherited as a share in the homestead of a deceased parent[66]

Priorities The prior of two valid mortgages made or liens created before an abandonment or general waiver of homestead rights will take precedence,[67] even though the homestead rights were released in the instrument creating the second lien but not in the instrument creating the first lien,[68] and this is so in jurisdictions where a special waiver in favor of one lien creditor operates as an abandonment of homestead rights as to other lien creditors, see infra § 188

The registry of a homestead waiver protects the officer seizing the property from liability for damages[69]

Reacquisition of homestead rights. Where homestead owners have lost their homestead rights by abandonment, they may subsequently reacquire homestead rights in the same premises[70] To reacquire such rights, however, requires the same overt acts as are required for their acquisition in the first instance,[71] and where such rights are reacquired they have no retroactive operation[72]

§ 188. Special Waiver

Generally a special waiver of homestead rights in favor of one creditor operates only in his favor, and only as to the particular debts as to which the waiver is made. Such a waiver does not convey an estate, it merely denies the right to claim the homestead exemption.

A valid special waiver of homestead rights terminates the homestead exemption to the extent of the waiver[73] It enables the creditor in whose favor it is made to collect his debt out of the homestead property[74] It does not, however, increase or diminish the amount of the debt due from the homesteader,[75] and it does not convey an estate[76]

As a general rule waivers as to particular debts operate only as to the debts intended[77] If, however, the homestead has been sold to satisfy a privileged debt, a nonprivileged lienholder who redeems may then subject the land to his debt, as he is subrogated to the rights of the purchaser from whom he has redeemed,[78] but a nonprivileged creditor of the husband is not subrogated to the rights of a mortgagee of the homestead, where the property belongs to the wife who mortgages it for the hus-

band's debt and the husband afterward pays the mortgage debt from his own funds[79] A judgment may be set off against another, although the latter was entered on a note containing a waiver of homestead[80]

In whose favor waiver operates Except in jurisdictions where a special waiver of homestead rights in favor of one creditor operates as an abandonment or a general waiver as to other or certain other creditors,[81] a mortgage or other encumbrance on the homestead waiving homestead exemptions in favor of one creditor operates only in his favor,[82] or his privies or successors in interest,[83] in the absence of specific intent that it shall not so operate[84]

Priorities As a general rule a lien which is enforceable against the homestead is superior to the lien of a subsequent mortgage containing an express waiver of homestead rights[85] A subsequent lienholder in whose favor a waiver of homestead has been made, however, takes precedence over a prior lienholder whose lien was unenforceable against the homestead because created without a waiver of homestead,[86] except in those jurisdictions in which a special waiver operates as a general waiver as to other creditors or an abandonment of the homestead right, in which case the prior lienholder in whose favor no waiver has been made takes precedence,[87] especially where the homesteader has surrendered possession of the premises to the subsequent lienholder in whose favor the waiver was made[88] Where the owner of a judgment which is a lien on all the lands of a debtor except his homestead, after junior judgment liens have arisen in favor of other creditors, takes a mortgage on the homestead, the lien of his judgment is not merged in the mortgage lien[89]

The rank of homestead waivers, as to third persons, is controlled in some jurisdictions by the chronological order of their registry, and not necessarily by their dates of execution[90]

Surplus after foreclosure As against general creditors, the homesteader usually is entitled to the surplus arising on a sale of the homestead, made in satisfaction of a privileged claim,[91] and the doctrine of marshaling assets and securities will not apply in favor of such creditors to defeat the rights of the homesteader[92] As against a prior lienholder whose lien is enforceable against the homestead such surplus will not be thus protected,[93] even though his lien may be defective because of a mutual mistake in the description of the premises,[94] nor will the surplus be protected in jurisdictions where the law confers homestead rights on land only and not on the proceeds of the sale of land[95]

Rights of creditors where land exceeds in value homestead exemption In jurisdictions in which a special waiver does not operate as a general waiver, mortgages on a tract of land whose value exceeds the statutory exemption must be satisfied according to priority whether or not they contain special waivers of homestead rights, and, if prior mortgages with or without waiver clauses exhaust the surplus above the homestead exemption, subsequent mortgages containing waivers must be satisfied from the homestead fund[96]

E ESTOPPEL TO CLAIM HOMESTEAD

§ 191. By Deed

A grantor may be estopped by his deed to assert homestead rights in the land conveyed

Where a wife joins with her husband in a deed of trust of a homestead, she is estopped to deny that it was binding on her, in that it contains no clause conveying her homestead interest.[97] It has been held that a husband and his grantee are estopped to claim that the property is exempt as against the wife who purchased it under an execution on a judgment recovered by her for alimony, where the husband had previously conveyed to the grantee without the wife's consent.[98]

§ 192. By Record

An estoppel by record may preclude one from asserting homestead rights.

While there is some authority apparently to the contrary,[99] it very generally has been held that, where the right to a homestead was fairly within the issues presented in an action or suit, a judgment or decree therein is conclusive and will bar a subsequent assertion of the claim where the question has been decided adversely to claimant, or where there has been a failure on the part of claimant to assert the right in the cause,[1] but the rule does not apply where the homestead rights were not fairly in issue,[2] and no estoppel results from failure to litigate the question of homestead exemption in a proceeding before a court having no jurisdiction over such inquiries.[3]

§ 193. By Conduct

In the absence of contrary statute, the right to claim a homestead may be lost by an equitable estoppel

While the contrary has been held under the homestead laws in some jurisdictions,[4] the almost universal rule is that the right to claim a homestead may be lost by estoppel through the acts, representations, or omissions of the homestead claimant,[5] provided all the elements of an estoppel are present.[6] It has, however, been held that as long as the owner is in possession of his homestead, no

Prejudice or detriment to the party claiming it is essential to an estop-

declarations[7] or other conduct[8] on his part can estop him to claim the exemption

Inducing belief that homestead has been abandoned. Acts of such a character as will induce the belief that all claims to the homestead have been abandoned may operate as an estoppel where some one has acted in reliance on such acts to his disadvantage,[9] but a married man, having a homestead and living on the land with his family at the time of his conveyance to one who had knowledge of that fact, was not estopped to deny his alleged abandonment[10]

Change of selection Where the owner of more than one tract of land out of which he may select his homestead makes his selection and thereafter encumbers the other tracts, he is estopped to assert homestead in the latter against persons who dealt with him on the faith of his selection,[11] and, where a debtor claims his exemption to prevent a sale under a levy, and has his homestead set off to him pursuant to the statute, he cannot before sale abandon it, move upon another tract of land, sell that which had been set off, and successfully claim as his homestead the new selection[12] A claim of exemption as to one piece of property, however, does not estop the owner later to claim another tract as homestead where no rights have intervened in reliance on the former claim[13]

Disclaimer in general A disclaimer of homestead rights may, under certain circumstances, operate to estop those making the disclaimer to assert such rights,[14] as, for instance, where the disclaimer was made in respect of property not at the time occupied and used as a homestead,[15] but no estoppel results from a disclaimer where the parties to whom it was made were not deceived thereby[16]

Representations that property is not homestead As a general rule, when the family is in actual occupancy of the homestead by residing thereon, representations that the property is not a homestead will not estop the husband or wife so representing subsequently to claim the homestead exemption,[17] because the occupancy of the property charges all persons with notice of its homestead character[18] Such representations, however, may work an estoppel where the property was not actually occupied as a homestead at the time the representations were made,[19] or where it was used in such an ambiguous manner as to render its status as a homestead doubtful[20] As will be seen supra § 142 c, these rules are frequently applied in cases where an estoppel to assert the invalidity of a conveyance or encumbrance of the homestead is sought to be established on the basis of such representations

Recognition of superior title The recognition by a homestead claimant of superior title in another does not necessarily estop him to claim the home-

stead exemption.[21] Thus the acceptance of a lease of the premises,[22] or occupancy of and holding possession of the premises as a tenant,[23] do not necessarily constitute such a recognition of a superior title as to raise an estoppel against the tenant to claim homestead rights therein

Other acts or representations Provided the elements of estoppel are present, in addition to the estoppels already considered, it has been held that a homesteader may be estopped to claim homestead rights by borrowing money to pay for the premises and conveying them to the lender as security,[24] by fraudulent representations or concealment of the homestead character of the premises,[25] by having previously claimed a homestead in other property,[26] or by permitting another person to take title and, as the latter's attorney, creating a lien on the property by a trust deed[27]

No estoppel arises, it has been held, from a special waiver as to a certain portion of a tract, where nothing is stated concerning the residue, in which a homestead is afterward claimed,[28] or from the execution by the exemptioner of a financial statement including the homestead as part of his assets,[29] or from his failure to contest proceedings to impose special assessments on the homestead,[30] or from his representing, in order to obtain credit, that there were no claims or liens on his property, where there is already on file a record of a homestead claim asserted in the premises,[31] or by acquiescence in an execution sale and acceptance of small amounts advanced by the judgment creditor who bought in the property for an entirely inadequate consideration on the theory that the creditor was owner where the facts were known to both parties;[32] or by the debtor and his wife falsely representing to a lender that they own and use the land adjacent to the residence tract, which adjacent lands are in fact owned and occupied by another person, the object of such assertions being to show an apparent mortgageable excess over the statutory exemption represented by the residence parcel,[33] or by the debtor assigning a contract for purchase of the premises to a creditor, and thereafter secretly taking title to himself,[34] or by the judgment debtor suing the sheriff for ignoring his exemption claim and recovering from such officer the value of the property by way of damages,[35] or by the debtor's revocable license to the purchaser at an execution sale of the homestead, to take possession of and sell the land, the license being revoked before it was acted on[36]

Necessity of estoppel against both husband and wife Where the homestead claimant is a married person, acts or omissions alleged to constitute an estoppel to assert the homestead right must be the acts or omissions of both the husband and wife[37] No estoppel is effective as to either which is not applicable to both[38] Hence, if the wife is not estopped, neither is her husband[39]

§ 194. By Position Taken or Admissions in Judicial Proceedings

tain time by himself and family as a homestead, such claim having reference to the complete title to land, and not to an undivided fractional interest therein, is estopped to assert that such tract was at the same time the homestead of another,[40] but the admission by one as a witness in another action that a homestead had not been abandoned at a certain date does not estop him to claim that it had been abandoned at a subsequent date, prior to the levying of the attachment under which he now claims.[41] A homesteader is not necessarily estopped to claim homestead rights in certain property by the fact that in his pleadings in a previous action involving other parties he claimed a homestead in other property,[42] and no estoppel results from the husband's signing, at the sheriff's instance, a receipt for surplus proceeds realized from a sale of a homestead, ordered by the court to be paid to the wife and receipted for by her also.[43]

§ 195. Estoppel of Either Spouse by Acts of the Other

As a general rule one spouse is not estopped to claim a homestead by the acts or declarations of the other spouse

As a general rule, a wife is not estopped to claim a homestead either by her husband's acts,[44] or by his representations.[45] The wife is not estopped by a deed given by the husband in which she did not join where the claim of estoppel rests solely on false statements made by the husband alone and not chargeable to her.[46] No estoppel is created against her where her husband permits a judgment in ejectment for the premises to go against him in a suit to which the wife was not made a party,[47] or where he acquires another domicile and homestead against the wife's consent,[48] where he recognizes and confirms or ratifies a sale of the homestead, voidable for the fraud of the grantee,[49] where he relinquishes the right to redeem from a mortgage,[50] where he takes a lease of the premises[51] and it does not appear that she ever consented to her husband's taking such lease,[52] or where he engages in any other conduct which would estop him were he alone concerned, but in which his wife does not participate.[53] However, it has been held that she is estopped by his admissions made in the course of judicial proceedings, respecting his own property, claimed by her as a homestead,[54] and by his declarations, while in possession of land, respecting his acquisition of it and by his arrangements for obtaining title.[55] So also it has been held that the wife may be estopped by acts or conduct of the husband constituting an estoppel against him where the homestead claim attaches to only an equitable community interest,[56] or where the family is not in actual occupancy of the homestead premises by residing thereon and the question of homestead rests on the intention of the husband.[57]

Estoppel of husband A husband is not estopped to assert his homestead rights by the acts of the wife.[58]

F EVIDENCE, QUESTIONS OF LAW AND FACT, AND FINDINGS

§ 196. Presumptions and Burden of Proof

Presumptions favoring the preservation and continuance of a homestead right or exemption usually are indulged, and the burden of proving abandonment is on the party asserting abandonment, but a presumption of abandonment may arise from actual removal from, and cessation of use of, the homestead premises, which presumption must be negatived by the party asserting the existence of the homestead right or exemption

All presumptions are in favor of the preservation and retention of the homestead.[59] When property has been impressed with the homestead character, it will be presumed to continue so until its use as such has been shown to have terminated.[60] This presumption of the continuance of the homestead character of the premises is not, in general, conclusive, however,[61] but is merely a rebuttable presumption of fact.[62]

The burden of proving a waiver or loss of homestead rights is on the party asserting such waiver or loss,[63] and, where it is shown that a homestead once existed, the burden of proof rests on those who allege an abandonment thereof to show that it has been abandoned.[64]

While it has been stated broadly that abandonment of a homestead will not be presumed,[65] and, according to some cases, a presumption of abandonment will not in general be indulged unless a new homestead is acquired,[66] as a general rule an actual removal from, and cessation of use of, the

Mere absence for other than extended period

Mere absence from the homestead premises does not create a presumption of abandonment, if a new homestead is not acquired and the absence is not for an extended period.—Blaszynski v. Starczewski, 25 N.E.2d 884, 373 Ill. 140.—Lehman v. Cottrell, 19 N.E.2d 111, 298 Ill.App. 434

premises may raise a presumption of abandonment,[67] especially where the owner of the homestead removes therefrom to another house owned by him where he actually resided[68] While such presumption is not conclusive but may be overcome,[69] yet proof of these facts in general casts on the party asserting the continuance of the homestead right the burden to negative the presumption[70] Accordingly, such party has the burden of establishing want of intention permanently to abandon the homestead,[71] and of establishing an intent to return and occupy the premises as a homestead,[72] and of showing that the land is still within the protection of the homestead law[73]

If the homesteader removes with his family, it will be presumed that the removal was made in good faith[74] and with the consent of his wife[75] If a husband deserts his family without cause, leaving them in possession of the homestead, it will be presumed that his desertion is temporary only and not an abandonment[76]

Partial abandonment and extent of abandonment. A party who asserts that part of the property has been abandoned as a homestead must show the extent of abandonment, if any[77] If any portion of a building has lost its homestead character by reason of the manner of its use, the burden is on the one asserting it to establish the facts from which the disuse or abandonment may appear[78]

Estoppel. In general the burden of proving that a claimant of a homestead right is estopped to assert such right is on the party who alleges or relies on such estoppel[79]

§ 197. Admissibility of Evidence

In most, but not all, jurisdictions the homesteader may testify as to his intention in so far as intention bears on the issue of abandonment; rules as to admissibility of declarations and documentary evidence in civil actions generally apply where the issue of abandonment is involved

In general, a party who claims a homestead right may testify as to his intention with respect to alleged abandonment,[80] including his intention in leaving the homestead property,[81] and he may testify that he had no intent to abandon the property as a homestead,[82] and that he intended to return to such property,[83] but in some jurisdictions, he may not, in the face of due objection, testify as to his intention in leaving the property.[84] Evidence of facts which tend to show or throw light on the intention of the owner or claimant with respect to abandonment is generally admissible,[85] and testimony of claimant as to facts tending to show his intention and whether he abandoned his homestead is also admissible.[86] So his testimony as to his reason for leaving the place where his alleged homestead is located is admissible, where it tends to show that the absence from the homestead was temporary,[87] as is other evidence which tends to show that absence from the homestead was temporary,[88] and which tends to explain such temporary absence.[89]

When husband and wife are in accord, evidence of the intention of the wife with regard to the selection of a homestead has been regarded as admissible as pointing to the intention of the husband.[90] Evidence as to wife's intention with respect to abandonment is properly excluded, however, if the husband's intention is controlling and other evidence is sufficient to show his intention to abandon the homestead.[91] Under a statute requiring concurrence of both husband and wife to alienation of homestead, evidence that the husband intended to abandon the homestead is immaterial on the question whether the wife as against a purchaser from the husband had abandoned the homestead.[92]

Among matters which have been regarded as admissible on the issue as to abandonment or loss of homestead are evidence of the homesteader's pro-

homesteader—Straus v Brooks, Civ App, 126 S W 2d 512, reversed on other grounds 118 S W 2d 393, 136 Tex 111—Hill v Engle, Civ App, 89 S W 2d 219

longed absence from the premises,[93] of the conveyance of the premises to a third person,[94] of the conduct of the homesteader after a sale of his homestead[95] or after his removal therefrom,[96] that he took legal advice as to the effect of removal,[97] that he left his family in possession,[98] and that a deed was, by agreement, to operate only as a mortgage [99] The facts that defendant had not paid for the land claimed as homestead or received a deed therefor until after his return to the land are also proper matters to be considered on the question of abandonment [1]

If the issue is as to abandonment, evidence as to an attempted sale by the homesteader of property then occupied by him as a homestead is admissible only in so far as it relates to his intention with respect to abandonment [2]

Evidence as to intent to return and retain premises as a homestead is properly excluded where the owner was consecutively absent from the premises for more than the period fixed by statute for determining when the homestead shall be deemed abandoned and failed to file a notice claiming homestead in accordance with the statutory requirements under these circumstances [3]

Declarations and admissions Declarations of the homesteader,[4] or of his wife,[5] are usually admissible on the issue as to abandonment, and their declarations, statements, and admissions tending to show abandonment are admissible not only as original evidence of intention to abandon the homestead[6] or of want of a fixed intention to return to the homestead property and again to occupy it as a home,[7] but also in rebuttal of their testimony that their absence was temporary and that they intended to return [8]

Separation of husband and wife. A deserted wife may introduce evidence that she has given her husband no cause to abandon her, as showing that she had not forfeited her rights in the homestead estate [9]

Documents, affidavits A note containing a waiver of homestead is admissible to show a waiver [10]

On the issue whether land designated as a rural homestead had lost its character as such because of the fact that it had been platted into lots, blocks, and streets as a part of a town, a pencil sketch made by the owner, showing his residence and other lots on the tract, but which was not complete, in that it did not show all the blocks and lots and streets, was properly excluded, after the court had allowed the owner to use it for the purpose of explaining his testimony [11]

In an action on a note secured by a trust deed to premises to which defendant claimed homestead right, where he previously left such premises, and he claimed intent to return, his certified copy from the general land office of his application to purchase land, reciting by affidavit that he desired to purchase land to make a home, was admissible [12]

A written designation of certain property as a homestead is admissible on an issue as to estoppel to

a. General Considerations

In general evidence to show abandonment of a homestead right or exemption must be clear and convincing.

With respect to a homestead in property from which the homesteader or claimant of the right has removed, it has been said that it is impossible to lay down an absolute rule as to the extent, amount, or character of evidence sufficient to show an abandonment,[16] or to show a waiver of the homestead right in such property [17]

It has been stated broadly that abandonment of the homestead right or exemption must be shown by clear and convincing evidence or proof [18] Considering the question specifically in view of the fact that a new homestead has not been acquired, it has been stated that abandonment must be shown by clear and conclusive evidence or proof [19] In any

Clear proof
(1) Abandonment must be clearly shown where no new homestead has been acquired—Gaar v Burge, Tex Civ App, 110 S W 181

(2) If another home is not shown to have been acquired proof of intention not to return to the home-

event there is not a sufficient showing of abandonment where it is not established by a preponderance of evidence.[20] It has been held that a removal, even though accompanied by circumstances which might indicate an intention not to return, is not conclusive proof of abandonment[21]

Abandonment of homestead may be proved by conduct, circumstances, and actions as well as by direct testimony[22]

While it has been said that it is impossible to lay down an absolute rule as to the amount or character of evidence that is sufficient to prove that a homestead in unoccupied property has not been abandoned,[23] according to some cases evidence sufficient to overcome the presumption of abandonment arising from actual removal from, and cessation of use of, homestead premises, considered generally supra § 196, must be clear and definite[24] It has been stated, however, that strong evidence is not required to sustain the claim that it was the intention of the person claiming a homestead right to return to the homestead and to retain the homestead right[25]

Sufficiency of evidence to raise issue of fact and to authorize or require submission to jury of issue of abandonment is considered infra § 199

Indebtedness contracted during occupancy or after removal According to some cases stronger proof of abandonment is required when the debt to which it is sought to subject the land was contracted during actual occupancy than when it was contracted while the homesteader was not in actual possession of the premises,[26] and, conversely, that if the debt was contracted while the homesteader was not in actual possession of the premises, the court should incline the more strongly to the conclusion that there was a present intention on leaving to remain permanently away or should require stronger evidence to the contrary,[27] although this rule would not apply where no credit was extended to the homesteader on the faith of the homestead and no money lent to him but simply placed to his credit by mistake[28]

b. Claimant's or Homesteader's Testimony as to His Intention

Testimony of person whose right to homestead is involved as to his intention with respect to abandonment may be sufficient to prove such intention, but such testimony is not necessarily conclusive

As bearing on the issue as to abandonment, the testimony of claimant of a homestead right or exemption as to his intention may establish the existence of a continued purpose to return to the home-

stead property,[29] and his testimony that he intended to return, in connection with evidence of other facts consistent with such testimony, may be sufficient to show that there was not an abandonment.[30] His testimony that he intended to return and did not intend to abandon the homestead is not necessarily conclusive, however,[31] it is necessary to test its truthfulness by its reasonableness and consistency in the light of the circumstances[32] and to consider his conduct.[33]

Claimant's testimony that he did not intend to abandon the homestead may be overcome by evidence of his admissions and conduct.[34] Claimant's testimony that he intended to return to the homestead property is not necessarily overcome, however, by evidence of matters constituting a part of his conduct, inconsistent with such testimony, where there is evidence that his conduct in part is consistent with, and corroborative of, such testimony.[35]

The testimony of one who has had a homestead right in certain premises to the effect that, on removal, he intended to abandon such right and that he did not intend to return to the premises, under some circumstances, may be conclusive on the issue as to abandonment.[36]

Conflicting testimony of husband and wife In jurisdictions in which a married man may abandon a homestead without the consent of his wife, under rules stated supra § 178, the wife's testimony that she did not intend to abandon the homestead is not effective where abandonment is conclusively established by testimony of the husband that there was an abandonment, which is supported by surrounding circumstances, in the absence of any showing of fraud or bad faith on his part.[37]

c. Declarations

Evidence of declarations of the claimant or homesteader with respect to abandonment is not necessarily conclusive.

While declarations of the person whose homestead right or claim is involved are admissible on the question as to abandonment, as shown supra § 197, they are not conclusive either to establish an abandonment[38] or to show that there existed an intention to return and occupy the premises.[39] Such declarations usually have some weight, however,[40] especially when they are consistent with the acts of declarant,[41] and a declaration, in connection with other evidence, may be sufficient to show the relinquishment or loss of the right of homestead.[42]

d. Duration of Absence

The length of time during which the homesteader remains away from the premises after removal tends to show his intention with respect to abandonment, but the

duration of the absence is not conclusive evidence of abandonment.

While the length of time during which the homesteader who has removed from the premises remains away is important as indicating his intention and must be taken into account in determining the question of abandonment,[43] yet, in itself, the duration of an absence,[44] whether prolonged[45] or limited,[46] is not conclusive evidence of abandonment

It has been stated broadly that long-continued absence can be looked to only for the purpose of determining the intent with which the removal was made,[47] even a prolonged absence may, in the light of the attendant circumstances, be wholly consistent with an intention to return which will preclude the finding of an abandonment[48] However, where the absence is continued for a number of years, and there is no circumstance or act which shows an intention to return and occupy the homestead, the length of the absence may become a controlling circumstance[49] If there exists an intention not to return, it is not necessary that the absence be continued for a great length of time in order to work an abandonment[50]

e. Acquisition of New Residence or Homestead

While not under all circumstances conclusive, acquisition of a new residence tends to show abandonment of homestead in property formerly occupied as residence, and proof of acquisition of new homestead is usually sufficient to show abandonment of former homestead

According to some cases, while evidence of the acquisition of a new residence tends strongly to show that the new residential property has been selected as the homestead with resultant abandonment of the old homestead,[51] such evidence is not conclusive,[52] and evidence showing the existence of a continued and fixed intention on the part of claimant to return to the homestead premises is sufficient to overcome the effect of evidence showing acquisition of a new residence[53]

Abandonment may be sufficiently shown by proof that a new homestead has been acquired, notwithstanding certain personal property was left on the former homestead premises[54] With respect to showing the acquisition of a new homestead as bearing on the issue as to abandonment, particular evidence has been regarded as sufficient to show, or to support a finding of, such acquisition,[55] while other evidence has been considered insufficient in this regard[56]

f. Acceptance of Lease of Premises

Acceptance by the homesteader of a lease of the homestead premises will, under some circumstances, be sufficient to authorize an inference of intention to abandon the homestead premises

The intention to abandon the homestead exemption may be inferred from the acceptance by the homesteader of a lease of the premises from a person who holds a mortgage thereon which has been irregularly foreclosed,[57] or from a grantee of the

premises by an invalid conveyance.[58] So the fact that claimant reoccupied the property as tenant of one whose claim was necessarily in opposition to a homestead right may, in connection with other evidence, be sufficient to show abandonment.[59]

Particular evidence has been regarded as insufficient to show conclusively that claimant had occupied as a tenant premises in which he had a homestead right.[60]

g. Renting Premises to Another

Evidence that the homesteader rented the premises to another is not conclusive evidence of abandonment.

Abandonment of a homestead is not conclusively shown by evidence that the homesteader rented the premises to another,[61] nor is an abandonment of part of the homestead conclusively shown by renting such part to another.[62] Evidence of the physical facts and of the surrounding circumstances, however, may have such probative force as to overcome claimant's testimony in support of his claim that his leasing to another of part of the homestead was temporary.[63]

h. Exercising Political Rights or Rights of Citizen at Place Other than Where Homestead Located

Exercise of political rights or rights of a citizen, such as voting, at place other than where homestead is located is not necessarily conclusive evidence of abandonment of homestead, but it is a circumstance which may be considered in determining the question as to abandonment.

Where an actual resident acquires a homestead, mere exercise of acts of citizenship in another state, while temporarily absent from the homestead, does not necessarily amount to an abandonment, although it is strong evidence thereof.[64] So the act of voting at a place other than that in which the homestead is located does not of itself conclusively prove a change of domicile and an abandonment of the homestead,[65] or of an intention to abandon the homestead,[66] but is simply a fact to be taken in con-

In California it has been held that removing from the state, becoming a citizen of a territory to which the homesteader removed and voting and running for office there did not constitute an abandonment, where there was no intention to abandon and the intention to return continued, the court took the view that abandonment could be effected only as provided by statute and that the grounds of abandonment urged were not within the statute—Porter v. Chapman, 4 P 237, 65 Cal 365

(2) As bearing on issue as to abandonment, the fact that owner, within six months after removal from homestead, registered as voter in city to which he moved, did not conclusively establish change of residence, especially where it appeared that registration was induced by belief that he had the right to vote at place where he resided temporarily—Gordon v Emerson-Brantingham Implement Co, 210 N W 87, 168 Minn 336

Wife of claimant

In a case in which the question as to abandonment of homestead was involved and in which the court ruled that the selection of place of residence rested primarily with hus-

nection with other facts in aiding the court in determining whether or not the removal of the owner from the premises was permanent or temporary,[67] and its effect may be overcome by circumstances showing an intent to return[68]

Nevertheless, when taken in connection with other circumstances, it may be sufficient to establish an abandonment,[69] as for instance where he engages in business elsewhere,[70] engages in business elsewhere and leases a homestead,[71] engages in business elsewhere, buys new home, and runs for office,[72] rents homestead and removes to better location,[73] rents and mortgages the old homestead,[74] mortgages his homestead and removes household goods,[75] offers[76] or attempts[77] to sell the homestead property, claims residence elsewhere,[78] or purchases and occupies a new residence[79]

A statute providing that, if a person shall go into another state and vote there, he shall be considered to have lost his residence in the state which he left is intended merely for the guidance of the judges of election and has no application where the question is one of homestead[80]

i. Miscellaneous

In a wide variety of cases the courts have considered the evidence and held it sufficient or insufficient to show, or to support a finding, that there was an abandonment of, or an estoppel to claim, a homestead right.

Among other instances of evidence regarded as sufficient to show abandonment of a homestead right are evidence that the owner or occupant of the premises actually left the premises, never returned, and, while absent, formed the intention not to return,[81] that he deserted his family, removed from the state, declared his intent not to live with his wife thereafter, and claimed a residence elsewhere, and the wife removed to another county,[82] that he left the premises, engaged in various occupations elsewhere, and finally removed from the state,[83] that he took up his residence in another state at the direction of his employer, but after being discharged did not return,[84] and that he sold the homestead premises[85] Evidence of failure to move back to the homestead premises for a substantial period after the remarriage of claimant and of payment of personal taxes elsewhere tends to show abandonment[86]

Abandonment is not conclusively proved by the fact that claimant's children were not living with him when suit involving the premises was filed,[87] or by the platting of land not within the limits of an incorporated city or town and a sale of lots ac-

band, it was stated that the mere fact that the wife of claimant voted at a place other than where the homestead was located was not conclusive proof of her intention as to change of domicile -- Illinois Oldsmobile Co v Miller, 202 N W 751, 199 Iowa 984

Registering as voter

The fact that a homestead claimant registered as a voter at the place to which he had removed has been held not to be as strong evidence of intention to remain away as is the act of voting, it is, however, a fact to be considered as any other fact in the case and to be given such weight as it is entitled to under the rules governing the consideration of testimony -- Mallard v North Platte First Nat Bank, 59 N W 511, 40 Neb 784.

cording to the plat, which land is owned by the head of a family, and occupied as a homestead;[88] nor is an absolute intent to abandon homestead property shown by evidence that the owner or claimant attempted to sell the property,[89] or that he intended to sell his homestead and not to invest the proceeds in another home.[90] According to some cases proof of intention to abandon a homestead is not sufficient to prove abandonment as against evidence of actual and continued ownership, use, and possession of the premises involved.[91]

Cultivation of land does not disprove previous abandonment of the land as a homestead, and the owner may, without intending to make it his home again, cultivate, rent, or otherwise utilize the property after removal, abandonment of homestead not signifying abandonment of claim to ownership.[92] The intention to return to the homestead property is not conclusively shown by evidence that some furniture was left there,[93] or that the property was visited more or less frequently by claimant.[94]

It is sufficiently shown that a removal was merely temporary, where it appears from the evidence that the homesteader expected to return in a short while, but was prevented from so doing by unforeseen events, and that he repeatedly expressed a purpose to return.[95]

Failure to acquire another homestead may be considered as a circumstance tending to negative an intention to abandon the former homestead,[96] but such failure is not sufficient of itself to overcome other and stronger evidence of abandonment.[97]

Sufficiency of evidence to raise issue of fact and to require or authorize submission to jury of issue as to abandonment is considered infra § 199

In various cases the evidence has been regarded as sufficient to show, or to sustain a finding of, abandonment or loss of homestead;[98] abandonment of business homestead,[99] abandonment of homestead by both husband and wife,[1] abandonment of part of homestead,[2] abandonment of homestead by husband in good faith without intent to defraud wife;[3] consent of wife to abandonment,[4] intent to abandon homestead;[5] and want of requisite intention to return to homestead premises.[6]

Under the general rules considered supra subdivision a of this section, the evidence has been held sufficient to show, or to sustain a finding, that there was not an abandonment of a homestead,[7] that there was not an abandonment up to the time of trial;[8] that there was not an abandonment of a business homestead,[9] that there was not an abandonment of part of the homestead,[10] that there was not an intention to abandon a homestead[11] or part of a homestead,[12] and that the person claiming or entitled to the homestead right intended to return to the homestead premises from which he had removed.[13]

Particular evidence has been regarded as sufficient to show that claimant was not estopped to assert the claim of homestead.[14] Other evidence has been regarded as sufficient to support a finding that claimant was estopped to set up a claim of homestead.[15] In various cases the evidence has been re-

Change of intention

Evidence was sufficient to show that defendant left his home place with intention of returning to it, and that he held that intention until he decided to buy another plantation, after which, and until financial difficulties overtook him, his acts and declarations demonstrated an intention to abandon, and not to return to, the former homestead —Wooten v Farmers' & Merchants' Bank, 249 S W. 569, 158 Ark 179.

sion of the issue to the jury,[37] to call for its determination, as an issue of fact, by the trial court in a case tried by the court without a jury,[38] to render proper the denial of a directed verdict or peremptory instruction,[39] or to render improper the giving of such direction or instruction.[40] According to some cases, however, if the facts are not controverted, whether there has been an abandonment may be determined as a matter of law under some circumstances,[41] and, if the evidence of plaintiff who seeks to recover land on the theory that it constitutes his homestead conclusively shows that the homestead was abandoned, a demurrer to the evidence is properly sustained.[42] So, under some circumstances, uncontradicted testimony of one who has had a homestead right in certain premises to the effect that he intended to abandon such right and not to return to the premises may be binding on the trier of the facts.[43]

Whether a homestead has been abandoned is determined, as a question of fact, from the circumstances surrounding the particular transaction,[44] or, as otherwise stated, from the entire evidence before the jury or before the court sitting without a jury.[45]

§ 200. Findings

The propriety of particular findings depends largely on the evidence.

If the evidence respecting the debtor's intention to abandon his residence is conflicting, it is not error to find that there was not an abandonment;[50] and a finding on disputed evidence as to the debtor's intent in leaving the premises that there was no abandonment will not be disturbed[51] Sufficiency of evidence to support particular findings with respect to abandonment is considered supra § 198.

V. PROTECTION AND ENFORCEMENT OF RIGHTS

A. PROCESS OR OTHER PROCEEDINGS AGAINST WHICH EXEMPTION MAY BE ALLOWED

§ 201. In General

Broadly speaking, a homestead is protected as against all manner of judicial proceedings, and process issued therein, by which it may be sought to appropriate the property to the payment of debts

Under most of the homestead laws the homestead is protected in all judicial proceedings, whether in courts of law or equity, in which it is sought to appropriate the property to the payment of debts and from all process issuing from such courts,[52] unless it has been waived, abandoned, or otherwise lost,[53] and this is so whether the title is in the husband or in the wife[54]

§ 202. Levy of Attachment or Execution

Ordinarily there may be no levy of attachment or execution against homestead property except for debts enforceable against the homestead

As a general rule realty which is exempt as constituting a homestead is not subject to the levy of an attachment,[55] or is not subject to the levy of

or ceased to occupy it as a residence, whether such absence was temporary is to be determined, as a question of fact, by the court, on a trial without a jury, from all the pertinent circumstances, as shown by the evidence, including the purpose of moving from the premises and the intention to return or to establish a residence elsewhere—Blitz v Metzger, 241 P 259, 119 Kan 760, rehearing denied 245 P 161, 120 Kan 555

Attachment lien void

Attachment lien on land constitut-

an execution[56] except for debts or obligations enforceable against the homestead, such as debts which are expressly excepted by the homestead laws from their operation,[57] or liabilities and liens which attached before the debtor acquired or was entitled to acquire the homestead,[58] and within this exception the debtor cannot by subsequently taking possession of the property and claiming it as his homestead defeat a prior attachment lien.[59] So, where land is seized as having been conveyed in fraud of creditors and is reconveyed to the debtor, a subsequent occupancy will not enable him to set up the homestead exemption as against the attaching creditors.[60] If the writ has been wrongfully levied on the property constituting a homestead, damages are recoverable for the seizure, as explained infra § 238

Additions to, or increase in, value of homestead Where a homestead has been set apart to a debtor and subsequently, because of the erection of buildings thereon, there is an increase in the value of the premises over the statutory amount, such increase in value cannot be reached by execution, but it may be reached by an appropriate proceeding in equity.[61]

Chattels becoming a part of the homestead are not subject to seizure under an attachment or execution,[62] except, it seems, where it is sought to foreclose the specific lien in favor of the seller whose lien is enforceable as against the homestead.[63]

Levy to secure other property Homestead property is not exempt from levy of execution and attachment where this is necessary to preserve the rights of a judgment creditor to nonexempt property of the debtor,[64] as where such levy is permitted as the process by which the judgment creditor may reach the excess value over the amount of the homestead exemption,[65] but in the absence of proper proof that there is an excess value over the homestead exemption a levy of execution or attachment should not be granted.[66]

§ 203. Execution and Judicial Sales

Ordinarily homestead property is not subject to a forced or judicial sale except to satisfy debts enforceable against the homestead.

As a general rule realty which is exempt as constituting a homestead is not subject to a forced or judicial sale[67] except to satisfy debts enforceable against the homestead.[68] Indeed, a forced or judicial sale of the homestead in satisfaction of a debt not enforceable against the homestead is generally regarded as void[69] and will not be confirmed

by the court where the homestead exemption is properly asserted[70] Such a sale is invalid even where the homestead is sold to satisfy an indebtedness part of which is, and part of which is not, protected by the homestead exemption[71] Property in excess of the homestead exemption, however, may be subject to a forced or judicial sale,[72] and under the homestead laws in some jurisdictions the homestead claimant does not have an absolute right to prevent a judicial sale of the homestead but only a right to require that the property shall not be sold for less than the amount which constitutes the homestead exemption[73]

In instances where the power to sell homestead property to satisfy debts exists, the creditor must exercise such power in strict compliance with, and only in those cases specified by, governing provisions of law[74] Under provisions of law permitting a sale of homestead property exceeding in value a specified sum, such property must be sold subject to any encumbrance thereon,[75] and no valid sale may be had unless the bid received exceeds the the sum specified as the homestead exemption[76] As will be seen infra § 216 a, a sale of property, out of which a homestead may be claimed, without setting apart the homestead as required by law is invalid

Sale of homestead by guardian It has been held that a statute exempting a homestead from levy on execution does not prevent a sale by the guardian of the owner on his becoming a spendthrift, on license of the court of probate, of the homestead property for payment of his debts and for his support and maintenance.[77]

§ 204. —— Foreclosure Proceedings

Broadly speaking, a sale under a mortgage foreclosure may transfer a homestead interest where the mortgage of the homestead property was valid but not where such mortgage was invalid, this general rule being subject to such variations as may be introduced by particular statutory provisions A sale pursuant to a power of sale conferred by the mortgage is not "forced" within the meaning of statutes forbidding forced sales of homesteads

Subject to particular statutory provisions considered infra this section, it may be broadly stated that

Operation of constitutional provision

(1) Under constitutional provisions to the effect that, if a homestead exceeds a specified sum in value, the beneficiary shall be entitled to such amount if a sale under legal process realizes more than the specified sum it has been held that, as long as a homestead has not been judicially declared exempt from seizure and is worth more than the specified sum, it is subject to seizure by the sheriff and to be offered for sale in order to determine whether it is in truth worth more than the specified sum—Oden v First Nat Bank, 162 So 189, 182 La 591

(2) A sale for more than the specified sum is valid—Oden v First Nat Bank, supra

(3) All that the homesteader may successfully claim is the specified sum to be paid him out of the proceeds of sale—Oden v First Nat Bank, supra

(4) If the property is bought in by a creditor, for a sum in excess of the amount of the exemption, and if there is another claim which may be prior to the rights of the homesteader due to a special waiver of homestead, the buying creditor may secure possession without first paying off the homesteader, as it is proper first to make such other claimant a party and to determine the respective rights of the homesteader and claimant—Oden v First Nat Bank, supra

(5) No part of the specified sum may be withheld for costs, and a judgment creditor must assume the risk that the proceeds of sale will be sufficient to pay the specified sum and costs, and if they are not the judgment creditor will be forced to defray costs so that the homesteader may receive the specified sum intact—Succession of White, 127 So 883, 170 La 403

where power to mortgage homestead premises exists and has been duly exercised, under principles discussed supra §§ 123–156, the homestead property may be sold under a foreclosure of the mortgage,[78] but that where the power does not exist, or, if existent, has not been exercised in compliance with governing provisions of law, an attempted sale on foreclosure is invalid[79]

Protection against "attachment, levy, or sale" Sales under a decree of foreclosure have been held valid under homestead laws protecting the homestead from "attachment, levy, or sale, upon execution or other process issuing out of any court,"[80] or exempting homestead property from "attachment, levy or sale, on any mesne or final process issued from any Court"[81]

Protection against "forced sale" In jurisdictions where homestead laws exempt the homestead property from "forced sale," according to one view a sale under decree of foreclosure is a forced sale and, therefore, prohibited by the homestead laws,[82] but according to another view such a sale, to satisfy a valid mortgage, is not a forced sale within the meaning of these laws, and confers a good title[83]

Sale under trust deed, or power of sale in mortgage. Both in jurisdictions where a sale under decree of foreclosure is considered a forced sale and in jurisdictions where it is not, it has been held that a sale by a trustee under a valid deed of trust or a sale under a valid mortgage containing a power of sale without the intervention of a court is valid, the view being taken that this is not a forced sale[84]

§ 205. —— Partition

A tenant in common may not claim a homestead in the entire premises for the purpose of defeating a suit for partition, but if a homestead may be set off to one tenant without injury to the others this may be done

One tenant in common cannot defeat a suit for partition by the other and prevent a sale of the premises under decree in such proceedings, when the premises are indivisible, by setting up a claim to homestead in the entire premises,[85] as the homestead laws apply only when the homestead is sought to be taken to pay debts[86] Nevertheless, as shown supra § 88, if the premises are sold on partition, the debtor may assert his exemption in the proceeds of sale as against a creditor attempting to enforce his lien thereon, and, if a homestead can be set off to claimant without manifest injury to other parties in interest, it may be done[87]

B ESTABLISHMENT OF RIGHT

§ 206 In General

To establish a homestead right one must show that he comes within the protection of the homestead law

Every presumption should be indulged and every fair and reasonable effort should be exercised by the courts to safeguard a homestead[88] To be entitled to claim a homestead the claimant must be in the situation with respect to the property which the statute prescribes as a condition precedent to the right to claim homestead[89] The right of home

stead, once acquired, continues until terminated in the manner provided by law, as explained supra § 15, and the person entitled thereto may protect his right as long as the homestead character and attributes of the property exist[90]

Generally speaking, the existence of a homestead, when the homestead exemption is claimed as against a creditor, depends on the facts of the particular case as viewed in the light of the controlling principles of law,[91] and every case must be determined on the intention and purpose of the claimant as revealed by the evidence adduced[92] As against a lienholder, the right of homestead is determined by the situation existing at the time the lien is claimed to have attached[93]

§ 207. Statutory Provisions

It has been held that the law in force at the time when a homestead exemption is claimed is controlling, but other authorities hold that the mode of selection is that provided by the law in force when the homestead was acquired.

It has been held in some jurisdictions that the law in force when the exemption is claimed determines the rights of an exemptioner,[94] but it has also been held in other jurisdictions that the mode of selection is that provided by the law in force when the homestead was acquired[95]

§ 208. Duty of Officer Making Levy

Under some statutes the levying officer must notify the debtor of his homestead rights Where no homestead rights exist the officer may ignore a claim of homestead

Under some statutes it is the duty of an officer levying an execution on property constituting a homestead to notify the debtor of his homestead rights.[96] Such notice, however, need not be given where the debtor is not entitled to a homestead in the land levied on.[97] Where the homestead interest has been extinguished, the sheriff in selling the property on execution is not required to take notice of a claim of homestead[98] and may make a valid sale passing all right and title to the property by his deed[99]

The duty of the levying officer to set apart a homestead in the property levied on is considered infra § 216 b.

§ 209. Claim of Homestead

Questions dealing with particular matters relating to a claim of homestead, such as the necessity thereof, are considered infra §§ 210-215.

Examine Pocket Parts for later cases.

§ 210. —— Necessity of Claim

Some homestead laws contemplate a definite assertion by the debtor of his right of exemption, while under other laws no such claim on the debtor's part is necessary to preserve his rights.

Under some laws the homestead exemption does not arise as a matter of right so as to preclude action against property on the mere showing of its homestead character,[1] but is regarded as a personal privilege which must be claimed or asserted in order to become available,[2] but under other homestead laws no such claim is necessary on the debtor's part, or at least a failure to make such claim is not fatal,[3] and, accordingly, it has been held that a

debtor's failure to notify a purchaser at the execution sale that the premises are exempt, will not prevent their recovery by him,[4] especially where the intention to make the premises a homestead is manifest,[5] and the purchaser has knowledge of the debtor's homestead rights,[6] that the debtor may in a proper action still assert his homestead right in property levied on and have the levy and all proceedings thereunder adjudged void;[7] and that a debtor, having the right to select a homestead when apprised by the officer of his right to do so, may waive his right to select without losing his right to this exemption.[8] It has been held, however, that, where a homestead right has not been asserted in defense to a bill in aid of an execution and defendant has died and his children have attained full age, there is no obstacle to a sale and levy,[9] and that, where a whole section of land has been levied on under execution, on failure either of the head of the family or his wife to claim the homestead exemption, no presumption of law arises that the debtor claims as his homestead the particular governmental quarter section upon which his dwelling house stands.[10]

§ 211. —— Persons Who May Make Claim

As a general rule a homestead right may be asserted only by those entitled to the right.

It has been declared that only those may claim the homestead exemption who are mentioned in the homestead laws[11] and that no one may assert a homestead claim under the doctrine of subrogation.[12] A homestead exemption may be claimed only in one's own right[13] and only by those having an interest in the homestead property.[14]

Ordinarily the head of the family is the one to assert the homestead right,[15] which may be done in his own name.[16] Under the homestead laws in some jurisdictions, however, the wife of the head of a family has such an interest in the homestead as enables her to intervene and claim the property as exempt or to institute an independent action therefor.[17] So under the several homestead laws it has variously been held that the wife may be permitted to assert the homestead exemption where the husband has abandoned her and his family,[18]

§ 212. —— Time for Making Claim

The claim of homestead should be asserted in apt time, as before levy or sale or at such other time as may be proper under the homestead laws of the particular jurisdiction. Where the homestead right exists without necessity of claim it may be asserted at any time, as after execution sale and in defense of an action to evict the homesteader

By reason of the difference in the statutory provisions in the several jurisdictions, it has been variously held that the claim of homestead must be made in apt time,[23] before levy,[24] when execution is levied;[25] before a sale under execution or order of court is made,[26] that a claim may be asserted after rendition of judgment or decree,[27] or at any time before sale,[28] provided, the right to exemption exists at that time,[29] that the claim may be made after levy[30] or even after a sale,[31] that the right may be asserted before, or at the time of, the levy or within a reasonable time thereafter,[32] that the claim may be made at any time before final order disposing of the proceeds of sale,[33] that the right may be asserted in proceedings brought for possession of the lands constituting homestead,[34] or by notifying the levying officer and one who had garnished the proceeds of the sale of the homestead of

On demand for possession following sale

the claim of exemption;[35] and that under a bill in aid of execution the court has the power and duty to protect the homestead right even if the claim is not presented until the decree is being reduced to form.[36]

After attachment of proceeds of sale Failure to claim a homestead exemption until after the proceeds of the sale of the homestead were attached is not a waiver of the homestead right where this was the first opportunity claimant had after learning that defendant was taking steps to subject the proceeds to the payment of his claim.[37]

Separate claims of spouses at different times Where immediately after attachment the husband serves notice of a claim of exemption as homestead on the levying officer, the notice is in time and is not rendered insufficient or lessened in force because the wife serves a similar notice after the court has ordered a sale of the attached property.[38]

Application for allotment by creditor Under statutes providing for an allotment of homestead on application of the judgment creditor within a certain time after levy of execution, the judgment creditor's lien ceases if this is not done.[39]

Protection of homestead in judgment or decree The fact that the homestead was not designated before the levy furnishes no ground for setting the levy aside, where the judgment protects the homestead claimant and gives claimant the right to designate it in the manner in which the law permits such designation to be made.[40]

§ 213. —— Form, Requisities, and Sufficiency of Claim

A claim of homestead, in order to be sufficient, must be made in the manner and form prescribed by statute. It should state the nature and grounds of the claim and describe the property.

Whatever form the claim may take, statutory requirements as to what it shall contain should be complied with substantially.[41] The claim should state the nature and grounds of the claim,[42] as that the premises are occupied as a homestead,[43] that claimant has a family[44] of which he or she is the head,[45] and such other matters as are necessary to qualify claimant as a homesteader.[46] The claim should identify the land with reasonable certainty,[47] although it need not describe it fully,[48] and it should also state the date of contracting tiff in execution thereof.[56] In the absence of contracting the debt sought to be enforced so that the law governing the exemption can be ascertained.[49] The debtor, however, need not allege facts showing that the debt in question is not privileged by law from exemption,[50] nor need his claim of homestead include an allegation that the sheriff has levied on the property.[51] An affidavit made after levy averring ownership and occupancy of the land at the date of the affidavit is insufficient.[52]

§ 214. —— Notice and Filing of Claim

Under some homestead laws notice of the debtor's claim should be given to the levying officer and creditor

Under some homestead laws notice of the debtor's claim to a homestead must be given to the levying officer,[53] as by filing the notice with

him.[54] The primary purpose of such notice is to apprise the levying officer and creditor of the debtor's homestead right or claim, so that they may proceed accordingly.[55]

Notice to creditor. Under the statutes in some jurisdictions the levying officer, when apprised of the homestead claim, is required to notify the plaintiff in execution thereof.[56] In the absence of contrary statute, however, notice to the levying officer may be regarded as notice to the execution creditor.[57]

§ 215. —— Contest and Determination of Claim

A judgment creditor has a right to contest his debtor's homestead claim to property sought to be sold on execution, and in some jurisdictions the homestead laws make provision for such a contest.

A judgment creditor who desires to subject to execution property of his judgment debtor claimed by the latter to be exempt as his homestead has a right to contest the validity of the homestead claim,[58] and if the statutes do not prescribe the procedure by which such a contest may be instituted the courts will themselves formulate the remedy.[59] It is not the function of the levying officer, however, to determine the controversy between the judgment creditor and his debtor.[60]

In Alabama the statutes make provision for a contest of a homestead claim and for the reaching of property improperly included therein. Such statutes are limited in their application to cases falling within the contemplation of their provisions.[61] As to cases falling within the contemplation of the statutes, there must be a substantial compliance with the statutory requirements as to the time and manner of contesting the homestead claim.[62] An affidavit of contest in the language of the statute will in general be sufficient,[63] even though couched in general terms,[64] and it is not governed by the formal rules of pleading.[65] The sufficiency of the affidavit of contest must be referred to the tribunal from which the process issued,[66] and cannot be passed on by the levying officer.[67] The homestead claimant is entitled to notice of the contest of his claim.[68] Interrogatories may be filed by the creditor.[69]

The affidavit of contest is not a statement of the issue on such contest.[70] The issue is made up under the direction of the judge trying the contest[71] who has large discretionary powers in directing the framing of the issue.[72] The court may admit any

§ 216. Allotment and Appraisal

a. In general
b. Setting off of homestead by debtor, levying officer, or court
c Appraisal in general
d Jurisdiction

a. In General

Where property out of which a homestead may be claimed is sought to be sold on execution or under other judicial process, it is generally necessary to set apart the homestead before the sale is made

The general rule is that a sale on execution or a judicial sale of property, out of which a homestead may be claimed, without setting apart a homestead for the party entitled thereto is invalid,[77] even though part of the proceeds is paid into court as the value of the homestead[78] However, if a homestead has been set apart under one execution, no allotment is necessary on alias executions issued on the same judgment[79] It has been held that an allotment is not necessary where the tract sold is not a homestead,[80] as where it is not the residence of the debtor;[81] where the debtor plainly is not entitled to a homestead in the premises,[82] as where no homestead was asserted or in existence at the time of the levy and no declaration of intention to claim a homestead had then been filed as required by statute,[83] where the tract sold is within the limits fixed by statute,[84] or where the sale is made to preserve a valid encumbrance on the premises,[85] especially where the rights of the debtor are being adequately protected[86]

Where docketing of the judgment in the county where the land lies is not a prerequisite to its enforcement by execution, under principles discussed in Executions § 64, the fact that the judgment was not so docketed is not fatal to the allotment of a homestead to the debtor in proceedings under an execution[87]

Notice of application for allotment. The creditor against whose debt the exemption is asserted has a right to be notified of the debtor's application for an allotment of homestead[88] Even general creditors are sometimes given the same right by statute[89] If the notice is not given as required by statute, the assignment of homestead is subject to attack by creditors not notified[90]

Survey and plat In some states a survey and plat are necessary steps in the allotment under some circumstances[91]

Recording of allotment Where the statute so provides, the instrument in which the allotment is made must be recorded[92]

92 Recording as condition precedent to exemption from other debts

Recording of homestead allotment set apart in adversary proceedings is condition precedent to exemption

Unauthorized allotment. If a debtor succeeds in securing an allotment of homestead to which he is not entitled, it may be levied on and sold.[93]

b. Setting Off of Homestead by Debtor, Levying Officer, or Court

In some jurisdictions it is the duty of the levying officer to set off the homestead Under some statutes the debtor may select the homestead in the first instance, and if he fails to do so the court may make the selection.

Where the homestead is a part of a larger tract than may be claimed as exempt, it is the duty of the levying officer, under the homestead laws in some jurisdictions, to set apart a homestead before making the sale, irrespective of any application therefor by claimant[94] Under some homestead laws the debtor has the right to select the homestead;[95] and under these statutes the levying officer should set off the homestead selected by the debtor,[96] unless some other portion of the property is better adapted to homestead purposes and uses,[97] and if the debtor fails to make the selection it has been held that it may be made by the court[98] or application of the creditor[99] or by the officer having charge of the writ.[1]

Expenses Except where the creditor's claim is enforceable against the homestead itself,[2] the expenses of an official setting off a homestead are payable by the creditor[3] and usually should be tendered or paid before the officer can be compelled to act[4]

c. Appraisal in General

Ordinarily there should be an appraisal prior to sale of land in which homestead is claimed unless it is clear that the claim is unfounded or that the value of the land is not in excess of the homestead exemption

Under statutes limiting the homestead exemption to land not exceeding a specified sum in value, an appraisal is usually a prerequisite to a sale of land in which a homestead exemption is claimed,[5] unless the debtor's demand for homestead is manifestly unfounded[6] Under some statutes the creditor must apply for an appraisement,[7] but under some stat-

Failure of a creditor to ask appraisal of property when the debtor selects his homestead may estop the former later to question the matter of value —Wendler v. Brenneman, 7 Alaska 13.

utes the right to ask for an appraisement does not apply in the case of a levy merely under a writ of attachment,[8] or in an action or suit in the nature of a creditors' bill[9]

The petition of a creditor for appraisement must comply with statutory requirements[10] It must be verified[11] and filed[12] within the time prescribed by statute,[13] and notice must be given to the homestead claimant in the manner provided by statute[14] While the homestead claimant is not required to file pleadings in answer to the creditor's petition,[15] he may do so,[16] and he is entitled to a hearing on the petition[17] No formal trial, however, is required,[18] and if the court finds that the value of the property does not exceed the exemption a refusal to appoint appraisers is proper[19]

Defects and irregularities Mere irregularities will not necessarily render an appraisal and allotment invalid,[20] and even if an appraisement is defective it will not invalidate a prior levy[21]

Irregularities may be waived by long acquiescence in the appraisement and allotment,[22] or by failure to question the competency of appraisers before they enter on their duties,[23] but no such result follows from a creditor's acceptance of proceeds from the sale of all his debtor's property, excluding the homestead,[24] or from a purchaser at the execution sale receiving a sheriff's deed in which the officer describes the land as the debtor's homestead[25]

Appraisal in absence of debtor. Where under the statute the debtor is entitled to select the homestead it has been held that an appraisal and allotment made in his absence not due to any fault of his own is void[26]

d. Jurisdiction

No court or authority other than that designated by statute may exercise original jurisdiction in the matter of setting apart homestead premises

Jurisdiction in respect of allotment or setting apart of homestead premises is largely a matter of statutory regulation, and no court or authority other than that designated by statute may exercise original jurisdiction in this matter[27] In some jurisdictions the statutes vest chancery courts with jurisdiction in respect of setting apart and allotting of homestead[28]

As incidental relief. It has been held, where a court has acquired jurisdiction of a cause, that it may allot homestead where such allotment is a necessary incident to the proper exercise of jurisdiction already acquired on other grounds,[29] but it is also held that, where the court has jurisdiction to set apart the homestead as such necessary incident, it cannot exercise the power to allot homestead unless it has acquired jurisdiction on other grounds[30]

§ 217. —— Selection, Appointment, and Competency of Appraisers

Appraisers must be selected and appointed in the manner prescribed by statute. They should be competent and disinterested persons.

The officer selecting appraisers represents all parties in interest and need not consult the debtor respecting the appointment,[31] although he may designate persons agreed on by both parties to the suit[32] Sometimes the appraisal and allotment are made by a commissioner[33] or commissioners[34] appointed by the court.

Competency and qualification The commissioners or appraisers must stand neutral between the parties in interest,[35] and this is so although the statute does not specifically so provide[36] Close kinship to either of the parties disqualifies an appraiser,[37] but remote kinship does not have this effect[38] An appraiser is not disqualified by the fact that previous to his appointment by the sheriff he was selected by one of the parties[39] The commissioners or appraisers generally should be freeholders[40] or householders,[41] and familiar with the property, and, if it is farming land, with agriculture[42] They must be duly sworn[43] by any officer competent to administer oaths, although not necessarily by the one who summons them[44]

Remedy for incompetency In case an appointee is incompetent or disqualified, either party may move the court to vacate his appointment,[45] or, if an appraisal and allotment have been made, to set them aside[46]

In case of vacancy caused by the absence of one of the appraisers, the court may appoint another without further notice.[47]

§ 218. —— Powers, Duties, and Determination of Appraisers

a In general
b Description of homestead

a. In General

It is the function of commissioners or appraisers to set off the homestead This should be done in the manner prescribed by law

The extent of the authority of the commissioners or appraisers is to set off the homestead It is not within their province to attempt to determine the rights of the respective parties who may be interested in the property or the proceeds thereof,[48] these matters being for the determination of the court[49] The fact that the appraisers failed to proceed according to the statutes does not deprive claimant of his right to homestead, as this right is safeguarded by the constitution and statutes enacted thereunder,[50] after a futile attempt to set off homestead this right is as inviolate as it was before[51]

Only so much land should be set apart as exempt as is permitted by law[52] whether or not there is opposition[53] In setting out the homestead it should be carved only from the tract levied on,[54] and if it is taken from different parcels of farming land the several tracts should be thrown together if practicable[55] In some jurisdictions the assignment may be of unencumbered rather than encumbered land,[56] although the latter contains the debtor's dwelling

house [57] If the owner surveys and selects a larger quantity than he should, and refuses to designate what portion is to be treated as excess, the court, by its proper officers, may cut off such excess from whatever part it sees fit.[58]

If the homestead claimant is a life tenant of the whole tract, an amount may be set off to which the fee-simple title is equal to the statutory exemption [59]

Homestead of tenant in common The homestead interest in lands owned by a debtor as tenant in common with others may not be set off, as it is impossible for the appraisers to obey the direction of the statute to set off the homestead by metes and bounds and appraisers lack power to effect a partition [60]

Subjecting to easement The homestead may be subjected to a perpetual easement for passage to and from the residue of the tract, if this can be done without injury to the homestead right [61]

Value of homestead The value of the premises in which the homestead is claimed, when material, should be determined with exactness,[62] although it has been said that the appraisers should not hold to a fractional nicety in estimating the value of the property [63] The value of buildings erected on the land should be considered [64] According to some decisions encumbrances existing against the land when the debt in question is reduced to judgment should be taken into account by the appraisers in setting apart the homestead,[65] and if this is not done the remedy of an execution debtor is to proceed by motion in the same cause to have it done,[66] but the view has been taken that this is solely a function of the court,[67] that appraisers appointed to set apart homestead cannot take any notice of liens existing against the property,[68] and that if the appraisers considered mortgages on the property in their appraisal the proceeding is void [69] The value of the homestead is to be estimated at the time of making the claim, which must be at the time of or after a levy and before sale [70]

b. Description of Homestead

The premises set apart as a homestead should be properly described.

It has been held that any description of the land set apart as a homestead which will enable it to be located is sufficient, even though the boundaries are not given as accurately as possible [71] However, at least this much is necessary. An assignment of homestead is void for uncertainty that does not describe the homestead by metes and bounds or give any description by which it can be defined [72] Under some homestead provisions it has been held to be the duty of the appraisers, when possible and feasible, to set off the homestead by metes and bounds [73] However, a statute which requires the homestead to be fixed by metes and bounds applies only to lands held in severalty which are capable of such a description,[74] and if the land cannot be described by metes and bounds any description which is sufficient to identify it will suffice [75]

§ 219. —— Report and Proceedings Thereon

a In general
b Approval, setting aside, and reappraisal

a. In General

Ordinarily the appraisers must report their action to the court or other statutory authority The report must comply with statutory requirements. Ordinarily it need not be recorded

The appraisers usually are required by statute to report their action to the court, or other statutory

authority, which thereupon confirms it or sets it aside.[76]

Requisites of report in general. While the report should comply with statutory requirements,[77] mere irregularities will not invalidate it[78] Thus the omission of appraisers to assert in their report the date of allotment is not fatal,[79] and it is not a fatal irregularity that the attorney of the creditor wrote the appraiser's report[80]

Recording report. Statutory provisions for recording the report are directory only, when the statute also provides for filing the report with the judgment roll in the action brought against the debtor, in which action the homestead is claimed and secured[81]

Second report and allotment When a homestead has been allotted, the report has been registered, and the time for filing exceptions has passed, a second report and allotment must be treated as void, even though the second report may be under a judgment docketed after the first report[82]
